The Force Of Nature Library of Reports

*One could not successfully fight enviro-terrorists
without realizing that, in contrast to the popular conception
supported by newspapers and mothers of these lunatics,
a goodly number of enviro-terrorists are not only
narrow-minded and dull, but also just stupid.*

— Adapted from James D. Watson, Geneticist

The Force Of Nature organization and its various forerunners have followed the evolution of LUNATIC ENVIRONMENTAL-TERRORISM for over a quarter century, as early as 1982.

Force Of Nature Reports are THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). Don't thank us. It's a public service. And we are glad to do it.

The Force Of Nature Library of Reports contains PESTICIDE TRUTHS and OTHER FACTS with Library, History, Links, News, and Videos destined for the Green Space Industry, the Environmental-Terror-Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas.

Many FON Reports provide a sequence of historical events WITH COMMENTARY, the neutrality of which might be disputed.

It is a LINK DATABASE created to support efforts to fight and exterminate the Environmental-Lunatic-Vermin with reports developed for the education and entertainment of the reader.

Environmental-Lunatic-Vermin, or HUJE, are Lying Sacs of Cwap who rely of Junk Science, Fear-Mongering, and Terrorism to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with the use of conventional pest control products that are otherwise SCIENTIFICALLY SAFE for health and environment.

Force Of Nature Reports were launched for CONTINUOUS transmission on the Internet on January 1st, 2009. However, the VERY FIRST Stand-Alone Force Of Nature Report was issued on September 19th, 2008.

By early 2009, the reports were released no more than five times per week, but by August 25th, 2009, Force Of Nature was produced on a DAILY basis.

On March 15th, 2010, Uncle Adolph independently launching the Blog-Site called Pesticide Truths, for the posting of information right-off-the-press.
<http://uncleadolph.blogspot.com/>

Uncle Adolph is an organization that operates INDEPENDENTLY from NORAHG and Force Of Nature, and its activities are restricted to posting and archiving.

By May 27th, 2010, Uncle Adolph expanded Pesticide Truths to a SECOND Blog-Site, and independently acquired the rights to archive The ENTIRE Force Of Nature Library of Reports through a Link Database called Scribd. <http://pesticidetruths.com/> **71,000+ Reads So far**

By mid-December 2010, The Force Of Nature Library of Reports was FULLY SUMMARIZED and CROSS-REFERENCED. <http://pesticidetruths.com/toc/>

BOGUS Green Alternatives

The FAILURE of Substitutes for Conventional Pest Control Products

FIESTA HERBICIDE

2010 02 23 — **FIESTA HERBICIDE** — BOGUS Green Alternative — A Look At — Consultation — Proposed Registration Decision for FeHEDTA — What Does Health Canada Consider When Making a Registration Decision ? — What Is FeHEDTA ? — Health Considerations — Can Approved Uses of FeHEDTA Affect Human Health ? — Residues in Water and Food — Occupational Risks From Handling FeHEDTA — Environmental Considerations — What Happens When FeHEDTA Is Introduced Into the Environment ? — Value Considerations — What Is the Value of FeHEDTA ? — Measures to Minimize Risk — Key Risk-Reduction Measures — Human Health

Summary —

There is potential for SKIN SENSITIZATION to occur when skin is repeatedly exposed to FeHEDTA products — Therefore, cautionary statements alerting users to this SENSITIZATION concern are required on all product labels — Dermal exposure is likely for commercial applicators, domestic users or anyone entering sprayed areas before the spray is dried — Children may also be exposed to FeHEDTA by direct dermal or hand-to-mouth contact if they were to play on freshly treated lawn surfaces — Therefore, a RESTRICTED ENTRY STATEMENT is required on all product labels to mitigate this exposure concern

FON Report in Pesticide Truths —

<http://uncleadolph.blogspot.com/2010/04/look-at-fieta-herbicide-consultation.html>

