
VICTORY

**AGAINST ANTI-GLYPHOSATE
TERRORISM**

**According To The
United Nations ...
Glyphosate Will NOT
Cause Cancer**

FORCE OF NATURE | DARING TO DEFY WITH THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HWE that seek to harm the Green space and other industries (NORAHG)

Overview

This Is What Observers Have Been Saying So Far About The IARC Anti-Glyphosate Hazard Report ...

The IARC Anti-Glyphosate Hazard Report was DISTORTED, BIASED, AND UNBALANCED pesticide-hating fanaticism !

On the basis of this report, IARC misled the public to FALSELY-CONCLUDE that Glyphosate somehow causes cancer. [?!?!]

National government regulators world-wide have SCIENTIFICALLY-CONCLUDED that Glyphosate WILL NOT CAUSE CANCER, and yet ONLY IARC alleges it PROBABLY causes cancer. [?!?!]

On March 20th, 2015, IARC arbitrarily classified the herbicide Glyphosate, the active ingredient in Roundup, as « *probably carcinogenic* » on the basis of « *limited evidence* » of cancer among humans.

International Agency for Research on Cancer (IARC) ridiculously implied that its FALSE-CONCLUSION against Glyphosate was somehow being withheld from U.S. Environmental Protection Agency (US EPA), German Federal Institute For Risk Assessment, Health Canada, and EVERY other science-based national regulatory agency in the world.

According to these agencies ...

The Weight Of Evidence Is Against Carcinogenicity

The selection of literature for review by IARC was DISTORTED, BIASED, AND UNBALANCED since it DELIBERATELY CHERRY-PICKED the most atypically negative reports in order to arrive at a FALSE-CONCLUSION with its PESTICIDE-HATING AGENDA.

IARC had CONVENIENTLY DISREGARDED dozens of scientific studies that have SCIENTIFIC-CONCLUDED that Glyphosate WILL NOT CAUSE CANCER !

The Pesticide-Hating IARC Has Been DISCREDITED !

Moreover, IARC did not evaluate actual RISKS when using Glyphosate, and based its FALSE-CONCLUSION on what is called HAZARD.

The IARC Anti-Glyphosate Hazard Report COULD NOT CONCLUDE THAT THERE IS A CANCER RISK with Glyphosate.

Hazard DOES NOT Imply Risk !

National regulatory agencies, like EPA and Health Canada, actually EVALUATE RISKS.

Conversely, IARC merely looked at HAZARD, and did NOT look at RISK.

IARC DID NOT take into consideration how much of or how commonly a RISK Glyphosate poses in the real world.

The IARC Anti-Glyphosate Hazard Report can hardly be considered as ground-breaking since the World Health Organization (WHO) has basically ignored IARC's FALSE-CONCLUSION.

If IARC Anti-Glyphosate Hazard Report was truly valid, then why didn't WHO itself demand more national government regulation around the world ?!?!

Why should national regulatory agencies listen to IARC when it was ignored by WHO ?!?!

In fact, Glyphosate WILL NOT CAUSE HARM and WILL NOT CAUSE CANCER !

It is clear that IARC had a PESTICIDE-HATING AGENDA AGAINST GLYPHOSATE for reasons of mere fanaticism and politicized science.

The IARC Can No Longer Be Trusted !

GLYPHOSATE -- IARC REPORT -- AS SOCIAL MEDIA OUTPACES GOVERNANCE STRUCTURE, STUPID PROLIFERATES -- ENDOCRINE DISRUPTORS (Report)

Glyphosate: Facts are very hard to find in the glyphosate fear-mongering campaigns. When a herbicide so beneficial to farmers is less toxic than salt or vinegar, would entail a personal daily consumption of over 400kg of fruit and vegetables to pose any health hazard and has been subject to thousands of studies, and still suffers relentless attacks from those without toxicological backgrounds, it is evident that stupid has reared its ugly face. Stupid even got inside of IARC, but that apparently is not very difficult.

