FAILURE

The WCTA Trade Association's Inept & Ineffectual Responses To
The # @!!% Suzuki-Documentary, « *Dad and the Dandelions* »

Page 1 of 9 - ACTION

Western Canada Turfgrass Association Member Response to CBC's "Dad and the Dandelions" from March 2, 2017

ISSUE

The CBC's broadcast of "The Nature of Things with David Suzuki" produced by film maker Andrew Nisker, portrayed golf courses in one of his interviews as "toxic waste sites".

The program also negatively implicated sportsfields and other managed turf areas. As an association of multiple sportsturf management sectors, this is a good opportunity for our industry to dialogue with the public, media, government, environmental groups and any other stakeholders, about the benefits of turf and greenspace, sometimes called 'Natural Capital', along with our environmental stewardship efforts as professional turfgrass managers. We should not be afraid to promote our position in our communities.

ACTION

The following messaging will support that dialogue with the intent to align all our individual statements for consistent representation of the facts. The topic of pesticides can be a sensitive one with arguments often based more on opinion and emotion than on science.

The WCTA Trade Association's Inept & Ineffectual Responses To
The # @!!% Suzuki-Documentary, « *Dad and the Dandelions* »

Page 2 of 9 - ACTION (continued)

The document is presented in a "Potentially Asked Questions" format. Some of these questions are directly relevant to clarifications needed due to the CBC broadcast and some are more broadly based information you may get asked about from time to time. At the end of this document is an audited list of turfgrass environmental benefits presented by the Canadian Turfgrass Research Foundation.

When being interviewed, keep in mind to never simply answer yes or no without providing an explanation / rationale. Expect that you will never be asked about the good points, so fit in the benefits of golf courses, sportfields, and turfgrass at every opportunity.

It's important to remain respectful and professional when addressing any concerns raised over pesticide issues. Being aggressive or too defensive generally will not accomplish the intended goal of separating the myths from facts of the issue. We recommend you don't attack the sources of any misinformation or alternative opinions or throw any other pesticide user industries 'under the bus'.

Instead, direct any concerns back to the facts, which usually means pointing out that pesticides are stringently regulated including Health Canada's rigorous testing, approval and re-evaluation process, along with individual requirements for the protection of human health and the environment in each province.

Please note: While Health Canada regulates pesticides federally, there are some provincial and municipal variances in terms of pesticide application regulations and governmental responsibilities related to the protection of human health and the environment. Further customizing your comments for more detailed statements about your specific area and circumstances, can be added as required.

The Western Canada Turfgrass Association, with its mandate of 'Research, Education, Networking, and Advocacy', will continue its leadership role through concerted efforts supporting the turfgrass management industry in western Canada and enabling individual professional sportsturf managers from all sectors help the public gain an understanding of our environmental achievements and the benefits to our communities and economies as a result of our responsible efforts.

Keep up the great environmental stewardship!

Peter Sorokovksy, MSc.
President, WCTA

NORAHG Commentary

The Suzuki Enviro-Terrxr Campaigns Against The Golf Industry

Nobody At WCTA Cares !

The WCTA responses to the #@!!% Suzuki-Documentary are WORTHLESS.

WCTA faces golf-hating enviro-terrxr campaigns that has been ramping up for over a decade. <http://wp.me/p1jq40-ahH>

This looming shipwreck has been predicted — and WCTA, and other trade organizations, were warned dozens and dozens of times. <http://wp.me/P1jq40-1N1>

On March 2nd, 2017, David Suzuki launched his strongest enviro-terrxr attack against the hated golf industry by spreading mis-information

about golf courses causing cancer and killing people, with his CBC documentary « *Dad and the Dandelions* ». <http://wp.me/p1jq40-a82>

In fact, sensitive IPM data about golf superintendents and their facilities were used against the golf industry in the documentary.

This IPM data has been pilfered by Suzuki-operative Meg Sears from the unsecured web-site of the IPM Council of Canada.

Since 2016, the hacked IPM data has been evaluated by Sears and other Suzuki-operatives in a manner that is intended to humiliate, damage, and destroy golf superintendents and their facilities.

