REJECTION OF PESTICIDE BAN STUNS ALDERMAN

KRISTA SYLVESTER

NOVEMBER 17TH, 2009

METRONNEWS.CA CALGARY

A Calgary Alderman is disappointed city council did not approve an outright ban recommendation on cosmetic pesticide use in the city.

Ward 11 Alderman BRIAN PINCOTT said he was surprised about the turn of events in council yesterday since aldermen previously supported the ban. But council will move ahead with a bylaw to reduce the use of pesticides.

" It's good for the environment, it's good for the health and safety of citizens, and it's proven to be good for business, so why are we not moving forward with it ? " PINCOTT said.

Background Information from an Independent Perspective

**X ENVIRO-LIE : PROHIBITING PEST CONTROL PRODUCTS IS BENEFICIAL FOR BUSINESS IN THE GREEN SPACE INDUSTRY.
[WRONG !]**

✓ FACT : IN JURISDICTIONS WHERE PROHIBITION HAS BEEN IMPOSED, PROHIBITING PEST CONTROL PRODUCTS HAS ALREADY SEVERELY HARMED THE GREEN SPACE INDUSTRY !

Alberta Prohibition of Pest Control Products!

Calgary Part 3

ON-LINE COMMENTS

I am honorary Canadian observer on the U.S. Pesticide Working Group. The fact that there is no timeline for stopping the cosmetic pesticide use in Calgary makes the proposed bylaw an exercise in futility. To suggest, as some Councillors did, that there is as yet insufficient evidence of pesticide harm is proof that altogether too many Councillors have succumbed to industry propaganda. Shame on Calgary's City Council for rejecting a decent pesticide bylaw in favour of one that is incredibly weak and likely to prove entirely ineffective !

JEAN SERGENT (a.k.a. KAZIMIERA JEAN COTTAM, K. JEAN COTTAM, and JEAN COTTAM)

Complete Response to Miss Kazimiera Jean Sergent — Miss Kazimiera is an 80-year-old widow (born April 23, 1930) and a member (NOT an observer) of a radical U.S. Environmental Terror Organization. She is under the delusion that she is some type of SECRET AGENT working for some legitimate agency. The fact that Miss Kazimiera disagrees with the decision of the City of Calgary is of NO CONSEQUENCE whatsoever since she is merely a retired government translator with absolutely NO training, education, or background, in the field of pest control products. Miss Kazimiera's allegation that there is sufficient evidence of « *pesticide harm* » is simply a lie and misconception that is typically used by Environmental Terror Organizations to sow panic and mistrust into an unsuspecting public regarding FEDERALLY LEGAL and SCIENTIFICALLY SAFE pest control products. Predictably, Miss Kazimiera claims that Calgary Aldermen have « *succumbed to industry propaganda* », which is the usual RESPONSE OF PARANOIA from Enviro-Maniacs, who are frequently only able to provide information based upon JUNK SCIENCE instead of SOUND SCIENCE. Calgary officials should be commended for NOT capitulating to prohibitionist pressure that employs LIES, FEAR-MONGERING, MISCONCEPTIONS, COERCION, THREATS, and TERROR !

SENSIBLE APPROACH TO PESTICIDE USE

ROY CLANCY

CALGARY SUN

NOVEMBER 17TH, 2009

What are these ? City council appears to be covering the sensible middle ground when it comes to drafting a bylaw to reduce the use of pesticides in Calgary.

Although it will drive the anti-pesticide lobby buggy, council is steering clear of an outright ban.

Instead, regulations designed to reduce the use of pesticides, which include insecticides, herbicides, and fungicides, will be beefed up.

Commercial applicators will face tougher licensing standards and will be required to notify neighbours before treating a lawn.

While the bylaw will accommodate some spot-spraying, it will reduce or ban herbicides designed to be used over large areas.

The province has already announced it is banning herbicide-fertilizer combination products on Jan. 1 [2010].

These weed and feed type products accounted for more than one-third of all pesticides sold in Calgary in 2005.

Alberta Prohibition of Pest Control Products!

Calgary Part 3

It's been estimated that application of this product can use 10 times the amount of herbicide actually needed. [**WRONG !**]

It only makes sense that we reduce the number of chemicals in our environment — that eventually wind up leaching into our limited water supply. [**IT IS A MYTH TO BELIEVE THAT PROFESSIONAL LAWN CARE APPLICATIONS CONTAMINATE THE CITY WATER SUPPLY !**]

Groups such as the Canadian Association of Physicians for the Environment and the Canadian Cancer Society claim pesticides are linked to cancer and birth defects.