VICTORY AGAINST TERRORISTS

The Trend Has Stopped

**United Nations Has DISCREDITED
The IARC Anti-Glyphosate Hazard Report !**

Glyphosate WILL NOT Cause Cancer

May 16th, 2016

Reuters

Selected And Adapted Excerpts

Victory Against Terrorists — Glyphosate WILL NOT Cause Cancer

Another Tremendous Victory Against Anti-Glyphosate Terrorists

According to a new safety review by United Nations' health, agriculture and food experts —

Glyphosate Is Unlikely To Cause Cancer In People

Glyphosate is sold by Monsanto in its Roundup weed control product and it is widely-used by the Agriculture Industry and in the Urban Landscape.

It is mostly used on crops.

According to United Nations' Food and Agriculture Organization (FAO) and World Health Organization (WHO) —

Glyphosate Is Unlikely To Pose A Carcinogenic RISK To Humans Exposed To It Through Food

This statement is likely to intensify a NON-SCIENTIFIC DISPUTE over the potential health impact of Glyphosate with Pesticide-Hating Fanatics who have INFESTED the European Union Executive. (See later segment.)

Having reviewed the scientific evidence, the Joint WHO/FAO Committee also said —

Glyphosate Is Unlikely To Be Genotoxic In Humans

In other words, GLYPHOSATE IS NOT LIKELY TO HAVE A DESTRUCTIVE EFFECT ON CELLS' GENETIC MATERIAL.

Diazinon and Malathion, two other pest control products reviewed by the Joint WHO/FAO Committee, were also found to be UNLIKELY TO BE CARCINOGENIC.

According to the Joint WHO/FAO Committee —

**Glyphosate Is Unlikely To Pose
A Carcinogenic RISK To Humans
From Exposure Through The Diet**

In view of the absence of carcinogenic potential in rodents at human-relevant doses and the absence of genotoxicity by the oral route in mammals, and considering the epidemiological evidence from occupational exposures, the [Joint WHO/FAO] meeting concluded that Glyphosate is UNLIKELY TO POSE A CARCINOGENIC RISK TO HUMANS from exposure through the diet.

The Joint WHO/FAO Committee also said —

**Glyphosate Is Unlikely To Be Genotoxic
At Anticipated Dietary Exposures**

The Joint WHO/FAO Committee reaffirmed that —

**An Acceptable Daily Intake (ADI)
Of Up To 1 Milligram Of Glyphosate
For Every Kilogram Of Body Weight**

CONTRADICTION ?!?!?

NO !

This ASSESSMENT may seemingly APPEAR TO CONTRADICT a report by the WHO's Lyon-based International Agency for Research on Cancer (IARC).

But, IT DOES NOT !

According to the IARC Anti-Glyphosate Hazard Report in March 2015 —

Glyphosate is « *probably* » able to cause cancer in humans and classified it as a « *Group 2A* » carcinogen. [?!?!]

BACKGROUND INFORMATION — IARC HAZARD STUDY AGAINST GLYPHOSATE — IARC AND ITS DISTORTED, BIASED, & UNBALANCED GLYPHOSATE-HATING FANATICISM !

