Goodbye
Chlorothalonil !
FORCE OF NATURE | DARING TO DEFY WITH THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE
National Organization Responding Against HUJE that seek to harm the Green space and other industries (NORAHG)

The Story Of CHLOROTHALONIL — Part 1 Of 3

CHLOROTHALONIL is the active ingredient found in a fungicide (disease control product) used in the Golf Course Industry.

In both Canada and the United States, **DACONIL 2787 W-75 TURF CARE** (**CHLOROTHALONIL**) was first registered on July 1st, 1967.

It was a broad-spectrum eradicant fungicide for the control of most foliar diseases if turf.

Thirteen years later, on December 24th, 1980, an improved version was registered, known as **DACONIL 2787 FLOWABLE FUNGICIDE**.

Thirty-five years later, in 2002, **DACONIL 2787 W-75 TURF CARE** was allowed to expire in Canada, although flowable formulations have continued to this day.

On July 19th, 2006, **DACONIL ULTREX FUNGICIDE** was first registered.

On February 9th, 2016, Pest Management Regulatory Agency of Health Canada (PMRA) invited the public to submit written comments on the « *Re-Evaluation Note REV2016-06, **CHLOROTHALONIL** - Amendment To The Proposed Re-Evaluation Decision* ».

Until April 11th, 2016, PMRA says it will consider the comments received before making a FINAL DECISION on **CHLOROTHALONIL**.

In essence, PMRA has PROPOSED TO LIMIT USE OF **CHLOROTHALONIL** ON TURF to a single time per year, and JUST FOR SNOW MOLD CONTROL.

PMRA has also proposed that OTHER USES OF **CHLOROTHALONIL** CONTINUE BE ALLOWED on asparagus, carrot, celery, cucurbits, ginseng, mushroom, parsnip, potato, strawberry and tomato.

Otherwise, what remains to be negotiated is THE TIME-FRAME FOR PHASE-OUT.

This is a story with a sad end for a pest control product that ...

... was part of historic and popular events of the 1960s

... has survived 50 years of bogus urban legends, such as the 1982 Prior Affair

... was a part of the golden scientific age of pest control products

Goodbye **CHLOROTHALONIL** !

See more information in later segment.

Historic And Popular Events In 1967

New Fungicide

How long has **CHLOROTHALONIL** been around ?!?!

In both Canada and the United States, **DACONIL 2787 W-75 TURF CARE** (**CHLOROTHALONIL**) was registered in 1967.

What other historic and popular events occurred in 1967 ?!?!

See below.

The Canadians

Expo '67 took place in Montreal.

The Tories betrayed their own leader, John Diefenbaker, and replaced him with Robert Stanfield.

René Lévesque quit the Quebec Liberal party after it rejected his plans for separation-then-association.

The air force, army, and navy, were unified as the « *Canadian Armed Forces* » — a new integrated uniform with a dark green pattern became almost identical for all ranks.

Diplomatic Failure

French President Charles de Gaulle wailed « *Vive le Québec libre* » (« *Long live a free Quebec* ») from the balcony of Montreal's city hall.

President de Gaulle was quickly asked to cut short his trip, and he scurried back to France.

Two Sad Stories

A fire in the « *Apollo One* » spacecraft killed three astronauts on the launching pad.

The FIRST astronaut who died in space was Vladimir Komarov.

General Interest

The world's FIRST human heart transplant was performed by Christiaan Barnard in South Africa.

Elvis and Pricilla were married in Las Vegas.

Muhammad Ali refused induction into the army, and was consequently stripped of his boxing title.

British model Twiggy took the U.S. fashion industry by storm.

Film, Song, And Television

Motion picture premieres included — the FIRST VERSION (and totally terrible) « *Casino Royale* », and « *The Graduate* ».

The long-awaited final episode of « *The Fugitive* » series aired on television.

« *The Smothers Brothers Comedy Hour* » premiered on the small screen.

The television cult masterpiece « *The Prisoner* » was FIRST originally broadcast in 1967 (« *Be seeing you*. »).

« *Penny Lane* » and « *Strawberry Fields* » were popular songs from the Beatles.

The Rolling Stones appeared on « *The Ed Sullivan Show* ».

