The Modern Green Space Industry can be Described as the Planet's Great Conservationist with Outstanding and Innovative Ideas

Day after day after day — written in the newspapers, heard on the radio, seen on the television, and displayed throughout cyberspace — the Environmental–Terror–Movement (a.k.a. the ecology or natural lawn care movement) is urging for measures to terrorize and destroy the Modern Green Space Industry, with ideas that have little basis in fact or science.

Nonetheless, the Environmental–Terror–Movement has gained some powerful allies, such as law–makers and policy–makers who are spineless and naïve co–conspirators.

Many versions of the following phrase have been heard — The world would be a better place if lawns and golf courses were maintained more ecologically or more naturally.

If each of us received five cents every time we heard this phrase, we would be literally spitting gold ingots.

Let's think for a minute ! How does this phrase really apply to the Modern Green Space Industry ? It's not complicated.

THE MODERN GREEN SPACE INDUSTRY CAN BE DESCRIBED AS THE PLANET'S GREAT CONSERVATIONIST.

For generations, the Modern Green Space Industry has been maintaining and conserving the world's largest ground cover vegetation, and has CONTRIBUTED EXTENSIVELY TO THE

BEAUTIFICATION OF OUR URBAN LANDSCAPES, and THE PRESERVATION OF OUR ENVIRONMENT.

By contrast, Enviro–Maniac–Activists, and their Environmental–Terror–Organizations, can be more precisely identified as RADICAL PRESERVATIONISTS that could not care less about the beautification of our Urban Landscape.

Enviro–Maniac–Activists pretend that the use of cosmetic pesticides is not compatible with natural settings.

Nonetheless, Enviro–Maniac–Activists have pretentiously proclaimed that the natural environment needs their stewardship.

Enviro–Maniac–Activists are obsessed with preserving our world with ANTI–MODERNIST and ANTI–TECHNOLOGY thinking. They thrive on junk science, and resort to LIES rather than the truth.

It is a fact that Enviro–Maniac–Activists are inherently OPPOSED to the modern maintenance of turfgrasses and the beautification of the Urban Landscape. (One notable exception is Audubon International, but not Audubon state organizations.)

Enviro–Maniac–Activists PREFER JUNK LAWNS and JUNK LANDSCAPES that are unaltered by human activity, and are INFESTED with damaging weeds, insects, and disease just as the Enviro–Maniacs INFEST our society.

These ENVIRO–TERRORISTS particularly dislike the cosmetic standards used for the maintenance of golf courses, which are arbitrarily considered too lofty.

Enviro–Maniac–Activists are reenacting the needless conspiracy against DDT. They are proceeding to terrorize and annihilate the Modern Green Space Industry, just like they did with the makers of DDT !

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing that families are in some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
