Selected And Adapted Excerpts

Anti-Pesticide Propaganda From

Ontario Bee-Keepers Association

a.k.a. Sierra Club Of Canada

Ontario Bee-Keepers Association COULD NOT BE BOTHERED TO USE STATEMENTS FROM LEADING CANADIAN BEE EXPERTS.

It prefers to rely upon UNVERIFIABLE AND CONCOCTED STATEMENTS from Anti-Pesticide Lunatic-Activists WHO LIVE OVERSEAS.

Ontario Bee-Keepers Association is PAID to spread Anti-Pesticide PROPAGANDA for Sierra Club and Friends Of The Earth by using the LONG-DISTANCE RANTS from someone who DOES NOT EVEN LIVE IN CANADA.

Dave Goulson, from the United Kingdom, ALLEGES Canada is behind the times when it comes to recognizing the dangers of a controversial pesticide known as neonicotinoid, noting the similarities of present-day debate here and those faced in the European Union almost 20 years ago.

According to Goulson —

The situation here in Canada now is similar to how the situation was in the European Union (EU) back in 1996.

[WRONG ! This statement is UNVERIFIABLE, and LIKELY NOT TRUE.]

It's the Bee-Keepers that are seeing this the most-clearly because it's hurting their business.

[WRONG ! According to Agriculture Canada, there is NO bee crisis since CANADA'S HONEY YIELD IS TWICE THE WORLD'S AVERAGE.]

Everything is similar — and no one is paying attention to the bee keepers.

[No one pay attention to Bee-Keepers because they KNOW ALMOST NOTHING ABOUT PEST CONTROL PRODUCTS.]

We started using neonics [a.k.a. Neonicotinoid Insecticides] in Europe back in 90s, and back then, it was the French bee keepers who first started saying that their bees were dying.

Thing is, they were sort of the lone voice — and French farmers are known as being rather militant, so people thought they were just being eccentric.

[Neonicotinoid Insecticides were PROHIBITED in France in the 1990s, and there was NO MARKED REDUCTION in Bee Colony Collapse Disorder.]

Then, the evidence began to snowball.

[WRONG ! What really began to snowball was Anti-Pesticide and Environmental-Terrorist Organizations that CONCOCTED STORIES against Neonicotinoid Insecticides in order to RAISE MORE MONEY AND ACQUIRE MORE POWER as a consequence of their ACTS OF ANTI-PESTICIDE SUBVERSION.]

