## Decision by Government of Alberta

August 9<sup>th</sup>, 2011

Environment Alberta

Selected and adapted excerpts

### Summary

Alberta Environment is an agency of the Government of Alberta. Alberta Environment was requested to respond to a motion from Transportation and Public Works Committee of the City of Edmonton. The motion was developed at the Restriction on Pesticides Hearing, held on February 23<sup>rd</sup>, 2011. The motion was for the Government of Alberta to review the PROHIBITION of pest control products in other Canadian provinces and to determine the viability of a similar approach in Alberta.

Alberta Environment noted that municipal and provincial governments struggle with the shifting attitudes in public concern towards risk associated with the use of pest control products in urban landscapes. Alberta Environment also observed that the public is dealing with a wide variety of conflicting information on this topic.

Alberta Environment intends to continue to strongly support using science-based evidence, and WILL NOT CREATE RESTRICTIONS OR LAWS that conflict with Health Canada, the federal agency relied upon for health and safety assessments. Restricting access to products that are designed and approved to be used safely conflicts with Alberta Environment's assessment of the public's need for access to all tools available for controlling a variety of pests.

# Victory

## Decision by Government of Alberta

*No Intent To Ban the Sale of Any Pesticides*

### REVIEW OF PESTICIDES BANNED IN OTHER PROVINCES AND APPLICABILITY IN ALBERTA

---

August 9<sup>th</sup>, 2011

Government of Alberta

Province of Alberta Jurisdiction and Review

In response to this question, Alberta Environment has provided a letter from the Assistant Deputy Minister and a review of pesticide active ingredients banned in other provinces.

The Ministry's response indicates NO INTENT TO BAN THE SALE OF ANY PESTICIDES in Alberta beyond the previous action prohibiting the sale of « *weed and feed* » combination herbicide/fertilizer products.

SUBJECT : REVIEW OF PESTICIDES BANNED IN OTHER PROVINCES  
AND APPLICABILITY IN ALBERTA

---

Alberta Environment was requested to respond to a Transportation and Public Works Committee motion developed at the Restriction on Pesticides Hearing, held on February 23, 2011.

# Victory

## Decision by Government of Alberta

The motion was for the provincial government to review the ban of pesticide ingredients in other Canadian provinces and to determine the viability of a similar approach in Alberta.

A summary is attached for your review describing the approaches to pesticide bans that have occurred to date in Canada.

The information is recent; showing bans in effect in Eastern Canada.

Our review notes that municipal and provincial governments struggle with the shifting attitudes in public concern towards risk associated with pesticide use in urban landscapes.

We also observe the public is dealing with a WIDE VARIETY OF CONFLICTING INFORMATION on this topic.

Although several municipalities across Canada have imposed bans on pesticide use within their jurisdiction, they do not have the authority to restrict sales and have looked to their provincial governments for such action.

Alberta Environment has monitored pesticide bans over the past few years and the approaches taken by other jurisdictions, and has found THE BASIS FOR MUNICIPAL ACTION CONFUSING AND INCONSISTENT.

# Victory

## Decision by Government of Alberta

To achieve a more unified approach within their jurisdictional boundaries some provincial governments have responded to the municipal bans, which has created further CONFUSION AND INCONSISTENCY.

Alberta Environment has the mandate for pesticide management in Alberta, which involves the classification of pesticides and the authorizations required for their sales and use.

The Pest Management Regulatory Agency of Health Canada has the mandate for approval of pesticides for use in Canada.

We RELY ON and direct all individuals, agencies or governments to this federal body of expertise regarding the health and safety assessments and/or toxicological concerns for the pesticides approved for use in Canada.

To date, Alberta Environment has imposed a ban only on the sale and use of lawn care products that have been formulated with coupled fertilizer and herbicide ( in particular, those containing the pesticide active ingredients 2,4-D, mecoprop. and dicamba commonly referred to as « *weed and feed* » ).