Famous Beginnings (Celebrity Births)

Pamela Anderson

Jamie Foxx

Julia Roberts

Historic And Popular Events In 1967

The Big Goodbye (Celebrity Passings)

Vivian Leigh (actor in « *Gone With The Wind* »)

Robert J Oppenheimer (one of the creators of the atomic bomb)

Claude Rains (actor in « *Casablanca* »)

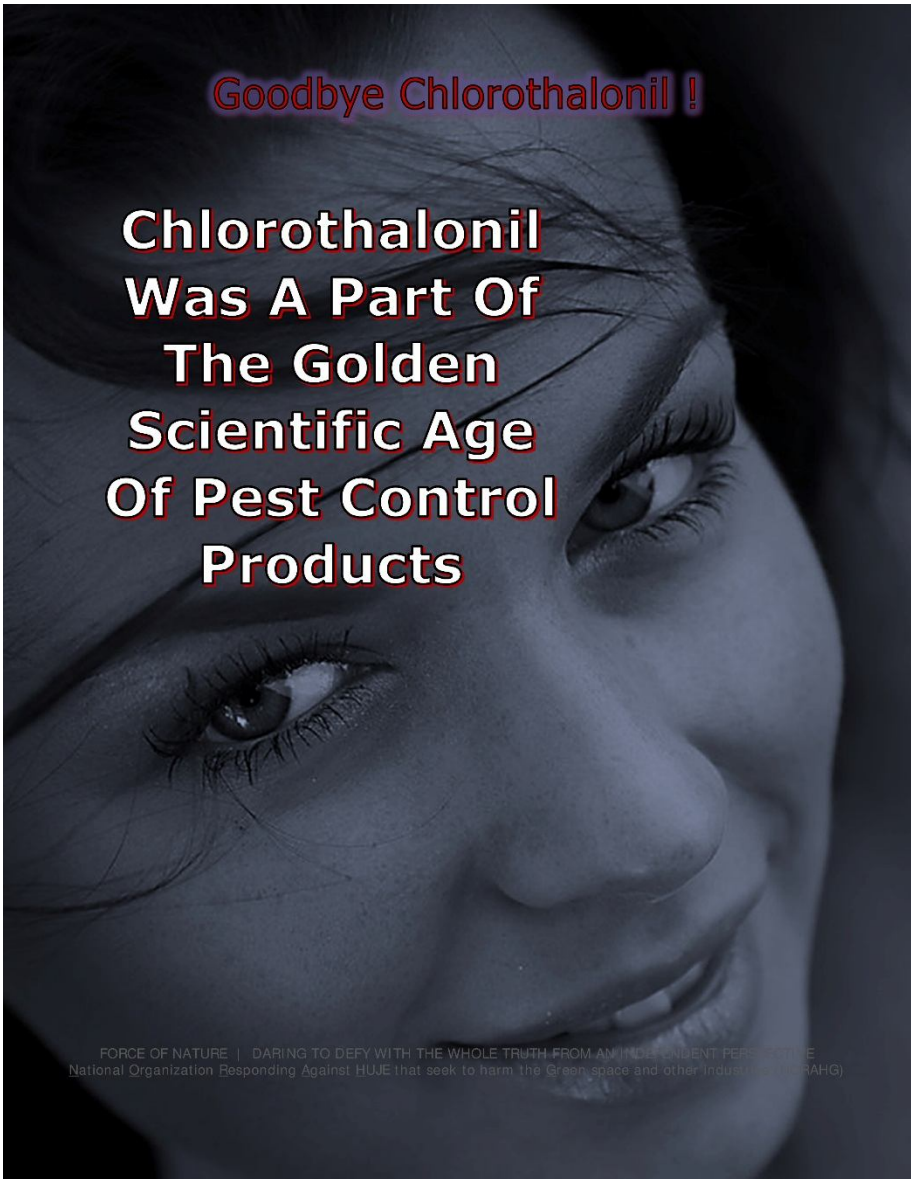
Basil Rathbone (actor in « *Sherlock Holmes* »)

Spencer Tracy (actor)

Historic And Popular Events In 1967

Conclusion

These historic and popular events occurred in the SAME year that **CHLOROTHALONIL** was FIRST REGISTERED.



