commentary from an independent perspective

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*Hello everyone.*

*Travis and I met with Councillor Sloan this morning.*

Councillor Linda Sloan is an ANTI-PESTICIDE municipal councillor in the City of Edmonton, in the Province of Alberta.

Why waste time meeting with this Anti-Pesticide-Lunatic?!?!

In October 2010, Sloan had already indicated her position through the following ANTI-PESTICIDE RANT —

« *I have initiated is an inquiry to ELIMINATE the current city practice of spraying COSMETIC PESTICIDES on the city playing fields and school grounds. A GROWING BODY OF RESEARCH suggests such practices contain health risks for young children and expectant mothers.* » [?!?!]

The Professional Lawn Care Industry MUST CEASE ATTEMPTING TO EDUCATE AND NEGOTIATE with Anti-Pesticide Enviro-Lunatic Government Officials like Linda Sloan.

Anti-Pesticide-Lunatics like Sloan WILL NEVER reverse their attitudes AGAINST pest control products.

NO ONE MUST NEGOTIATE WITH ANTI-PESTICIDE TERRORISTS.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

[ Anti-Pesticide-Lunatic ] Councillor Sloan initiated the original enquiry as she believes herbicides, but specifically 2,4-D, is carcinogenic.

Her position remains the same because she does not trust Health Canada to provide citizens, practically children and pregnant women, with the proper information.

Sloan graduated from the Foothills Hospital School of Nursing in 1982 and began work as a MERE nurse.

Sloan has NO background, training, or education in matters concerning pest control products.

Sloan's opinion is TOTALLY VALUELESS and UTTERLY USELESS.

The Professional Lawn Care Industry MUST ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.

If PROHIBITION IS IMPOSED IN EDMONTON, LEGAL ACTION MUST BE STARTED.

Professional Lawn Care Companies are SHOULD SEEK DAMAGES since they will be NO LONGER able to reproduce the business results obtained prior to PROHIBITION, and VALUE of their business will have been DESTROYED.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*She was unaware of several peer-reviewed papers that refute her position.*

*( These will be sent to her today. )*

Why bother sending this lunatic ANY information ?!?!

Sloan will merely ignore it because it is convenient for her to do so in order to achieve her ANTI-PESTICIDE GOALS.

Anti-Pesticide-Lunatics like Sloan WILL NEVER EVER reverse their attitudes AGAINST pest control products.

*[ Anti-Pesticide-Lunatic ] Councillor Sloan also believes that as cancer rates in Edmonton are higher than other communities, it therefore has to be something environmental – i.e. 2,4-D !*

*She did not provide any data to substantiate this claim – but she's introduced this point at previous meetings.*

Again, the Professional Lawn Care Industry MUST ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.

NO ONE should apologize for using pest control products.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*We asked if there were any motions in the works regarding the report and she indicated no.*

*But I suspect Sloan will draft something that encompasses playgrounds and schools.*

Sloan is attempting to get TOTAL PROHIBITION by going through the back-door of playgrounds and schools.

The Professional Lawn Care Industry MUST OPPOSE ALL FORMS OF PROHIBITION AGAINST PEST CONTROL PRODUCTS USED IN THE URBAN LANDSCAPE.

It must OPPOSE even PROHIBITION on PUBLIC PROPERTY since this is a FIRST STEP towards TOTAL PROHIBITION.

The Professional Lawn Care Industry MUST CEASE ATTEMPTING TO EDUCATE AND NEGOTIATE with Anti-Pesticide Government Officials like Sloan.

They are to be considered ENEMIES of the industry.

Anti-Pesticide-Lunatics WILL NEVER reverse their attitudes AGAINST pest control products.

NO ONE MUST NEGOTIATE WITH TERRORISTS, either environmental or political.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*We had a lot of discussion regarding the report that will be debated by the Community Services Committee on Monday.*

*I'm not sure how much of the report she has read, but she was very critical of parks saying they have not done enough to use other methods to grow healthy turf ( i.e. top-dressing, aeration, etc ... )*

*I guess she didn't read the part in the report that said aerating did not make much difference.*

Who cares what this lunatic reads and what she thinks !

