Pesticide Ban EXTINGUISHED In Campbell River, British Columbia

On July 10th, 2012, City Councillors in Campbell River REJECTED AN ANTI-PESTICIDE STAFF RECOMMENDATION and SHOT DOWN A PROPOSED PROHIBITION against the use of pest control products used in the Urban Landscape.

In the works since 2007, ANTI-PESTICIDE STAFF brought Pesticide Use By-Law No. 3490 before council for first three readings « *to regulate the cosmetic application of pesticides on public and private lands* ».

ANTI-PESTICIDE STAFF recommended the by-law come into effect at the start of next year « *to allow sufficient time to notify the public and local retailers* ».

Instead, COUNCILLORS UNANIMOUSLY VOTED DOWN PROHIBITION, saying a city that doesn't follow its own pesticide policy shouldn't be trying to impose restrictions on the public that the city can't enforce.

ANTI-PESTICIDE STAFF confirmed that the city already has an Integrated Pest Management Plan (IPM) with an annual budget of \$107,000 which it CAN'T AFFORD TO FULLY IMPLEMENT.

Campbell River is a coastal city in British Columbia on the east coast of Vancouver Island.

Campbell River has a population of over 30,000, and has long been touted as « *The Salmon Capital of the World* ».

Campbell River features most of the amenities of a big city within a small town. Campbell River has grown into a diverse travel destination, bound by water and mountains, surrounded by wilderness and blessed with mild weather.

Prohibition **OPPOSED** by Campbell River

It is now common-knowledge that Integrated Pest Management is promoted by people who FALSELY ALLEGE SUCCESS, and who are likely concocting LIES, MISCONCEPTIONS, AND DECEPTIONS for their own nefarious personal interests.

It is IMPOSSIBLE for a municipality to keep its properties playable and beautiful by using Integrated Pest Management.

According to Parks, Recreation and Culture General Manager Ross Milnthorp —

The current status is, of the four or five maintenance tasks that we should be performing, we actually only do fertilizing twice a year.

The IPM Plan does allow the city to use pesticides « *as needed* », but a staff report says the IPM is implemented « *as resources permit* ».

Councillor Claire Moglove said she COULDN'T SUPPORT THE PROPOSED PESTICIDE BAN.

Victory

Pesticide Ban EXTINGUISHED

According to Councillor Moglove —

If I read the proposed by-law correctly, it basically gives the city an out.

It gives a fair bit of latitude to the city to use pesticides, but it DOESN'T GIVE THE SAME LATITUDE TO THE PUBLIC.

Right now the city already has a policy which WE CAN'T IMPLEMENT because WE DON'T HAVE THE RESOURCES.

To put it into a by-law almost gives it more teeth, but WE DON'T HAVE THE FUNDING TO IMPLEMENT IT and WE DON'T HAVE THE RESOURCES TO ENFORCE THE BY-LAW.

Councillor Mary Storry said the by-law should come back at budget time if more funds are needed to make the program work.

According to Councillor Storry —

I feel a little uncomfortable insisting on compliance from the community when we may NOT BE ABLE TO HAVE THE FULL COMPLIANCE OURSELVES.

It's a great by-law.

I'd like to see it come back, possibly after we've settled some of our budget issues."

Councillor Ron Kerr said a PESTICIDE BAN IS NOT THE ANSWER.

Victory

Pesticide Ban STOPPED

According to Councillor Kerr —

I've spent 30 years in the lawn and garden industry, and I've probably killed more weeds and bugs than anyone in this room.

I've recently changed my style, because now I stop for bees when I'm mowing the lawn.

I've adjusted, but I believe that pesticides have an important role, and when applied properly and effectively, THEY'RE SAFE.

I think AN OUTRIGHT BAN IS NOT THE ANSWER.

Mayor Walter Jakeway said the city shouldn't pass by-laws it can't enforce.

According to Mayor Jakeway —

I haven't used cosmetic pesticides in 20 years, and my lawn looks like it.

It's just weeds. I like weeds.

They don't grow as fast as the grass most of the time.

I don't believe in trying to enforce a by-law that WE CAN'T ENFORCE.

I don't think we have the capacity.

I don't believe in bringing in by-laws that WE JUST DON'T HAVE A CHANCE OF ENFORCING.

Victory

Pesticide Ban EXTINGUISHED

Why would we try ?

It's a provincial thing in my view.

I don't know why we would do this.

July 13th, 2012

Campbell River Courier-Islander

Selected and Adapted Excerpts

Victory

Pesticide Ban STOPPED

On July 5th, 2012, Campbell River City Council was already **HESITANT TO ENACT A PESTICIDE BAN.**

City Council was **NOT READY TO COMMIT** to a five-year-old initiative to **RESTRICT THE USE OF PESTICIDES.**

Council was asked by **ANTI-PESTICIDE CITY STAFF** to reaffirm an old resolution to develop a by-law that would **PROHIBIT** against the use of pest control products in the Urban Landscape.

The new **PROHIBITION** would have regulated the use of pesticides on outdoor trees, shrubs, flowers, ornamental plants and turf.

The city's **ANTI-PESTICIDE ENVIRONMENTAL ADVISORY COMMISSION** first recommended **PROHIBITION** in the fall of 2007 based on **COERCION** and **INTIMIDATION** from Anti-Pesticide Activists.

Following the recommendation, the city purchased a **PESTICIDE AWARENESS SERVICE**, Nature Works, which helped people choose so-called Green Alternatives to conventional pest control products.