The Golden Scientific Age Of Pest Control Products

In 1967, the Turfgrass Maintenance Industry was still basking in « *The Golden Scientific Age Of Pest Control Products* », which had begun just around the end of World War II (1939-1945).

By the 1960s, we had acquired a VAST ARSENAL of highly effective chemicals, which included **CHLOROTHALONIL**.

Here are some examples —

In The Golden Scientific Age Of Pest Control Products ...

A Large Number Of FUNGICIDES Were Introduced From The Mid-1940s Up To The 1960s, Which Included —

DACONIL 2787 W-75 TURF CARE (1967)

As well as ...

Acti-dione/cycloheximide (1952)
Cadmium Compounds (mid-1940s)
Calo-Clor (1949)
Captan (1940s)
Dithane/Fore/mancozeb (1948)
Dyrene (1961)
Karathane (1946)
Merfusan (1950s)
PMA-10 (1966)
Proturf 24-5-3 Fertilizer Plus Fungicide – PMA and thiram (1965)
Proturf 14-3-3 FF II – quintozene (1966)
Quintozene (1959)
Terraneb SP/Tersan SP (1966)
Tersan LSR/maneb 1950s)
Thiram/Tersan 75 (1950s)

In The Golden Scientific Age Of Pest Control Products ...

Several Synthetic Organic INSECTICIDES Were Introduced From The 1940s To The 1960s, With The Likes Of —

Aldrin (1954)
Chlordane (1949)
DDT (1946)
Diazinon (1950s)
Dieldrin (1954)

Dursban/chlorpyrifos (1965)
Endrin (1950)
Heptachlor (1960s)
Lindane/BHC (1940s)
Malathion (1953)
Parathion (1950)
Sabadilla (1946)
Sevin/carbaryl (1958)
Toxaphene (1960s)

These ultimately replaced the earlier ANCIENT INSECTICIDE, « *lead arsenate* ».

In The Golden Scientific Age Of Pest Control Products ...

Many Selective HERBICIDES Were Introduced Just Around The End Of World War II for BROAD-LEAVED WEED CONTROL. These were —

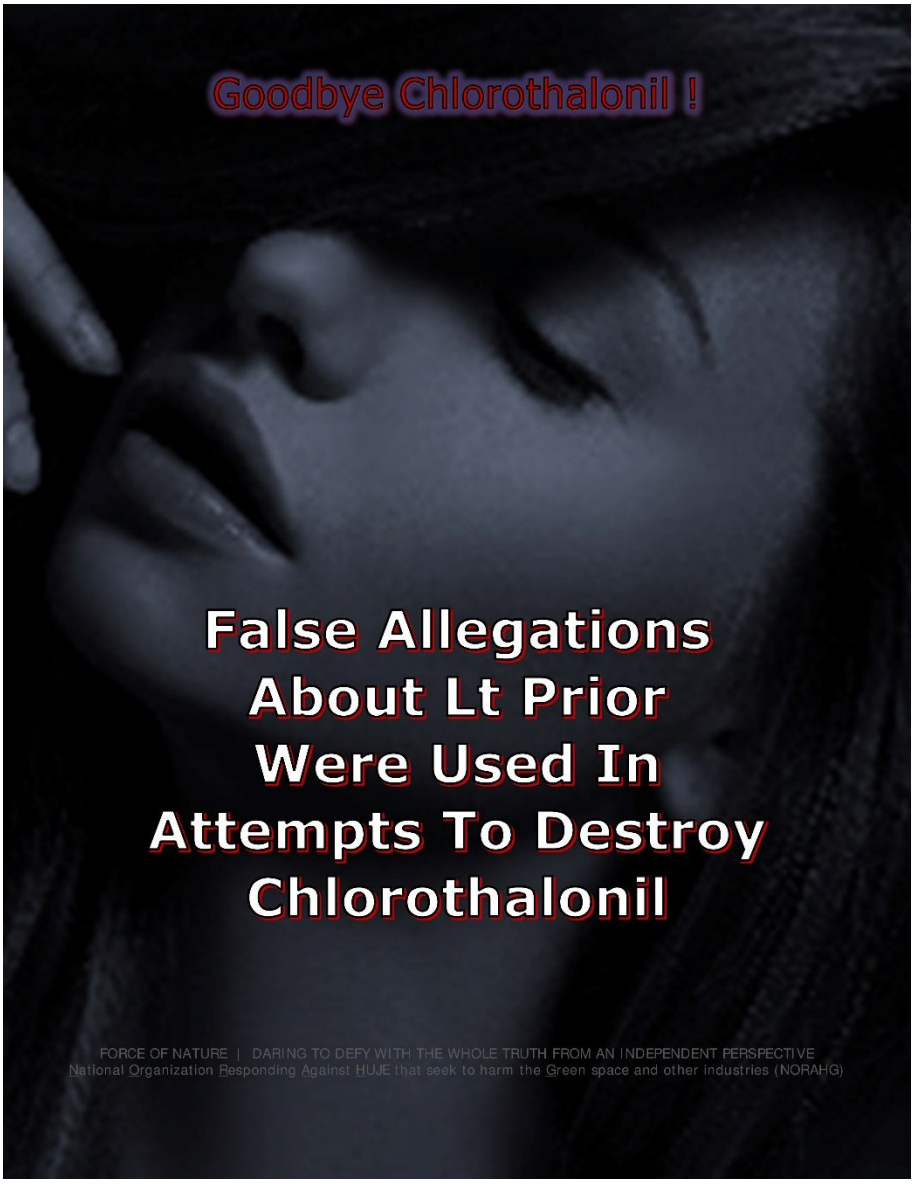
dicamba/Banvel (1967)
mecoprop/MCPP, MCPA (1945)
2,4-D (1944)
2,4-DP/dichlorprop (1945)
2,4,5-T (1944)