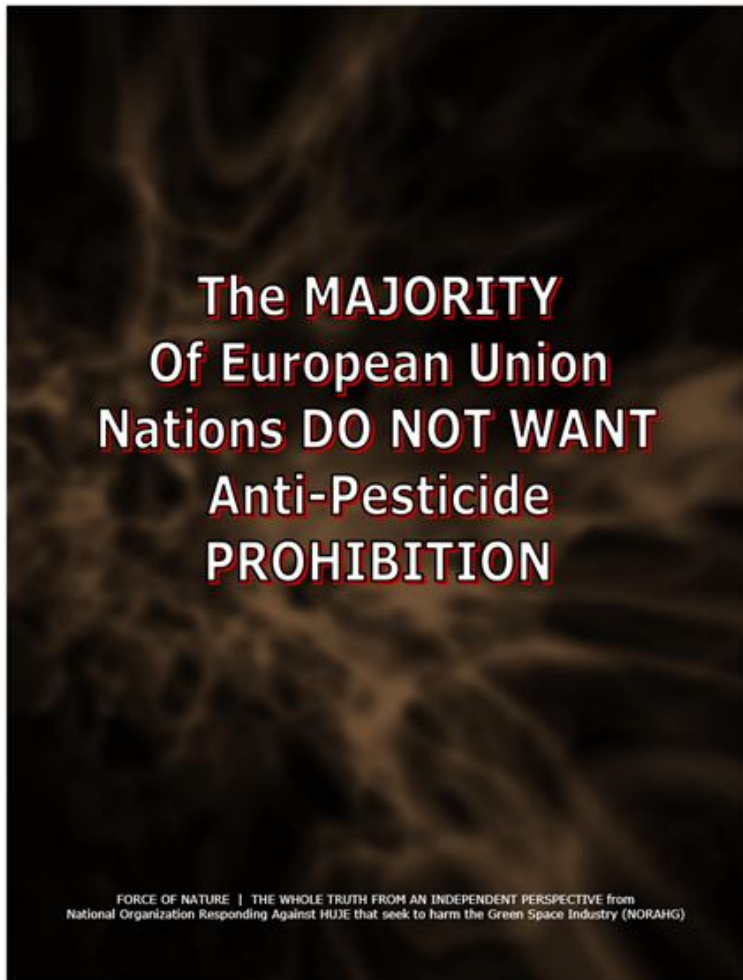

We've done thousands of scientific studies since then that began to form a minority view, which soon became the majority view.

[WRONG ! In fact, researchers have NOT been able to identify a single cause of Bee Colony Collapse Disorder.]

In recognition of these facts, the European Union (EU) is placing a two-year ban on neonicotinoid beginning December 13, 2013.

[Before the European Commission IMPOSED AN ARBITRARY two-year EU-wide MORATORIUM (a.k.a. Anti-Pesticide PROHIBITION), a MAJORITY of nations OPPOSED THE PLANS.]

<http://www.ourwindsor.ca/news-story/4207621-canada-should-follow-e-u-to-prevent-bee-deaths-u-k-expert/> (<http://www.ourwindsor.ca/news-story/4207621-canada-should-follow-e-u-to-prevent-bee-deaths-u-k-expert/>)

NORAHG RESPONSE

EU Nations Do Not Want Prohibition !?!

Pesticides Hurting Bees is a MYTH, and PROHIBITION against Neonicotinoid Insecticides is NOT NECESSARY.

The two-year European Union (EU) PROHIBITION against Neonicotinoid Insecticides was FALSELY JUSTIFIED as a way to tackle Bee Colony Collapse Disorder.

It is perhaps worth pointing out that France PROHIBITED against Neonicotinoid Insecticides in the

1990s, and it has seen NO MARKED REDUCTION in Bee Colony Collapse Disorder.

Moreover, the MAJORITY of European Union (EU) nations DO NOT WANT Anti-Pesticide PROHIBITION.

EU Government Officials ARE THINKING TWICE BEFORE BANNING PESTICIDES.

European Union nations have been UNABLE TO REACH AGREEMENT on proposals to ARBITRARILY PROHIBIT the use of three Neonicotinoid Insecticides that have been linked to the decline of bees.

A decline in bee numbers has been linked by FALSE ALLEGATIONS regarding Neonicotinoid Insecticides.

Before the European Commission IMPOSED AN ARBITRARY two-year EU-wide MORATORIUM (a.k.a. Anti-Pesticide PROHIBITION), a MAJORITY of nations OPPOSED THE PLANS.

European Union nations were UNABLE TO REACH A QUALIFIED MAJORITY in order for PROHIBITION to be adopted.

The EU MAJORITY DECISION AGAINST PROHIBITION is a clear recognition that THERE IS NO CONVINCING ARGUMENT against the continued use of Neonicotinoid Insecticides.

For more information regarding EUROPEAN UNION, go to The Pesticide Truths Web-Site ...

(<http://wp.me/p1jq40-6H8>)

For the whole truth regarding BEES, go to The Pesticide Truths Web-Site ... <http://wp.me/p1jq40-2ba> (<http://wp.me/P1jq40-2BA>) <http://wp.me/p1jq40-6WJ> (<http://wp.me/p1jq40-6WJ>)
<http://wp.me/p1jq40-6H8> (<http://wp.me/p1jq40-6H8>)

NORAHG RESPONSE

Sierra Club Terrorist-Organization

Sierra Club is an Anti-Pesticide and Environmental-Terrorist Organization that CONTROLS Bee-Keeper Trade Associations as PROPAGANDA SHIELDS to do its DIRTY WORK, like Ontario Bee-Keepers Association.