The elected officials and staff at WCTA, and other trade organizations, could not even be bothered to demand the shut-down of the IPM Council web-site.

And again, this imminent train wreck has been predicted — and WCTA, and other trade organizations, were warned dozens and dozens of times. <http://wp.me/p1jq40-9HX>

Nobody at WCTA cares !

Sadly, WCTA has no intention whatsoever to defend the golf industry from these enviro-terror campaigns launched against the golf superintendents and their facilities. <http://wp.me/p1jq40-af8> <http://wp.me/p1jq40-ahH>

The golf industry is in lots of deep #@!!% trouble !

The Intention Of WCTA Is To Continue To Ignore Suzuki Enviro-Terrxr Attacks, & Focus On #@!!% Dialogue That Will Not Offend The Sensitive Emotions & Feelings Of Poor Lil' David Suzuki

Nobody At WCTA Cares !

WCTA's Inept & Ineffectual Responses To The #@!!% Suzuki-Documentary

Dialogue Must Not Hurt Emotions & Feelings Of Our Attackers

According to WCTA ...

ACTION

The following messaging will support that DIALOGUE with the intent to align all of our individual statements for consistent representation of the facts.

The topic of pesticides can be a SENSITIVE one with arguments often based more on OPINION and EMOTION rather than on SCIENCE.

[**COMMENTARY** — Sensitive pesticide topics. Who cares ?!?! Opinion and emotion against pesticides. Who cares ?!?! Suzuki does not care. David Suzuki despises the game of golf — this is a fact that has been documented for over a decade. <http://wp.me/p1jq40-ahH> Why is WCTA

worried about poor lil' Suzuki's sensitive emotions & feelings ?!?! The action recommended by WCTA sucks ! Nobody at WCTA cares !]

WCTA's

**Responses Are
Amateurish & Ineffective**

Emotions

Opinions

Sensitivities

Who Cares ?!?!

**Why Is WCTA Worried
About Poor Lil' Suzuki's
Sensitive Emotions**

& Feelings ?!?!

**Is WCTA Out Of #@!!%
Touch With Reality ?!?!**

WCTA worries about the SENSITIVE FEELINGS of golf-hating enviro-terrørists like David Suzuki.

Why should we care about poor lil' Suzuki's FEELINGS ?!?!

The action recommended by WCTA sucks !

Suzuki attacked the golf industry by falsely and strongly implying in his #@!!% documentary that golf courses cause cancer and kill people.

Is Suzuki's enviro-terrør attack an OPINION that WCTA will not argue against because poor lil' Suzuki will get all EMOTIONAL ?!?!

Really ?!?!

Again, why should we care about poor lil' Suzuki's EMOTIONS ?!?!

Suzuki attacked the golf industry with anti-pesticide and science-hating fanatørkal lies.

Suzuki attacked the golf industry because he despises the golf industry and conspires to annihilate golf superintendents and their facilities !

Suzuki and his operatives have called on all provinces to expand pesticide bans to all golf courses.

They have also stated that they DO NOT want any exceptions for the golf industry.

WTF ?!?!

Why is WCTA worried about poor lil' Suzuki's EMOTIONS and FEELINGS ?!?!

Lying sacks of crxþ like Suzuki have NO FEELINGS and NO EMOTIONS.

In fact, Suzuki is a lying hateful bastxrd with depraved indifference about his enviro-terrþr campaigns that will destroy the golf industry.

And sadly, WCTA will not act to defend the golf industry !

Nobody at WCTA cares !

WCTA's Inept & Ineffectual Responses To The #@!!% Suzuki-Documentary

Do Not Strike Back Against Those Who Attack Us

According to WCTA ...

This document is presented as a « Potentially-Asked Questions »format. [See later reports.]

Some of these questions are directly relevant to clarifications needed due to the CBC broadcast, and some are broadly-based information you may get asked about from time to time.

At the end of this list is an audited list of turfgrass environmental BENEFITS presented by the Canadian Turfgrass Research Foundation.

