## Prison View Golf Course

The COOLEST golf course with the COOLEST location.

LOUISIANA STATE PENITENTIARY ( also known as ANGOLA, and nick-named The Alcatraz of the South and The Farm ) is a prison farm in Louisiana operated by the Louisiana Department of Public Safety and Corrections.

The prison is the LARGEST MAXIMUM SECURITY PRISON in the United States, with 5,000 inmates and 1,800 staff members.

Louisiana State Penitentiary is the ONLY American prison with a golf course on its property.

It is called Prison View Golf Course, and it was built so employees would be enticed to stay over weekends — the closest public course is 35 miles away.

This nine-hole golf course is maintained only by prisoners who are considered to be the most trustworthy; but they are still not allowed to play.

It opened in June 2004, and its length is 6,073 yards.

# The Coolest Golf Course

Prison View Golf Course was built on the site of a former bull pasture.

It was designed by the prison dentist, John Ory, who designed the course with 15 handicappers in mind.

Prisoners performed most of the labour that was required to build the golf course.

In fact, Prison View Golf Course was THE FIRST GOLF COURSE BUILT MOSTLY BY HAND IN MORE THAN HALF A CENTURY.

Louisiana State Penitentiary is operated as an 18,000-acre working farm.

WARDEN BURL CAIN has stated that the key to running a peaceful maximum security prison was that « *you've got to keep the inmates working all day so they're tired at night* ».

Of all American prisons, Louisiana State Penitentiary has the largest number of inmates with life sentences in the United States.

The mantra heard often inside is « *In Louisiana, life means life* » — most of the prison's inmates die there.

At Prison View Golf Course, greens fees are 10 dollars for nine holes.

Rental carts cost 10 dollars for nine holes.

The pro shop is a gathering place for many prison employees because the snack shop has good barbecue, hot dogs, hamburgers and cold sodas.

This public golf course draws about 300 players a year, mostly from the ranks of the institution's staff and their families who live inside facility.

Unlike most nine-hole layouts, Prison View actually plays like 18 — the back nine is another course.

A player can make the loop the second time and be faced with a new assortment of hazards lurking.

- Some heavy equipment from the farm was used to move dirt for the lake and slope fairways.
- The course is up B-Line Road from the prison's dog pen, which houses German shepherds and malamutes that have been bred with a 95 per cent wolf, and also has tracking hounds.
- The prison was the site for movies such as « *Dead Man Walking* » and « *Monster's Ball* ».

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. Mr. Gathercole was the FIRST PERSON EVER to obtain University degrees and contribute to BOTH the Professional Lawn Care and Golf Maintenance Industries. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has advised, certified, instructed, and trained thousands of turf and ornamental managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. He and his colleagues are recognized as THE MAJOR INFLUENCE for the decision by Canadian Cancer Society to STOP selling for profit PESTICIDE TREATED DAFFODILS. Mr. Gathercole's vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