In The Golden Scientific Age Of Pest Control Products ...

A Few ANCIENT HERBICIDES Were Being Recommended For ANNUAL BLUEGRASS CONTROL In The 1960s, Such As —

calcium arsenate (1907)
Endothal, lead arsenate (1892)
sodium arsenite (before 1892)

DSMA/disodium methyl arsonate (1957) was recommended as a POST-EMERGENT CRABGRASS HERBICIDE in the 1960s. Oddly enough, crabgrass was NOT considered as a serious weed at this time.



———————————————————

The BOGUS Urban Legend Against CHLOROTHALONIL

In 1982, the safety of **CHLOROTHALONIL** was questioned after the death of Lieutenant George Prior in September of that year. [?!?!]

He was a thirty-year old flight officer, a frequent golfer, and presumably in good health.

On the second day of a three-day leave at the Army-Navy Country Club in Arlington, Virginia, Prior became suddenly and seriously ill.

Even before playing the last hole, Prior was complaining of a headache.

Later that night, he was feverish and nauseous, and had developed a rash.

Reports vary as to whether the rash developed on his back or across his stomach.

Four days later, Prior was admitted to Bethesda Naval Hospital, and his symptoms then included a temperature of 104½ degrees Fahrenheit and a body covered in blisters.

Less than two weeks after his admission to hospital, Prior was declared dead from a heart attack.

The Lieutenant's affliction was diagnosed as « *toxic epidermal necrolysis* », or « *scalded skin syndrome* ».

This disease resembled a second-degree burn, with a loosening and peeling of large areas of the skin, as well as swelling and extreme tenderness.

Since **CHLOROTHALONIL** was sprayed on the golf course twice-per-week where Prior had played his game, the U.S. Navy pathologist Doctor Jonathan Lord concluded, ERRONEOUSLY, that **CHLOROTHALONIL** must somehow have been responsible for having triggered this otherwise rare and unknown disease. [?!?!]

Lord’s « *evidence* » included speculation that a home fumigant, arbitrarily and erroneously deemed similar to **CHLOROTHALONIL**, had recently killed a Florida family. [?!?!]

———————————————————

The BOGUS Urban Legend Against CHLOROTHALONIL

Treacherous Golf Industry Magazines

In 1986, the « *Golf Magazine* » EXACERBATED the 1982 Prior Affair with a TREACHEROUS ARTICLE entitled « *Killer Courses* ». (See references below.)

