

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

Victories Against Anti-Pesticide Terrorists Demonstrate The Real Trends AGAINST Pesticide Bans.

When PROHIBITION is IMPOSED, Government Officials will have done so in DEFIANCE of the TRENDS AGAINST PESTICIDE BANS.

Government Officials have learned a lot from the experience of those jurisdictions that have SUFFERED THE HARDSHIP AND COST AND LIABILITY OF THIS #@!!% PESTICIDE BAN NONSENSE and ARE THINKING TWICE BEFORE Banning Pesticides!

Without pest control products, TURF AND ORNAMENTAL PESTS ARE NOT CONTROLLED.

Without pest control products, COMMUNITIES LIVE IN PEST-INFESTED GARBAGE DUMPS.

Without pest control products, CHILDREN ARE NOT KEPT SAFE FROM DANGEROUS PLAYING SURFACES.

Without pest control products, MUNICIPALITIES CANNOT AFFORD TO MAINTAIN THEIR GREENS SPACES IN BEAUTIFUL AND SAFE CONDITION.

Without pest control products, GOVERNMENT OFFICIALS ARE LIABLE FOR CHILDREN BEING HURT ON DANGEROUS PEST-INFESTED PLAYING SURFACES.

**Government Officials Are Thinking  
Twice Before Banning Pesticides**

# Real Trends AGAINST Pesticide Bans

---

There are dozens of jurisdictions that STOPPED or RE-SCINDED or LIMITED Anti-Pesticide PROHIBITION, or granted Professional Lawn Care businesses with an EXCEPTION STATUS —

ALBERTA, Province of  
ALTONA, Town of ( Manitoba )  
ASHLAND, City of ( Oregon, USA )  
BEAUMONT, Town of ( Alberta )  
BRITISH COLUMBIA, Province of  
CALGARY, City of ( Alberta )  
CAMPBELL RIVER, City of ( British Columbia )  
CHICAGO, City of ( Illinois, USA )  
DURANGO, City of ( Colorado, USA )  
EDMONTON, City of ( Alberta )  
EVERETT, City of ( Washington, USA )  
GUELPH, City of ( Ontario )  
GUELPH-ERAMOSIA, Township of ( Ontario )  
KAMLOOPS, City of ( British Columbia )  
KELOWNA, City of ( British Columbia )  
MERRITT, Town of ( British Columbia )  
NEW BRUNSWICK, Province of  
NEWFOUNDLAND, Province of  
PORTAGE LA PRAIRIE, Rural Municipality of ( Manitoba )  
QUEBEC, Province of  
REGINA, City of ( Saskatchewan )

ROSSLAND, City of ( British Columbia )  
SAINT JOHN'S, City of ( Newfoundland )  
SALMON ARM, City of ( British Columbia )  
SCARBOROUGH, Town of ( Maine, USA )  
STEINBACH, City of ( Manitoba )  
VERNON, City of ( British Columbia )  
WINKLER, City of ( Manitoba )

**AND NOW ...**

- **PORT ALBERNI ( British Columbia )**

# Victory

## In Port Alberni, British Columbia

Port Alberni is a city located in the province of British Columbia, with a population of almost 18,000.

Despite its good intentions, the City of Port Alberni has **RESCINDED ITS PESTICIDE REDUCTION BY-LAW** ( a.k.a. Anti-Pesticide **PROHIBITION** ).

In 2009, Port Alberni had adopted **PROHIBITION** against pest control products used in the Urban Landscape.

The 2009 **PROHIBITION** was **IMPOSED** under the **PRETEXT** of somehow protecting the environment from so-called non-essential chemicals.

Because of the **FAILURE** of Organic Pesticide-Free Maintenance and the **STUNNINGLY EXORBITANT COST** of maintaining Green Spaces without pest control products, **PROHIBITION WAS RESCINDED**.

Port Alberni will instead follow an annual pest management plan with an eye to reducing pesticide use in the city where it can.

# Victory In Port Alberni ( continued )

## Failure Of Organic Pesticide-Free Maintenance

---

Because of Port Alberni's PROHIBITION, Green Alternative Pesticides and Practices were shown to be DISMAL FAILURES.