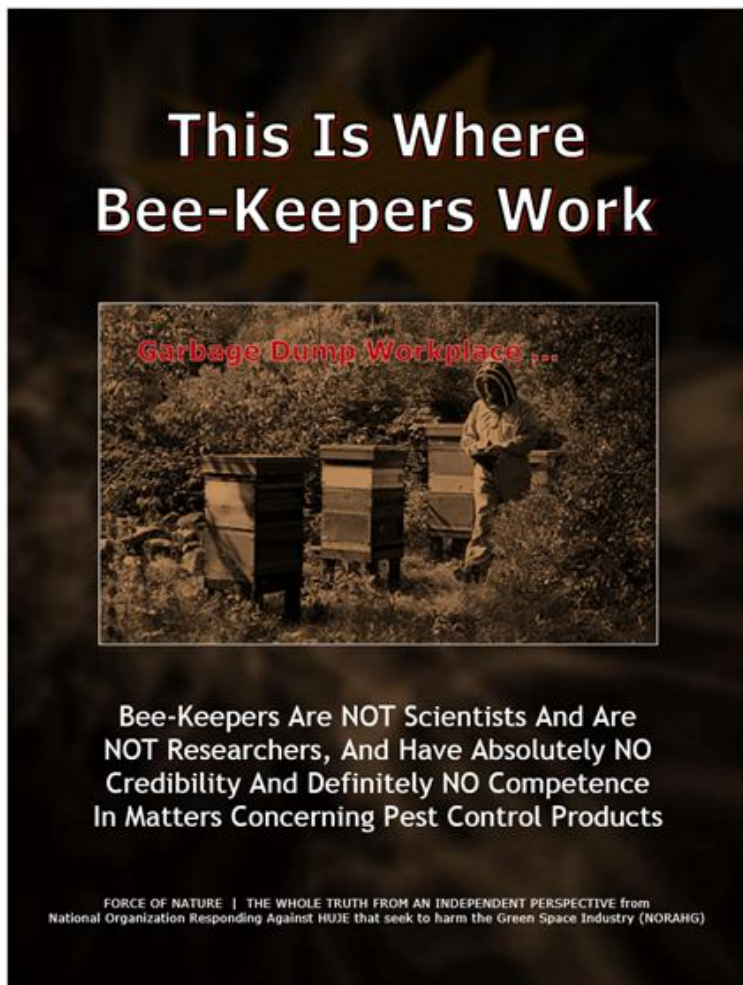

Sierra Club RECKLESSLY CONSPIRES to INVALIDATE the work of Health Canada and its SCIENTIFIC ASSESSMENT on the safety of pest control products.

In fact, only Health Canada has THE ESSENTIAL EXPERTISE on Neonicotinoid Insecticides, and NOT Sierra Club.

Sierra Club operates as a MERE FUND-RAISING, PROFIT-SEEKING, and LOBBYING organization, and it is NOT a science, NOT a research, and NOT a health organization.

The REAL GOAL of Sierra is to RAISE MORE MONEY AND ACQUIRE MORE POWER as a consequence of its ACTS OF ANTI-PESTICIDE SUBVERSION.

Moreover, Sierra Club is presently UNDER INVESTIGATION FOR CHARITY FRAUD AND CONSPIRACY.

