NORAHG RESPONDS AGAINST GORD MILLER — HIS STATEMENTS ARE PREPOSTEROUS AND UNSCIENTIFIC

2009 and 2014 — Ontario's anti-pesticide history repeats itself ! Gord Miller is the Environmental Commissioner of Ontario who subversively conspires to impose reckless and arbitrary prohibition against neonicotinoid insecticides used by the AGRICULTURE INDUSTRY. In 2009, Gord Miller also conspired to impose reckless and arbitrary prohibition against pest control products used in the URBAN LANDSCAPE. Nothing has changed since 2009 ! Now, in 2014, Miller demands the prohibition against neonicotinoid insecticides with false allegations that they are somehow leading to bee colony collapse disorder. In fact, no one can prove that there is a bee crisis with neonicotinoid insecticides. There is NO evidence to suggest a link between neonicotinoid insecticides and bee colony collapse disorder. Miller also demands the prohibition with preposterous and unscientific comparisons to DDT. There is absolutely NO comparison between neonicotinoids and DDT ! Furthermore, Miller's demands for prohibition have been contradicted by his own boss, Premier Kathleen Wynne. There is NO bee crisis according to Ontario Premier Wynne, who has stated that many bee-keeping operations have NOT been affected and have been able to maintain strong and healthy bee colonies, as evidenced by hive strength and honey production.

<http://wp.me/p1jq40-7Mw> However, there IS a bee crisis with negligent and incompetent bee-keepers. In fact, the principal problem is varroa mites, combined with mis-management practices perpetrated by bee-keepers themselves. <http://tinyurl.com/ktw2wwn> <http://wp.me/p1jq40-7OD> <http://wp.me/p1jq40-6WJ> <http://wp.me/p1jq40-70c> <http://tinyurl.com/lmbsef2> <http://tinyurl.com/qzjr6sm> Any significant bee losses are, in fact, the fault of the bee-keepers and their mis-management practices. Many bee-keepers are simply negligent and incompetent. They are responsible, and not neonicotinoid insecticides. These insecticides do not harm bees. Their prohibition will not save bees.
