Bee-Keeper

Trade Associations

Operating As Anti-Pesticide And Environmental-Terrorist Organizations

The bee-keeper trade associations in Quebec and Ontario now OPERATE AS ANTI-PESTICIDE AND ENVIRONMENTAL-TERRORIST ORGANIZATIONS, under the direction of Sierra Club, Environmental Defence, and others.

Trade associations like Ontario Bee-Keeper Association ?!?!

Trade associations like Fédération des Apiculteurs du Quebec ?!?!

They are listed among CANADA'S PROMINENT ANTI-PESTICIDE & ENVIRONMENTAL-TERRORIST ORGANIZATIONS.

ANTI-PESTICIDE & ENVIRONMENTAL-TERRORIST ORGANIZATIONS (Web-Page)

<http://wp.me/P1jq40-48S>

The actions of these trade associations are DESPICABLE AND DESTRUCTIVE, since they DEMAND RECKLESS AND ARBITRARY PROHIBITION against Neonicotinoid Insecticides.

Moreover, bee-keeper trade associations are WRONG about Neonicotinoid Insecticides since the WEIGHT OF THE SCIENTIFIC EVIDENCE CLEARLY SHOWS THAT THEY DO NOT AFFECT BEES.

If they are successful by IMPOSING PROHIBITION, the CONSEQUENCES will be CATASTROPHIC for the Agriculture Industry and the Golf Industry.

Moreover, these two trade associations are DEEMED AS RENEGADES, and ARE NOT ENDORSED by the NATIONAL body that oversees them, Canadian Honey Council.

Ontario Bee-Keeper Association — RENEGADE trade association !

Fédération des Apiculteurs du Quebec — RENEGADE trade association !

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

So, are bee-keeper trade associations in Quebec and Ontario controlled by Sierra Club or Canadian Honey Council ?!?!

Canadian Honey Council is supposed to be the NATIONAL trade association that oversees the local one.

However, Sierra Club SPEAKS WITH THE SAME LANGUAGE as Ontario Beekeeper Association.

Sierra Club is LISTED as the NATION'S PROMINENT ANTI-PESTICIDE AND ENVIRONMENTAL-TERRORIST ORGANIZATIONS.

Sierra Club has already INFLICTED HORRENDOUS AND CATASTROPHIC CARNAGE, as well as TERROR, DESPAIR, and DESTITUTION against THOUSANDS of hapless victims throughout the Professional Lawn Care Industry.

CARNAGE LEADING TO BUSINESS FAILURES (Web-Page)

<http://wp.me/P1jq40-43B>

Sierra Club has CONSPIRED TO IMPOSE RECKLESS AND ARBITRARY PROHIBITION against pest control products used in the Urban Landscape.

Ontario Bee-Keeper Association and Fédération des Apiculteurs du Quebec share the SAME TYPE OF OBJECTIVE ... PROHIBIT Neonicotinoid Insecticides.

Or, perhaps bee-keeper trade associations are actually controlled by Anti-Pesticide Lunatic-BREEDERS.

According to the Government of Ontario, a BEE HEALTH WORKING GROUP is needed to make recommendations on how to mitigate the potential risk of certain Neonicotinoid Insecticides to honey bees.

The Government of Ontario formed this Anti-Pesticide Working Group with the PRE-CONCEIVED OPINION that Neonicotinoid Insecticides are somehow harming bees, when, in fact, THEY ARE NOT.

This working group is TOTALLY UNDEMOCRATIC !

We are SO SCREWED with the Government of Ontario.

It is a MYTH to believe otherwise.

**Ontario Bee
Health Working
Group Is
UNDEMOCRATIC
Since Its Membership
Is Dominated By
Vested Anti-
Pesticide Interests**

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

Ontario Bee-Keeper Association is ECSTATIC !

The Bee-BREEDERS who seemingly OPERATE AND CONTROL this trade association are also ECSTATIC !

These BREEDERS MASQUERADE as Bee-Keepers in the working group.

As members of the Ontario Bee Health Working Group, Bee-BREEDERS will MALICIOUSLY VOTE IN FAVOUR OF ARBITRARY PROHIBITION against Neonicotinoid Insecticides in order to PROFIT FROM UNJUSTIFIABLE FINANCIAL COMPENSATION.

BREEDERS like Coneybeare.

BREEDERS like Davidson.

Why are Bee-BREEDERS so interested in being members of Ontario Bee Health Working Group ?!?!