Our action, which involved the assessment of years of water monitoring data and sales and use data from the two major cities in Alberta, was science-based and designed to remove a pesticide formulation ( and not the active ingredients) that contributed to unnecessary over-application causing impact on our surface water down-stream from urban centres.

# Victory

## Decision by Government of Alberta

This action was supported by all provincial governments, Alberta municipal governments and industry.

In addition, the federal government is no longer supporting such « *weed and feed* » coupled formulations for lawn and turf use and these products will no longer be available in Canada after December 31, 2012.

Alberta Environment will continue to STRONGLY SUPPORT USING SCIENCE-BASED EVIDENCE, and WILL NOT CREATE RESTRICTIONS OR LAWS THAT CONFLICT WITH THE FEDERAL GOVERNMENT, who we rely on for health and safety assessments.

Restricting access to products that are designed and approved to be used safely CONFLICTS WITH OUR ASSESSMENT of the public's need for access to all tools available for controlling a variety of pests.

Alberta Environment has monitored the sales and use of pesticides in the major urban landscapes, and our information reflects a CONTINUED NEED AND SUPPORT for such products, whether it be for weed, insect or disease control.

The variation in geography and type of pests, and the episodic nature of pest outbreaks ( particularly in municipalities comprised and/or surrounded by agricultural influence ) requires flexibility and continued access to pesticide products.

# Victory

## Decision by Government of Alberta

*Alberta Environment DOES NOT INTEND  
TO MOVE TO PROHIBIT pest control products*

The pesticide bans in eastern Canada have resulted in a range of activities, from the introduction of many new lower-risk pesticides to some manufacturers no longer marketing their products in Canada, and to the cross-border transport of pesticides that may or may not be approved for use in Canada.

Whether favourable or not, THE IMPACT ON THE CONSUMER IS CONTRIBUTING TO GREAT CONFUSION, and is leading to compliance and enforcement challenges.

Alberta Environment DOES NOT INTEND TO MOVE TO PROHIBIT the sale of pesticides beyond the current prohibition we have on « *weed and feed* » lawn care products.

Ernie Hui  
Assistant Deputy Minister  
Policy Division

# Background Information

## from an Independent Perspective

### EDMONTON, ALBERTA

---

Edmonton is the capital of the Province of Alberta, in Western Canada.

Edmonton has a population of over 700,000, with its metropolitan area over 1,000,000.

Edmonton is the latest city in Alberta to be INFESTED with Anti-Pesticide VERMIN.

In the City of Edmonton, Anti-Pesticide PROHIBITION WILL FAIL !

PROHIBITION of pest control products and the resulting Pesticide-Free turf maintenance programs have RUINED Urban Green Spaces in both Canada and America.

The MUNICIPAL CARNAGE of implementing and enforcing NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products is costing from HUNDREDS OF THOUSANDS OF DOLLARS TO TENS OF MILLIONS OF DOLLARS PER YEAR FOR EACH MUNICIPALITY !

So far, the MUNICIPAL CARNAGE of Anti-Pesticide PROHIBITION across Canada has cost the public HUNDREDS OF MILLIONS OF DOLLARS.

On the subject of the safety of pest control products, Anti-Pesticide Activists LIE and LIE and LIE and LIE.

On February 23rd, 2011, the lunatics kept on LYING, and the HEROES spoke out against them during the Transportation and Public Works Committee's Restriction on Pesticides Hearing.

### VICTORY AGAINST ANTI-PESTICIDE TERRORISM IN NEARBY CALGARY

---

In 2009, Anti-Pesticide PROHIBITION FAILED in the nearby City of Calgary, located near Edmonton.

The Anti-Pesticide Organizations that operated in the City of Calgary included

- Canadian Association of Physicians for the Environment
- Canadian Cancer Society
- Coalition for a Healthy Calgary
- David Suzuki Foundation
- Sierra Club of Canada.

The CONSPIRACY to PROHIBIT pest control products was attempted through BASTARDLY LIES, and MORE LIES.

According to Anti-Pesticide Activists, a Calgary PROHIBITION would be good for business and employment [ Wrong ! ].