When Port Alberni's 2009 PROHIBITION was IMPOSED, Municipal Employees implemented a series of measures that were INEFFECTIVE.

FAILURE — MANUAL CULTIVATION was attempted but was found to be TOO LABOUR INTENSIVE, particularly in times of reduced staffing.

FAILURE — PROPANE BLOW-TORCHES were used by Municipal Employees on hard surface areas at baseball fields in 2010, and were INEFFECTIVE since only the tops of weeds were burned and the roots remained unaffected.

FAILURE — VINEGAR SOLUTIONS were tried next but again didn't impact the plants' roots, and the applications were INEFFECTIVE except for controlling small weeds and soft plants.

FAILURE — BARK MULCHING of shrub beds was used with MODERATE SUCCESS by choking down weeds while keeping the soil moist and keeping the roots cool.

# Port Alberni Nixes Ban ( continued )

## Stunningly Exorbitant Costs — Fiesta Herbicide

---

Anti-Pesticide PROHIBITION led to Port Alberni being forced to spend STUNNINGLY EXORBITANT AMOUNTS OF MONEY.

Port Alberni's Government Officials have used Fiesta Herbicide as an example of the EXORBITANT COST of Organic Pesticide-Free Maintenance.

Port Alberni would have to spend **32,000 DOLLARS** to apply four applications of Fiesta Herbicide on city playing fields per year.

In comparison, one application of Killex would cost **1,600 DOLLARS** to apply and would last four years.

Fiesta Herbicide was registered and approved for use in 2010 as a so-called Green Alternative Pesticide, and was quickly incorporated into Port Alberni's weed control programs — NOT BECAUSE OF ITS EFFICACY, but because of Port Alberni's decision that IMPOSED AN UNECESSARY AND UNREALISTIC ANTI-PESTICIDE PROHIBITION which PREVENTED Municipal Employees from using conventional herbicides that WERE TRULY EFFECTIVE AS WELL AS SAFE.

There is little debate about the fact that Port Alberni's PROHIBITION converted its Green Spaces into SHABBIER AND DANGEROUS PEST-INFESTED GARBAGE DUMPS because Fiesta Herbicide was a COSTLY AND DISMAL FAILURE.

It is IMPOSSIBLE for Municipal Employees to keep Port Alberni's Green Spaces BEAUTIFUL AND SAFE by using so-called Green Alternative Pesticides.

There are NO valid economical alternatives to replace products like Killex.

In fact, conventional herbicides, such as Killex, are deemed SAFER than Fiesta.

# Victory In Port Alberni ( continued )

## BC's Special Committee on Cosmetic Pesticides

---

On May 17<sup>th</sup>, 2012, British Columbia's ( BC ) Special Committee On Cosmetic Pesticides STOPPED THE TREND towards NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION.

The Special Committee announced that it WOULD NOT RECOMMEND PROHIBITION against pest control products used in the Urban Landscape.

By RESCINDING ITS OWN PROHIBITION, Port Alberni is taking its cue from British Columbia's Special Committee On Cosmetic Pesticides.

The Special Committee researched the issue by examining regulatory framework, heard from more than 8,600 participants, and looked at bans in other cities.

According to BC's Special Committee On Cosmetic Pesticides —

*... despite the intensity of the arguments in favour of the ban on cosmetic use of pesticides*

*... THERE IS INSUFFICIENT SCIENTIFIC EVIDENCE TO SUPPORT A PROVINCE-WIDE BAN ON PESTICIDES FOR COSMETIC USE.*

*The majority of the committee SUPPORTS USING SCIENCE BASED EVIDENCE and WILL NOT RESTRICT ACCESS to products that are approved for safe use in Canada.*

It is COMMON KNOWLEDGE that there are NO pest control products that are known or probable carcinogens.

Pest control products are SCIENTIFICALLY SAFE, and NO HARM WILL OCCUR when they are used according to label directions.

# Port Alberni Nixes Ban ( continued )

## Real Trends AGAINST Pesticide Bans In Western Canada

---

Across WESTERN CANADA, Government Officials are no longer readily jumping in favour of Anti-Pesticide PROHIBITION.