Do they have VESTED ANTI-PESTICIDE INTERESTS ?!?!

Why ?

Are Bee-BREEDERS unable to supply Bee-Keepers with PEST-FREE QUEENS ?!?!

Are their DEMANDS FOR PROHIBITION A DIVERSION FROM ANY SPOTLIGHT ON BEE-BREEDER INCOMPETENCE ?!?!

Are they CONCOCTING STORIES about Neonicotinoid Insecticides in order TO CONCEAL THE FACT THAT THEIR QUEENS ARE PEST-INFESTED ?!?!

The Ontario Bee-BREEDERS' Association is supposed to be a mere DIVISION of the Ontario Bee-Keepers' Association.

Why are BREEDERS actually OPERATING AND CONTROLLING the ENTIRE Ontario Bee-Keepers' Association ?!?!

Does anyone hear the words CONFLICT-OF-INTEREST ?!?!

Remember, Bee-Keepers ARE INSURED FOR THEIR LOSSES.

However, BREEDERS ARE NOT LISTED as part of the GROUP LIABILITY INSURANCE described by Ontario Bee-Keepers' Association !

What are THE TRUE OBJECTIVES of those who OPERATE AND CONTROL this RENEGADE trade association ?!?!

Is this a PLOY to attract ENVIRO-PROFIT in the form of ILLEGITIMATE COMPENSATION FOR BREEDER LOSSES ?!?!

Anti-Pesticide Lunatic-PETITION

Ontario Bee-Keepers' Association (a.k.a. Ontario Bee-BREEDERS' Association) will use the BOGUS RESULTS OF THEIR PETITION AS PROPAGANDA AGAINST NEONICOTINOID INSECTICIDES.

Here is the PETITION containing EXTREME MIS-INFORMATION CONCOCTED by Ontario Bee-Keepers' Association (a.k.a. Ontario Bee-BREEDERS' Association) —

Ontario's bees are dying in massive numbers due to the pervasive use of neonicotinoid pesticides on our agricultural field crops. [WRONG !]

Fully a third of our food relies on pollinators: without bees, Ontario's food supply could be in serious trouble.

Further, these chemicals leach into soils, groundwater and waterways, and can persist for years, killing not only bees, but other pollinators, aquatic insects, amphibians and birds. [WRONG !]

We already have sufficient evidence to prove that neonicotinoid pesticides are killing our bees. [WRONG !]

Canada's Pesticide Management Regulatory Agency has confirmed that last year's widespread bee deaths in Ontario were caused by neonicotinoid pesticides. [?!?!]

As well, dozens of independent, peer reviewed scientific research studies have concluded that these pesticides pose a significant threat to bees and other wildlife. [WRONG !]

Furthermore, science and experience has shown that neonicotinoids don't really increase agricultural yield in the long run. [WRONG !]

*Join Ontario's beekeepers and their agricultural, environmental and scientific partners in urging Premier Wynne to **BAN NEONICOTINOID PESTICIDES** in time for the 2014 planting season.*

Ontario's bees are in unprecedented peril. [?!?!]

In the past two years alone, Ontario has seen a 35% decline in honey bees. [?!?!]

The time for urgent, precautionary action is now. [WRONG !]

Sign this petition and share with everyone.

To : Premier Kathleen Wynne — Sample Letter

I am asking you to **IMMEDIATELY BAN THE USE OF NEONICOTINOID PESTICIDES** in Ontario.

Last year, extensive losses [?!?!] of honey bees and other pollinators associated with the application of these toxic pesticides [?!?!] to field crops in Ontario were documented by Canada's Pest Management Regulatory Agency.

Continued high rates of bee kills have been observed and reported this spring as well. [?!?!]

The continued use of these pesticides destroys bees, other pollinators, aquatic insects, amphibians and birds, threatens our food supply, contaminates our water and creates persistent buildup of toxins in our soil. [WRONG !]

On April 29, 2013 after reviewing more than 30 different studies, the European Union suspended the use of these pesticides. [**This PROHIBITION is being LEGALLY CHALLENGED, and WILL BE RESCINDED.**]

We do not need additional research to prove the harmful effects of neonicotinoid pesticides. [?!?!]

We need to follow the EU's example. [WRONG !]

I am asking you to act now.