Sloan has NO background, training, or education in matters concerning Professional Lawn Care.

Again, Sloan is NOT COMPETENT TO GIVE ADVICE.

The Professional Lawn Care Industry MUST ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.

The Professional Lawn Care Industry MUST ALSO DENOUNCE CULTURAL PRACTICES as a so-called alternative to the use of pest control products.

Cultural practices DO NOT WORK in controlling pests.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*The report talks about adding IRRIGATION in the parks to help the grass grow, but she dismissed this as a red herring !*

*I DISAGREED with her on this point.*

Forget about disagreeing with this lunatic on IRRIGATION !!!

Perhaps someone, ANYONE, from a trade association, SHOULD DISAGREE with this lunatic about the PROHIBITION of pest control products.

The Professional Lawn Care Industry MUST ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.

The only thing that a lunatic like Sloan will understand is the THREAT OF LITIGATION.

The Professional Lawn Care Industry MUST ADOPT THE POLICY that the ONLY COURSE OF ACTION AGAINST PROHIBITION IS THROUGH LITIGATION.

The Professional Lawn Care Industry MUST LAUNCH LITIGATION against those Anti-Pesticide Government Officials like Sloan who CONSPIRE TO PROHIBIT PEST CONTROL PRODUCTS. These products are, in fact HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and PRACTICALLY-NON-TOXIC.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*We asked [ Anti-Pesticide-Lunatic ] Councillor Sloan if the intent of the report was to extend the final decisions to private property.*

*Her answer was no, ONLY CITY-OWNED PROPERTY.*

*She thinks the City needs to be the leader before asking citizens to restrict ( or ban ) herbicides.*

*So at this point, I DON'T THINK THERE'S A CONCERN for the landscape sector.*

NO CONCERN !?!? What PARALLEL UNIVERSE ARE YOU LIVING IN ?!?!?

This lunatic politician is out to DESTROY the Professional Lawn Care Industry !

This lunatic intends to BEGIN with CITY PROPERTY, make them LOOK LIKE GARBAGE DUMPS, and then, MOVE TO TOTAL PROHIBITION.

The Professional Lawn Care Industry MUST OPPOSE ALL FORMS OF PROHIBITION AGAINST PEST CONTROL PRODUCTS USED IN THE URBAN LANDSCAPE.

It must OPPOSE even PROHIBITION on PUBLIC PROPERTY since this is a FIRST STEP towards TOTAL PROHIBITION.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*We talked about alternative herbicides and that there are some promising products on the horizon, but currently there's nothing on the market better than 2,4-D.*

*[ Anti-Pesticide-Lunatic ] Sloan asked if there was a compromise to be made if parks were asked to undertake full-scale testing of alternative herbicides.*

*We said yes, but that's really a decision the Council and parks has to take.*

Why bother discussing Green Alternatives THAT DO NOT WORK !

And, there are NO so-called promising products on the horizon.

And even if there were, there would be no guarantee that a lunatic like Sloan would even allow their use in Edmonton.

The Professional Lawn Care Industry MUST ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.

The Professional Lawn Care Industry MUST DENOUNCE the so-called GREEN ALTERNATIVES to conventional pest control products as BOGUS.

Green Alternatives DO NOT WORK.

There will likely be NO viable, efficacious, or economical Green Alternatives within our collective lifetime.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*Our take-away from the meeting is this :*

*[ Anti-Pesticide-Lunatic ] Councillor Sloan would ban 2,4-D if it was up to her ( but I don't think she has the committee's support on this point ).*

*She lacks knowledge about pesticides, preferring to stick with her biases.*

*There's NO INTENT to restrict or ban herbicides on private property.*

*Parks needs to undertake more PLANT HEALTH CARE PROGRAMS.*

What !?!?

NO INTENT !?!?!?

Are you NUTS !

There is FULLY and COMPLETELY the INTENT to BAN pest control products.

Who the heck are you trying to reassure !?!?!

Parks needs to undertake more PLANT HEALTH CARE PROGRAMS !?!?