NORAHG RESPONSE

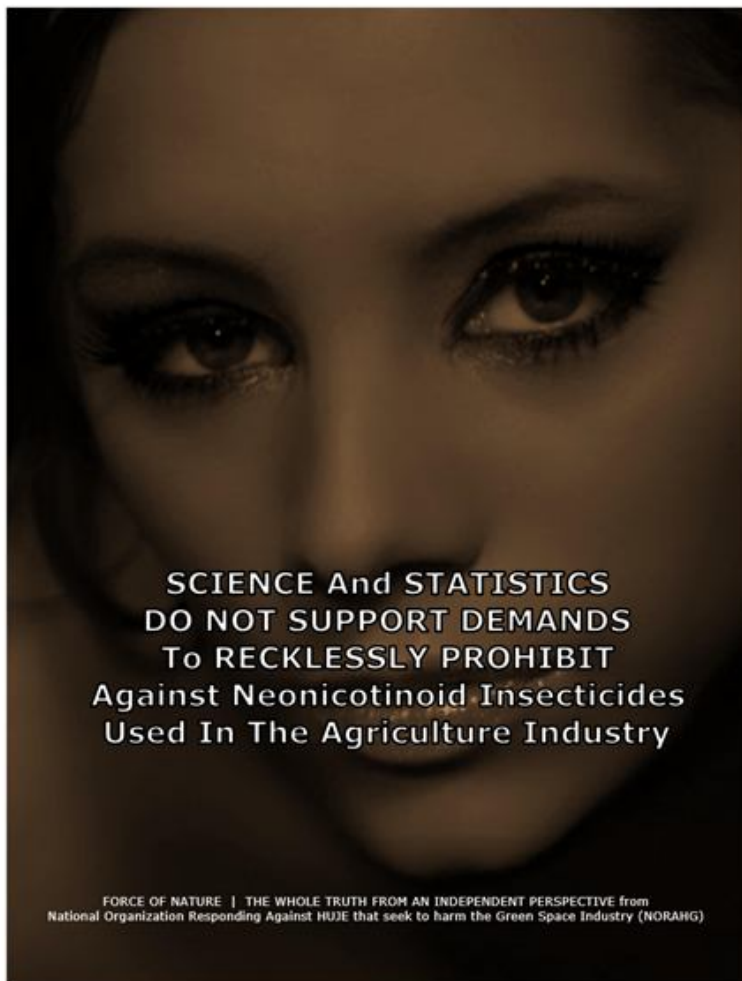

Renegade Ontario Bee-Keepers Association

Ontario Bee-Keepers Association is a RENEGADE Trade Association that is DIRECTED AND CONTROLLED by Sierra Club in order to MASK Sierra's EXTREMIST RADICAL ANTI-PESTICIDE VIEWS.

In essence, the Anti-Pesticide ACTS OF SUBVERSION of Ontario Bee-Keepers Association are CONTROLLED by Sierra-Lunatics.

Together, Ontario Bee-Keepers Association and Sierra Club both CONSPIRE to PROHIBIT against treating seeds with Neonicotinoid Insecticides.

They CONSPIRE to RECKLESSLY IMPOSE PROHIBITION despite the fact that SCIENCE AND STATISTICS DO NOT SUPPORT PROHIBITION.

NORAHG RESPONSE

Who Is Dave Goulson ?

NO LEADING CANADIAN EXPERTS WERE EVER CONSULTED by Anti-Pesticide Lunatic-Bee-Keepers, and yet, they CONCOCT IMAGINARY DANGER about Neonicotinoid Insecticides based upon the LONG-DISTANCE RANTS from someone who DOES NOT EVEN LIVE IN CANADA.

Anti-Pesticide Lunatic-Bee-Keepers decided to use Dave Goulson.

Dave Goulson is Professor of Biology at the University of Sussex, in the United Kingdom.

Goulson does not reside and work in Canada, and has NEVER CONDUCTED RESEARCH IN CANADA.