Pesticide Truths Reference — 2011 Document — Fiesta Herbicide Label —

<http://www.scribd.com/doc/48511230/Fiesta10L>

2010 04 25 — **FIESTA HERBICIDE** — BOGUS Green Alternative — A Look At a So-Called Green Alternative to Conventional Pest Control Products — Introduction — General Description of Fiesta — Application Rate of Fiesta — Cost of Fiesta — Cornerstones for Effective Weed Control Programs — Active Ingredient — Control vs Suppression — Number of Weed Species Controlled — Phyto-Toxicity and Other Side-Effects — Applicator Protection When Using Fiesta — Fertilizer Tank Mix — Conclusion

Summary —

Fiesta is a Green Alternative to three-way phenoxy turf herbicides such as Killex — Fiesta is NOT safer, since BOTH Fiesta and Killex have a LOW TOXICITY, with Oral LD50 greater than 5000 mg per kg — This value indicates that BOTH products, in their concentrated pre-diluted form, are safer than household items such as baking soda, caffeine, ethanol, and table salt — Fiesta is not safer, nor better, nor more effective when compared to conventional pest control products like 2,4-D or Killex — Fiesta requires extremely-high-inputs of active ingredient — So-Called Green Alternatives to Conventional Pest Control Products may NOT BE SAFER, NOR BETTER, NOR MORE EFFECTIVE — Despite claims to the contrary, overall, there are NO viable, efficacious, or economical Green Alternatives to replace conventional pest control products — Virtually all Green Alternatives are BOGUS

2010 05 21 — **FIESTA HERBICIDE** — BOGUS Green Alternative — Warning — Market Longevity At Stake — The Milorganite-Lou-Gehrig Affair — The Looming Fiesta-Hemochromatosis Affair ?!?! — Health Problems Associated with Iron — Nutri-Lawn (Organo-Maniac Lawn Care Franchise)

Note —

NUTRI-LAWN CONSPIRED TO IMPOSE THE PROHIBITION OF PEST CONTROL PRODUCTS, AND BETRAYED THE PROFESSIONAL LAWN CARE INDUSTRY

Summary —

The people responsible for media releases at Nutri-Lawn are either mind-numbingly stupid or incompetent ... and most likely BOTH — Since Fiesta contains a METAL INGREDIENT, there will inevitably develop the same controversy that led to the DEMISE of the fertilizer Milorganite in Canada in the 1980s and 1990s — Since Fiesta contains a « metal ingredient », there will inevitably develop the same controversy that led to the DEMISE of the fertilizer Milorganite in Canada in the 1980s and 1990s

FON Report —

<http://www.scribd.com/doc/46011783/Force-of-Nature-Green-Alternative-Fiesta-Herbicide-2010-05-21-Warning-Nutri-Lawn-Market-Longevity-at-Stake-MODIFIED-PDF-300>

2010 06 07 — **FIESTA HERBICIDE** — BOGUS Green Alternative — If Something Sounds Too Good To Be True — Weed Control Products — Pamela Charbonneau (Enviro-Lunatic Government Official, Ontario Ministry of Agriculture, Food and Rural Affairs, University of Guelph)

Note —

UNIVERSITY OF GUELPH IS THE INSTRUMENT OF ENVIRO-LUNATIC-PROPAGANDA FOR THE PROMOTION OF MIS-INFORMATION ABOUT BOGUS GREEN ALTERNATIVES — IT BETRAYED THE PROFESSIONAL LAWN CARE INDUSTRY

Summary —

It appears that with the exception of dandelions and black medick, that THERE IS CONSIDERABLE RE-GROWTH OF THESE WEED SPECIES, BACK TO SIMILAR LEVELS BEFORE TREATMENT — In the fall, Fiesta was only applied once to the plots and it may be that at that time of year, TWO APPLICATIONS ARE NECESSARY — There are more research trials being conducted this spring at Guelph Turfgrass Institute to try to get a handle on the RE-GROWTH OF BROADLEAF WEEDS AFTER TREATMENT WITH FIESTA

FON Report —

<http://www.scribd.com/doc/32916209/Force-of-Nature-Bogus-Green-Product-Fiesta-Charbonneau-2010-06-07-MODIFIED-PDF-300-Dpi>

