The Culprits Of The 9|11 Era Of
Anti-Pesticide Terrorism In Manitoba

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

We are now not only living in the era of 9/11, we are also witnessing the siege of lunatic anti-pesticide terrorism.

These lunatics are called terrorists because they conspire to impose arbitrary and unnecessary prohibition against pest control products used in the urban landscape.

Because of prohibition, these anti-pesticide lunatic-terrorists have mercilessly destroyed the professional lawn care industry with a carnage of unemployment, bankruptcy, business failure, homelessness, terror, despair, and destitution.

The owners, employees, and families dependent on professional lawn care businesses face terror, despair, and destitution.

The depraved indifference of these terrorists is despicably converting our communities into unhappy, ugly, unemployed, unenlightened, and unhealthy environments.

Anti-pesticide lunatic-terrorists impose their ideas through coercion, deceptions, fear-mongering, fraudulent lies, misconceptions, myths, paranoid conspiracies, threats, and terror.

Anti-pesticide lunatic-terrorists are disguised as doctors, environmentalists, journalists, nurses, and politicians.

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

They hide behind charity tax-exempt organizations, or even shields like media outlets, in an attempt to mask their extremist radical terrorist views, and to maintain their image as moderate professionals who seemingly protect health and environment.

On the anniversary of 9|11, will these anti-pesticide lunatic-terrorists celebrate the success of the carnage caused by their 9|11 colleagues ?

The only difference between anti-pesticide lunatic-terrorists and 9|11 terrorists is the ability to fly jumbo jets into skyscrapers and buildings.

These anti-pesticide basterds need to be held accountable for the carnage they will have inflicted against the Manitoba lawn care industry ...

- thousands suffering
- thousands of unemployed
- hundreds of business failures
- thousands of homes lost

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

On June 28th, 2013, Manitoba's lunatic government imposed arbitrary prohibition against conventional pest control products used in the urban landscape.

Manitoba's anti-pesticide minister mackintosh and his co-conspirator lunatic-terrorists deceived the public by falsely alleging that this decision was done under the pretext of protecting children.

In fact, children and adults across Canada, even in those jurisdictions with no prohibitions, are all protected since pest control products are applied at very low doses and represent no threat to children.

Health Canada's assessments of pest control products do consider children and their physiology, behaviours, and habits while playing on treated grass.

Health Canada's assessments have concluded that pest control products cause no harm and are no threat to children.

In fact, there are no valid reports of pest control product problems with children.

Manitoba's prohibition was arbitrarily imposed in defiance of the fact that pest control products are Health-Canada-approved, federally-legal, scientifically-safe, practically-non-toxic, and cause no harm.

Manitoba's anti-pesticide political leaders, like Gord Mackintosh, attempted to falsely reassure the public that so-called safe and effective green alternative pesticides were/are already available to replace conventional pest control products. [WRONG !]

If forced to rely on green alternatives like Fiesta (a.k.a. Weed-B-Gon), Manitobans will lose their green spaces.

In fact, the vast majority of users overwhelmingly condemn Fiesta, hence, the major reason for the dooming of the professional lawn care industry that entirely depended upon its success.

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

Sadly, Mackintosh acted as a mere sales representative for bogus and ineffective green alternative pesticides like Fiesta Herbicide.

Mackintosh even had a bottle of Fiesta on the table in front of him during the press conference.

Anti-Pesticide Minister Mackintosh With Bottle Of Fiesta Herbicide – ●

Manitoba's prohibition was arbitrarily imposed in defiance of the fact that, elsewhere, businesses were destroyed because of prohibition.

Sadly, in jurisdictions outside of Manitoba, prohibition inflicted catastrophic carnage against businesses operating in the professional lawn care industry.

Because of anti-pesticide prohibition, provinces like Ontario now have a trail of economic destruction with hundreds of small businesses destroyed and thousands of people out of work.

Because of Ontario's 2009 provincial prohibition, businesses operating in the professional lawn care industry lost over 500,000,000 dollars, with up to 12,500 unemployed.

In Ontario, one-business-per-week disappears into total oblivion, and, by 2012, half the businesses closed their doors.

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

The destruction of the professional lawn care industry was extensive because there were no valid economical alternatives to replace the prohibited products, including Fiesta Herbicide.

Consequently, businesses operating in the professional lawn care industry were incapable of providing adequate weed and insect control, and were unable to keep their customers satisfied.

Manitoba's prohibition was arbitrarily imposed in defiance of the fact that its green spaces will become dangerous and pest infested garbage dumps.

Without conventional pest control products in other jurisdictions, green spaces have become pest-infested dangerous garbage dumps.

Manitoba's prohibition was arbitrarily imposed in defiance of the fact that a petition consisting of more than 8,000 postcards stating that no one in Manitoba wants to live in #@!!% pest-infested garbage dumps, the same fate being suffered by Ontario.

In Ontario, 80 per cent of residents originally supported prohibition when it was brought forward in 2009.

Because of Ontario's wide-spread garbage dump green spaces, caused by prohibition, support by residents for prohibition has now been cut almost 50 per cent — to 49 per cent.