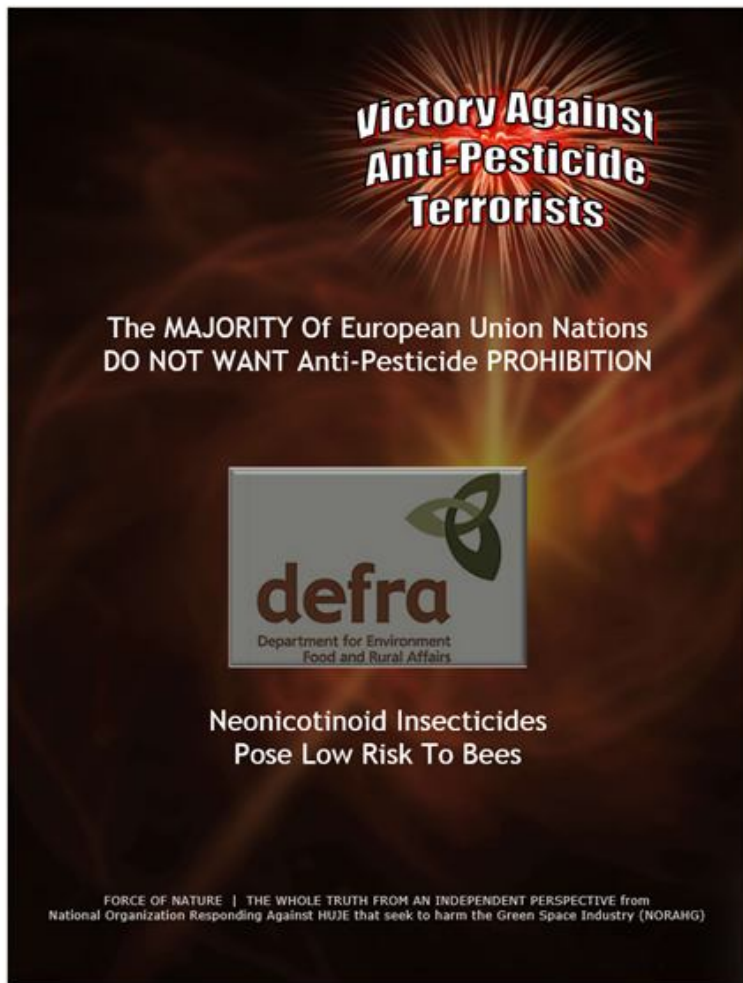

Not surprisingly, Goulson has VESTED FINANCIAL INTERESTS in CONSPIRING to PROHIBIT against Neonicotinoid Insecticides used in the Agriculture Industry.

In 2006, Goulson founded the Bumblebee Conservation Trust, a charity tax-exempt organization that operates as an Anti-Pesticide and Environmental-Terrorist Organization.

Goulson also SELLS-FOR-PROFIT a book entitled A Sting In The Tale, which PROMOTES ANTI-PESTICIDE PROPAGANDA.

I have published over 200 scientific articles on the ecology of bees and other insects, and am author of Bumblebees; their behaviour, ecology and conservation (2010, Oxford University Press) and A Sting in the Tale (2013, Jonathan Cape), a popular science book about bumblebees.

Goulson's ALLEGATIONS against Neonicotinoid Insecticides have been INVALIDATED by Britain's Department For Environment, Food, And Rural Affairs. (See next segment.)

NORAHG RESPONSE

Studies Of Neonicotinoid Insecticides By Britain's Department For Environment, Food, And Rural Affairs

Britain's Department For Environment, Food, And Rural Affairs (DEFRA) concluded that DOSES OF NEONICOTINOID INSECTICIDES THAT BEES RECEIVE IN LAB STUDIES ARE FAR ABOVE WHAT A REALISTIC FIELD DOSE EXPOSURE WOULD BE.

The DEFRA evaluation of studies purporting to link Neonicotinoid Insecticides to bee harm found that THE LAB WORK WAS CONDUCTED UNDER EXTREME SCENARIOS WHICH WOULD NOT OCCUR UNDER REAL-WORLD CONDITIONS.

According to Britain's Department For Environment, Food, And Rural Affairs (DEFRA) —

The RISK of Neonicotinoid Insecticides seed treatments to bee populations in the field is LOW.

That's hardly surprising.

Plant tissues contain only TINY amounts of Neonicotinoid Insecticides, bees are not feeding on the plants, and POLLEN CONTAINS BARELY DETECTABLE LEVELS.

NORAHG RESPONSE

Studies Of Neonicotinoid Insecticides At The University Of Guelph

Dr. Cynthia Scott-Dupree is Professor Of Environmental Biology at University Of Guelph, in Ontario.

She is the LEADING EXPERT IN THE FIELD OF POLLINATION ACTIVITIES OF HONEYBEES.

According to Dr. Scott-Dupree, doses of Neonicotinoid Insecticides that bees receive in lab studies

...

... are far above what a realistic field dose exposure would be.

The difference is akin to an 81 mg aspirin tablet versus a full bottle of 200 mg tablets, or light rainfall on a bee versus throwing it into a bucket of water.

Dr. Scott-Dupree helped coordinate a Canadian field study that compared hives exposed to Neonicotinoid Insecticides to those that weren't exposed.

Dr. Scott-Dupree FOUND NO DIFFERENCE IN COLONY HEALTH between the two groups.

Dr. Scott-Dupree WAS NEVER CONSULTED by Anti-Pesticide Lunatic-Bee-Keepers, who nevertheless CONSPIRE to PROHIBIT against Neonicotinoid Insecticides used in the Agriculture Industry.

NORAHG RESPONSE

Dr. Cynthia Scott-Dupree

Dr. Cynthia Scott-Dupree is the LEADING EXPERT IN THE FIELD OF POLLINATION ACTIVITIES OF HONEYBEES.