National government regulators world-wide have concluded that glyphosate is scientifically-safe, and yet only IARC arbitrarily claims it may cause cancer. On March 20th, 2015, IARC arbitrarily classified the herbicide glyphosate, the active ingredient in Roundup, as « *probably carcinogenic* » on the basis of « *limited evidence* » of cancer among humans. International Agency for Research on Cancer (IARC) is ridiculously implying that its false-evaluation of glyphosate (Roundup) is somehow being withheld from U.S. Environmental Protection Agency (US EPA), German Federal Institute For Risk Assessment, Health Canada, and EVERY other science-based national regulatory agency in the world. According to these agencies, the weight of evidence is against carcinogenicity. The IARC Anti-Glyphosate Hazard Report is distorted, biased, and unbalanced. The selection of literature for review by IARC was severely unbalanced since it cherry-picked the most atypically negative reports in order to validate its pesticide-hating agenda. IARC has conveniently disregarded dozens of scientific studies that support the conclusion glyphosate is NOT a human health RISKS ! THE PESTICIDE-HATING IARC HAS BEEN DISCREDITED ! IARC does not evaluate actual human RISKS, and merely looks at what is called HAZARD. The IARC Anti-Glyphosate Hazard Report will not indicate the RISKS of getting cancer. National regulatory agencies, like EPA and Health Canada, evaluate RISKS. IARC merely looks at what is called HAZARD, and NOT RISK. It DOES NOT take into consideration how much of or how commonly a RISK it poses in the real world. IARC has failed to provide any new research concerning glyphosate. Why do science-based national regulatory agencies around the world conclude that glyphosate is scientifically safe while only IARC arbitrarily claims it « *probably* » causes cancer ?!?! IARC is NOT a government regulatory agency. It has NO regulatory authority whatsoever. IARC most certainly is NOT a science, NOT a research, and NOT a health organization. IARC is a mere subsidiary of the World Health Organization (WHO). If the IARC Anti-Glyphosate Hazard Report is truly valid, then why doesn't WHO itself demand more government regulation ?!?! Why should national regulatory agencies listen to IARC when it is ignored by WHO ?!?! In fact, glyphosate WILL NOT CAUSE HARM and WILL NOT CAUSE CANCER ! It is clear that IARC has an agenda-driven bias for reasons of mere pesticide-hating fanaticism and politicized science. IARC IS NOT TO BE TRUSTED ! Scientific research shows that, as reported through EPA's and Health Canada's vast toxicology database, NO harm will occur when pest control products like GLYPHOSATE is applied properly. All of these products have been evaluated for their carcinogenic potential. <http://wp.me/p1jq40-6yf> Even Canadian Cancer Society's own web-sites state, repeatedly, that scientific research does NOT provide a conclusive link between pest control products and cancer. <http://wp.me/P1jq40-4qC> PESTICIDES CAUSING CANCER IS A MYTH ! <http://wp.me/p1jq40-2nl> If you question that glyphosate is carcinogenic based on the IARC Anti-Glyphosate Hazard Report, perhaps you should consider advocating bans against similarly classified products & activities, like bacon, baked food, burgers, cooked meat, fish, fried food, grapefruit juice, night shift work, paint remover, roasted food, sausages, and vegetables. IARC has also evaluated chemical agents & activities that have HIGHER carcinogenic HAZARD than glyphosate, like alcoholic beverages, baby oil, oral contraceptives, outdoor air pollution, painter, plutonium, and sunlight. In essence, glyphosate is WILL NOT CAUSE CANCER, and it is SAFE when used appropriately. The studies of IARC are distorted, biased, and unbalanced. THEY ARE NOT TO BE TRUSTED !

For more information about IARC, go to ... <http://wp.me/p1jq40-8RO> <http://wp.me/p1jq40-5Lc> <http://wp.me/p1jq40-8M4>

For more information about GLYPHOSATE, go to ... <http://wp.me/P1jq40-1Jb>

Seven months after the IARC Anti-Glyphosate Hazard Report, the European Food Safety Authority (EFSA), an independent agency, funded by the European Union, published a DIFFERENT ASSESSMENT.

According to European Food Safety Authority (EFSA) —

Glyphosate Is Unlikely To Pose A Carcinogenic HAZARD To Humans

The United States Environmental Protection Agency (US EPA), had first ASSESSED Glyphosate in 1986, and has reviewed it several times since then.

According to United States Environmental Protection Agency (US EPA) —

Glyphosate Has Low Toxicity For Humans

The DIFFERING ASSESSMENTS thrust Glyphosate into the center of a dispute involving European Union and United States politicians and regulators, the IARC experts, the WHO and environmental and agricultural scientists.

Additionally, the United States Environmental Protection Agency (EPA) is being scrutinized for withdrawing a report saying Glyphosate is PROBABLY NOT CARCINOGENIC.

BACKGROUND INFORMATION — GLYPHOSATE EXPERT PANEL OF SCIENTISTS AND EUROPEAN FOOD SAFETY AUTHORITY HAVE ALSO DISCREDITED IARC !

