Mr Pierre Petelle

Mr Petelle is a LEADING EXPERT who has recognized expertise, training, and background in matters concerning pest control products.

Mr Petelle speaks out against activists and anti-pesticide prohibitions on a regular basis.

Mr Petelle validly promotes the fact that pest control products, which include Neonicotinoid Insecticides, are ENVIRONMENTALLY-FRIENDLY.

He has the wisdom of a REAL expert.

The Wisdom of a REAL Expert

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

(<http://pesticidetruths.com/wp-content/uploads/2014/01/Neonicotinoid-Insecticides-123.png>)

According to Mr Pierre Petelle and CropLife Canada ...

- European Union PROHIBITION against Neonicotinoid Insecticides was A REACTION TO OVER-HEATED RHETORIC.
- Neonicotinoid Insecticide is coated on the seed, and the seed is buried in the soil, so it is INACCESSIBLE TO THE BEES.
- Studies in Europe and in North America where Neonicotinoid Insecticides were applied consecutively for 10 years have reported NO ACCUMULATION and NO BIO-ACCUMULATION.
- The class of Neonicotinoid Insecticides has EXTREMELY LOW TOXICITY TO HUMANS, EXTREMELY LOW TOXICITY TO OTHER MAMMALS as well as BIRDS and FISH.
- There is NO PERSISTENCE of Neonicotinoid Insecticides beyond the levels that you would expect in an agricultural field for one year.
- There is NO REASON TO BELIEVE that Neonicotinoid Insecticides PERSIST IN WATER over long periods of time.
- There is NO UNAMBIGUOUS EVIDENCE to suggest that Neonicotinoid Insecticides are to blame for the decline in bee populations.
- Under normal use, Neonicotinoid Insecticides WILL NOT POSE A PROBLEM.

CropLife Canada is the trade association representing manufacturers, developers and distributors of pest control products, including those designed specifically for urban use.

Canadian Broadcasting Corporation (CBC) News

Selected And Adapted Excerpts

The Wisdom of Mr Pierre Petelle — Neonicotinoid Insecticides Are Environmentally-Friendly

Neonicotinoid Insecticides WON'T POSE A PROBLEM

The companies that manufacture Neonicotinoid Insecticides [a.k.a. Neonics], Bayer CropScience and Syngenta, say their products have been RIGOROUSLY TESTED, and HAVE BEEN FOUND TO BE SAFE even before they were introduced into the market.

CropLife Canada is an industry group that speaks on behalf of those companies.

CropLife said there is NO REASON TO BELIEVE that Neonicotinoid Insecticides PERSIST IN WATER over long periods of time.

According to Mr Pierre Petelle of CropLife Canada —

The companies have done studies in Europe and in North America where they've applied the product consecutively for 10 years and have seen NO ACCUMULATION, NO BIO-ACCUMULATION.

And they've also seen NO PERSISTENCE beyond the levels that you would expect in a field for one year.

We're confident that the levels that would be detected under normal use WON'T POSE A PROBLEM.

The Wisdom of a REAL Expert

The levels [of Neonicotinoid Insecticides] that would be detected under normal use WON'T POSE A PROBLEM.

**— Mr Pierre Petelle,
CropLife Canada**

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

(<http://pesticidetruths.com/wp-content/uploads/2014/01/Neonicotinoid-Insecticides-19.png>)

Neonicotinoid Insecticides Have **EXTREMELY LOW TOXICITY**

Mr Pierre Petelle of CropLife Canada said —

Neonicotinoid Insecticides [a.k.a. Neonics], far from causing harm, are a WELCOME REPLACEMENT to older sprayed-on pesticides that were potentially harmful to humans and animals.

According to Mr Petelle —

This class of Insecticide [Neonicotinoids] has EXTREMELY LOW TOXICITY TO HUMANS, EXTREMELY LOW TOXICITY TO OTHER MAMMALS as well as BIRDS and FISH.

**Neonicotinoid Insecticides
have EXTREMELY LOW
TOXICITY TO HUMANS,
EXTREMELY LOW TOXICITY
TO OTHER MAMMALS as
well as BIRDS and FISH**

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

(<http://pesticidetruths.com/wp-content/uploads/2014/01/Neonicotinoid-Insecticides-7.png>)

Neonicotinoid Insecticides Are INACCESSIBLE TO BEES

Neonicotinoid Insecticide is used as A COATING APPLIED TO AGRICULTURAL SEEDS to protect the plants, as well as bees.

Mr Pierre Petelle of CropLife Canada said ...