It was/is impossible for home-owners or professionals to keep their properties beautiful by using so-called organic pesticide-free maintenance practices.

Without conventional pest control products, playing surfaces became thin and yellow, and over-run with weeds and infested with insects, resulting in the dismal destruction of safe turf playing surfaces.

Who wants to live in #@!!% pest-infested garbage dumps just because a small group of activists who influence the government to impose arbitrary prohibition !?!?

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

Who are these terrorists ?!?!

There were seven anti-pesticide lunatic-terrorists who unveiled Manitoba's prohibition at a press conference on June 28th, 2013 —

- Erin Crawford — Canadian Cancer Society
- Paul Doucet — Cosmetic Pesticide Ban Manitoba (a.k.a. Canadian Association Of Physicians For The Environment)
- Gideon Forman — Canadian Association Of Physicians For The Environment (CAPE)
- Gord Mackintosh — Government Of Manitoba
- Adrienne Percy — Canadian Cancer Society
- Tim Tripp — Neudorff Canada
- Elise Weiss — Manitoba Public Health

They were very prominent participants at the press conference held on June 28th, 2013, when Manitoba's lunatic government officially announced that it will impose arbitrary prohibition against conventional pest control products used in the urban landscape.

They conspired to prohibit against pest control products in Manitoba.

Erin Crawford, of Canadian Cancer Society (CCS), was paid by CCS 1,000 dollars by every anti-pesticide presentation, and paid a bounty of 5,000 dollars upon successful prohibition legislation in Manitoba.

Paul Doucet, of Cosmetic Pesticide Ban Manitoba (a.k.a. Canadian Association Of Physicians For The Environment, CAPE) despicably exploited his sick child as a weapon of coercion and anti-pesticide terrorism.

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

Gideon Forman, Of Canadian Association Of Physicians For The Environment (CAPE), was/is a mere fund-raiser and illegal lobbyist with absolutely no expertise in pest control products, but his background has included starring roles in eco-porn films.

**Manitoba's Lunatic Terrorists
Doucet And Forman Imposed
Anti-Pesticide Prohibition At
Press Conference With Bottle Of
Fiesta Herbicide (aka Weed-B-Gon)**

Gord Mackintosh, the elected official with New Democratic Party (NDP), has acted predominantly as sales representative for Fiesta Herbicide.

NDP itself is a political part that operates as the shield for anti-pesticide terrorist-organizations like Canadian Cancer Society and CAPE.

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

Adrienne Percy, of Canadian Cancer Society (CCS), was paid by CCS to despicably exploit and abuse her child as a weapon of ultimate coercion and anti-pesticide terrorism.

Manitoba's Lunatic Terrorist Percy Was Paid By Canadian Cancer Society To Despicably Exploit And Abuse Her Child As A Weapon Of Ultimate Coercion And Anti-Pesticide Terrorism

Tim Tripp, of Neudorff Canada, the manufacturer of Fiesta Herbicide, despicably betrayed the professional lawn care industry by conspiring in prohibition with the sole intention of profiting from the sale of Fiesta.

Manitoba's Lunatic Terrorist Tripp Despicably Betrayed The Lawn Care Industry By Conspiring In Prohibition With The Sole Intention Of Profiting From The Sale Of Fiesta Herbicide

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

Elise Weiss, of Public Health Manitoba, is neither a scientist nor a researcher, and has absolutely no expertise in matters concerning pest control products, rendering all of her anti-pesticide opinions as valueless and worthless.

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy when they control the government through the New Democratic Party (NDP).

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy since they lie, cheat, and mis-inform about pest control products.

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy when they have direct vested interests in green alternative pesticides like Fiesta Herbicide.

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy when they so easily deceive the public and government officials into believing they are some kind of experts, when, in fact, their backgrounds are uneducated, and even include mere roles as stars of eco-pornography films.

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy when they are so highly motivated in destroying businesses.

Anti-pesticide lunatic-terrorists will not interfere forever since all of their subversive work will eventually be rescinded, which has occurred in dozens of jurisdictions across North America.

The government of Manitoba imposed prohibition without any justification, and with depraved indifference for the carnage it will inflict.

No one can afford this #@!!% ban nonsense.

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

The government of Manitoba preferred to somehow rely upon non-expert anti-pesticide lunatic-terrorists for so-called expertise on health and pest control products.

In fact, the government of Manitoba imported Ontario's anti-pesticide lunatic-vermin, who were let out of their cages to destroy Manitoba's lawn care industry.

In fact, Health Canada has the essential expertise on pest control products, and not these terrorists.

These terrorists operate mere fund-raising, profit-seeking, and lobbying organizations.

These terrorists do not operate science, research, physician, or health organizations.

Nonetheless, these terrorists were recruited and paid-for-profit by the government of Manitoba to support the conspiracy to prohibit against pest control products.

These terrorists have operated with organizations like —

- Canadian Association Of Physicians For The Environment (CAPE)
- Canadian Cancer Society
- Canadian Environmental Law Association (CELA)
- David Suzuki Foundation
- Ecojustice Canada
- Ontario College Of Family Physicians (OCFP)
- Prevent Cancer Now
- Registered Nurses' Association Of Ontario (RNAO)
- Sierra Club Of Canada

Terrorists

Mission Accomplished By The Gloating Anti-Pesticide Basterds

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy when they operate with charity organizations for mere enviro-profit, and do not pay a single penny in taxes.

