# Enviro Terror spreads ... IN QUALICUM, BRITISH COLUMBIA

Qualicum Beach, or « *Qualicum* », is a seaside town with a population of over 8,500 people.

Qualicum is located on the east coast of Vancouver Island in British Columbia, Canada.

### CANADIAN-CANCER-SOCIETY

Contemptible and Radical Canadian-Cancer-Society is ALARMING and TERRORIZING the people of Qualicum by CONCOCTING FEAR-MONGERING, FRAUDULENT LIES, COERCION, THREATS, DECEPTIONS, TERROR, MISCONCEPTIONS, and PARANOID CONSPIRACIES about pest control products.

Cancer-Maniacs have NO recognized expertise, training or background in matters concerning pest control products! Their opinions concerning pest control products are TOTALLY VALUE-LESS and UTTERLY WORTHLESS!

Canadian-Cancer-Society is an Environmental-Terror-Organization that CONSPIRES to ANNIHILATE the entire Modern Green Space Industry with the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE pest control products.

PROHIBITION leads to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UN-EMPLOYMENT, inflicting TERROR, DESPAIR, and DESTITUTION on THOUSANDS of hapless victims throughout the Professional Lawn Care Industry.

### NO GOLF INDUSTRY EXCEPTION

In many jurisdictions, the Golf Industry now enjoys the benefits from a PROHIBITION EX-CEPTION STATUS despite the fact that it uses the VERY SAME INGREDIENTS used in the Professional Lawn Care Industry.

If it is safe to walk and play on a pesticidetreated golf course putting green, it is also safe to walk on a pesticide-treated lawn.

However, on December 2<sup>nd</sup>, 2009, a Government Official in the PROVINCE OF PRINCE ED-WARD ISLAND ( P.E.I. ) issued the following WARNING to the Golf Industry —

« We're allowing (2,4-D) on golf courses because it's a major industry for P.E.I. and we're working towards getting off it. What we're basically saying is you [the Golf Industry] better find a way to get off it over the next couple of years. »

On February 22<sup>rd</sup>, 2010, a Government Official in the TOWN OF REVELSTOKE, located in the Province of British Columbia, issued the following WARNING to the Golf Industry —

« Give it [ prohibition ] a time frame for people to comply. Everybody's going to cry, maybe extend the deadline if it's not working but get it started anyway. There should be a phase in, especially to help the city-owned Revelstoke Golf Club. »

As of July 29<sup>th</sup>, 2010, the people of QUALICUM are now THREATENING THE GOLF INDUSTRY.

PESTICIDE BY-LAW
PUT ASIDE
FOR MORE STUDY

JULY 29<sup>™</sup>, 2010

NEIL HORNER

PARKSVILLE QUALICUM BEACH NEWS

The Town of Qualicum Beach made a strategic withdrawal on its push to enact a bylaw outlawing the use of cosmetic pesticides in the community, But that likely won't slow down the initiative in the long run. [?!?!]

[ Another example of ADVOCACY JOURNALISM. ]

Speaking at a special council meeting [July 28th, 2010], COUNCILLOR JACK WILSON urged his colleagues to DEFER THIRD READING OF THE BYLAW until a full and detailed list can be made to show what products would be taken off the shelves and what would stay on.

As well, WILSON called for a full accounting of any EXTRA COSTS associated with the town keeping a « *Communities in Bloom* » standard of floral excellence while BANNING the use of many pesticide products.

WILSON, an avid gardener, found himself getting welcome — though likely short-term — support from enough of his fellow councillors to PUT THE BRAKES ON THIRD READING for now.

MAYOR TEUNIS WESTBROEK spoke in favour of WILSON'S motion, noting it makes sense to have a clear understanding of the implications of such a move.

COUNCILLOR KENT BECKER also spoke in favour, despite a vehement statement against the use of the toxic products.

### It is NOT RIGHT to exempt GOLF FACILITIES from the cosmetic pesticide ban

According to Councillor Kent Becker  $\,$  -

<< You just have to read the labels. If it says not to walk on your
grass once you've used it, why would you want it on there? It all
ends up somewhere, and that's usually in the water. >>
[ Wrong! ]

With that said, BECKER agreed it would be advantageous to get more information on the issue and deal with it at the August council meeting.

WILSON wasn't done though.

He expressed frustration at the proposed by-law, arguing it SHOWS DISRESPECT for the people of QUALICUM BEACH.

According to Councillor Jack Wilson  $\,-\,$ 

<< It shows you don't trust the residents to know enough to do the right thing with pesticides and use them responsibly. >>

A staff report to council noted the SELECT COMMITTEE ON THE ENVIRONMENT met to discuss the bylaw and recommended amending the bylaw to REMOVE EXEMPTIONS for the QUALICUM BEACH MEMORIAL GOLF CLUB, the QUALICUM BEACH LAWN BOWLING CLUB, and SEMIAHMOO GOLF CENTRE.

This came up at Wednesday's meeting, when one resident said IT WASN'T RIGHT TO EXEMPT THESE BIG PLAYERS FROM THE COSMETIC PESTICIDE BAN.

According to the anonymous resident —

<< If it's good for one, it should be good for everybody. This is just not right. >>

### Pest control products are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