<http://pesticidetruths.com/wp-content/uploads/2011/11/Positive-Waves-Benefits-Of-Turfgrass-CTRF-2-0.jpg>

When being interviewed, keep in mind to simply answer yes or no without providing an explanation or a rationale.

It is important to remain respectful and professional when addressing any concerns raised over pesticide issues. [?!?!]

Being AGGRESSIVE or TOO DEFENSIVE generally WILL NOT accomplish the intended goal of SEPARATING THE MYTHS FROM FACTS of the issue. [?!?!]

[**COMMENTARY** — Benefits of turfgrass. Who cares ?!?! Natural capital. Who cares ?!?! Too aggressive and too defensive. Who cares ?!?! Separating myths from facts. Suzuki does not care. Who cares ?!?! The action recommended by WCTA sucks ! Nobody at WCTA cares !]

WCTA's

**Responses Are
Amateurish & Ineffective**

Benefits of turfgrass

***Separating myths
from facts***

Too aggressive

Too defensive

Who Cares ?!?!

**Why Is WCTA Worried
About Being Too Aggressive
& Too Defensive Against
Poor Lil' Suzuki ?!?!?**

**Is WCTA Operated By
A Bunch Of Pussies ?!?!?**

WCTA says we should be worried about being TOO AGGRESSIVE and TOO DEFENSIVE when defending the golf industry.

Really ?!?!?

And again, why is WCTA worried about poor lil' Suzuki's EMISSIONS and FEELINGS ?!?!?

It appears that WCTA is unable, or unwilling, to strike back and destroy David Suzuki, and defend golf superintendents and their facilities.

WCTA cannot, and will not, act to defend the golf industry !

Besides, WCTA may not even be competent to fight against Suzuki since it considers his enviro-terror campaigns as mere MIS-INFORMATION or ALTERNATIVE OPINIONS.

WCTA defines its responses as separating myths from facts.

Really ?!?!?

Forget about the myths.

Suzuki LIES about cancer caused by golf courses.

Suzuki LIES about golf courses killing people.

He is a lying sack of crx̃p !

Suzuki has ridiculously implied that his non-expert assessment concerning the golf industry is somehow being withheld from Health Canada and every other science-based regulatory agency in the world.

Suzuki is a science-hater, and imposes politicized-doctrines with the intent to harm the golf industry by destroying its businesses and to terr̃rize its owners and employees.

Suzuki falsely and strongly implied in his #@!!% documentary that golf courses cause cancer.

This is not MIS-INFORMATION or ALTERNATIVE OPINION; this is a malicious concoction of an imaginary danger about the golf industry.

Moreover, it does not look as though Suzuki himself is too worried about being TOO AGGRESSIVE or TOO DEFENSIVE.

Perhaps we should better enunciate the message purveyed by the #@!!% Suzuki documentary —

Golf courses cause cancer [?!?!]

Golf courses kill people [?!?!]

How many times do have to repeat the message of the Suzuki enviro-terr̃r campaigns ?!?!

There is no need to SEPARATE ANY MYTHS FROM FACTS because ...

Suzuki is a lying sack of crx̃p !

Golf courses do not cause cancer !

Was WCTA looking the same broadcast that everyone else was watching ?!?!

Everyone in the golf industry — no matter where they live — must strike back and destroy Suzuki.

Everyone in the golf industry must take clear and aggressive actions to destroy Suzuki and his fanatical-operatives.

Anyone who does not bother to take these actions does not deserve a career, or a business, or any success in the golf industry.

If WCTA does not bother to take these actions, it does not deserve the membership profits that it receives from the golf industry.