The following is an excerpt —

> *Golfers spend a good deal of time on golf courses, up to four hours or so a day.*
>
> *That's a high level of exposure to a number of chemical agents that produce delayed effects, such as birth defects, neurological disorders, and cancer.* [?!?!]
>
> *A GOLF COURSE IS ESSENTIALLY A HAZARDOUS SITE, and it's time golfers realize they are captive to an industry that is indifferent and ignorant about the public health.* [?!?!]

In 2008, « *Golf Digest* » published another TREACHEROUS ARTICLE that validated the 1982 Prior Affair. (See reference below.)

Both Golf Magazine and Golf Digest BETRAYED THE GOLF INDUSTRY !

The BOGUS Urban Legend Against CHLOROTHALONIL

Fatal-A-Tee

The 1982 Prior Affair has since become something of an « *urban legend* » that has been known as « *Fatal-A-Tee* ». (See reference below.)

According to the legend, Prior may have had the habit of CARRYING HIS GOLF TEE IN HIS MOUTH while playing.

The legend also FALSELY ALLEGES that a post-mortem revealed that Prior had ingested a lethal dose of **CHLOROTHALONIL** by sucking on the tee. [?!?!]

A MORBID DRAWING depicts the situation on the Internet, with the caption — « [...] *and he sucked the poison off the tee 'til he croaked* ». [?!?!]

REFERENCE — FALSE ALLEGATIONS ABOUT LT PRIOR

REFERENCE -- CHLOROTHALONIL -- 2006 09 00 -- FATAL-A-TEE -- URBAN LEGENDS -- FALSE ALLEGATIONS ABOUT LT PRIOR

http://pesticidetruths.com/wp-content/uploads/2016/02/Reference-chlorothalonil-2006-09-00-Fatal-A-Tee-Urban-Legends-False-Allegations-About-Lt-Prior.pdf

———————————————————

The BOGUS Urban Legend Against CHLOROTHALONIL

Beyond Pesticides Profited From The 1982 Prior Affair

The « *urban legend* » against **CHLOROTHALONIL** FALSELY ALLEGES that Prior had a « *hypersensitivity* » to **CHLOROTHALONIL**, leading a severe allergic reaction. [?!?!]

Somehow, **CHLOROTHALONIL** became a toxic substance that burned the skin from eighty per cent of his body, and caused his major organs to fail. [?!?!]

Prior's widow filed a TWENTY MILLION DOLLAR LAWSUIT against the manufacturer, the Diamond Shamrock Chemical Company.

This lawsuit was SETTLED OUT OF COURT for an undisclosed sum of money.

Nonetheless, in 1988, a trial court entered JUDGEMENT IN FAVOUR OF THE MANUFACTURER.

Consequently, the 1982 Prior Affair was reported in the « *renowned* » scientific magazine « *People* ». (See reference below.)

Prior's widow allegedly used the money to grant a « sizable » donation to the militant « *National Coalition Against The Misuse Of Pesticides* » (a.k.a. « *Beyond Pesticides* »).

« *Beyond Pesticides* » operates as an organization that is non-expert, profit-motivated, unethical, and conspires to recklessly and maliciously prohibit against pest control products used in the urban landscape.

« *Beyond Pesticides* » is operated by a group of truth-challenged-fanatics who are clearly NOT competent to express ANY opinion concerning pest control products.

Those who operate « *Beyond Pesticides* » include ... • a non-expert duck farm operator • a non-expert indigent goat herder • a non-expert native Indian movement organizer • a non-expert marginal organic lawn care operator • a non-expert organic produce distributor • a non-expert zoologist.

« *Beyond Pesticides* » has expertise in fund-raising and profit-making, but has NO expertise in science or research.

The primary concerns of « *Beyond Pesticides* » is business, cash-flow, profit, and celebrity.

This organization could NOT have cared less about the death of Lieutenant George Prior.

———————————————————

The BOGUS Urban Legend Against CHLOROTHALONIL

Can A Golfer Perish Because Of An Application Of CHLOROTHALONIL ?!?!

NO WAY !!!

Nonetheless, the 1982 Prior Affair raised several health and safety concerns for both the golf course and the chemical manufacturing industries.

