The DESTRUCTION of the Ontario Professional  
Lawn Care Industry by Anti-Pesticide Terrorists

## Two Years After the Ontario Anti-Pesticide PROHIBITION

August 17<sup>th</sup>, 2011

Landscape Ontario Trade Association Report

Province of Ontario

Selected and adapted excerpts

LandsCAPE Ontario is an Anti-Pesticide Trade Association that CONSPIRES to ANNIHILATE the entire Modern Professional Lawn Care Industry by SUPPORTING the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

## CropLife Survey

---

TWO YEARS after Anti-Pesticide PROHIBITION, surveys show public and professional FRUSTRATION and UNHAPPINESS.

When Anti-Pesticide PROHIBITION was enacted on April 22<sup>nd</sup>, 2009, the Professional Lawn Care Industry warned that NEGATIVE IMPACTS would surface over the lack of effective tools to control weeds and insects.

CropLife Canada sponsored the SURVEYS this past spring.

Two SURVEYS, one conducted with Ontario HOME-OWNERS and the other of professional LANDSCAPERS, show that two years after Anti-Pesticide PROHIBITION in Ontario, both groups are EXPRESSING CONCERN and UNHAPPINESS.

CropLife Canada is a trade association representing the manufacturers, developers and distributor of plant science technologies, including urban pesticides.

CropLife hired Blacksheep Strategy to carry out the LANDSCAPER and HOME-OWNER SURVEYS.

Pierre Petelle is Executive Director of Regulatory Affairs and Non-Agricultural Uses for CropLife Canada.

# carnage

*PROHIBITION has certainly  
NOT BEEN GOOD FOR BUSINESS*

According to Petelle, who made a presentation at a meeting of LandsCAPE Ontario's Lawn Care sector group on August 17<sup>th</sup>, 2011 —

*Almost half of Ontario home-owners would like to see the current pesticide ban ELIMINATED OR RELAXED, so they're able to use products to protect their lawns and gardens from pest infestations.*

Unfortunately, the LANDSCAPER SURVEY could NOT account for the many companies that are NOT members of LandsCAPE Ontario, or for those that have gone into BANKRUPTCY because of PROHIBITION.

Because of PROHIBITION in Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION.

LandsCAPE Ontario assisted CropLife by distributing the information about the poll to its members, and 234 took part in the LANDSCAPER SURVEY.

According to Petelle —

*Sixty-three per cent of landscapers surveyed said they are AGAINST Ontario's pesticide ban.*

Additionally, almost half of those polled in the LANDSCAPER SURVEY said their sales in 2010 are LOWER than in 2008.

71 per cent of Professional Lawn Care companies surveyed said their customers were LESS SATISFIED in 2010 than in 2008, before PROHIBITION was in place.

Respondents to the LANDSCAPER SURVEY also said they had been asked by clients to use products that are now banned, and they have had customers apply banned products themselves.

The Ontario HOME-OWNER SURVEY backs up the finding, revealing that by their own admission, Ontarians are WILLFULLY BREAKING THE LAW by using pest control products that have been PROHIBITED on their lawns and gardens.

anti-pesticide

# carnage

According to Petelle —

*Thirty per cent of all home-owners are using pesticides that they have left over from before the ban was put in place, and close to one-quarter of home-owners are either DEVELOPING THEIR OWN MIXTURES or BRINGING PESTICIDES IN FROM ANOTHER PROVINCE OR FROM THE UNITED STATES.*

## PROHIBITION Bad For Business

---

According to Petelle —

*Contrary to what some in the media are saying, the ban has certainly NOT BEEN GOOD FOR BUSINESS.*

*In fact, two-thirds of Ontario landscaping and lawn care companies indicate that the ban has had a somewhat or significantly NEGATIVE IMPACT on their business, and led to unsatisfied customers.*

prohibition

# carnage

## From Five Trucks To One

---

One member at the LandsCAPE Ontario meeting stated he had five trucks before Anti-Pesticide PROHIBITION, and now is down to one —

