Weed & Pest Control

The Community Services Department is responsible for weed control on public property. The City of Morden Policy CS-001 covers all the aspects of Weed Control. For the full copy of this Policy [click here](#).

The City is committed to ensuring that, when required, environmentally friendly products only will be applied in areas frequented by the public, such as parks, pathways, boulevards, and sports fields.

Ongoing research of improved products continues by the City of Morden Parks Manager, and introduction of these products will be incorporated whenever possible. All aspects of the weed control program is carried out within the annual operating budget.

Notice of Integrated Pest Management Plan Program

An Integrated Pest Management Plan (IPM) has been developed for the City and will act as a guide for pest prevention, treatment and management. One of the goals of the IPM is to reduce the use of chemical controls by means of using preventative, mechanical, and biological controls. The City will adhere to provincial legislation and regulations pertaining to the use and implementation of a pesticide program.

1. For the control of noxious weeds within the City of Morden and in accordance to the Noxious Weed Act, Environment Act and the Non-Essential Pesticide Use Regulations between May 1st and October 31st the following herbicides may be used:
 - Fiesta (Iron HEDTA) — see the [Fiesta – INFORMATION SHEET](#) or watch the video below.
 - Par 3 (mecocorp-p, 2,4-D, dicamba)
 - Round-up (Glyphosate)
2. To control larval mosquitoes in stagnant/standing water, within the City of Morden and 1 mile beyond the city boundary on public property, rights-of way, and ditches between May 1st to October 1st 2015 the following biological larvicides may be used include:
 - Aquabac (*Bacillus thuringiensis* var. *israelensis* –Bti)
 - Vectobac (*Bacillus thuringiensis* var. *israelensis* –Bti)
3. To control adult mosquitoes along streets and lanes, City parks, golf courses, cemeteries and rights-of-ways within the City boundaries between May 1st and October 31st 2015 by way of ultra-low volume mist sprayers the following insecticide may be used:
 - Malathion ULV (malathion)
4. To control elm bark beetles, the carrier of Dutch Elm Disease, by spraying Pyrate (chlorpyrifos) onto the lower 50cm of elm trees on both public and private property from approximately June 1st until October 15, 2015.

5. To control other insect pests between May 1st and October 31st 2015 the following may be used:

- Safer's Insecticidal Soap (potassium salts)
- Copper Fungicide Spray
- Foray 48B (Btk)
- Sevin (carbaryl)

FIESTA TURF WEED KILLER

Any person may, within 15 days after this notice is published, send a written submission to Manitoba Conservation regarding the above control program or register with the department their written objection to the use of pesticides next to their property to:

**Manitoba Conservation and Water Stewardship – Pesticide and Hazardous Waste Section
Suite 160, 123 Main Street, Winnipeg, Manitoba R3C 1A5**

Any person who may wish to discuss the control policy may also contact the **Parks Manager** for the City of Morden.