These concerns have been be summarized with the three following points —

- Golf clubs do NOT routinely notify golfers regarding the application of pest control products, nor are treated areas on the course properly identified.

- Many turf chemicals are composed of high amounts of inert ingredients whose identity and toxicity are totally unknown to the public.

- Millions of golfers are ostensibly « *exposed* » to a variety of chemicals on a repeated basis throughout the season. Incredibly, some non-hygienic players frequently put balls and tees in their mouths in order to clean them.

———————————————————

The BOGUS Urban Legend Against CHLOROTHALONIL

The 1982 Prior Affair Will NOT Go Away, Ever

Some of our industry educators and consultants still RECKLESSLY ADVOCATE this « *urban legend* » as gospel.

For example, trade associations, like Canadian Golf Superintendents Association, have actually organized seminars that promote this Urban Legend Against **CHLOROTHALONIL**.

And the legend continues to be influenced by radical groups that have sworn to destroy the golf industry.

In a recent article entitled « *Poisoned Fairways* », the « *Sierra Club* » had claimed that « *golf is the sleeping giant threatening the environment* ». (See reference below.)

« *Sierra Club* » continues to use the 1982 Prior Affair as a means to needlessly alarm the public.

The Story Of CHLOROTHALONIL — Part 2 Of 3

Health Canada Amendment To The Proposed Re-Evaluation Decision Of CHLOROTHALONIL, Re Evaluation Note REV2016-06

How To Get Involved

This consultation is open for comment from February 11th, 2016, to April 11th, 2016 (60 calendar days).

The Story Of CHLOROTHALONIL — Part 2 — Health Canada Amendment

Reporting To Canadians

Health Canada will make the results of this consultation available on this web-site.

Once the decision on **CHLOROTHALONIL** is finalized, the PMRA will post a Re-Evaluation Decision on the Pesticides and Pest Management Reports and Publications portion of Health Canada's web-site.

The Story Of CHLOROTHALONIL — Part 3 Of 3

Health Canada Re-Evaluation Note Rev2016-06, CHLOROTHALONIL — Amendment To The Proposed Re-Evaluation Decision

February 11th, 2016

Pest Management Regulatory Agency (PMRA) of Health Canada

Selected And Adapted Excerpts

Summary — Amended Proposed Re-Evaluation Decision

The purpose of « *Re-Evaluation Note REV2016-06, **CHLOROTHALONIL**-Amendment To The Proposed Re-Evaluation Decision* » is to notify registrants, pesticide regulatory officials, and the Canadian public, that Health Canada's Pest Management Regulatory Agency (PMRA) has amended its Proposed Re-evaluation Decision for **CHLOROTHALONIL**, PRVD2011-14.

Following the publication of PRVD2011-14, **CHLOROTHALONIL**, the PMRA has REVISED the occupational and residential risk assessments with more information relevant to the POTENTIAL EFFECTS OF **CHLOROTHALONIL** ON HUMAN HEALTH, PARTICULARLY VIA DERMAL EXPOSURE.

All other components of the proposed re-evaluation decision for **CHLOROTHALONIL** remain as originally described in PRVD2011-14.

Based on the revised occupational and residential risk assessments for **CHLOROTHALONIL**, the PMRA has determined that under the revised conditions of use, some AGRICULTURAL USES OF **CHLOROTHALONIL** DO NOT PRESENT UNACCEPTABLE RISKS TO HUMAN HEALTH.

These uses include asparagus, carrot, celery (seedbeds only), cucurbits, ginseng, mushroom, parsnip, potato, strawberry, tomato, TURF (FOR CONTROL OF SNOW MOLD ONLY).

As a condition of continued registration of these uses, NEW RISK-REDUCTION MEASURES are proposed to be included on the labels of pest control products containing **CHLOROTHALONIL**.

Based on the human health risk assessment, the PMRA is proposing to CANCEL the following uses of **CHLOROTHALONIL** —

- Agricultural uses —

  blueberry, highbush
  blueberry, lowbush
  celery, field
  cherry (sweet and sour)
  chickpea
  cole crops
  conifers (outdoor and nursery beds)
  corn, sweet
  cranberry
  evening primrose
  lentil
  nectarine
  onion (dry and green)
  ornamentals (greenhouse and outdoor)
  pea, dry
  peach
  wheat
  TURF (EXCEPT FOR CONTROL OF SNOW MOLD)

- Material preservative use — paint.