They are LYING SACKS OF Anti-Pesticide COWP !

Anti-Pesticide Activists defended PROHIBITION by IGNORANTLY BLURTING OUT TERMS like « *birth defects* » and « *cancer* » and « *poison* » !

How Do You Spell B-A-S-T-E-R-D-S ?

In all jurisdictions that have been inflicted by PROHIBITION, the Modern Professional Lawn Care Companies have been driven into BANKRUPTCY, BUSINESS FAILURE, UNEMPLOYMENT, DESTITUTION, and DESPAIR !

# Background Information

## from an Independent Perspective

PROHIBITION HARMS AND DESTROYS BUSINESSES IN THE MODERN PROFESSIONAL LAWN CARE INDUSTRY !

Moreover, pest control products are HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.

Calgary Government Officials were wise enough to realize that policy made in accordance with scientific principals by experts specifically trained to assess these products is GOOD GOVERNMENT POLICY.

Time and again, the Pest Management Regulatory Agency of Health Canada has given its verdict ... pest control products are SAFE !

Congratulations to the City of Calgary for not caving in the face of Anti-Pesticide Activists.

---

ANTI-PESTICIDE PROHIBITION  
WILL FAIL IN EDMONTON !

---

A 2011 report cast the city's plans for weed control into the spotlight.

The City of Edmonton report stated that the PROHIBITION of pest control products would ...

- be DIFFICULT TO ENFORCE, and
- could lead to a DECLINE IN GREEN INFRA-STRUCTURE.

And when it comes to cost, the City of Edmonton estimated the PROHIBITION of pest control products would ...

- NEARLY DOUBLE ITS WEED CONTROL BUDGET, FROM 7.2 MILLION DOLLARS TO 14.1 MILLION DOLLARS.

The City of Edmonton report suggested that ...

- THE CITY OF EDMONTON MUST AVOID THE NEEDLESS, SENSELESS, AND MALICIOUS PROHIBITION OF PEST CONTROL PRODUCTS.

---

### CARNAGE IN MUNICIPAL GREEN SPACES

---

Anti-Pesticide PROHIBITION and the resulting Pesticide-Free turf maintenance programs have RUINED Urban Green Spaces in both Canada and America.

Because of Anti-Pesticide PROHIBITION, Pesticide-Free Urban Green Spaces are over-run by invasive and damaging weeds and insects, and LOOK LIKE GARBAGE DUMPS !

The MUNICIPAL CARNAGE of implementing and enforcing NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products is costing from HUNDREDS OF THOUSANDS OF DOLLARS TO TENS OF MILLIONS OF DOLLARS PER YEAR FOR EACH MUNICIPALITY !

So far, the MUNICIPAL CARNAGE of Anti-Pesticide PROHIBITION across Canada has cost the public HUNDREDS OF MILLIONS OF DOLLARS.

In many cities, Government Officials are now REVERTING BACK to conventional

# Background Information

## from an Independent Perspective

pest control because Green Alternatives SIMPLY DO NOT WORK.

In all cities, it is now recognized that so-called Green Alternatives are BOGUS, and ALMOST TOTALLY INEFFECTIVE.

Ultimately, cities are ONLY ABLE TO AFFORD Pesticide-Free Urban Green Spaces when they are able to use of VOLUNTEERS.

FOR PESTICIDE-FREE PARKS, THOUSANDS OF HOURS OF BACK-BREAKING VOLUNTEER WEED-PICKING ARE NEEDED.

Pesticide-Free Urban Green Spaces are a DISMAL FAILURE !

### ANTI-PESTICIDE ACTIVIST TERRORIZES EDMONTON

---

Predictably, Anti-Pesticide Lunatics slammed the findings the City of Edmonton report which encourages NO PROHIBITION.

Anti-Pesticide Lunatics like Raquel Feroe argued that the decision to not ban pesticides could end up costing much more in the long run, with humans and the environment paying the ultimate price. [ Wrong ! ]

Lunatics like Feroe criticized the City of Edmonton report, saying it did not come from Anti-Pesticide Health-Care-Workers ( i.e. Doctors and Nurses ).