Dr. Cynthia Scott-Dupree received her Master Of Pest Management (1983) and her Ph.D. (1986) from the Department of Biological Sciences at Simon Fraser University.

Dr. Cynthia Scott-Dupree's Master Of Pest Management research dealt with the use of pheromones for the monitoring and control of moth pests in apicultural situations.

Her Ph.D. research, with Dr. Mark Winston, focused on the pollination activities of honeybees and native bee pollinators in orchard systems in the Okanagan Valley of British Columbia.

Dr. Scott-Dupree became a faculty member at University Of Guelph in 1986, and is involved in teaching and research.

Her research interests include integrated management of insect crops pests using environmentally compatible control methods, resistance management, and the impact of agro-ecosystems on non-target organisms, including beneficial insects such as honey bees, bumble bees, native bees and natural enemies of insect pests.

Dr. Scott-Dupree is also interested in alternative control methods for honeybee disease and pests.

Born and raised in Western Canada, Dr. Scott-Dupree became acquainted with apiculture and agriculture through family beekeeping and farming operations.

She is keenly aware of the importance of apiculture and agriculture to the Canada economy and endeavors to relay this to others through her research, teaching and extension activities.

Dr. Scott-Dupree is actively involved with the Entomological Societies of Ontario and Canada and is Past President of the Canadian Association Of Professional Apiculturists.

NORAHG RESPONSE

Bee-Keepers Seem To Be Blissfully Unaware That Varroa Mites Are Problem No. 1

Bee-Keepers appear to be UNABLE or UNWILLING to get their major pest problems under control, such as VARROA MITES, leading observers to conclude that Bee-Keepers may NOT BE COMPETENT to handle their businesses, and may be WHOLLY UNSUITED to be raising bees.

Ernesto Guzman, a Bee Researcher at the University of Guelph, in Ontario, says VARROA MITES continue to be the PRIME SUSPECT in the bee losses.

According to Guzman —

We have evidence that VARROA MITES are PROBLEM NO. 1 associated to bee mortality in southern Ontario, although neonicotinoid insecticides have been associated to some ISOLATED CASES of colony mortality.

Dr. Guzman WAS NEVER CONSULTED by Anti-Pesticide Lunatic-Bee-Keepers, who nevertheless CONSPIRE to PROHIBIT against Neonicotinoid Insecticides used in the Agriculture Industry.

Even Alberta Bee-Keepers Commission DOES NOT CONSIDER Neonicotinoid Insecticides as a serious problem.

According to Alberta Bee-Keepers Commission, VARROA MITES ARE THE CAUSE OF ROUGHLY HALF OF BEE LOSSES EVERY WINTER.

If VARROA MITES infest even one per cent of bees, within two years, THE ENTIRE HIVE COULD BE LOST.

Bee-Keepers MUST GET THEIR VARROA MITE PROBLEMS UNDER CONTROL to rein in the collapse of bee colonies.

Moreover, the weight of the scientific evidence clearly shows that Neonicotinoid Insecticides DO NOT AFFECT BEES.

The exposure of bees to Neonicotinoid Insecticides is at very low levels, far too low to cause harmful effects.

Neonicotinoid Insecticides WILL CAUSE NO HARM TO BEES since treated plant tissues contain only TINY amounts of ingredient, bees are not feeding on the plants, and pollen contains barely detectable levels.

If Bee-Keepers were not so SCIENTIFICALLY ILLITERATE, they would know that scientific research shows that, as reported through EPA's and Health Canada's VAST TOXICOLOGY DATABASE, NO HARM WILL OCCUR TO BEES.

Neonicotinoid Insecticides have been thoroughly assessed by Health Canada to ensure THEY CAN BE USED SAFELY WITHOUT HARMING BEES.

REPORTS & REFERENCE — DR. ERNESTO GUZMAN

NORAHG RESPONSE

Only A Very Limited Number Of Bee-Keepers Report Losses, Less Than 1%

In 2012, a mere 42 Bee-Keepers alleged losses.

In 2013, only 74 Bee-Keepers alleged losses.

There are 7,000 Bee-Keepers keeping 600,000 colonies of honeybees across Canada.