Next Steps

This amended proposed re-evaluation decision is a consultation document.

The PMRA is inviting stakeholders to submit comments on « *Re-Evaluation Note REV2016-06, **CHLOROTHALONIL** - Amendment To The Proposed Re-Evaluation Decision* », as well as detailed proposals to further refine the risk assessment and mitigate risks.

The PMRA will accept comments and proposals for a period of 60 days from the date of publication of « *Re-Evaluation Note REV2016-06, **CHLOROTHALONIL** - Amendment To The Proposed Re-Evaluation Decision* ».

Before making a final re-evaluation decision on **CHLOROTHALONIL**, the PMRA will consider all comments received in response to the previously published Proposed Re-evaluation Decision, along with any comments or proposals submitted in response to this amended proposed re-evaluation decision.

A science-based approach will be applied in making a final decision on **CHLOROTHALONIL**.

The PMRA will then publish the Re-Evaluation Decision that will include the decision and the reasons for it, a summary of the comments and proposals received on both this document and PRVD2011-14, and the PMRA's response to these comments and/or proposals.

If NO proposals to refine the risk assessment are received, or if those received are inadequate, then the PMRA will proceed to FINALIZE THE RE-EVALUATION DECISION TO CANCEL THE **CHLOROTHALONIL** USES specified in this document.

Another Urban Legend — Kissing Balls For Luck In The World Of Golf

Let's finish this report with an amusing golf story.

For a long time, the word « balls » has been as used as the basis for « *double entendre* » jokes.

One type of joke involved the punch line about « *kissing balls for luck* ».

Over the years, it has been associated with several professional sports stars, like golf legend Arnold Daniel Palmer (born in 1929).

With a nickname like « *The King* », in the 1960s, he was golf's most popular star.

In the mid-1960s, an « *urban legend* » was born on « *The Tonight Show With Johnny Carson* ».

Since nearly all recordings of this program made prior to 1972 were subsequently destroyed, definite proof of this legend does not exist.

The legend goes that during a « *Tonight Show* » appearance, Johnny Carson asked Arnold Palmer if he had any GOOD LUCK RITUALS.

We have attempted to re-create that interview.

Carson purportedly began the conversation with one of two questions —

> Johnny Carson — « *Is there anything your wife does to bring you good luck ?!?!* » or « *Does your wife kiss your balls before you go to play ?!?!* »
>
> Arnold Palmer — « *Yes, my wife kisses my balls*. »
>
> Johnny Carson — « *I'll bet that flutters your putter !* »
>
> Arnold Palmer — « *I don't even go to bed without pyjamas*. »

To fight the war against Anti-Pesticide Terrorism, you need facts !

Read ... PESTICIDE TRUTHS

Watch ... UNCLE ADOLPH

Listen To ... NORAHG

Learn From ... FORCE OF NATURE

Discover What Anti-Pesticide & Enviro-Lunatic Terrorists Are Doing And Saying About Subversively Imposing Their Life-Style Choices Against Our Society.

Read … Reports, Blogs, & Videos, From Force Of Nature, NORAHG, Pesticide Truths, & Uncle Adolph — The Whole Truth From An Independent Perspective.

Communities and businesses are being HARMED and DESTROYED and RAPED by LUNATIC-TERRORISTS who ARBITRARILY AND RECKLESSLY IMPOSE PROHIBITIONS against pest control products used in the Urban Landscape and by the Agriculture Industry, and who PERPETRATE OTHER ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the 9|11 Era of Anti Pesticide & Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERRORISM is perpetrated EVERY SINGLE DAY by LUNATIC-TERRORISTS.

A LUNATIC is a person whose actions and manner are marked by extreme recklessness.

The RECKLESS ACTS OF SUBVERSION by these LUNATIC-TERRORISTS has led to the ARBITRARY IMPOSITION of Anti-Pesticide PROHIBITION in several jurisdictions throughout North America.

The result was CATASTROPHIC CARNAGE !