WCTA can strike back and destroy Suzuki by vigorously exploiting his many vulnerabilities —

- Suzuki illegally interferes in partisan politics and public policy.
- Suzuki imposes politicized-doctrines that lead to children at risk, personal suffering, business hardship, high costs, and dead, dying, and dangerous urban environments that look like garbage dumps.
- Suzuki imposes politicized-doctrines to destroy businesses and to harm their owners and employees.
- More specifically, Suzuki imposes politicized-doctrines with the intent to harm the golf industry.
- Suzuki is a lying hateful bastard with politicized-doctrines that have proven to be destructive.
- Suzuki is just a largest multi-million dollar money-making machine of its kind.
- Suzuki is unfit to give advice because of his personal incompetence.
- Suzuki exists for one reason and one only ... and that is to make money through illegal activities.

It's time to strike back and destroy David Suzuki !

Suzuki must be stopped with aggressive and defensive action !

FAILURE

WCTA Must

DESTROY

David Suzuki
In Public Debate

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE
National Organization Responding Against HUJE that conspire to destroy the Green space and the industry (NORAHG)

Why Is **WCTA** A Failure ?

WCTA is a failure as a trade association.

WCTA is a failure because its elected officials and staff refuse to defend the golf superintendents and their facilities.

WCTA has not, and will not, defend them from the likes of David Suzuki.

Incredibly, it worries more about Suzuki's sensitive emotions and feelings.

The intention of WCTA is to continue to ignore the Suzuki's enviro-terror campaigns, and focus on dialogue that will not offend the emotions and feelings of David Suzuki.

WCTA is worried about being too aggressive and too defensive against Suzuki's enviro-terror campaigns. Why ?!?!

It is unable, or unwilling, to strike back and destroy Suzuki by vigorously exploiting his many vulnerabilities.

It will not destroy Suzuki in public debate.

Why ?!?!

Because WCTA is operated by a bunch of pussjes.

Because WCTA is out of #@!% touch with reality.

It allows the enemies of the golf industry, like Suzuki, to falsely-allege that golf courses cause cancer and kill people.

WCTA leaders will not pull their heads out of their anti-pesticide
bxttsbecause nobody at WCTA cares !

The golf industry is in lots of deep #@!!% trouble !

**The Intention Of WCTA Is To
Continue To Ignore The Suzuki
Enviro-Terrxr Campaigns Against
The Golf Industry Rather Than Strike
Back & Destroy Suzuki By Vigorously
Exploiting His Many Vulnerabilities

Norah GFON

All bad trade associations must come to an end

FORCE OF NATURE : DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE
National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG)

WE SPEAK THE WHOLE TRUTH ABOUT WCTA FAILURES FROM AN INDEPENDENT PERSPECTIVE !

We are the **N**ational **O**rganization **R**esponding **A**gainst **HUJE** that conspire to destroy the **G**reen space and other industries (**NORAHG**). As a non-profit and independent organization, we are environmentalists who are dedicated to reporting about truth-challenged pesticide-hating fanatics (**HUJE**) who conspire to destroy businesses that are dependent on the use of safe and effective conventional pest control products. We also report on the work of respected and highly-rated experts who promote environmental realism and Pesticide Truths. <http://wp.me/p1jq40-8DV>

NORAHG is the sworn enemy of lying, pompous, smug, uneducated, & pesticide-hating enviro-fanatxcs. Overwhelming scientific evidence clearly demonstrates that pest control products are scientifically-safe, and will not cause harm to children, adults, animals, or the environment. <http://wp.me/p1jq40-7HR> <http://wp.me/P1jq40-2ha> <http://wp.me/p1jq40-6Q6> <http://wp.me/p1jq40-5ni>

Not surprisingly, enviro-fanatxcs have demonstrated that they are incapable of processing overwhelming scientific evidence. Should we trust these fanatxcs, who conveniently ignore scientific evidence, and attempt to impose their politicized-doctrines and twisted life-style choices against our society ?!?!

NORAHG was the brainchild of Mr William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder. We dare to defy the pesticide-hating fanatxcs by exploring the whole truth from an independent perspective on The Pesticide Truths Web-Site ... <http://pesticidetruths.com/>

With a Conservative victory in the 2019 Canadian Federal Election, there will be NO NATIONAL PROHIBITION against pest control products.

✓ – **Vote For Scheer's Conservatives** <http://wp.me/p1jq40-ahq>