*I'm not alone in being HURT BY THE BAN.*

According to Petelle —

*Over half of home-owners feel that if Health Canada has approved the banned pesticides, they should be allowed to use them.*

*This helps demonstrate that Ontarians understand that the provincial pesticide ban COMPLETELY CONTRADICTS what the expert scientists at Health Canada say, and they feel such duplicative oversight is really quite UNNECESSARY.*

anti-pesticide

# carnage

## More Weeds and Insects

---

Petelle says the polling demonstrates that Ontarians believe Anti-Pesticide PROHIBITION has resulted in MORE WEEDS AND INSECTS in lawns and gardens.

Home-owners feel they no longer have the tools they need to control these pests.

According to Petelle —

*More than two-thirds of home-owners who responded said they have MORE WEEDS in their lawns since the ban came into effect, and feel they no longer have effective products to deal with the pest problems they're facing.*

*Home-owners are overwhelmingly calling for MORE EFFECTIVE PRODUCTS to protect their properties.*

## Dissatisfaction with Green Alternatives

---

Before Anti-Pesticide PROHIBITION in Ontario, satisfaction levels for the products people had available to them were extremely high.

But now, 78 per cent of people surveyed said they feel there is definitely a need for more effective weed control products.

66 per cent feel there is a need for more effective insect control products.

Anti-Pesticide PROHIBITION prevents Ontarians from using most federally-registered products to protect their properties from pest infestations.

CropLife says that polling results are not available on-line, but expects more detailed results of the polling will be released in the near future.

## Background Information from an Independent Perspective ( continued )

### BETRAYAL and DESTRUCTION

---

These organizations BETRAYED the Professional Lawn Care Industry by SUPPORTING the PROHIBITION of pest control products used in the Urban Landscape.

Their DESPICABLE PARTICIPATION in the Anti-Pesticide PROHIBITION CONSPIRACY has EXTENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry, ANNIHILATED most of its customers, thus ensuring that THOUSANDS of companies became WORTHLESS and on the verge of being OBLITERATED.

They BETRAYED the Modern Professional Lawn Care Industry.

They DESTROYED the Modern Professional Lawn Care Industry !

### Green Alternatives

---

These organizations are composed of investors, salesmen, distributors, and researchers who are directly involved and PROFITING from BOGUS Green Alternatives.

These organizations DECEPTIVELY SUPPORT SOLD-FOR-PROFIT BOGUS Green Alternatives when valid, effective, and safer alternatives to conventional products DO NOT EXIST !

Officials within these organizations will say ANYTHING to advance the SALE-FOR-PROFIT of BOGUS Green Alternatives.

Overall, the statements originating from people within these organizations are VALUELESS and WORTHLESS in matters concerning Green Alternatives.

### BOGUS Green Alternatives

---

Green Alternatives are NOT viable, NOT efficacious, NOT economical ... most are NOT even legal.

Green Alternatives are products that are supposed to REPLACE conventional pest control products.

Unfortunately, there are NO valid economical alternatives to replace the PROHIBITED products, and there will likely be NONE within our collective lifetime.

So-called Green Alternatives, such as Corn Gluten Meal, Fiesta, Nematodes, and Sarritor, are DISMAL FAILURES.

# Background Information from an Independent Perspective ( continued )

Virtually all Green Alternatives are BOGUS — they DO NOT WORK and they are NOT INNOVATIVE products.

Because of these organizations, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

## PROHIBITION CARNAGE

---

Because of these organizations, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

Their TREACHEROUS SUPPORT of LUNATIC-TERRORIST-PROHIBITION has also led to EXTENSIVE CARNAGE for Professional Lawn Care companies, in the form of HORRIFIC FINES and BUSINESS FAILURES.

This NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION led to the DESTRUCTION of the Modern Professional Lawn Care Industry.

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

Government Officials were OFFICIALLY WARNED about the SUN-SETTING CARNAGE that would result from PROHIBITION.