Because of LUNATIC-TERRORISTS, provinces like Ontario now have a TRAIL OF ECONOMIC DESTRUCTION WITH HUNDREDS OF SMALL BUSINESSES DESTROYED and THOUSANDS OF PEOPLE OUT OF WORK, a MORE DANGEROUS OUTDOOR ENVIRONMENT, and a BLACK MARKET IN PESTICIDES.

Only TRUE LUNATICS would wish to create a TRAIL OF ECONOMIC DESTRUCTION WITH HUNDREDS OF SMALL BUSINESSES DESTROYED and THOUSANDS OF PEOPLE OUT OF WORK.

Because of LUNATIC-TERRORISTS, we are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR — scientific research PROVES that pest control products will CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from LUNATIC-TERRORISTS who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space and other industries, and the well-being of our communities.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to LUNATIC-TERRORISTS and their Anti Pesticide PROHIBITIONS, resulting in the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT CONCOCTED BY LUNATICS of somehow « *saving* » the environment.

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting PESTICIDE FREE FAILURES, as well as the work of RESPECTED & HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

NORAHG strikes back against the MYTHS concerning the need for prohibition against pest control products.

NORAHG RESPONDS on behalf of the VAST SILENT MAJORITY of THE PUBLIC THAT DOES NOT WANT PESTICIDE BANS, and SUPPORTS those who work in the Professional Lawn Care Industry, the Golf Industry, and the Agriculture Industry.

RESPECTED & HIGHLY RATED EXPERTS

http://pesticidetruths.com/2014/11/14/the-wisdom-of-real-experts-who-speak-out-against-the-conspiracy-to-impose-reckless-and-arbitrary-prohibition-against-conventional-pest-control-products-2014-11-14/

THE MYTHS ABOUT BANNING PESTICIDES

http://pesticidetruths.com/2012/11/15/the-myths-about-banning-pesticides-part-2-white-paper-report-on-pesticide-bans-2012-11-15-reports/

VAST SILENT MAJORITY

http://pesticidetruths.com/toc/the-wisdom-of-canadian-consumer-specialty-products-association/

NORAHG is opposed to PESTICIDE FREE jurisdictions where LUNATIC-TERRORISTS have DOOMED CHILDREN to SUFFER INJURIES since Anti-Pesticide PROHIBITION inevitably leads to public and residential green spaces that become DANGEROUS AND PEST-INFESTED GARBAGE DUMPS.

Go to the following links ...

ANTI-PESTICIDE PROHIBITION DESTROYED GREEN SPACES

http://pesticidetruths.com/toc/carnage-leading-to-garbage-dumps/

PESTICIDE BANS MADE OUR GREEN SPACES LOOK #@!!% UGLY – PHOTO GALLERY

http://pesticidetruths.com/toc/carnage-leading-to-garbage-dump-green-spaces-photo-gallery/

EMERALD ASH BORER – SAFE & EFFECTIVE INSECTICIDES VERSUS CHAIN SAWS

http://pesticidetruths.com/2014/01/19/emerald-ash-borer-wisconsin-municipalities-safe-effective-insecticide-treatments-versus-chain-saws-2014-01-05/

NORAHG is concerned that, because of PESTICIDE FREE MAINTENANCE of parks and sports fields, CHILDREN ARE AT HIGHER RISK OF SUFFERING INJURIES with DANGEROUS PLAYING SURFACES CREATED BY #@!!% PESTICIDE BANS.

CHILDREN ARE NOT AT RISK

http://pesticidetruths.com/toc/children-are-not-at-risk/

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder.

Force Of Nature was launched by NORAHG for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone Force Of Nature Report was issued on September 19th, 2008.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press.

Primus inter pares, first among equals, describes Pesticide Truths, Uncle Adolph, and Force Of Nature — they are formally equal to each other and are all accorded equal respect.

The reports and blogs from Pesticide Truths, Uncle Adolph, and Force Of Nature, in some ways, are like Google for everything concerning the SUBVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.

Many of these reports and blogs provide a sequence of historical events WITH COMMENTARY, the neutrality of which might be disputed.

This is what we do. Don't thank us. It's a public service. And we are glad to do it.