SEEDS COATED with Neonicotinoid Insecticide makes a lot of sense because they do away with the possibility of over-spray and allow farmers to avoid multiple applications of pesticides throughout the growing season.

According to CropLife Canada, the seed itself takes care of its own pest management, not only as a seed but as it grows and matures into a stalk of corn with cobs.

It is a SAFE AND TARGETED WAY to use the insecticide WITHOUT HARMING POLLINATORS.

This is because the Neonicotinoid Insecticide is coated on the seed, and the seed is buried in the soil, so it is INACCESSIBLE TO THE BEES.

(<http://pesticidetruths.com/wp-content/uploads/2014/01/Neonicotinoid-Insecticides-9.png>)

Unfortunate Anti-Pesticide Perspective

According to Mr Pierre Petelle of CropLife Canada —

The problem here is that now you've got activist groups who've got a very clear ANTI-PESTICIDE PERSPECTIVE and they don't hide that.

And it's UNFORTUNATE.

Mr Petelle said there is NO UNAMBIGUOUS EVIDENCE to suggest that Neonicotinoid Insecticides [a.k.a. Neonics] are to blame for the decline in bee populations.

The Wisdom of a REAL Expert

The problem here is that now you've got activist groups who've got a very clear anti-pesticide perspective.

European Union Prohibition Was A Reaction To Over-Heated Rhetoric

Until now, Neonicotinoid Insecticides [a.k.a. Neonics] have raised concerns because of their PERCEIVED EFFECT ON BEES.

Unfortunately, this PERCEIVED EFFECT was taken too seriously in April 2012, when the European Union placed a two-year trial PROHIBITION against Neonicotinoid Insecticides because of UNFOUNDED COMPLAINTS. [WRONG !]

CropLife Canada said —

The European Union PROHIBITION was A REACTION TO OVER-HEATED RHETORIC.

Background Information

From An Independent Perspective

Background Information From An Independent Perspective

NO Neonicotinoid PROHIBITION In Canada

Unlike Europe, which has moved to PROHIBIT Neonicotinoid Insecticides [a.k.a. Neonics], the Government of Canada said, in an e-mail to Canadian Broadcasting Corporation (CBC) —

We [Government of Canada] DO NOT FEEL a suspension [of Neonicotinoid Insecticides] is warranted at this time.

Within the Government of Canada, Health Canada's Pest Management Regulatory Agency is responsible for administering Neonicotinoid Insecticides under the Pest Control Products Act on behalf of the Minister of Health.

At Pest Management Regulatory Agency, before a Neonicotinoid Insecticide is allowed to be used or sold in Canada, it must UNDERGO A RIGOROUS SCIENTIFIC ASSESSMENT PROCESS which provides reasonable certainty that NO HARM WILL OCCUR, including chronic effects such as cancer, when pesticides are used according to label directions.

Pest Management Regulatory Authority has publicly raised concerns about the pesticide, and its possible effect on bees in the corn-growing regions of Ontario, Quebec and Manitoba.

Pest Management Regulatory Agency said its research shows —

The use of neonicotinoid treated corn and soybean seed are affecting the environment due to their impact on bees and other pollinators.

It found that about 70 per cent of dead bee samples tested positive for Neonicotinoid residue, whereas the chemical was detected in one sample of unaffected bees.

However, only A VERY LIMITED NUMBER of Bee-Keepers report losses, LESS THAN 1 PER CENT of all Bee-Keepers.

Pest Management Regulatory Agency said —

We concluded that the majority of pollinator mortalities were a result of EXPOSURE to Neonicotinoid Insecticides.

Pest Management Regulatory Agency must investigate as to why only a VERY LIMITED NUMBER of Bee-Keepers report losses, LESS THAN 1 PER CENT of all Bee-Keepers.

Pest Management Regulatory Agency must also investigate ALLEGATIONS THAT BEE-KEEPERS ARE KILLING THEIR OWN BEES ?!?!

Bee-Keepers may have DELIBERATELY AND FATALLY EXPOSED their own bees to insecticides.

Pest Management Regulatory Agency must test the Bee-Keepers' residences and clothing for traces residue.

Pest Management Regulatory Agency must understand that some Bee-Keepers will also SAY ANYTHING and DO ANYTHING in order to COERCE AND INTIMIDATE Health Canada to PROHIBIT against Neonicotinoid Insecticides.

Additionally, Pest Management Regulatory Agency must understand that some Bee-Keepers will SAY ANYTHING and DO ANYTHING in order to INCREASE THE PROFIT OF THEIR VESTED INTERESTS.