Background Information from an Independent Perspective

X ENVIRO-MYTH : CONVENTIONAL PEST CONTROL PRODUCTS USED IN THE GREEN SPACE INDUSTRY MAY PLACE HEALTH AND THE ENVIRONMENT AT RISK.

[WRONG !]

✓ FACT : PEST CONTROL PRODUCTS ARE AMONG THE MOST TESTED AND CLOSELY REGULATED SUBSTANCES IN CANADA.

✓ FACT : CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY SAFE SINCE THEY HAVE BEEN SCRUTINIZED AND APPROVED BY THE HUNDREDS OF EXPERT SCIENTISTS AT HEALTH CANADA !

✓ FACT : OVERALL, WHEN THEY ARE USED PROPERLY, THERE ARE NO HARMFUL IRREVERSIBLE EFFECTS TO HEALTH AND THE ENVIRONMENT !

✓ FACT : ACROSS CANADA, GREEDY MILLIONAIRE ENVIRO-TERROR ORGANIZATIONS ALLEGE THAT PEST CONTROL PRODUCTS ARE LINKED TO CANCER AND BIRTH DEFECTS IN ORDER TO INCREASE THEIR MEMBERSHIPS AND DONATIONS !

Alberta Prohibition of Pest Control Products!

Calgary Part 3

On the other hand, **Health Canada** says it approves only pesticides that show no increase to health risks and that 350 scientists test the chemicals. The federal agency is on the same page on this issue as the **World Health Organization** and the U.S. **Environmental Protection Agency**.

Reducing our reliance on pesticides is a no-brainer, but introducing a difficult-to-enforce bylaw isn't the way to do it.

Background Information from an Independent Perspective

✓ **FACT : CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY SAFE SINCE THEY HAVE BEEN SCRUTINIZED AND APPROVED BY THE HUNDREDS OF EXPERT SCIENTISTS AT HEALTH CANADA !**

✓ **FACT : NO PEST CONTROL PRODUCT CAN BE SOLD OR USED UNTIL HEALTH CANADA'S SCIENTISTS HAVE EVALUATED ALL THE EXISTING EVIDENCE TO DETERMINE WHETHER THE PRODUCT MEETS STRINGENT HEALTH AND SAFETY REQUIREMENTS.**

✓ **FACT : NOT A SINGLE PERSON IN THE ENVIRONMENTAL TERROR MOVEMENT HAS ANY RECOGNIZED EXPERTISE, TRAINING, OR BACKGROUND, IN MATTERS CONCERNING PEST CONTROL PRODUCTS !**

WARNING : THE SYSTEMATIC PROHIBITION OF LEGAL, SAFE, TOTALLY IRREPLACEABLE PEST CONTROL PRODUCTS IS A MEANS OF MAKING ENVIRONMENTAL TERROR ORGANIZATIONS RICH ! MANY ENVIRO-TERRORISTS AND THEIR AVARICIOUS ORGANIZATIONS HAVE BECOME MILLIONAIRES ! THEIR PROHIBITIONIST POLICIES HAVE REWARDED THEM WITH MILLIONS OF DOLLARS FROM GOVERNMENT AND PRIVATE DONATIONS ! THE MORE THEY CONCOCT LIES AND MISINFORMATION ABOUT PROHIBITION, THE MORE THEY BECOME RICH !

Alberta Prohibition of Pest Control Products!

Calgary Part 3

ON-LINE COMMENTS

There is no such word as "*communistic*". How true is the charge that 60 million Africans died because of the ban on DDT ? DDT saved millions of children only to sicken them with cancer upon reaching adulthood. Besides, DDT was never fully banned in Africa. It is still being used. What cancer is linked to pesticide use ? Breast cancer, leukemia, Non-Hodgkin Lymphoma, Prostate cancer and Lung cancer. Pesticide use is also linked to Parkinson's, impaired child development, immunological and reproductive harms, as well as diabetes, with health problems passed to future generations and substantial pesticide residues found already in the fetus. Besides, inconvenient information is withheld from Health Canada, which has no labs of its own.