Sincerely,

The Bee-Keeper Industry

Here is a summary of what is known about the Bee-Keeper Industry —

- Bee-keepers are the least credible and the least qualified to provide any advice concerning neonicotinoid insecticides, and therefore, cannot be trusted.
- Bee colony collapse disorder is the fault of bee-keepers and their mis-management practices. <http://wp.me/P1jq40-2BA>
- Bee-keepers all over North America are lying and cheating by using illegal and unregistered pest control products, like amitraz. <http://wp.me/p1jq40-70c> <http://wp.me/p1jq40-2ba>
- Bee-keepers appear to be unable or unwilling to get their major pest problems under control, such as *Varroa* mites. <http://wp.me/p1jq40-6WJ>
- Bee-keepers are continuously stealing from other bee-keepers, and have essentially been described as a mere bunch of thieving rustlers. <http://wp.me/p1jq40-73l> <http://wp.me/p1jq40-78s>
- Bee-keepers are conveniently overlooking the fact that coated corn seed renders insecticides inaccessible and harmless to bees. <http://wp.me/p1jq40-6WJ>

- Bee-keepers are harming bees, and not neonicotinoid insecticides. <http://wp.me/P1jq40-2BA>
 - Bee-keepers are illegally using products like amitraz which is known to cause cancer, and is known to kill people. <http://wp.me/p1jq40-70c> <http://wp.me/p1jq40-2ba>
 - Bee-keepers are the least credible and the least qualified to provide any advice concerning neonicotinoid insecticides.
 - Bee-keepers are wrong about neonicotinoid insecticides since the weight of the scientific evidence clearly shows that they do not affect bees. <http://wp.me/p1jq40-6H8>
 - Bee-keepers avoid admitting that agricultural fugitive dust may be only one of several possible routes of bee exposure to pest control products. <http://wp.me/p1jq40-6WJ>
 - Bee-keepers fail to admit that there are only an infinitesimally small of bee losses are actually caused by neonicotinoid insecticides. <http://wp.me/P1jq40-2BA>
 - Bee-keepers have no idea what they are doing, leading some observers to conclude that bee-keepers may not be competent to handle their businesses, and are wholly unsuited to be raising bees. <http://wp.me/p1jq40-77N>
 - Bee-keepers know almost nothing about pest control products.
 - Bee-keepers produce the only know food product that has been proven to be linked to infant botulism. <http://wp.me/p1jq40-77N> <http://wp.me/p1jq40-76J>
 - Bee-keepers use illegal, unregistered, deadly, and cancer-causing products, like amitraz, and thus, bee-keepers are producing potentially dangerous honey. <http://wp.me/p1jq40-70c> <http://wp.me/p1jq40-2ba>
 - If bee-keepers are capable of lying and cheating and stealing as bee rustlers, then they are also capable lying and cheating with their public statements against insecticides. <http://wp.me/p1jq40-73I> <http://wp.me/p1jq40-78s>
 - *Varroa* mites are the primary problem associated with bee mortality, and not neonicotinoid insecticides. <http://wp.me/p1jq40-6WJ>

Communities and businesses are being HARMED and DESTROYED and RAPED by PROHIBITIONS against pest control products used in the Urban Landscape, and by other ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is perpetrated EVERY SINGLE DAY by these terrorist.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from so-called activists who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry, and the well-being of our communities.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE or ABANDONMENT of green spaces under the

RIDICULOUS PRETEXT of somehow « saving » the environment. <http://wp.me/P1jq40-2bo>

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS. <http://wp.me/p1jq40-5DD>

NORAHG responds on behalf of the VAST SILENT MAJORITY of the public that DOES NOT WANT PESTICIDE BANS, and SUPPORT those who work in the Professional Lawn Care Industry. <http://wp.me/P1jq40-2bo>

NORAHG is opposed to Pesticide-Free jurisdictions that have DOOMED children to SUFFER INJURIES since Anti-Pesticide PROHIBITION inevitably leads to public and residential green spaces that become DANGEROUS AND PEST-INFESTED GARBAGE DUMPS. <http://wp.me/P1jq40-44g> <http://wp.me/P1jq40-4z3>

NORAHG is concerned that, without pest control products, CHILDREN ARE AT HIGHER RISK OF SUFFERING INJURIES with the creation of HAZARDOUS SLIPPING AND TRIPPING CONDITIONS in sports turf. <http://wp.me/P1jq40-2ha>

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Force Of Nature was launched by NORAHG for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press. <http://pesticidetruths.com/>

Pesticide Truths and Force Of Nature, in some ways, are like Google for everything concerning the SUBVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.