Pest Management Regulatory Agency is aware that over 99 per cent of all Bee-Keepers are reporting NO losses.

Most Bee-Keepers are NOT DELIBERATELY AND FATALLY EXPOSING their own bees to insecticides.

Pest Management Regulatory Agency must be aware that some Bee-Keepers HAVE NO IDEA WHAT THEY ARE DOING, and that they may NOT BE COMPETENT TO RAISE BEES.

Pest Management Regulatory Agency is aware Bee-Keepers KNOW ALMOST NOTHING ABOUT PEST CONTROL PRODUCTS.

Pest Management Regulatory Agency knows full well that VARROA MITES are the primary problem associated with bee mortality, and NOT Neonicotinoid Insecticides.

Pest Management Regulatory Agency has concluded that PROHIBITION against Neonicotinoid Insecticides is NOT WARRANTED.

There will be NO Neonicotinoid PROHIBITION In Canada.

Nonetheless, Pest Management Regulatory Agency is consulting with the public in order to further improve its already-advanced standards for the use of Neonicotinoid Insecticide as A COATING APPLIED TO SEEDS to protect the plants, as well as bees.

Pest Management Regulatory Agency is also CONDUCTING A DETAILED SCIENTIFIC RE-EVALUATION of the effects of Neonicotinoid Insecticides on bees, which will be released in 2014.

NO

Neonicotinoid Prohibition In Canada

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

(<http://pesticidetruths.com/wp-content/uploads/2014/01/Neonicotinoid-Insecticides-8.png>)

Bee-Keepers Are Deliberately Killing Their Own Bees ?

Health Canada's Pest Management Regulatory Agency must INVESTIGATE whether Bee-Keepers are DELIBERATELY KILLING THEIR OWN BEES.

Bee-Keepers are ABSOLUTELY WRONG about bee mortalities !

Their ALLEGATIONS ARE SO RIDICULOUS that observers are beginning to speculate that Bee-Keepers have DELIBERATELY KILLED THEIR BEES IN ORDER TO LAY FALSE BLAME AGAINST NEONICOTINOID INSECTICIDES.

In essence, Bee-Keepers TAMPERED WITH THE SAMPLES PROVIDED TO HEALTH CANADA.

In 2012 and 2013, when Heath Canada visited Bee-Keepers to evaluate their dead bees, THERE WAS NO LEGITIMATE CHAIN OF CUSTODY FOR THE SAMPLES OF DEAD BEES THAT WERE ALLEGEDLY POISONED BY INSECTICIDE.

Bee-Keepers DELIBERATELY KILLED THEIR BEES with the malicious intent of COERCING AND INTIMIDATING Government Officials into prohibiting insecticides.

Pest Management Regulatory Agency must consider this scenario during its investigation.

Pest Management Regulatory Agency should further investigate as to why only a VERY LIMITED NUMBER of Bee-Keepers report losses, LESS THAN 1 PER CENT of all Bee-Keepers.

In 2012, a mere 42 Bee-Keepers alleged losses.

In 2013, only 74 Bee-Keepers alleged losses.

There are 7,000 Bee-Keepers keeping 600,000 colonies of honeybees across

Canada.

Essentially, a mere 0.5 to 1.0 per cent of all Bee-Keepers are reporting losses.

Over 99 per cent of all Bee-Keepers are reporting NO losses.

Why are only a VERY LIMITED NUMBER of Bee-Keepers affected ?!?!

Why doesn't Pest Management Regulatory Agency investigate THE KILLING OF BEES BY BEE-KEEPERS ?!?!

Pest Management Regulatory Agency must test the Bee-Keepers' residences and clothing for residue.

Observers point out to how much PROFIT the Bee-Keepers will make once they launch a class-action lawsuit that is supported by an imminent politically-motivated PROHIBITION by Health Canada against Neonicotinoid Insecticides.

Anti-Pesticide Lunatic Bee-Keepers will SAY ANYTHING and DO ANYTHING in order to INCREASE THE PROFIT OF THEIR VESTED INTERESTS.

Additionally, bee-keepers will also SAY ANYTHING and DO ANYTHING in order to COERCE AND INTIMIDATE Health Canada to PROHIBIT against Neonicotinoid Insecticides.

Anti-Pesticide Bee-Keepers LIE about the death of their bees.

Even the most prominent Bee-Keepers, like RANDY OLIVER, disagree with them. See link below.