K. JEAN COTTAM (a.k.a. KAZIMIERA JEAN COTTAM, JEAN SERGENT, and simply JEAN COTTAM)

Complete Response to Kazimiera Jean Sergent (a.k.a. Jean Cottam) regarding pest control products and so-called health problems — Miss Kazimiera is an 80-year-old widow (born April 23, 1930) and retired translator that has NO recognized expertise, training, or background, in matters concerning PEST CONTROL PRODUCTS ! It is a fact that conventional pest control products are SCIENTIFICALLY SAFE ! Overall, when they are used properly, there are NO harmful irreversible effects to health and the environment ! These products have been scrutinized and approved by the HUNDREDS of expert scientists at Health Canada ! Products like 2,4-D, do NOT cause cancer. This was the conclusion of the Canadian federal Pest Management Regulatory Agency of Health Canada (P.M.R.A.) in 2005, indicating that ... « *the toxicological database does not suggest a carcinogenic risk* ». Calgary officials should be commended for NOT capitulating to prohibitionist pressure that employs LIES, FEAR-MONGERING, MISCONCEPTIONS, COERCION, THREATS and TERROR !

WILLIAM H. GATHERCOLE AND NORAH G.

Alberta Prohibition of Pest Control Products!

Calgary Part 3

Complete Response to Kazimiera Jean Sergent (a.k.a. Jean Cottam) regarding DDT — It is a fact that the removal DDT led to the death of millions. In 2004, popular author Michael Crichton summed up the situation with the following excerpt from his wonderful book entitled « *State of Fear* » —

<< Arguably, the greatest tragedy of the Twentieth Century was the removal of DDT. DDT was the best insecticide for the control of mosquitoes. Despite views to the contrary, no other products were as efficient, or as safe. Since the removal of DDT, it has been estimated that thirty to fifty million people have died unnecessarily from the effects of malaria. Sadly, REMOVING DDT HAS KILLED MORE PEOPLE THAN HITLER. Before the removal of DDT, malaria had become almost a minor illness, with only fifty thousand deaths per year throughout the world. >>

It is believed that malaria acutely afflicts more than 515 million people per year. Two-thirds of all cases occur in Africa. Additionally, it causes more than ONE MILLION DEATHS PER YEAR, principally among children under the age of five years and pregnant women. It has been thirty-five years since the removal of DDT. The reader can do the math. (More than thirty-five million.)

Paul K. Driessen wrote the book « *Eco-Imperialism — Green Power, Black Death* » in 2003. He claimed that malaria deaths are TWO MILLION PER YEAR. (That means seventy million dead.) Moreover, the hundreds of millions who « *survive* » the disease are too sick to work or take care of their families. They become more vulnerable to subsequent diseases, such as AIDS, dysentery, and tuberculosis. The survivors are obviously not able to adequately contribute to the economy. « *It's no wonder that Sub-Saharan Africa is one of the most destitute regions on Earth.* »

It has been observed that the removal of DDT showed that the West has a lack of compassion for those suffering in Third World countries. Just like Miss Kazimiera. (or Miss Jean Cottam, or K. Jean Cottam, or whatever name this 80-year-old widow with no recognized credentials decides to use when it suits her).

CALGARY WON'T BAN PESTICIDES

SUN MEDIA

NOVEMBER 16TH, 2009

City council has given administration the green light to draft a by-law that will see the reduction of pesticide use but some residents aren't happy there won't be an all-out ban.

ROBIN MCLEOD, a member of the Coalition for a Healthy Calgary, said council's decision not to ban pesticide use is "**incredibly disappointing.**"

" We're getting a bylaw that has no teeth just like everything else, " said MCLEOD.

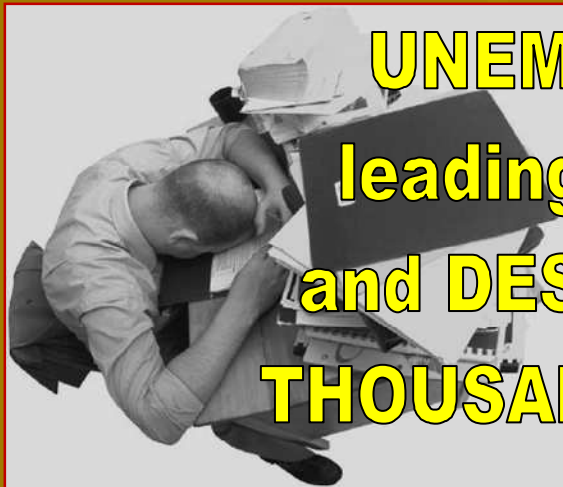

Note: Robin and her friends can go back to gardening and waiting on tables at the local bar. ☺ Everybody still has to take the time to contact the Aldermen of Calgary to drive the point home that their decision was correct !

