NORAHG Commentaries To
WCTA Trade Association's Responses

Re : The Nature Of Things With David Suzuki

Documentary « *Dad and the Dandelions* »

Hosted By David Suzuki

Financed & Released By Canadian Broadcasting Corporation (CBC)

The Suzuki Cancer-Attacks Against The Golf Industry

David Suzuki & his fanatical-operatives have again conspired to destroy the hated golf industry — this time with a #@!!% documentary, « *Dad and the Dandelions* ».

The WCTA trade associations' responses have, yet again, failed their members (owners, players, and especially golf superintendents).

WCTA could not even be bothered to respond directly and professionally to counter the fanatical lies made in the #@!!% Suzuki-Documentary —

Golf courses cause cancer [?!?!]

WCTA has no intention to defend the golf industry from Suzuki cancer-attacks in the documentary !

Instead, Western Canada Turfgrass Association (WCTA) squanders vast sums of money, endless time and energy, and considerable resources on issues that DO NOT benefit the golf industry. (See later segments.)

WCTA also supports the prohibition against pest control products used in the urban landscape.

In view of the WCTA's track record, how can this trade association be expected to defend the golf industry from attacks by David Suzuki ?!?!

How can WCTA be considered competent to deal with the Suzuki when it considers the Suzuki attacks as mere mis-information or alternative opinions ?!?!

The #@!!% Suzuki-Documentary, « *Dad and the Dandelions* », which first aired on March 2nd, 2017, represented the most dishonest anti-pesticide campaign against the golf industry by falsely and strongly implying that golf courses cause cancer.

Suzuki spewed destructive anti-pesticide and science-hating fanatical lies against the golf industry.

His documentary was a malicious concoction of an imaginary danger about the golf industry.

Because of the Suzuki cancer-attacks in the documentary, the golf industry faces imminent destruction because the elected officials and staff at WCTA continue to leave their heads firmly up their anti-pesticide bxtts !

In other industries, such important responses would have been relegated to professional writers, and NOT to amateurish and illiterate administrative staff and a retired civil servant.

Instead, these WCTA idiots have concocted generic, inept, and ineffectual responses.

WCTA cannot, and will not, act to defend the golf industry from the Suzuki cancer-attacks in the documentary !

WCTA is also a failure as a trade association.

The golf industry is in lots of deep #@!!% trouble !

NORAHG Commentary

What Is Wrong With WCTA ?!?!

Is WCTA really unwilling to take steps against David Suzuki ?!?!

YES !

Is WCTA attempting to #@!!% validate prohibition ?!?!

YES !

Is WCTA #@!!% tone death ?!?!

YES !

Is WCTA out of #@!!% touch with reality ?!?!

YES !

Is WCTA out of its #@!!% mind ?!?!

YES !

Is WCTA unable to pull its #@!!% head out of its bxxtt ?!?!

YES !

Is WCTA operated by blind idiots ?!?!

Perhaps.

Is WCTA operated by a bunch of pussies ?!?!

Absolutely.

Is WCTA aware that the imminent destruction of the golf industry will be its fault ?!?!

Not likely.

At the very least, the elected officials and staff at WCTA are not very good at their jobs — and they do not serve the best interests of golf superintendents and their facilities.

WCTA has not, and will not, give its members and conference delegates what they want and what they need.

WCTA does not deserve the membership and venue profits that are collected from the golf industry.

WCTA is a failure because elected officials and staff at WCTA continue to keep their heads firmly up their anti-pesticide bxxtts.

WCTA is also a failure as a trade association because ...

WCTA leaders will not pull their anti-pesticide heads out of their bxxtts.

WCTA will not stop supporting anti-pesticide prohibition.

WCTA will not stop validating those lunatics who seek to subvert and harm the golf industry.

WCTA will not stop peddling bogus green alternative pesticides.

WCTA will not denounce the Suzuki cancer-attacks in the documentary as destructive anti-pesticide and science-hating fanatical lies against the golf industry.

WCTA is a failure because it supports prohibition.

WCTA conspires to impose prohibition against pest control products used in the urban landscape.

WCTA also supports legislation that torpedoes and destroys businesses operating in the professional lawn care industry.

WCTA squandered considerable resources that helped destroy an industry that could have been an important ally.

WCTA is a failure because it conspires with enemies of the golf industry.

WCTA leaders allowed themselves to be appeased by Canadian Cancer Society, an organization that has repeatedly demanded the revocation of the golf industry pesticide exception status.

WCTA squandered endless time and energy with cancer-lunatics who have conspired against both the golf and professional lawn care industries.

WCTA is a failure because it recklessly chooses anti-pesticide speakers for its conferences.

For example, WCTA leaders brokered a questionable arrangement with Canadian Cancer Society that allowed their top foreign lobbyist, Paul Tukey, to subvert members of the golf industry with his usual lies and pesticide bans and the imaginary danger of pest control products.

WCTA squandered vast sums of money for Tukey to speak at its 2013 conference.

WCTA is a failure because it validates green alternative pesticides.

WCTA has spread lies concerning nematode insecticides and practices that are, in fact, not effective for the control of damaging insects like European Chafer Insects.

WCTA has squandered vast sums of money by peddling bogus green alternative pesticides that do not work.

WCTA is a failure because it has conducted an amateurish and ineffective political lobbying campaign.

WCTA has made some quasi-serious, but amateurish, attempts with a political lobbying campaign.

Unfortunately, WCTA often pays lip service to the importance of protecting the golf industry's pesticide ban exception status, and has confined itself to simply sending letters and promoting a poster.

Clearly, NO ONE in WCTA has any expertise in matters concerning professional lobbying.

WCTA is a failure because it refuses to defend the golf superintendents and their facilities.

WCTA has not, and will not, defend them from the likes of David Suzuki.

It WILL NOT act since its intention is to just #@!!% dialogue !

WCTA is unable or unwilling to strike back and destroy David Suzuki and defend golf superintendents and their facilities under the pretext that it does not want to appear too aggressive or too defensive.

It allows the enemies of the golf industry, like Suzuki, to falsely-allege that golf courses cause cancer.

Instead, WCTA worries about the sensitive feelings of golf-hating terrxrists like David Suzuki.

Incredibly, WCTA refuses to denounce the Suzuki cancer-attacks in the documentary as destructive anti-pesticide and science-hating fanatxcal lies against the golf industry.

WCTA is a failure because its own members say so.

Over the past decade, WCTA has lost over half of its delegates who attend its annual conference.

Who can blame them ?!?!

WCTA has not, and will not, give its members and conference delegates what they want and what they need.

With its refusal to act against the Suzuki cancer-attacks, WCTA is telling golf superintendents to fend for themselves !

WCTA has no intention of helping any of its members !

We are the **N**ational **O**rganization **R**esponding **A**gainst **HUJE** that conspire to destroy the **G**reen space and other industries (**NORAHG**). As a non-profit and independent organization, we are environmentalists who are dedicated to reporting about truth-challenged pesticide-hating fanatics (**HUJE**) who conspire to destroy businesses that are dependent on their use of conventional pest control products. We also report on the work of respected and highly-rated experts who promote environmental realism and Pesticide Truths. <http://wp.me/p1jq40-8DV>

NORAHG is the sworn enemy of lying, pompous, smug, uneducated, & pesticide-hating enviro-fanatѓcs.