Bee-Keepers also LIE about the fact that bee losses are actually THE FAULT OF THEIR MIS-MANAGEMENT PRACTICES.

Overall, throughout the rest of the world, there is NO LEGITIMATE SCIENTIFIC EVIDENCE that suggests a link between Neonicotinoid Insecticides and bee losses, or Bee Colony Collapse Disorder.

Let the Bee-Keepers face the spotlight of scrutiny and the terror of the courts.

Background Information From An Independent Perspective

Mr Pierre Petelle's Biography

Mr Pierre Petelle is among several LEADING EXPERTS who have recognized expertise, training, and background in matters concerning pest control products.

Mr Petelle is Executive Director of Regulatory Affairs at CropLife Canada.

Mr Petelle was also the Vice-President of Chemistry at CropLife Canada.

CropLife Canada is the trade association representing manufacturers, developers and distributors of pest control products, including those designed specifically for agricultural and urban use.

Mr Petelle is responsible for helping to secure legislation, regulation and policy that encourage science and industry innovation, forging alliances with stakeholder groups to advance common positions and continuing to ensure lifecycle stewardship of pest control products.

Mr Petelle's work in representing Canada's plant science industry also includes increasing the awareness, understanding and acceptance of the benefits, safety and sustainability of plant science innovations.

Prior to joining CropLife Canada, Mr Petelle held the position of Section Head of Policy (Senior Policy Analyst) at Health Canada's Pest Management Regulatory Agency where he worked with a broad group of stake-holders on a wide range of issues important to Canada's plant science industry.

Mr Petelle holds an environmental biology degree from the University of Guelph, and a biology degree from Carleton University.

Background Information From An Independent Perspective

According To LEADING EXPERTS, Pest Control Products Are SCIENTIFICALLY-SAFE

The following LEADING EXPERTS have recognized expertise, training and background in matters concerning pest control products.

These LEADING EXPERTS include Policy Experts, Leading Scientific Experts, Industry Leaders, Elected Officials, Doctorate-Level Experts, Commentators, and Business Owners.

These REAL EXPERTS have publicly stated, in one form or another, that pest control products are SCIENTIFICALLY-SAFE —

Discover What Anti-Pesticide And Enviro-Lunatic Terrorists Are Doing And Saying About Subversively Imposing Their Life-Style Choices Against Our Society

Read ... Force Of Nature and Pesticide Truths — The Whole Truth From An Independent Perspective.

Go to The Pesticide Truths Web-Site (Archive Of Reports) ...

<http://pesticidetruths.com/> (<http://pesticidetruths.com/>)

Communities and businesses are being HARMED and DESTROYED and RAPED by PROHIBITIONS against pest control products used in the Urban Landscape, and by other ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is perpetrated EVERY SINGLE DAY by these terrorist.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from so-called activists who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry, and the well-being of our communities.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT of somehow « *saving* » the environment.

<http://wp.me/P1jq40-2bo> (<http://wp.me/P1jq40-2bo>)

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting PESTICIDE FREE FAILURES, as well as the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

<http://wp.me/p1jq40-5DD> (<http://wp.me/p1jq40-5DD>)

NORAHG responds on behalf of the VAST SILENT MAJORITY of the public that DOES NOT WANT PESTICIDE BANS, and SUPPORT those who work in the Professional Lawn Care Industry.

<http://wp.me/P1jq40-2bo> (<http://wp.me/P1jq40-2bo>)

NORAHG is opposed to Pesticide-Free jurisdictions that have DOOMED children to SUFFER INJURIES since Anti-Pesticide PROHIBITION inevitably leads to public and residential green spaces that become DANGEROUS AND PEST-INFESTED GARBAGE DUMPS.

<http://wp.me/P1jq40-44g> (<http://wp.me/P1jq40-44g>)

<http://wp.me/P1jq40-4z3> (<http://wp.me/P1jq40-4z3>)

NORAHG is concerned that, without pest control products, CHILDREN ARE AT HIGHER RISK OF SUFFERING INJURIES with the creation of HAZARDOUS SLIPPING AND TRIPPING CONDITIONS in sports turf.

<http://wp.me/P1jq40-2ha> (<http://wp.me/P1jq40-2ha>)

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Force Of Nature was launched by NORAHG for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press.

<http://pesticidetruths.com/> (<http://pesticidetruths.com/>)

Pesticide Truths and Force Of Nature, in some ways, are like Google for everything concerning the SUBVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.

For The Complete Library of reports from FORCE OF NATURE, and PESTICIDE TRUTHS, go to the following archives ...