2010 06 10 — **FIESTA HERBICIDE** — BOGUS Green Alternative — Warning — NOT a Natural Product — Definitions of Natural and Organic Pest Control Products — Organic and Natural Fertilizers Under the Canadian Fertilizers Act — The Early History of Natural Pest Control Products — Lawn Life, Nutri-Lawn, and Weed Man (Organo-Maniac Lawn Care Companies)

Note —

LAWN LIFE, NUTRI-LAWN, AND WEED MAN CONSPIRED TO IMPOSE THE PROHIBITION OF PEST CONTROL PRODUCTS, AND BETRAYED THE PROFESSIONAL LAWN CARE INDUSTRY

Summary —

Some Professional Lawn Care and Distribution Companies have employed inaccurate terms like NATURAL or ORGANIC to describe Fiesta Herbicide in their advertising campaigns — The terms have been used DIRECTLY and INDIRECTLY — Companies have been instructed by Health Canada to DESIST — Fiesta is NOT a natural or organic product — If you can't be a good example, then you'll just have to serve as a horrible warning

FON Report in Pesticide Truths —

<http://uncleadolph.blogspot.com/2010/07/fiesta-herbicide-warning-not-natural.html>

FON Report —

2010 06 13 — **FIESTA HERBICIDE** — BOGUS Green Alternative — Positive Waves
(Outstanding and Innovative Ideas for the Green Space Industry) — FiestaJet Gun
or Fiesta Herbicide Gun — The Modern Green Space Industry Can Be Described as the
Planet's Great Conservationist

Summary —

The FiestaJet Gun has been designed for the application of Fiesta herbicide.

*Why don't you knock it off with them negative waves ? — And the Green
Space Industry responds with OUTSTANDING AND INNOVATIVE IDEAS — The
MODERN GREEN SPACE INDUSTRY CAN BE DESCRIBED AS THE PLANET'S GREAT
CONSERVATIONIST — For generations, the Modern Green Space Industry has
been maintaining and conserving the world's largest ground cover vegetation,
and has CONTRIBUTED EXTENSIVELY TO THE BEAUTIFICATION OF OUR URBAN
LANDSCAPES, and THE PRESERVATION OF OUR ENVIRONMENT*

FON Report —

<http://www.scribd.com/doc/33048918/Force-of-Nature-Positive-Waves-FiestaJet-Gun-MODIFIED-PDF-300dpi>

2010 06 17 — **FIESTA HERBICIDE** — BOGUS Green Alternative — BOGUS Green Product — If Something Sounds Too Good To Be True — Images of a Dandelion and Root 48-Hours After an Application of Fiesta

Summary —

As you can see, the root is not affected — that is why this weed will re-grow — Fiesta KILLS THE TOPS of Dandelion within days. It truly is amazing — However, as can be seen in the photos, the root is NOT AFFECTED — That is why this weed will REGROW — The label indicates a repeat application in FOUR WEEKS — Two applications per year only — The last few images have had TWO applications of Fiesta — The roots look good

Pesticide Truths Reports —

<http://uncleadolph.wordpress.com/2010/06/17/fiesta-herbicide-images-of-a-dandelion-and-root-48-hours-after-an-application-of-fiesta-fehedta/>

&

<http://pesticidetruths.com/2010/06/17/fiesta-herbicide-images-of-a-dandelion-and-root-48-hours-after-an-application-of-fiesta-fehedta/>

FON Report —

<http://www.scribd.com/doc/37928844/Force-of-Nature-Green-Alternative-Fiesta-Herbicide-2010-06-17-Dandelion-Images-MODIFIED-PDF-300-Dpi>

2010 07 16 — **FIESTA HERBICIDE** — BOGUS Green Alternative — Another Reduced-Risk SIESTA — Glen Baumgarten (Certified Landscape Technician)

Summary —

FIESTA herbicide, a reduced risk product, is generally being poorly received by home-owners and technicians alike — Even at the maximum label rate, there is some eye candy in terms of the undesirable plant material turning black, but the claims of this product being systemic are completely bogus — Re-growth happens quite quickly