GLYPHOSATE IS NOT CARCINOGENIC according to the assessments from both the 2015 Glyphosate Expert Panel Of Scientists and the European Food Safety Authority (EFSA). Both organizations also DISCREDITED the anti-glyphosate report by International Agency For Research On Cancer (IARC). On March 20th, 2015, the IARC's report arbitrarily classified the herbicide glyphosate, the active ingredient in Roundup, as PROBABLY CARCINOGENIC on the basis of LIMITED EVIDENCE. IARC's use of the term LIMITED EVIDENCE clearly implied that its report was SEVERELY FLAWED, DISTORTED, and UNBALANCED. Here is a summary of the findings of the 2015 Glyphosate Expert Panel Of Scientists — • glyphosate will NOT cause cancer in lab rats • glyphosate is NOT genotoxic • report DO NOT show a link between glyphosate exposure and cancer. The European Food Safety Authority (EFSA) functions as an advisor to policy-makers in the European Union (EU). The EFSA's assessment on glyphosate is expected to lead the European Union to RENEW APPROVAL FOR GLYPHOSATE.

The whole truth about the PANEL and EFSA can be found on The Pesticide Truths Web-Site ...

<http://pesticidetruths.com/2016/01/08/glyphosate-herbicide-will-not-cause-cancer-the-2015-glyphosate-expert-panel-of-scientists-european-food-safety-authority-efsa-2015-12-08-2/>

In a question-and-answer document issued alongside the Joint FAO/WHO statement, WHO denied that the conclusions by the Joint WHO/FAO Committee and by IARC were contradictory.

According to WHO —

**IARC Only Reviews Those Published Studies
That May Identify Potential Cancer HAZARDS**

IARC Does Not Identify RISKS

The Joint WHO/FAO Committee and by IARC were « *different, yet complementary* », with the IARC assessment focused on HAZARD while the other looked at RISK.

[IARC] *DOES NOT ESTIMATE THE LEVEL OF RISK to the population associated with exposure to the HAZARD.*

**FAO/WHO Looks At All Pertinent Published
And Unpublished Studies To Assess The
Health RISK To Consumers From Dietary
Exposure To Glyphosate Residues In Food**