The City of Port Alberni is one of many jurisdictions in Western Canada that have STOPPED or RESCINDED or LIMITED or OPPOSED Anti-Pesticide PROHIBITION, or granted Professional Lawn Care businesses with an EXCEPTION STATUS —

Alberta ( Province ), Altona ( Manitoba ), Beaumont ( Alberta ), British Columbia ( Province ), Calgary ( Alberta ), Campbell River ( British Columbia ), Edmonton ( Alberta ), Kamloops ( British Columbia ), Kelowna ( British Columbia ), Merritt ( British Columbia ), Portage La Prairie ( Manitoba ), Regina ( Saskatchewan ), Rossland ( British Columbia ), Salmon Arm ( British Columbia ), Steinbach ( Manitoba ), Vernon ( British Columbia ), Winkler ( Manitoba ).

**Real Trends  
AGAINST  
Pesticide Bans**

# In 2010, Port Alberni Considered Green Alternatives As **INEFFECTIVE**

Ineffective alternatives have forced the city to re-think its pesticide spraying policy.

In British Columbia, Port Alberni city councillors voted to allow strategic use of the herbicide Roundup at their October 25th meeting.

In 2009, the city adopted a pesticide prohibition that forewent the non-essential use of pesticides in favour of allegedly less stringent options.

According to Scott Kenny, the Parks and Recreation Director —

| *Those options don't cut it.*

FAILURE IN 2010 — VINEGAR-BASED PRODUCT — Municipal Employees tried this on weeds ... to no avail.

FAILURE IN 2010 — MANUAL CULTIVATION methods are too labour intensive.

FAILURE IN 2010 — PROPANE BLOW-TORCHING has little to no effect.

According to Scott Kenny, the Parks and Recreation Director —

| *It worked well on young plants but not on mature ones.*

Kenny recommended reverting back to using Roundup on ball diamonds and hard surface areas — now and in the spring.

The other methods could be reverted to again during the sports playing season.

Enviro-Lunatic Councillor John Douglas spoke against the initiative —

| *I'm reluctant to do what we said we weren't going to do.*

Parks and Recreation Director Kenny was adamant that the problem needed to be dealt with now before it gets bigger and more costly to deal with —

| *We need the help now. If not, I'll be back here next year with a request for more staff than we already have.*

October 26<sup>th</sup>, 2010      Alberni Valley News      Selected and Adapted Excerpts

# In 2010, Cancer-Lunatics LIED and LIED and LIED and LIED

In 2010, NANCY FALCONER and Adriane Schroeder, came to Port Alberni to give MISINFORMATION to the public and to city council.

These Cancer-Lunatics took part in a public forum on pest control products arranged by the Alberni Environmental Coalition, a local Anti-Pesticide Terrorist Organization.

Falconer and Schroeder formed part of a small local delegation to council DEMANDING a PROHIBITION against pest control products used in the Urban Landscape.

Nancy Falconer is a truth-challenged non-expert anti-pesticide lobbyist who is paid-for-profit to concoct imaginary dangers for Canadian Cancer Society.

According to Falconer —

*The Canadian Cancer Society is very concerned about the growing body of evidence suggesting pesticides may increase the risk of several types of CANCERS. [ !?! ]*

It is COMMON KNOWLEDGE that there are NO pest control products that are known or probable carcinogens.

Are we to believe that an assessment on pest control products from Falconer is somehow worth more than Health Canada ?!?!

Cancer-Lunatics like Falconer are paid HEFTY SUMS OF PROFIT as « experts » on the IMAGINARY DANGER of pest control products, despite the fact that they have NO recognized expertise, training, or background in this matter.

FORCES OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUGO that seek to harm the Green Space Industry (NORAOG)

# NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUICIDAL ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, LIES, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry; they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grass, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Suicidal Terrorism.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorism UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defense • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our grass • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terrorism in Canada • History of the Turfgrass Industry • Letters to the Editor • LIARS a Lying Sack of (Enviro Maniac) Cowp • Mock Advertisements • Mock Speeches • Myth BUSTED • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • No America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorism • Ontario College of Family Physicians • Organic Golf Courses • Organic Maintenance • Organizations of the Prohibition Conspiracy • Pesticide Q & A (Questions and Answers) • Positive Way

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemical fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, a workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated dog foods • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that rein in anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec, launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