Pesticide Truths Reports —

<http://uncleadolph.wordpress.com/2010/07/25/fiesta-another-reduced-risk-siesta/>

2010 07 20 — **FIESTA HERBICIDE** — BOGUS Green Alternative — Test of Effectiveness of Fiesta Weed Control (Horticulture Review Magazine) — Efficacy of Iron Chelate Herbicide [Fiesta] for Turf Broadleaf Weed Control (Sports Turf Association Magazine) — Efficacy for Turf Broadleaf Weed Control — Pamela Charbonneau (Enviro-Lunatic Government Official, Ontario Ministry of Agriculture, Food and Rural Affairs, University of Guelph)

Note —

UNIVERSITY OF GUELPH IS THE INSTRUMENT OF ENVIRO-LUNATIC-PROPAGANDA FOR THE PROMOTION OF MIS-INFORMATION ABOUT BOGUS GREEN ALTERNATIVES — IT BETRAYED THE PROFESSIONAL LAWN CARE INDUSTRY

Summary —

Within 24 hours after applying Fiesta, the leaves of dandelions and black medick turned black, and within 48 hours, the leaves appeared brown and shrivelled — The lower leaves of narrow-leaved plantain turned black with 48 hours, but the SMALLER NEWER LEAVES at the center of the rosette REMAINED GREEN AND HEALTHY — With dandelions, there was an INCREASE in dandelion cover ... with ALL of the Fiesta rates

All of the Fiesta rates showed some RE-GROWTH of dandelions REGARDLESS OF WHICH OF THE RATES WERE USED (200 mL, 400 mL or 800 mL) — By the following spring, the per cent dandelion cover was BACK UP TO THE SAME LEVEL as at the beginning of the experiment for all of the Fiesta rates used in this trial — The Fiesta label does state that you can REPEAT ONCE IN 4 OR MORE WEEKS

Pesticide Truths Report — Both 2010 Charbonneau Documents and FON Report

<http://uncleadolph.wordpress.com/2010/07/20/efficacy-of-iron-chelate-herbicide-ontario-pesticide-fiesta-fehedta-for-turf-broadleaf-weed-control-pam-charbonneau-ontario-ministry-of-agriculture-food-and-rural-affairs/>

2010 08 11 — **FIESTA HERBICIDE** — BOGUS Green Alternative — Ontario
Conspiracy to Prohibit Pest Control Products — Weed Control — Civil Action —
Nematode Insecticide (Another BOGUS Green Alternative)

Summary —

Professional Lawn Care Companies are NO LONGER able to reproduce the results obtained prior to prohibition — Fiesta Herbicide requires MUCH HIGHER COSTS and MORE service calls because of re-growth — For example prior to the ban the cost of product per 1000 square feet for weed control could run \$0.10 to \$0.20 for a 2,4-D-based product — The current replacement for weed control is Fiesta, with a cost of \$12.00 to \$25.00, plus the additional service calls, since there is re-growth of the weeds — Fiesta was not made available until after the start of this season, and the costs have eroded any margins for profit

FON Report —

<http://www.scribd.com/doc/36078028/Force-of-Nature-The-Industry-Strikes-Back-2010-08-11-We-Re-Not-Gonna-Take-It-ANYMORE-Part-1-Civil-Action-MODIFIED-PDF>

2010 06-08 00 — **FIESTA HERBICIDE** — BOGUS Green Alternative — Efficacy of Iron Chelate Herbicide [Fiesta] for Turf Broadleaf Weed Control — Pamela Charbonneau (Enviro-Lunatic Government Official, Ontario Ministry of Agriculture, Food and Rural Affairs, University of Guelph) — Sports Turf Association Magazine

Note —

UNIVERSITY OF GUELPH IS THE INSTRUMENT OF ENVIRO-LUNATIC-PROPAGANDA FOR THE PROMOTION OF MIS-INFORMATION ABOUT BOGUS GREEN ALTERNATIVES — IT BETRAYED THE PROFESSIONAL LAWN CARE INDUSTRY

