Calgary (pronounced /ˈkælgri, ˈkælgəri/) is the largest city in the Province of Alberta, Canada. The Calgary census metropolitan area (CMA) is the third most diverse in Canada in terms of visible minorities after Toronto and Vancouver when considering only CMAs with population greater than 200,000. It is located in the south of the province, in an area of foothills and high plains, approximately 80 km (50 mi) east of the front ranges of the Canadian Rockies. The city is located in the Parkland region of Alberta. Calgary is the third largest civic municipality, by population in Canada, and is also an emerging global city. According to the GaWC, Calgary is a "gamma negative world city."

In the Canada 2006 Census, the city had a population of 988,193 and the CMA had a population of 1,079,310. As of the 2009 civic census, Calgary's population was 1,065,455 and the CMA had a population of 1,182,446.

Greater Calgary is the fifth largest CMA in the country after Toronto, Montreal, Vancouver, and Ottawa. Located 300 km (200 mi) due south of Edmonton, statisticians define the narrow populated area between these cities as the "Calgary-Edmonton Corridor." Calgary is the largest Canadian metropolitan area between Toronto and Vancouver. (Source : Wikipedia.)

PESTICIDE BYLAW MEETING DRAWS CROWD

SEPTEMBER 24TH, 2009

CBCNEWS.CA

The city has begun a series of open houses to talk about pesticide use and whether there should be a total ban on the chemicals in **Calgary**.

The first meeting was held Wednesday night in a crowded banquet room at the Deerfoot Inn and Casino. Both supporters and opponents of a pesticide ban were among the dozens who attended.

The city is considering phasing out the cosmetic use of pesticides on public land by 2010, and private land by 2011. CRAIG GIRDOT looked over information poster boards with a grim expression on his face. He runs a lawn fertilizer and pesticide company with eight trucks in his fleet and argues that no pesticides will mean many more weeds.

" There's going to be more this year, more next year and pretty soon your lawn will be covered in them," he said. " Sure, people can dig them out, but can you imagine the city trying to dig out weeds ? The labour force just isn't there."

BRENDA HARRIS, a worker in the weed control industry, said pesticide control is not a city hall issue.

" Pesticides are an emotional issue, but they are regulated by Health Canada," she said. " They look at a lot of scientific data and they make a decision on the safety of the product."

But EVIE RODWAY, of the **Canadian Cancer Society**, is looking for a *" very strong bylaw "*.

" What that means is a bylaw that doesn't leave much room for exceptions. So we would like to see all cosmetic use — use for cosmetic purposes — to be banned."

The city is considering phasing out the cosmetic use of pesticides on public land by 2010, and private land by 2011. City administrators are expected to have a pesticide use by-law ready for council to debate by the **END OF OCTOBER**.

Enviro-Terror !

Facts & Predictions

Enviro-Maniacs and their Environmental Terror Organizations have been **MOSTLY WRONG** and **MALICIOUSLY ALARMIST** and **DECEPTIVE** for almost one-half century.

Enviro-Maniacs present themselves as experts in matters concerning pest control products, when **NO ONE** within **ANY** Environmental Terror Organization has any expertise whatsoever.

Enviro-Maniacs are frequently only able to provide information based upon **JUNK SCIENCE** instead of **SOUND SCIENCE** !

Enviro-Maniacs use their Environmental Terror Organizations to routinely coerce and manipulate politicians and the public into agreeing to prohibit **LEGAL, SAFE, and IRREPLACEABLE** pest control products by using **LIES, MISCONCEPTIONS, COERCION, THREATS, and TERROR** !

Politicians and the public were assured by Enviro-Maniacs that so-called **LOWER-RISK ALTERNATIVES**, or **GREEN ALTERNATIVES**, were already available to replace conventional pest control products.

More lies !

These **GREEN** alternatives are **NOT SAFER, NOT BETTER, and NOT MORE EFFECTIVE** ! Moreover, many of these **GREEN ALTERNATIVES** are distributed by the Environmental Terror Organizations themselves !

The provinces of Ontario, New Brunswick, and Quebec, were **DUPED** into prohibition by greedy millionaire Enviro-Terror Organizations !

Municipalities are clearly not knowledgeable enough to enact prohibitive by-laws. A municipality has an onus of responsibility to verify the **JUNK SCIENCE** information that has been invented by Enviro-Maniacs. Municipalities have failed to base their prohibition decisions on **SOUND SCIENCE**.

Prohibitionist governments and the culprits in the Environmental Terror Movement may be liable for damages worth **TENS OF MILLIONS OF DOLLARS**.

Enviro-Maniac culprits may be arrested and jailed for **FRAUD** !

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the GREEN SPACE INDUSTRY, the ENVIRONMENTAL TERROR

MOVEMENT, politicians, municipalities, and the media, nation-wide across Canada, and parts of the United States and overseas. **FORCE OF NATURE** is produced in two parts. First, The MEDIA REPORT itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second, INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes technical in nature. Force of Nature is the WHOLE TRUTH from an INDEPENDENT PERSPECTIVE!

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. Norah G is actually an acronym for the stable of writers that contribute to this e-newsletter. The opinions expressed in Force of Nature, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned! Mr. Gathercole and Norah G may sometimes be very irreverent and fearless with these e-newsletters. DON'T THANK US. IT'S A PUBLIC SERVICE. AND WE ARE GLAD TO DO IT.

William H. Gathercole holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. He also been an agricultural agronomist. Mr. Gathercole has been following the evolution of ENVIRONMENTAL TERRORISM for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being ANTI-ENVIRONMENT-MOVEMENT, he is, in fact, simply a strong advocate FOR the GREEN SPACE INDUSTRY. However, this position has not precluded him from criticizing the Green Space Industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully!) For many years, Mr. Gathercole has been a contributing columnist for

TURF & RECREATION Magazine, Canada's Turf and Grounds Maintenance Authority.

All document excerpts and pictures contained in **FORCE OF NATURE** were found somewhere on the Internet. We believe that they are in the public domain, serving one of the following purposes: archive, education, promotion, publicity, or press release.

We believe that environmental terrorism can be BEATEN. Information presented in **FORCE OF NATURE** has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. The mission of Force of Nature is to respond to those statements and activities originating from culprits that conspire to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE conventional pest control products. Culprits are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each culprit is a mis-guided adversary, each still deserves our respect. The term « culprit » is not an accusation of any legal wrong-doing. Force of Nature is simply holding culprits accountable for changes in public policy that have terrorized the Green Space Industry. Force of Nature believes that the prohibition policies of the ENVIRONMENTAL TERROR MOVEMENT will lead to UNEMPLOYMENT, BANKRUPTCY, BUSINESS FAILURE, DESPAIR, and DESTITUTION. The actions of the movement is viewed as a form of TERROR against the Green Space Industry.