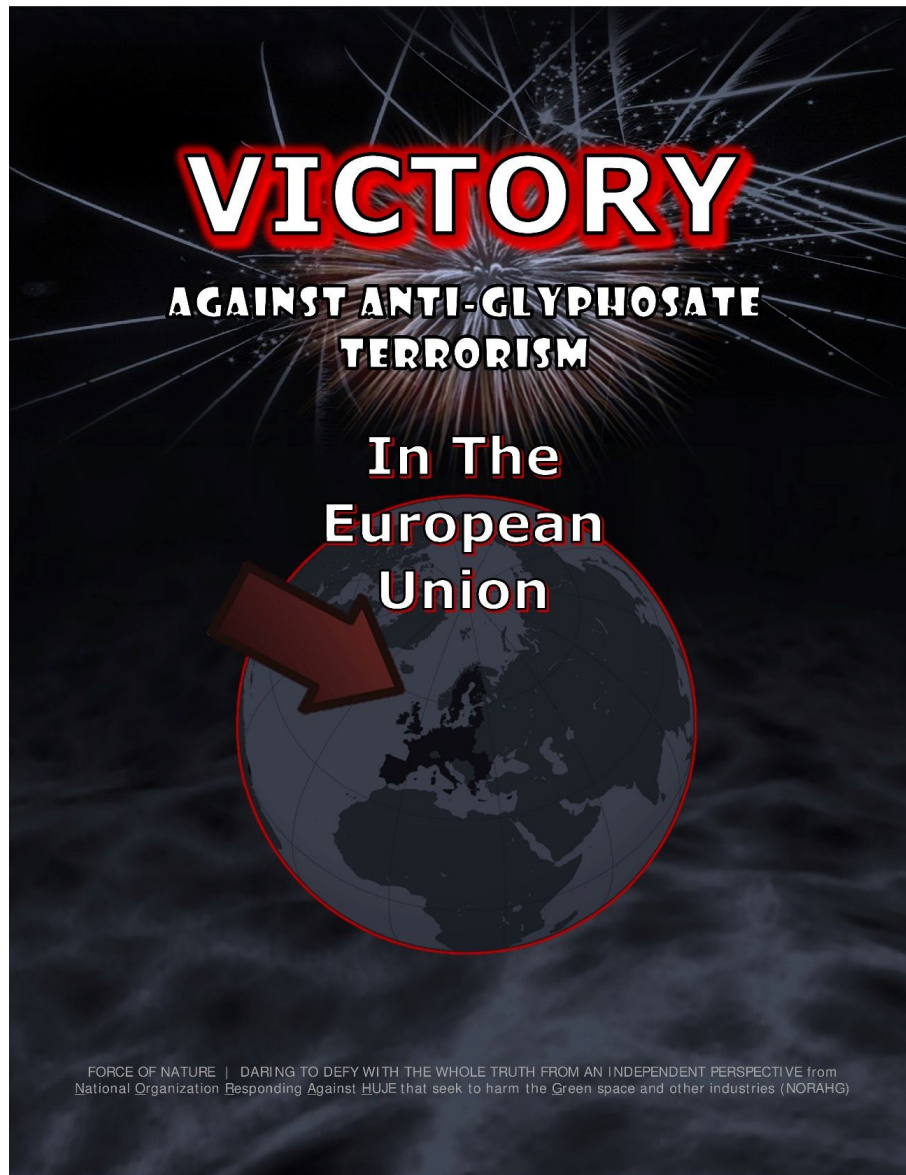

THE TRENDS AGAINST PESTICIDE BANS AND RESTRICTIONS ARE
RELENTLESS AND UNCEASING.

NO ONE WANTS THIS #@!!% NONSENSE !

European Union Delays Vote On Glyphosate License

May 19th, 2016 Manitoba Co-Operator

Selected And Adapted Excerpts

On May 19th, 2016, the European Union (EU) DELAYED A VOTE on renewing sales approval for Glyphosate.

Experts from the EU's 28 nations had been due to vote on a proposal to extend by nine years licensing of Glyphosate.

The delay was due to OPPOSITION BY FRANCE AND GERMANY, countries that both have big farming and chemicals industries.

Without the support of France and Germany, the European Commission LACKS THE MAJORITY it needs for a binding vote.

The Pesticide-Hating EU Executive had hoped for a decision to stop the clock ticking on a six-month phase-out period for glyphosate products when the existing authorization lapses at the end of June 2016.

In response to opposition, the EU Executive had already postponed a vote in March 2016, and shortened the license to 9 years from 15.

The new proposal would PROHIBIT some products because of the substances they combine with Glyphosate, which could add to some perceived risks.

EU would ARBITRARILY PROHIBIT so-called co-formulants such as POE-tallowamine, which is no longer sold in glyphosate-containing products in Germany.

In April 2016, the European Parliament recommended that Glyphosate should only be approved for another seven years, and should not be used by the general public.

If no decision is reached to extend the license, a spokesman said Bayer, the manufacturer of Glyphosate, could not rule out seeking legal remedy.

To fight the war against Anti-Pesticide Terrorism, you need facts !

Read ... PESTICIDE TRUTHS

Watch ... UNCLE ADOLPH

Listen To ... NORAHG

Learn From ... FORCE OF NATURE

Discover What Anti-Pesticide & Enviro-Lunatic Terrorists Are Doing And Saying About Subversively Imposing Their Life-Style Choices Against Our Society.

Read ... Reports, Blogs, & Videos, From Force Of Nature, NORAHG, Pesticide Truths, & Uncle Adolph — The Whole Truth From An Independent Perspective.

Communities and businesses are being HARMED and DESTROYED and RAPED by LUNATIC-TERRORISTS who ARBITRARILY AND RECKLESSLY IMPOSE PROHIBITIONS against pest control products used in the Urban Landscape and by the Agriculture Industry, and who PERPETRATE OTHER ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the 9|11 Era of Anti Pesticide & Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERRORISM is perpetrated EVERY SINGLE DAY by LUNATIC-TERRORISTS.

A LUNATIC is a person whose actions and manner are marked by extreme recklessness.

The RECKLESS ACTS OF SUBVERSION by these LUNATIC-TERRORISTS has led to the ARBITRARY IMPOSITION of Anti-Pesticide PROHIBITION in several jurisdictions throughout North America.

