#### **Background Information**

### **Newfoundland Conspiracy**

In 2012, Newfoundland recklessly and arbitrarily prohibited against pest control products used in the urban landscape.

These products were/are desperately need by businesses operating in the professional lawn care industry.

Newfoundland ( and Labrador ) is a province of Canada on the country's Atlantic coast.

This eastern-most Canadian province is comprised of two main regions — the island of Newfoundland off the country's eastern coast, and Labrador on the mainland to the north-west of the island.

The province is often referred to by the abbreviation « *NL* ».

The population is greater than 500,000, and the capital city is Saint John's, with almost 110,000.

On July 14th, 2011, Newfoundland's Department of Environment and Conservation announced that the following ingredients would no longer be permitted for application on lawns in the province — carbaryl, 2,4-D ( 2,4-dichlorophenoxyacetic acid ), mecoprop, dicamba, and MCPA ( 2-methyl-4-chlorophenoxyacetic acid ).

## **Government Thugs Attack A Legitimate & Tax-Paying Business**

The Government of Newfoundland's personal horde of pesticide-hating thugs are abusing their government powers and authorities.

They are currently terrorizing Mr Donald Barry's business, Green Lawn.

According to court documents obtained, government thugs have alleged that Green Lawn of violating the Environmental Protection Act because they believe this business has been offering pest control services without a license between October 30th, 2013, and September 7th, 2016.

Government thugs obtained a search warrant in September 2016 as part of their investigation.

NO charges have been laid, and the allegations have NOT been proven in court.

In a statement to CBC News, Lunatic Environment Minister Perry Trimper confirmed that his government thugs are investigating Green Lawn's use of arbitrarily prohibited pest control products.

Pesticide-hating fanatics have also ratted-out Green Lawn to Health Canada, according to court documents.

Three informants to Health Canada between June 2014 and June 2015 alleged the business was using non-registered pest control products during that time frame.

Green Lawn owner Mr Donald Barry HAS NOT returned messages seeking comment.

To get the search warrant, a government thug from the Department of Environment provided a judge with information from former disgruntled employees and non-expert customers who ratted-out this business with allegations.

Apparently, there are also first-hand observations that suggested the business was illegally spraying pest control products.

Court documents show that in July 2014, a government thug observed a Green Lawn employee spraying a lawn on Waterford Bridge Road with a pest control product used to treat chinch bugs — a destructive insect pest that destroys lawns.

The items seized via the search warrant include pest control products that were arbitrarily prohibited by Newfoundland, despite the fact that they are already federally-approved to control destructive pest problems on home lawns.

No one in the professional lawn care industry should feel safe from these Newfoundland's government thugs !

These thugs have converted Newfoundland into a haven for subversive-enviro-terrorism.

Mr Donald Barry and his Green Lawn business will very likely be fined thousands of dollars for using pest controls product that have been arbitrarily prohibited by subversive Newfoundland government thugs.

In fact, the products used by Green Lawn were/are federally-approved and will cause NO harm according to Health Canada.

Mr Donald Barry and his business will likely be convicted for bogus violations under Newfoundland's Environmental Protection Act for using pest control products that are approved by Health Canada.

Who wants to live in a society where government thugs inflict catastrophic carnage against legitimate and tax-paying businesses ?!?!

### **Background Information**

## **Newfoundland Is Just Like Nazi Germany ?!?!**

Newfoundland government thugs received reports from several informants who ratted-out Mr Donald Barry, just like Nazi informants.

Some observers have remarked that Newfoundland seemingly operates like Hitler's Nazi Germany, by relying on an informant-service and a small horde of pesticide-hating fanatics.

This horde of fanatics is orchestrated by a lunatic-informant-service called The Pesticide Spray Advisory.

If these fanatics wore Swastikas, and lived in the 1930s and 1940s, they would be leading the Third Reich.

Just like the Nazis, Newfoundland's horde of fanatics receive guidance and instruction from the subversive & fanatical master race, like Canadian Cancer Society and Coalition For Alternatives To Pesticides.

These anti-pesticide & environmental-terrorist organizations are now in control of Newfoundland's government thugs, which acts as political and punishment minions who attack decent and tax-paying lawn care businesses.

Newfoundland government thugs are, in fact, merely doing the bidding of their masters who are fanatical-activists who operate anti-pesticide & environmental-terrorist organizations.

## WE SPEAK THE WHOLE TRUTH ABOUT NEWFOUNDLAND, FROM AN INDEPENDENT PERSPECTIVE !

We are the National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG ). As a non-profit and independent organization, we are environmentalists who are dedicated to reporting about Truth-Challenged Pesticide-Hating Fanatics who conspire to destroy businesses that are dependent on their use of conventional pest control products. We also report on the work of Respected and Highly-Rated Experts who promote Environmental Realism and Pesticide Truths. <http://wp.me/p1jq40-8DV>

NORAHG is the sworn enemy of lying, pompous, smug, uneducated, & pesticide-hating enviro-fanatics. Overwhelming scientific evidence clearly demonstrates that pest control products are scientifically-safe, and will not cause harm to children, adults, animals, or the environment. <http://wp.me/p1jq40-7HR> <http://wp.me/P1jq40-2ha> <http://wp.me/p1jq40-6Q6> <http://wp.me/p1jq40-5ni>

Enviro-fanatics have shown that they are incapable of processing overwhelming scientific evidence. Do you want to trust these fanatics, who conveniently ignore scientific evidence, and attempt to impose their twisted life-style choices against our society ?!?!

NORAHG was the brainchild of Mr William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder. We Dare To Defy The Pesticide-Hating Fanatics By Exploring The