Essentially, a mere 0.5 to 1.0 per cent of all Bee-Keepers are reporting losses.

These represent the Anti-Pesticide Lunatic-Bee-Keepers of Canada.

Over 99 per cent of all Bee-Keepers are reporting NO losses.

Bee-Keepers HAVE NO IDEA WHAT THEY ARE DOING, leading some observers to conclude that Bee-Keepers may NOT BE COMPETENT TO RAISE BEES.

Bee-Keepers KNOW ALMOST NOTHING ABOUT PEST CONTROL PRODUCTS.

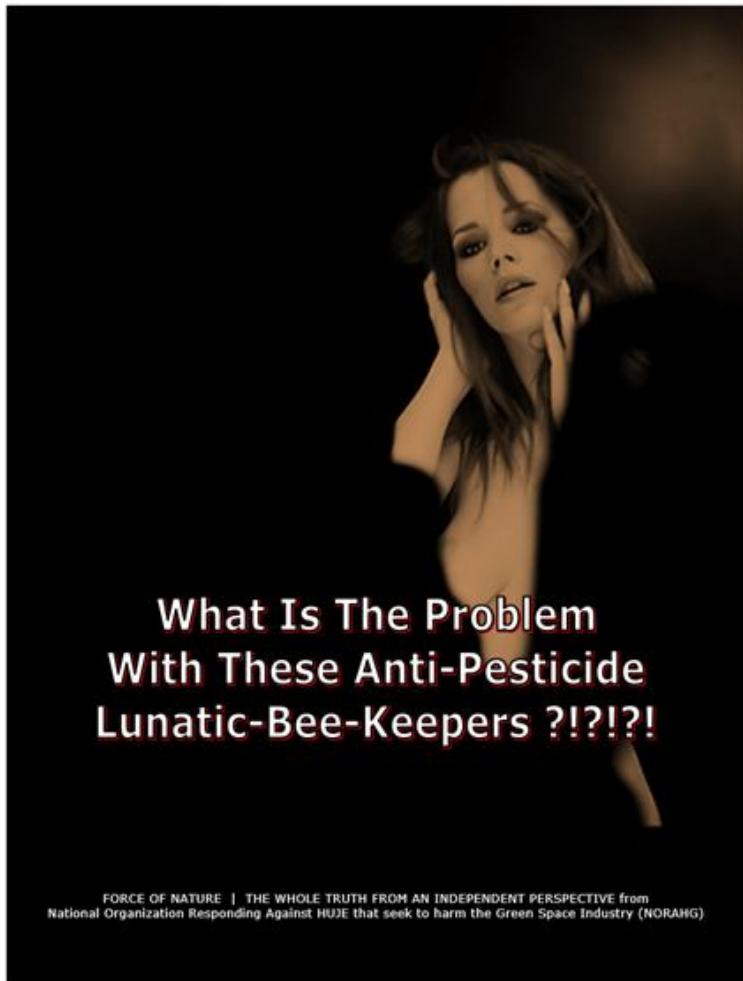

Bee-Keepers know full well that VARROA MITES are the primary problem associated with bee mortality, and NOT Neonicotinoid Insecticides.

REPORTS

NORAHG RESPONSE

Conclusion — What Is The Problem With These Anti-Pesticide Lunatic-Bee-Keepers !?!?!

Anti-Pesticide Lunatic-Bee-Keepers FALSELY ALLEGE that Neonicotinoid Insecticides have somehow harmed bees.

They CONSPIRE to PROHIBIT against Neonicotinoid Insecticides used in the Agriculture Industry.

NO LEADING CANADIAN EXPERTS WERE EVER CONSULTED by Anti-Pesticide Lunatic-Bee-Keepers, and yet, they CONCOCT IMAGINARY DANGER about Neonicotinoid Insecticides based upon the LONG-DISTANCE RANTS from someone who DOES NOT EVEN PERFORM RESEARCH IN CANADA, like Dave Goulson.

CANADIAN BEE EXPERTS, like Dr. Cynthia Scott-Dupree and Dr. Ernesto Guzman, both performing research in Ontario, WERE NEVER CONSULTED by Anti-Pesticide Lunatic-Bee-Keepers.

