

# Eight Steps to Problem Solving The War on Environmental Terror !

There is a simple **eight step** method for systematic WINNING against THE WAR ON ENVIRONMENTAL TERROR. By following the steps below, The Green Space Industry (including the Golf Industry) can dramatically increase the chances of winning the war against the Enviro-Maniacs and their Environmental Terror Organizations that conspire to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products.

## *Proceed With A Positive Attitude*

**First**, the Green Space Industry must approach the problem with the expectant attitude that there is a logical practical solution just waiting to be found. The Industry must be relaxed, calm, and confident that ...

**THE ENVIRONMENTAL TERROR  
MOVEMENT AGAINST  
THE GREEN SPACE INDUSTRY  
CAN BE BEATEN !**

# Eight Steps to Problem Solving

## The War on Environmental Terror !

### *Changing the Language*

**Second**, the Green Space Industry must change its language from negative to positive. Instead of the word " *problem* ", it must use the word " *situation* ". Problem is a negative word while situation is a neutral word. " *We have a menacing situation regarding Environmental Terror* ", is better than, " *We have a problem with Terrorists* ". The menace ?

**ENVIRONMENTAL TERROR  
ORGANIZATIONS ARE TERRORIZING  
THE GREEN SPACE INDUSTRY !**

**ENVIRONMENTAL TERROR GROUPS  
WANT TO ANNIHILATE  
THE GREEN SPACE INDUSTRY !**

There will be NO END to the demands, threats, and attacks from terrorists that seek to drive the entire Green Space Industry (including the Golf Industry) into bankruptcy, unemployment, despair & destitution.

# Eight Steps to Problem Solving

## The War on Environmental Terror !

### *Define the Situation Clearly*

The **third** step in systematically WINNING THE WAR AGAINST ENVIRONMENTAL TERROR is to define the situation clearly. " *Exactly what is the situation ?* " Simple.

**ENVIRO-MANIACS AND THEIR ENVIRONMENTAL TERROR ORGANIZATIONS ARE CONSPIRING TO PROHIBIT LEGAL, SAFE, AND TOTALLY IRREPLACEABLE PEST CONTROL PRODUCTS !**

There will be NO END to the demands, threats, and attacks from terrorists that seek to drive the entire Green Space Industry (including the Golf Industry) into bankruptcy, unemployment, despair & destitution.

Successfully challenging the infamous and malicious Ontario prohibition will send a strong and positive message across Canada and the United States.

# Eight Steps to Problem Solving

## The War on Environmental Terror !

### *Identify Causes and Solutions*

Step number **four** is to ask " *What are all the possible causes of this situation ?* " Failure to identify the causes or reasons for the situation often causes the Green Space Industry to have to solve it again and again.

**ENVIRONMENTAL TERROR ORGANIZATIONS WANT TO ANNIHILATE THE GREEN SPACE INDUSTRY !**

**FURTHERMORE, ENVIRONMENTAL TERROR GROUPS DESPISE THE GOLF INDUSTRY !**

There will be NO END to the demands, threats, and attacks from terrorists that seek to drive the entire Green Space Industry (including the Golf Industry) into bankruptcy, unemployment, despair & destitution.

If we do not successfully defeat the ENVIRONMENTAL TERROR GROUPS, the consequences will be DEVASTATING.

# Eight Steps to Problem Solving

## The War on Environmental Terror !

### *Make a List of the Solutions*

Step number **five** is to ask " *What are all the possible solutions ?* " The solution is simple.

**THE ENVIRONMENTALIST VERMIN  
MUST BE LEGALLY CHALLENGED  
AND EXTERMINATED !**

**A SUCCESSFUL CHALLENGE WILL  
DEMORALIZE THE ENVIRO-MANIACS,  
THEIR ENVIRONMENTAL TERROR  
GROUPS, AND THEIR BULLYING  
POLITICAL ALLIES.**

**THE ONTARIO PROHIBITION  
MUST BE STOPPED NOW !**

# Eight Steps to Problem Solving The War on Environmental Terror!

## *Make a Clear Decision*

Step number **six** is to " *Make a clear decision* ". Usually any decision is better than none. In the War On Environmental Terror, the decision is VERY CLEAR !

**CONTACT AND GIVE STRONG  
AND CONTINUOUS FINANCIAL  
SUPPORT TO THE PROFESSIONAL  
LAWN CARE ASSOCIATION OF ONTARIO  
AT 519.836.4906 OR  
PLCAO@GTI.UOGUELPH.CA**

The Professional Lawn Care Association of Ontario (P.L.C.A.O.) has correctly recognized that there is a historic and critical opportunity to legally challenge and exterminate those terrorists that conspire to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products.

# Eight Steps to Problem Solving

## The War on Environmental Terror !

### *Carrying Out the Decision*

Step number **seven** is to " *Assign clear responsibility for carrying out the decision and then set a deadline for completion and review* "

**THE ONTARIO PROHIBITION MUST BE STOPPED NOW !**

**THE MODERN GREEN SPACE INDUSTRY (INCLUDING THE GOLF INDUSTRY) WILL BE ANNIHILATED UNLESS SOMETHING IS DONE NOW !**

The trade associations within the Golf and Landscape Industries have preferred the status of observer only. They will do nothing to defend the future of the Industry !

The only long-term hope for the GOLF INDUSTRY is a strong coalition with the rest of the Professional Lawn Care Association of Ontario that utterly opposes ENVIRO-MANIACS and their political allies.

### ***Follow Through With The Decision***

Finally, step number **eight** is to follow through with the decision.

**THE ONTARIO PROHIBITION  
MUST BE STOPPED NOW !**