In fact, Anti-Pesticide Health-Care-Workers know NOTHING about pest control products !

Anti-Pesticide Health-Care-Workers are NOT COMPETENT to give advice.

Raquel Feroe herself is a MERE Physical-Rehabilitation Methadone-Dispensing Doctor.

Feroe is an ILLEGAL NON-EXPERT LOBBY-IST with REPUGNANT Canadian Association of Physicians for the Environment, an Anti-Pesticide Organization.

### CAPE-LUNATICS LIE AND LIE AND LIE AND LIE

---

REPUGNANT Canadian Association of Physicians for the Environment ( CAPE ) has ABSOLUTELY NO CREDIBILITY and NO COMPETENT CAPACITY to handle matters concerning pest control products.

REPUGNANT-CAPE is composed of Lunatic Anti-Pesticide Health-Care-Workers and regular citizens — however, MOST CAPE MEMBERS ARE NOT EVEN PHYSICIANS.

In fact, CAPE represents an INFINITESIMALLY SMALL number of doctors — CAPE merely represents LESS THAN 4 PER CENT of all doctors in Canada.

Moreover, REPUGNANT-CAPE was created for concealing the EXTREMIST VIEWS of supposedly moderate professionals, such as Anti-Pesticide Health-Care-Workers ( i.e. Doctors and Nurses ).

Not surprisingly, NOT A SINGLE CAPE-Lunatic has ANY recognized expertise, training or background in matters concerning pest control products !

In fact, the principal mandate of REPUGNANT-CAPE has been to attract MORE MEMBERS, MORE DONATIONS, and MORE PROFIT by SCAMMING THE PUBLIC with the CONCOCTION of FRAUDULENT LIES

# Background Information

## from an Independent Perspective

and IMAGINARY DANGER about pest control products.

CAPE-Lunatics have fulfilled their PRETENTIOUS and SELF-PROCLAIMED mandate by giving FALSE and FRAUDULENT impression that the public is being exposed to cancer-causing agents whenever a pest control product is used in the Urban Landscape. [ Wrong ! ]

CAPE-Lunatics know NOTHING about pest control products.

They LIE and LIE and LIE and LIE.

REPUGNANT-CAPE IS  
MORE KNOWLEDGEABLE  
THAN HEALTH CANADA ?!?!?

---

NO !

In fact, pest control products are APPROVED and SAFE.

REPUGNANT-CAPE has MISAPPROPRIATED the money that it collected from the public and government by SQUANDERING hundreds of thousands of dollars on CONSPIRACIES leading to the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products that are, in fact, HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.

REPUGNANT-CAPE HAS NOT SAVED A SINGLE LIFE or PREVENTED A SINGLE CASE OF CANCER with its PROHIBITION-CONSPIRACIES.

CAPE-Lunatics have conveniently considered the hundreds of qualified scientists of Health Canada's respected Pest Manage-

ment Regulatory Agency to be incompetent and/or incapable of arriving at correct scientific findings concerning conventional pest control products.

In order to allow SOUND SCIENCE to be effectively practiced, the proper interpretation of scientific research about pest control products are performed by people who ARE COMPETENT to do it — Health Canada, and NOT CAPE.

NO pest control product can be sold or used until Health Canada's scientists have evaluated ALL the existing evidence to determine whether the product meets stringent health and safety requirements.

Conventional pest control products are SCIENTIFICALLY SAFE since they have been scrutinized and approved by the HUNDREDS of expert scientists at Health Canada !

Overall, when they are used properly, there are NO harmful irreversible effects to health and the environment !

---

ECO-TERRORIST  
RAQUEL FEROE

Raquel Feroe herself is a MERE Lunatic Anti-Pesticide Physical-Rehabilitation Methadone-Dispensing Doctor.

Feroe has NO recognized expertise, training or background in matters concerning pest control products !