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy when they have almost unlimited resources and millions of dollars available through public donations and government grants.

These organizations are government-financed with tax-free money.

They do not deserve any donations or support.

Nor do they deserve any tax-exempt statuses.

They are listed among Canada's prominent anti-pesticide and environmental terrorist organizations — and they do not deserve tax-free money.

These organizations are the principal architects in the conspiracy to prohibit pest control products used in the urban landscape — and they do not deserve tax-free money.

Their anti-pesticide acts of subversion have extensively damaged and terrorized and destroyed the professional lawn care industry in jurisdictions like Ontario and British Columbia.

They have done so with the benefit of not paying a single penny in taxes.

They are interfering with partisan politics, and consequently are in violation of taxation laws in Manitoba.

The public is directed to complain by contacting business, fund-raising, government, and taxation agencies !

It is easy for anti-pesticide lunatic-terrorists to interfere in partisan politics and public policy when they operate with charity organizations, and does not pay a single penny in taxes.

Their non-profit charity statuses must be investigated and hopefully revoked.

Elise Weiss

Public Health Manitoba

Not present in photo of gloating terrorists

Conspired to prohibit against pest control products that are federally legal, scientifically safe, practically non-toxic, and cause no harm

Is neither a scientist nor a researcher, and has absolutely no expertise in matters concerning pest control products, rendering all of her anti-pesticide opinions as valueless and worthless

Anti-Pesticide Terrorism In Manitoba Will

NEVER End

Anti-Pesticide PROHIBITION WILL DESTROY the Professional Lawn Care Industry in Manitoba, just like in other jurisdictions where PROHIBITION was ARBITRARILY IMPOSED.

PROHIBITION against pest control products will INFLICT CATASTROPHIC CARNAGE against businesses operating in the Professional Lawn Care Industry, in the form of LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

Because of the ANTI-PESTICIDE PROHIBITION, Professional Lawn Care businesses will be forced to TERMINATE many or most of their employees.

PROHIBITION will INFLICT TERROR, DESPAIR, and DESTITUTION on THOUSANDS of hapless victims throughout the Professional Lawn Care Industry.

The DEVASTATION of the Professional Lawn Care Industry WILL BE EXTENSIVE because there are NO valid economical alternatives to replace the prohibited products, including Fiesta Herbicide.

Consequently, Professional Lawn Care Companies will be UNABLE to provide adequate weed and insect control, and will be UNABLE to keep their customers satisfied.

In other jurisdictions like Ontario, where PROHIBITION WAS ARBITRARILY IMPOSED, the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with UP TO 12,500 UNEMPLOYED.

Anti-Pesticide PROHIBITION DESTROYED the Professional Lawn Care Industry in Ontario.

Additionally, because of PROHIBITION, Ontario Green Spaces became DANGEROUS WEED-INFESTED and INSECT-DESTROYED GARBAGE DUMPS.

ANTI-PESTICIDE PROHIBITION is UNNECESSARY since pest control products are HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, PRACTICALLY-NON-TOXIC, and CAUSE NO HARM.

**On Every
Anniversary Of
The 9|11 Attacks,
ALL Terrorists
Will Celebrate
The Success Of The
CARNAGE Caused By
Our Colleagues
In Manitoba**

Force Of Nature is NOT propaganda ... just The Whole Truth from an Independent Perspective

DISCOVER WHAT ANTI-PESTICIDE AND ENVIRO-LUNATIC TERRORISTS ARE DOING AND SAYING ABOUT SUBVERSIVELY IMPOSING THEIR LIFE-STYLE CHOICES AGAINST OUR SOCIETY.

We are living in THE 9|11 ERA OF ANTI-PESTICIDE AND ENVIRONMENTAL TERRORISM where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatic activists.

Communities and businesses are being HARMED and DESTROYED and RAPED by PROHIBITIONS against pest control products used in the Urban Landscape, and other ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UN-VERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from so-called activists who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry, and the well being of our communities.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide and Enviro-Lunatic Terrorist Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and around the globe.

On January 1st, 2009, FORCE OF NATURE Reports were launched for CONTINUOUS transmission on the Internet — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

By early 2009, the reports were released no more than five times per week, but by August 25th, 2009, FORCE OF NATURE was produced on a DAILY basis.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press.

Pesticide Truths and Force Of Nature, in some ways, are like Google for everything concerning the SURVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.

By May 27th, 2010, Uncle Adolph expanded Pesticide Truths to a SECOND Blog-Site, and independently acquired the rights to archive the ENTIRE FORCE OF NATURE Library of Reports.

By mid-December 2010, ENTIRE FORCE OF NATURE Library of Reports was FULLY SUMMARIZED and CROSS-REFERENCED, and by early 2012, the library was archived on The Pesticide Truths Web-Site, in the form of Web-Pages.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness.

In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti-pesticide and enviro-lunatic terrorists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dermoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