The parks need CONVENTIONAL PEST CONTROL PRODUCTS THAT ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

[ Anti-Pesticide-Lunatic ] *Councillor Sloan be receptive to the testing of alternative herbicides ?*

Why bother with testing when other jurisdictions have clearly reported that Green Alternatives DO NOT WORK.

The Professional Lawn Care Industry MUST DENOUNCE the so-called Green Alternatives to conventional pest control products as BOGUS.

Green Alternatives DO NOT WORK.

There will be NO viable, efficacious, or economical Green Alternatives within our collective lifetime.

And, Green Alternatives are STUNNINGLY EXPENSIVE !

For example, when it comes to cost, a 2011 report from the CITY OF EDMONTON estimates the PROHIBITION of pest control products would ...

- NEARLY DOUBLE ITS WEED CONTROL BUDGET, FROM 7.2 MILLION DOLLARS TO 14.1 MILLION DOLLARS.

The report from the CITY OF EDMONTON report suggests that ...

- THE CITY OF EDMONTON MUST AVOID THE NEEDLESS, SENSELESS, AND MALICIOUS PROHIBITION OF PEST CONTROL PRODUCTS.

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*Community Services Committee on Monday, September 19 [ 2011 ]. For those of you speaking, your presentation should be framed around the report, but taking into account that there will be opponents to IPM.*

The Professional Lawn Care Industry MUST CEASE focusing on the IN-EFFECTIVE Integrated Pest Management ( IPM ) strategies as the solution to its public affairs problems. Besides, IPM DOES NOT WORK.

*We should continue to support and talk about SCIENCE-BASED EVIDENCE and reliance on the expertise of toxicologists.*

The time for TALK is OVER !

The Professional Lawn Care Industry MUST STRIKE BACK WITH LITIGATION against its ENEMIES who are Anti-Pesticide Anti-Fertilizer Environmental-Terrorists.

These lunatics COULD NOT CARE LESS about SCIENCE-BASED EVIDENCE. THEY HATE AND DESPISE THE PROFESSIONAL LAWN CARE INDUSTRY, AND WILL DESTROY IT AT ANY COST.

*As the private sector is not part of the report, we should probably not make reference to it to the same extent we did at the February meeting.*

# The Industry STRIKES Back?

## The Professional Lawn Care Industry MUST FIGHT the Conspiracy to Prohibit Pest Control Products in Edmonton, Alberta

*If we put ourselves in the position of a citizen, rather than industry, we may have a clearer view of what to say.*

*Don't forget to register, although Travis and I are going to do this on-site so that we can speak towards the end of the presentations.*

*Thanks, and we'll see you all on Monday.*

*Regards,*

# Force Of Nature is NOT propaganda... just a Report from an Independent Perspective

In the 9/11 Era of Environmental-Terror, at least ONE MALICIOUS ACT OF TERROR is Perpetrated EVERY SINGLE DAY by Enviro-Lunatics.

National Organization Responding Against HUJE that seek to harm the Green Space Industry ( NORAHG ) is a NATIONAL NON-PROFIT NON-PARTISAN organization of RESPECTED EXPERTS promoting PESTICIDE-REALISM — scientific research PROVES that pest control products cause NO HARM and can be USED SAFELY.

HUJE are LAWN HATERS, and they particularly DESPISE the Golf Industry. They are Hateful Under-handed Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

NORAHG produces FORCE OF NATURE, which presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science. FORCE OF NATURE is committed to sound science, and ground-breaking original journalism that informs, entertains, and creates real change.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

All information, excerpts, and pictures contained in FORCE OF NATURE were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

FORCE OF NATURE, and its various incarnations, was the brainchild of William H. Gathercole ( now retired ) and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and environmental terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver/Fraser Valley region • with Dr. Peter Demoeen, confirmed the presence of Take-All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South-Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to the prohibition of pest control products • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness who intervened in the development of prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT e-newsletters

Notable award — man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against activism in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined environmental activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against activists in the town of Hudson, Quebec • launched the largest early professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT e-newsletters.
