Lunatic-Terrorist-Prohibition in Ontario

LUNATIC-PROHIBITION in the Province of Ontario

On April 22nd, 2009, the Government of Ontario implemented legislation for the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products used by the Modern Professional Lawn Care Industry.

An Exception Status was provided to industries like golf, sports fields, specialty turf, forestry, and agriculture — these industries employed THE VERY SAME pest control products otherwise PROHIBITED for the Modern Professional Lawn Care Industry.

The legislation was implemented despite the fact that the PROHIBITED pest control products were still FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

Moreover, there were serious issues with the Ontario Minister of the Environment, John Gerretsen, who was responsible for implementing PROHIBITION. Gerretsen was INDISCREET with his CLOSE PUBLIC ASSOCIATIONS with RADICAL and SUBVERSIVE LUNATIC-PROHIBITION-TERRORISTS.

HORRENDOUS CARNAGE Caused by LUNATIC-PROHIBITION in Ontario

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

VIRTUALLY ALL Green Alternatives were almost TOTALLY INEFFECTIVE, except under very specific circumstances.

The Green Alternatives were BOGUS.

They were DISMAL FAILURES.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

BOGUS Green Alternatives have DRAMATICALLY INCREASED the PERSONAL WEALTH and REPUTATION of many of the lunatics operating in organizations related to the investment, sale, distribution, and research.

There is a conflict-of-interest having investors, salesmen, distributors, and researchers of BOGUS Green Alternatives, like Sarritor and Fiesta, serving as Directors who are responsible for making critical decisions on behalf of the entire Professional Lawn Care Industry.

Why Green Alternatives are DISMAL FAILURES

BOGUS Green Alternative

Corn gluten meal herbicide

FOR USE ON —
Crabgrass and broad-leaved weeds, such as dandelion and white clover.

Fiesta herbicide (4.43% FeHEDTA)

FOR USE ON —
Broad-leaved weeds such as black medick, broad-leaved plantain bull thistle, Canada thistle, common chickweed, dandelion, moss and algae, narrow-leaved plantain, white clover.

Sclerotinia minor (Sarritor) herbicide

FOR USE ON —
Dandelions.

Reasons for DISMAL FAILURE as a Green Alternative

According to university research, corn gluten meal does not control ANY weeds in any trials under any circumstances. There is NO evidence of pre- or post-emergence weed control. Moreover, corn gluten meal causes a bad odour, attracts rodents, and DOES NOT WORK WELL.

With Fiesta, weed RE-GROWTH will quickly occur. Adequate broad-leaved weed control with Fiesta is only achieved with an EXHORBITANT 6 to 8 applications per season. However, the label allows a maximum limit of two applications per season. Fiesta requires extremely-high-inputs of active ingredient (a.i.) when compared to conventional pest control products. The exceedingly high a.i. rate of Fiesta seems to fly in the face of the desired environmentalist objective of reducing the amount of active ingredient being applied in pest control product programs. Fiesta is stunningly more expensive than conventional pest control products.

Sarritor essentially acts like a very selective and post-emergent herbicide that MERELY SUPPRESSES a very limited number broad-leaved weed species, such as Dandelion. Unlike conventional herbicides, *Sclerotinia minor* will never control the entire plant, and RE-GROWTH will quickly occur. According to Health Canada, Sarritor caused significant health effects in laboratory animals when a large dose was applied to the respiratory tract. Consequently, the precautionary wording « *DO NOT breathe dust* » is required on the product labels. Furthermore, commercial as well as domestic applicators are required to wear respiratory protection suitable for preventing inhalation of biological products. This type of protection is not needed for applying conventional pest control products.

Why Green Alternatives are DISMAL FAILURES

BOGUS Green Alternative

Reasons for DISMAL FAILURE as a Green Alternative

Acetic acid herbicide

FOR USE ON —
Broad-leaved and grassy weeds.

For complete control of weeds, the product MAY NEED TO BE APPLIED SEVERAL TIMES. Primary use is as a non-selective burn to kill all vegetation.

Ammonium salts of fatty acids herbicide

FOR USE ON —
Moss, algae, broad-leaved weeds within vegetable and flower gardens, landscaped areas, lawns (spot treatment only), around small fruits and fruit trees, buildings and hard landscaped surfaces.

To date, NO information on this product's effectiveness for these pests has been scientifically published.

Fatty acid (herbicidal soap) herbicide

FOR USE ON —
Moss, algae, broad-leaved weeds on driveways, and patios.

To date, NO information on this product's effectiveness for these pests has been scientifically published.

Entomo-pathogenic nematode insecticides

FOR USE ON —
White grubs, caterpillars (cutworm and armyworm), leather-jackets.

Entomo-pathogenic nematode insecticides cannot be consistently considered as a true alternative to conventional insecticides, since the insect pests are often ONLY SUPPRESSED, and NOT controlled. Laboratory and field tests tend to indicate that the best nematode species are only MARGINALLY EFFECTIVE in controlling insect infestations. Moreover, entomo-pathogenic nematode insecticides are NOT registered as pest control products in Canada. Neither the federal nor the provincial governments have officially scheduled or classified entomo-pathogenic nematode insecticides as a pest control product, despite the fact that they contain INFECTIVE BACTERIA.

NORAHG

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