[ « *Sun-Setting* » means « *the decline and final phase* » of the Professional Lawn Care Industry. ]

The Environmental Commissioner's Report to the Ontario Legislative Assembly on October 6th, 2009, OFFICIALLY WARNED Government Officials about the SUN-SETTING CARNAGE of that would result from PROHIBITION —

« *In the short-term, however, the ban may have SIGNIFICANT EFFECTS on the economic health or continued viability of many lawn care businesses, effectively SUN-SETTING components of an industry.* »

Because of PROHIBITION in Ontario, the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with UP TO 12,500 UNEMPLOYED.

Because of PROHIBITION in Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION.

#### University of Guelph

---

University of Guelph and Guelph Turfgrass Institute are Anti-Pesticide Organizations that CONSPIRE to ANNIHILATE the entire Modern Professional Lawn Care Industry by SUPPORTING the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

Since PROHIBITION, officials at the University of Guelph have become the INSTRUMENTS of Anti-Pesticide PROPAGANDA for the Government of Ontario.

Anti-Pesticide Government Officials, who are PAID-FOR-PROFIT by the Ontario Government's Ministry of Agriculture, Food and Rural Affairs, at the University of Guelph, ARE NOT TO BE TRUSTED.

Officials at the University of Guelph are the INSTRUMENTS of Anti-Pesticide PROPAGANDA for the PROMOTION OF MIS-INFORMATION about BOGUS Green Alternatives like FIESTA HERBICIDE — they BETRAYED the Professional Lawn Care Industry.

These officials are ultimately ANSWERABLE to their MASTERS in the Government of Ontario, and they are expected to SUPPORT ALL SOCIAL POLICIES THAT IT IMPOSES.

ALL Government-Officials employed at the University of Guelph have been told to « *toe the line ... OR ELSE !* ».

ALL Government-Officials MUST SUPPORT Anti-Pesticide PROHIBITION, or FACE TERMINATION from employment and SUFFER THE LOSS OF THE LUCRATIVE GOVERNMENT PENSION PLAN.

Consequently, Guelph Government-Officials have been COERCED and TERRORIZED into PROMOTING MIS-INFORMATION about the effectiveness of Green Alternatives that are, in fact, BOGUS.

Sadly, University of Guelph has BETRAYED the Professional Lawn Care Industry.

Guelph's LEGACY to the Professional Lawn Care Industry is DESTROYED BUSINESSES, LOST JOBS AND HARDSHIP FOR PEOPLE, and WEAKENED COMMUNITIES.

#### FALSE Allegations

---

Since PROHIBITION, officials at the University of Guelph have become the INSTRUMENTS of Anti-Pesticide PROPAGANDA for the Government of Ontario by PERPETUATING THE MYTH that there is NO CARNAGE in the 9|11 Era of Anti-Pesticide TERROR !

Officials at the University of Guelph further ALLEGE that the Professional Lawn Care Industry has been able to remain successful DESPITE the CARNAGE of PROHIBITION.

## Background Information from an Independent Perspective ( continued )

They act as if they are either BLIND and DEAF, or JUST PLAIN STUPID.

Or both.

Because of Anti-Pesticide PROHIBITION in Ontario, the Professional Lawn Care Industry's customers were ANNIHILATED and HUNDREDS of companies became WORTHLESS.

Many companies have been TOTALLY DESTROYED.

It is expected that, just as in the Province of Quebec three years earlier, OVER 60 PER CENT of the Ontario Lawn Care companies will be TOTALLY ANNIHILATED.

Because of Anti-Pesticide PROHIBITION, the owners, employees, and families dependent on Professional Lawn Care businesses FACE TERROR, DESPAIR, and DESTITUTION.

### LandsCAPE Ontario

---

LandsCAPE Ontario ( a.k.a. Ontario Horticultural Trades Association ) is an Anti-Pesticide Trade Association that CONSPIRES to ANNIHILATE the entire Modern Professional Lawn Care Industry by SUPPORTING the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

LandsCAPE Ontario is supposed to be as THE leader in representing, promoting, and fostering a favourable climate for the advancement of the horticulture industry in Ontario, but certainly NOT for the advancement of the Modern Professional Lawn Care Industry.