Force of Nature was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the **GREEN SPACE INDUSTRY**, the Environmental Terror Movement, government officials, municipalities, and the media, nation-wide across Canada, and parts of the United States and overseas. **FORCE OF NATURE** is produced in two parts. First, **THE MEDIA REPORT** itself that reports on the current events affecting the future of the **GREEN SPACE INDUSTRY**. Second, **INDEPENDENT PERSPECTIVE**, which is a running commentary, sometimes technical in nature. **Force of Nature** is **the WHOLE TRUTH** from an **INDEPENDENT PERSPECTIVE**. **Force of Nature** is **TOTALLY INDEPENDENT** of any trade association or business operating within the **Green Space Industry**.

FORCE OF NATURE is the brainchild of William H. Gathercole and his wife, Norah G. is actually an acronym for the stable of anonymous producers and writers that contribute to this e-newsletter and have now replaced Mr. Gathercole. They consist of people from the following industries: Distribution, Fertilizer, Golf, Lawn Care, Manufacturing, Municipal, Nursery, Orchard. Many of these people are leaders in their own industries. The opinions expressed in **Force of Nature**, even though from an **INDEPENDENT PERSPECTIVE**, may not reflect those of everyone in the **GREEN SPACE INDUSTRY**, or Mr. Gathercole's many associates. Be warned! **Force of Nature** may sometimes be very irreverent and fearless with these e-newsletters. **DON'T THANK US, IT'S A PUBLIC SERVICE, AND WE ARE GLAD TO DO IT!** Mr. Gathercole is now retired from **Force of Nature**, although his name continues to appear as the founder.

William H. Gathercole is a **FOUNDER** of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the **UNIVERSITY OF QUELPH**, and another pure and applied science degree from **MCGILL UNIVERSITY**. He has worked in virtually all aspects of the **GREEN SPACE INDUSTRY**, including **GOLF** and **PROFESSIONAL LAWN CARE**, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has, since 1988, consulted, programmed, overseen the execution of **HUNDREDS OF THOUSANDS** of pest control applications in the urban landscape. He has trained, instructed, and consulted with **THOUSANDS** of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for **TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority**.

Mr. Gathercole has followed the evolution of **ENVIRONMENTAL TERRORISM** for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson, Quebec.) For **FIFTEEN YEARS**, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of **Enviro-Terror** for the **Entire Green Space Industry** across Canada. Although he can be accused of being **ANTI-ENVIRONMENT-MOVEMENT**, he is in fact, simply a strong advocate **FOR** the **GREEN SPACE INDUSTRY**, from an **INDEPENDENT PERSPECTIVE**. However, this position has not precluded him from criticizing the **Green Space Industry** itself. Nonetheless, his vast knowledge of our long journey with environmental issues is **UNDENIABLE**. (Hopefully!)

All document excerpts and pictures contained in **FORCE OF NATURE** were found somewhere on the Internet. We believe that they are in the public domain, serving one of the following purposes: archive, education, promotion, publicity, or press release.

We believe that **ENVIRONMENTAL TERRORISM** can be **BEATEN!** Information presented in **FORCE OF NATURE** has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. The mission of **Force of Nature** is as a **National Organization Responding Against Hype**, that harh the **Green Space Industry** with statements and activities seeking to prohibit **FEDERALLY LEGAL, SCIENTIFICALLY SAFE**, and **TOTALLY IRREPLACEABLE** conventional pest control products. Culprits are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each culprit is a mis-guided adversary, each still deserves our respect. The terms culprit or terrorist are not an accusation of any legal wrongdoing. **Force of Nature** is simply holding culprits accountable for conspiring to change public policies that **TERRORIZE** and **THREATEN** the **Green Space Industry**. **Force of Nature** believes that the prohibitionary policies of the **Environmental Terror Movement** will lead to **LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, UNEMPLOYMENT** leading to **DESPAIR** and **DESTITUTION** for **THOUSANDS** of people throughout the **Green Space Industry**. The actions of culprits in the movement are viewed as a form of **TERROR** against the **Green Space Industry**.