That **BOGUS** service ran from 2008 to 2009, but was no longer available in 2010 — because Green Alternative Pesticides **DO NOT WORK.**

**Green Alternative
Pesticides Are
BOGUS and
DISMAL FAILURES**

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
Naturaal Organization Responding Against BULLIES that seek to harm the Green Space Industry (NORAHG)

Victory

Pesticide Ban **EXTINGUISHED**

It is common-knowledge that it is **IMPOSSIBLE** for home-owners or professionals to keep their properties beautiful by using so-called Green Alternative Pesticides.

There are **NO** viable, efficacious, economical, or low-risk alternatives to replace conventional pest control products.

Green Alternative Pesticides (a.k.a. Organic or Natural Pesticides) are **BOGUS AND DISMAL FAILURES** — they **DO NOT WORK** and they are **NOT INNOVATIVE** products.

Overall, Green Alternative Pesticides are **INEFFECTIVE, INADEQUATE, HIGH-RISK, MORE TOXIC, and STUNNINGLY EXPENSIVE !**

In many cases, Green Alternative Pesticides are questionably **HIGHER IN TOXICITY**, and pose **HIGHER ENVIRONMENTAL RISKS**.

At that time, staff prepared a draft **ANTI-PESTICIDE PESTICIDE BY-LAW** and provided pesticide awareness information on the city website.

An **ANTI-PESTICIDE STAFF** report to council last week recommended council move forward with the pesticide by-law **DESPITE** findings from a provincial government Special Committee On Cosmetic Pesticides.

According to the Special Committee —

The majority of the committee concluded that currently there is insufficient environmental or health-related evidence to warrant a province-wide ban on the cosmetic use of pesticides.

Victory

Pesticide Ban STOPPED

In the end, council passed a motion directing staff to come back with a report recommending a suitable by-law and the financial ramifications on the city.

Campbell River Mirror

Selected and Adapted Excerpts

Victory

CAMPBELL RIVER deserves CONGRATULATION.

British Columbians DO NOT want their society to continue living in the 9|11 Era of Anti-Pesticide Enviro-Lunatic Profit-Hungry Terrorism !

Campbell River is in good company.

On May 17th, 2012, British Columbia's Special Committee on Cosmetic Pesticides announced that it WILL NOT RECOMMEND PROHIBITION against the use of pest control products in the Urban Landscape.

These VICTORIES signal a possible END OF THE CURRENT SIEGE OF ANTI-PESTICIDE TERRORISM against the Professional Lawn Care Industry in British Columbia.

In jurisdictions outside of British Columbia, Anti-Pesticide Activists have already INFLICTED HORRENDOUS AND CATASTROPHIC CARNAGE for businesses operating in the Professional Lawn Care Industry, in the form of IMMENSE LOSSES OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, and even HORRIFIC FINES.

Because of Anti-Pesticide Activists, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

According to Dr. Lorne Hepworth of CropLife Canada —

A province-wide ban on all pesticides is NOT JUSTIFIED because STRICT REGULATIONS BASED ON SCIENTIFIC RESEARCH ALREADY PROTECT OUR HEALTH.

PROHIBITION Is NOT Necessary.

Any PROHIBITION of pest control products is NOT JUSTIFIED because STRICT REGULATIONS based on scientific research already PROTECT our health and our environment.

Anti-Pesticide PROHIBITIONS are VALIDATED not on the basis of scientific evidence, but rather a VAGUE MOCK UNEASE about chemicals in general.

Scientific research shows that, as reported through Health Canada's VAST TOXICOLOGY DATABASE, NO HARM WILL OCCUR when pest control products are used according to label directions.

The RISK ASSESSMENT of pest control products indicates that they are PRACTICALLY-NON-TOXIC.

Consequently, it is a fact that pest control products cause NO HARM, including chronic effects such as CANCER.

A woman with long, flowing blonde hair is lying down, her head tilted back and eyes closed. She is wearing a black top. A large, ornate snake is coiled around her right arm. The background is dark and textured, resembling a forest floor or a cave. The text "Thank you, Campbell River" is written in a white, cursive font in the upper left corner.

*Thank you,
Campbell
River*

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FA SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS!

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and enterta
ment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in his
ry, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or co
pleteness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damage
lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on iss
such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgr
Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspa
across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO T
EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gath
cole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear
founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain univers
degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental mainten
and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilize
and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, prof
sional lawn care, distribution, environmental compliance, government negotiations, public affairs, a
workplace safety • supervisor, consultant, and, programmer for the successful execution of hundre
of thousands of management operations in the golf and urban landscape, as well as millions of pest co
trol applications • advisor, instructor, and trainer for thousands of turf and ornamental managers a
technicians • pesticide certification instructor for thousands of industry workers • founder of t
modern professional lawn care industry • prolific writer for industry publications and e-newsletters
first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouve
Fraser Valley region • with Dr. Peter Dermoeden, confirmed the presence of Take All Patch as a disea
of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Sc
as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid bei
subjected to anti pesticide prohibition • creator of the signs that are now used for posting after appli
tion • co-founder of annual winter convention for Quebec golf course superintendents • the major
fluence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils
the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec
retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding
Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists
the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined a
pesticide activists to provide peace and prosperity for the entire modern green space industry across Ca
ada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec
launched the largest founding professional lawn care business in Canada • quadrupled the busine
revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATU
and A LOOK AT reports.

The Whole Truth from an Independent Perspective