LandsCAPE Ontario's membership is organized by a chapter system.

The opportunity to network is supposed to be one of the founding principles of LandsCAPE Ontario.

Unfortunately, if you are a Professional Lawn Care Company, you will be forced to network with MOBS OF ORGANO-LUNATICS who support Anti-Pesticide PROHIBITION, just like LandsCAPE Ontario.

The LandsCAPE Ontario chapters hold regular meetings that are supposed to provide a forum for education, professional development, and networking.

Many meetings are rampant with ANTI-PESTICIDE SENTIMENT.

Most of the time, Modern Professional Lawn Care Companies feel OSTRACIZED.

Furthermore, LandsCAPE Ontario is a HAVEN FOR ORGANO-LUNATIC COMPANIES that falsely and deceitfully allege to have better and safer Green Alternatives for pest control than Modern Professional Lawn Care.

## Background Information from an Independent Perspective ( continued )

LandsCAPE Ontario meetings are used to validate the use and distribution of Green Alternative products, many of which are philosophically and financially linked with other Anti-Pesticide Organizations that have conspired to PROHIBIT pest control products.

LandsCAPE Ontario has basically told the Modern Professional Lawn Care Industry to « *Take care of your own problems !* ».

LandsCAPE Ontario's participation in the LUNATIC CONSPIRACY to PROHIBIT pest control products has DESTROYED the Modern Professional Lawn Care Industry.

LandsCAPE Ontario's participation in this LUNATIC PROHIBITION CONSPIRACY has EXTENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry, ANNIHILATED most of its customers, thus ensuring that THOUSANDS of companies became WORTHLESS and on the verge of being OBLITERATED.

Because of LandsCAPE Ontario, the owners, employees, and families dependent on Professional Lawn Care businesses faced TERROR, DESPAIR, and DESTITUTION.

By SUPPORTING Anti-Pesticide PROHIBITION, LandsCAPE Ontario also JEOPARDIZED the future of the NURSERY PRODUCTION INDUSTRY.

LandsCAPE Ontario's support of Anti-Pesticide PROHIBITION has VALIDATED Enviro-Lunatics to BASELESSLY SMEAR, FALSELY ACCUSE, GROTESQUELY PUNISH, INNOCENTLY CONVICT, SHAMELESSLY PERSECUTE, and WRONGFULLY DEPRIVE those people working in the Professional Lawn Care Industry who use pest control products.

These pest control products are, in fact, HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.

### Conflict-Of-Interest

---

The group of Decision-Makers within LandsCAPE Ontario that allegedly represent the interests of the Professional Lawn Care Industry is called the Lawncare [ *sic* ] Commodity Group.

One-quarter of the Lawncare Commodity Group board members originates, directly or indirectly, from business interests in the BOGUS and FAILED Green Alternative Sarritor — Weed Man and Doctor Green.

One-seventh of the Lawncare Commodity Group originates from direct business interests ( investors ) in the BOGUS and failed Green Alternative Sarritor — Gaspar ( Weed Man ), Van Haastreht ( Doctor Green ).

## **What must LandsCAPE Ontario do ?**

**LandsCAPE Ontario must STOP operating like an Anti-Pesticide Organization.**

**LandsCAPE Ontario MUST ADOPT THE POSITION that conventional pest control products are SCIENTIFICALLY-SAFE and CAUSE NO HARM.**

**LandsCAPE Ontario MUST OPPOSE ALL FORMS of PROHIBITION against pest control products used in the Urban Landscape.**

**It must OPPOSE even PROHIBITION on PUBLIC PROPERTY since this is a FIRST STEP towards TOTAL PROHIBITION.**

*For enviro-lunatics,  
the vastness of their terror  
is clearly seen through  
their subversive prohibitions*