Even Canadian Honey Council, representing Bee-Keepers all across Canada, ACTIVELY OPPOSES PROHIBITION against Neonicotinoid Insecticides, arguing that THE HARM TO GROWERS WOULD BE SUBSTANTIAL, and that there will be NO NOTABLE CHANGE in bee losses..

What is the problem with these Anti-Pesticide Lunatic-Bee-Keepers ?!?!?!?

Anti-Pesticide Lunatic-Bee-Keepers should LEAVE THE FACTS ON PESTICIDE SAFETY UP TO THE EXPERTS AT HEALTH CANADA.

Health Canada, and NOT Sierra Club, and certainly NOT Ontario Bee-Keepers Association, has THE ESSENTIAL EXPERTISE on the subject of pest control products.

ONLY A VERY LIMITED NUMBER OF BEE-KEEPERS REPORT LOSSES, and MOST Bee-Keepers HAVE NOT experienced excessive losses in recent years.

There are THOUSANDS OF KNOWN DEATHS per year from KNOWN PESTS such as VARROA MITES.

According to Alberta Bee-Keepers Commission, VARROA MITES ARE THE CAUSE OF ROUGHLY HALF OF bee losses EVERY WINTER.

Alberta Bee-Keepers Commission has NEVER MENTIONED ANYTHING about Neonicotinoid Insecticides.

Bee-Keepers MUST GET THEIR VARROA MITE PROBLEMS UNDER CONTROL to rein in the collapse of bee colonies.

Bee-Keepers appear to be UNABLE or UNWILLING to get their major pest problems under control, such as VARROA MITES, leading observers to conclude that Bee-Keepers may NOT BE COMPETENT to handle their businesses, and may be WHOLLY UNSUITED to be raising bees.

Neonicotinoid Insecticides are SCIENTIFICALLY SAFE, CAUSE NO HARM, and DO NOT HURT BEES.

Here Are Encore Reports About BEES, Just In Case You Missed Them ...

The Whole Truth From An Independent Perspective

Discover what anti-pesticide and enviro-lunatic terrorists are doing and saying about subversively imposing their life-style choices against our society

Read ... Force Of Nature and Pesticide Truths – The Whole Truth From An Independent Perspective.

Go to The Pesticide Truths Web-Site (Archive Of Reports) ...

<http://pesticidetruths.com/> (<http://pesticidetruths.com/>)

Communities and businesses are being HARMED and DESTROYED and RAPED by PROHIBITIONS against pest control products used in the Urban Landscape, and by other ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is perpetrated EVERY SINGLE DAY by these terrorist.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR – scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from so-called activists who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUIE that seek to harm the Green space industry, and the well-being of our communities.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT of somehow « *saving* » the environment.

<http://wp.me/P1jq40-2bo> (<http://wp.me/P1jq40-2bo>)

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting PESTICIDE FREE FAILURES, as well as the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

<http://wp.me/p1jq40-5DD> (<http://wp.me/p1jq40-5DD>)

NORAHG responds on behalf of the VAST SILENT MAJORITY of the public that DOES NOT WANT PESTICIDE BANS, and SUPPORT those who work in the Professional Lawn Care Industry.

<http://wp.me/P1jq40-2bo> (<http://wp.me/P1jq40-2bo>)

NORAHG is opposed to Pesticide-Free jurisdictions that have DOOMED children to SUFFER INJURIES since Anti-Pesticide PROHIBITION inevitably leads to public and residential green spaces that become DANGEROUS AND PEST-INFESTED GARBAGE DUMPS.

<http://wp.me/P1jq40-44g> (<http://wp.me/P1jq40-44g>)

<http://wp.me/P1jq40-4z3> (<http://wp.me/P1jq40-4z3>)

NORAHG is concerned that, without pest control products, CHILDREN ARE AT HIGHER RISK OF SUFFERING INJURIES with the creation of HAZARDOUS SLIPPING AND TRIPPING CONDITIONS in sports turf.

<http://wp.me/P1jq40-2ha> (<http://wp.me/P1jq40-2ha>)

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Force Of Nature was launched by NORAHG for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press.

<http://pesticidetruths.com/> (<http://pesticidetruths.com/>)

Pesticide Truths and Force Of Nature, in some ways, are like Google for everything concerning the SUBVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.