Feroe is NOT well-informed about pest control products, but thinks she knows all there is to know — in other words, Feroe knows NOTHING about pest control products !

# Background Information

## from an Independent Perspective

Feroe compensates for her lack of expertise by CONCOCTING IMAGINARY DANGER, MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES about pest control products.

Consequently, the opinions expressed by Feroe are TOTALLY VALUELESS and UTTERLY WORTHLESS.

Feroe is NOT COMPETENT to give advice !

Feroe also appears to have issues with some of her patients, as seen in the following rating of her work —

*« Dr. Feroe put me on Methadone. Everything was good until I wanted to stop taking it as it didn't work. That's when the trouble started. I was so sick from the withdrawal that I couldn't even get out of bed. Imagine the worst flu you have ever had and multiply it by ten. Even knowing this, Dr. Feroe did not want to see me without a referral. I honestly thought I was dying, and she didn't care. She was never there with the withdrawal, and I ended up turning to AADAC for help. I would strongly recommend researching the drugs she puts you on first. Also, she takes the entire summer off every year, and there's nobody to help you while she's away. »*

[ No doubt, Feroe takes the summer off to conspire with other CAPE-Lunatics. ]

RAQUEL FEROE

LIES AND LIES AND LIES AND LIES

According to Anti-Pesticide Methadone-Dispensing Feroe —

*« I know there's an overwhelming body of evidence that there are serious health concerns with pesticides. » [ Wrong ! ]*

*« There's been a lot of epidemiology studies showing that there's increase associated with non-Hodgkins lymphoma, lymphoma brain cancer, prostate cancer, kidney cancer, childhood leukemias. »*

[ Wrong ! Wrong ! Wrong ! ]

It is truly amazing how Anti-Pesticide Lunatics like Feroe CONCOCT their IMAGINARY DANGER with conventional pest control products, and SCAM and DECEIVE the public by blurting out HOLLOW and DESPICABLY-ALARMIST expressions like « cancer » and « leukemia » and « lymphoma ». [ Wrong ! ]

Lunatics like Feroe also use terminally-ill children, or children in general, as a DRAMATIC WEAPONS OF ULTIMATE TERROR against the use of pest control products on the Urban Landscape — in fact, lunatics like Feroe COULD NOT CARE LESS ABOUT CHILDREN.

Feroe is provided with HUGE FINANCIAL INCENTIVES to CONCOCT IMAGINARY DANGER, MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES about pest control products.

Feroe is NOT COMPETENT to give advice !

# NORAHG

In the 9|11 Era of Environmental Terrorism, at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI-PESTICIDE TERRORISM where sound science is trumped by JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is National Organization Responding Against HUJE that seek to harm the Green Space Industry.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization dedicated to representing the work of RESPECTED and HIGHLY RATED EXPERTS who promote PESTICIDE REALISM and PESTICIDE TRUTHS.

HUJE are enviro lunatics, anti pesticide activists, and lawn haters, who particularly DESPISE the golf industry. They are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS. There is NO RECOURSE but LITIGATION against these HUJE, as well as CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX-EXEMPT STATUS of their organizations. HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library Computer Access and Retrieval System for all anti pesticide terrorist acts of subversion.

The NORAHG Library Computer Access and Retrieval System is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL anti pesticide activities has been made AVAILABLE through NORAHG to anyone interested in litigation.

These ARCHIVES contain names, statements, activities, and affiliations of ALL anti pesticide vermin, including government officials, as well as charitable prohibition terrorist organizations that DO NOT DESERVE ANY tax exempt status.

Interested parties need only to send NORAHG their REQUESTS for ANY INFORMATION needed in the War Against Lunatic Terrorist PROHIBITION.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

# NORAHG

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is committed to sound science, and ground-breaking original journalism that informs, entertains, and creates real change.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, is a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole ( now retired ) and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver/Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT e-newsletters

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT e-newsletters.

## The Whole Truth from an Independent Perspective

*Thank you,  
Alberta*