Summary —

All of the Fiesta rates showed some RE-GROWTH of dandelions REGARDLESS OF WHICH OF THE RATES WERE USED (200 mL, 400 mL or 800 mL) — By the following spring, the per cent dandelion cover was BACK UP TO THE SAME LEVEL as at the beginning of the experiment for all of the Fiesta rates used in this trial — The Fiesta label does state that you can REPEAT ONCE IN 4 OR MORE WEEKS

2010 11 00 — FIESTA HERBICIDE — BOGUS Green Alternative — PROHIBITED in Halifax, Nova Scotia

Summary —

In November 2010, Halifax Regional Municipality Council rejected the use of the chemical FeHEDTA (i.e. Fiesta Herbicide) as an addition to permitted uses in the Pesticide By-Law — Council decided there was INSUFFICIENT EVIDENCE on this chemical's environmental and human impacts, and the unknown potential risks of applying this chemical as a herbicide outweigh the benefits

FON Report —

<http://www.scribd.com/doc/47841796/Force-Of-Nature-Green-Alternative-Fiesta-Herbicide-2010-11-00-Prohibited-in-Halifax-Nova-Scotia-MODIFIED-pdf-300-dpi>

2010 12 12 — FIESTA HERBICIDE — BOGUS Green Alternative — Engage Agro, U.S.A. — Fiesta Bio-Herbicide Now Available to Unsuspecting Americans

Summary —

Fiesta Bio-Herbicide was registered and approved for use in the Province of Ontario in April 2010, and was quickly incorporated into weed control programs — NOT because of its efficacy, but because of a needless, senseless, and malicious PROHIBITION that prevented Professional Lawn Care companies from using conventional herbicides that WERE TRULY EFFECTIVE

FON Report —

<http://www.scribd.com/Force-of-Nature-Green-Alternative-Fiesta-Herbicide-2010-12-12-Engage-Agro-USA-MODIFIED-PDF-300-Dpi/d/46985507>

2011 01 10 — FIESTA HERBICIDE — BOGUS Green Alternative — Biologicals and Botanicals PROPAGANDA SLIDE SHOW — Responding tho the Pesticide Ban with So-Called Natural Alternatives — LandsCAPE Ontario Integrated Pest Management Symposium — Michael Brownbridge and Pamela Charbonneau (Enviro-Lunatic Government Officials, Ontario Ministry of Agriculture, Food and Rural Affairs, University of Guelph)

Note —

LANDSCAPE ONTARIO IS A TRADE ASSOCIATION THAT CONSPIRED TO IMPOSE THE PROHIBITION OF PEST CONTROL PRODUCTS, AND BETRAYED THE PROFESSIONAL LAWN CARE INDUSTRY

UNIVERSITY OF GUELPH IS THE INSTRUMENT OF ENVIRO-LUNATIC-PROPAGANGA FOR THE PROMOTION OF MIS-INFORMATION ABOUT BOGUS GREEN ALTERNATIVES — IT BETRAYED THE PROFESSIONAL LAWN CARE INDUSTRY

Summary —

This slide show is sheer LUNATIC-PROPAGANDA and MIND-NUMBING GARBAGE — The needless, senseless, and malicious prohibition in the Province of Ontario has COERCED the way the industry into using BOGUS, INEFFECTIVE, and STUNNINGLY EXPENSIVE pest control products — Enviro-Lunatics Brownbridge and Charbonneau are telling people to seek IDIOTIC APPROACHES merely by mind-set — Even though these lunatics do NOT have a clue about what they are talking about, they pretend that understanding the pest's biology and the needs of the control agents will SOMEHOW lead to success for commercial applicators — Brownbridge and Charbonneau are MIND-NUMBINGLY STUPID LUNATICS who preach for a change of mind-set by the residential and commercial clients — It is NOT up to the service company to tell a client what to want, but the other way around — Brownbridge and Charbonneau can CONCOCT this ENVIRO-CWAP while they continue their lives with SAFE, SECURE, PROFITABLE ENVIRO-LUNATIC GOVERNMENT JOBS — They allege that there are encouraging results for a range of new products, which means the industry must CONTINUOUSLY and ENDLESSLY fork out even more money to keep these lunatics in business