The result was CATASTROPHIC CARNAGE !

Because of LUNATIC-TERRORISTS, provinces like Ontario now have a TRAIL OF ECONOMIC DESTRUCTION WITH HUNDREDS OF SMALL BUSINESSES DESTROYED and THOUSANDS OF PEOPLE OUT OF WORK, a MORE DANGEROUS OUTDOOR ENVIRONMENT, and a BLACK MARKET IN PESTICIDES.

Only TRUE LUNATICS would wish to create a TRAIL OF ECONOMIC DESTRUCTION WITH HUNDREDS OF SMALL BUSINESSES DESTROYED and THOUSANDS OF PEOPLE OUT OF WORK.

Because of LUNATIC-TERRORISTS, we are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR — scientific research PROVES that pest control products will CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from LUNATIC-TERRORISTS who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space and other industries, and the well-being of our communities.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to LUNATIC-TERRORISTS and their Anti Pesticide PROHIBITIONS, resulting in the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT CONCOCTED BY LUNATICS of somehow « *saving* » the environment.

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting PESTICIDE FREE FAILURES, as well as the work of RESPECTED & HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

NORAHG strikes back against the MYTHS concerning the need for prohibition against pest control products.

NORAHG RESPONDS on behalf of the VAST SILENT MAJORITY of THE PUBLIC THAT DOES NOT WANT PESTICIDE BANS, and SUPPORTS those who work in the Professional Lawn Care Industry, the Golf Industry, and the Agriculture Industry.

RESPECTED & HIGHLY RATED EXPERTS

<http://pesticidetruths.com/2014/11/14/the-wisdom-of-real-experts-who-speak-out-against-the-conspiracy-to-impose-reckless-and-arbitrary-prohibition-against-conventional-pest-control-products-2014-11-14/>

THE MYTHS ABOUT BANNING PESTICIDES

<http://pesticidetruths.com/2012/11/15/the-myths-about-banning-pesticides-part-2-white-paper-report-on-pesticide-bans-2012-11-15-reports/>

VAST SILENT MAJORITY

<http://pesticidetruths.com/toc/the-wisdom-of-canadian-consumer-specialty-products-association/>

NORAHG is opposed to PESTICIDE FREE jurisdictions where LUNATIC-TERRORISTS have DOOMED CHILDREN to SUFFER INJURIES since Anti-Pesticide PROHIBITION inevitably leads to public and residential green spaces that become DANGEROUS AND PEST-INFESTED GARBAGE DUMPS.

EMERALD ASH BORER – SAFE & EFFECTIVE INSECTICIDES VERSUS CHAIN SAWS

<http://pesticidetruths.com/2014/01/19/emerald-ash-borer-wisconsin-municipalities-safe-effective-insecticide-treatments-versus-chain-saws-2014-01-05/>

NORAHG is concerned that, because of PESTICIDE FREE MAINTENANCE of parks and sports fields, CHILDREN ARE AT HIGHER RISK OF SUFFERING INJURIES with DANGEROUS PLAYING SURFACES CREATED BY #@!% PESTICIDE BANS.

CHILDREN ARE NOT AT RISK

<http://pesticidetruths.com/toc/children-are-not-at-risk/>

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder.

Force Of Nature Reports & Blogs were launched by NORAHG for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone Force Of Nature Report was issued on September 19th, 2008.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press.

Primus inter pares, first among equals, describes Pesticide Truths, Uncle Adolph, and Force Of Nature — they are formally equal to each other and are all accorded equal respect.

The Reports & Blogs from Pesticide Truths, Uncle Adolph, and Force Of Nature, in some ways, are like Google for everything concerning the SUBVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.

Many of these Reports & Blogs provide a sequence of historical events WITH COMMENTARY, the neutrality of which might be disputed.

This is what we do. Don't thank us. It's a public service. And we are glad to do it.

When lies, false allegations, and terrorism against pest control products are left unanswered, they risk becoming accepted as conventional wisdom !

What have YOU done in the war against Anti-Pesticide Terrorism ?!?!

Thank You

To The United Nations For
Joining The Real Trends
FAVOURING Glyphosate
