### **Canadian Cancer Society calls for Revelstoke to eliminate cosmetic use of pesticides**

The mission of the Canadian Cancer Society is to eradicate cancer and enhance the quality of life of people living with cancer. Prevention is key to eradicating cancer. At least 50 percent of cancers can be prevented through healthy living, healthy environments and public policies that protect the health of BC and Yukon residents.

One way to prevent cancer and enhance quality of life is to start living without pesticide exposure.

The Canadian Cancer Society is very concerned about the cosmetic and non-essential use of potentially cancer-causing substances on green spaces. The cosmetic (non-essential) use of pesticides on sports fields, parks, lawns and gardens has no health benefit but has the potential to harm our health and the environment. Numerous studies have linked pesticide exposure to both adult and childhood cancers, such as leukemia, brain tumours, lymphoma, and cancers that affect the prostate, kidney, pancreas and lung.

The Canadian Cancer Society calls for a ban on the use and sale of cosmetic pesticides. Our position is based on the growing body of evidence suggesting a connection between pesticides and cancer.

On June 28, 2009 the Canadian Cancer Society's **Relay For Life** will take place in Revelstoke. *Relay For Life* is more than just a fundraiser. It is an opportunity to get together with family and friends and celebrate cancer survivors, remember loved ones lost to cancer, and fight back in the hope of finding a cure for this terrible disease. **It gives strength to our mission to eradicate cancer.**

*Relay For Life* participants include families and children many of whom are cancer survivors. With their developing immune systems, children are particularly vulnerable to pesticide exposure. In order to support our mission to eradicate cancer and enhance the quality of life of people living with cancer, an important step is to ensure a pesticide free space at the *Relay For Life*.

Help us achieve our mission and support the health of residents of Revelstoke by eliminating the spraying of pesticides on playing fields and other green spaces.

Sincerely,

Jerilynn Kiely

### DELEGATION:

**DRAFT**

#### 1. Chris Pawlitsky, Revy Riders Dirt Bike Club Re: Motocross Track

Mr. Pawlitsky advised that the Revy Rider Dirt Bike Club is requesting a temporary stop of the decommission of the current motocross track until the Club can find a suitable location to build a new one. They have been working with Front Counter BC on an area of interest over the last year; however, the application was denied due to the interest of that property by the Ministry of Transportation and Infrastructure. The Club continues to look for a new location.

The main complaints of the Club operating in the Industrial Park is noise, liability and careless riding on the river trails. The Club provides the following solutions: (1) to come to an agreement with the neighbours and the City on operating certain times and days of the week that the track will be used; (2) limit the number of bikes on the track at one time; (3) trailer service so the Club members can pick kids up that need a ride to the track; (4) no riding on the Greenway; and (5) mandatory sound testing (motorcycle shops sell quieter aftermarket mufflers).

Moved by Councillor Halberstadt that the Committee recommends to Council that Council agrees to allow Revy Riders Dirt Bike Club to lease the motocross track in the Industrial Park for a term up to 24 months.

Motion was withdrawn

**Moved by Councillor Halberstadt that staff be directed to investigate the pros and cons of allowing the Revy Riders Dirt Bike Club the use of the motocross track in the Industrial Park for a term up to 24 months or until such time they find a suitable location.**

**CARRIED**

The Chair thanked Mr. Pawlitsky for his presentation and he then retired from the meeting.

#### 2. Sarah Newton, President, North Columbia Environmental Society (NCES) Re: Cosmetic Pesticide Use on City Fields

Ms. Newton requested that the City of Revelstoke discontinue the use of spraying cosmetic pesticides on the Track Field and Queen Elizabeth Field. She commented that the NCES has been researching pesticide use for about five years now. An eco-fact sheet was put together regarding pesticide use on lawns and gardens last year. It is available for viewing on the NCES website and at locations around town. Public education is essential.

NCES brought to Revelstoke two speakers acknowledging that there is a direct link between 2-4, D and certain types of cancer; Non-Hodgkin's Lymphoma, Breast Cancer and childhood Leukemia. The speakers were Dr. Warren Bell from the Canadian Association of Physician's for the Environment, and Jerilynn Kiely from the Canadian Cancer Society.

**DELEGATION: (Continued...)**

**2. Sarah Newton, President, North Columbia Environmental Society (NCES) Re: Cosmetic Pesticide Use on City Fields (Continued...)**

Letters of support were received from the Revelstoke Rod and Gun Club, Selkirk Medical Group, Illecillewaet Greenbelt Society, Friends of Mount Revelstoke and Glacier, and the Canadian Cancer Society. A copy of the School District policy and a portion of the minutes from the School District endorsing the ban of using cosmetic pesticides on School District lands in Revelstoke.

Ms. Morris commented on herbicides or pesticides sometimes have a carrier as it makes things stick. For example, it is affecting the health of frogs as they breath through their skin. Ms. Newton added that chemicals used in combination kill more than the target.

The Chair thanked Ms. Newton for her presentation. Ms. Newton and Ms. Morris then retired from the meeting.

**3. Jackie Pendergast, Revelstoke Public Art Committee (RPAC) Re: Request for Proposals for Art at the Gateway to the Extended Grizzly Plaza - Request for Funding**

Ms. Pendergast advised that the priority for the Revelstoke Public Art Committee is the installation of two pieces of art to be located at the gateway to the extension of Grizzly Plaza. The RPAC has drafted a Request for Proposals (RFP) that will be made available to local artists and artists outside the community. The RFP suggests that the art work be in the form of sculptures. Currently, there is a \$30,000 budget, however, the RPAC feels that this sum is insufficient and is requesting that Council provide an additional \$30,000 for the project.

The Chair questioned if the City has funds available. The Director of Community Economic Development responded that the gateway features were included in the budget for the extension of Grizzly Plaza.

The Chair thanked Ms. Pendergast for her presentation. Ms. Pendergast and Ms. Palladino provided pamphlets to the Committee on the Public Art Walking Tour and retired from the meeting.

**4. Darren Sherbot, BC Hydro Generation Re: Big Eddy Dyke System**

Mr. Sherbot noted that he was contacted by City staff to review and comment on the Zoning Amendment Bylaw regarding flood plain regulations. It certainly is a good time for BC Hydro and the City to address flood control and ground water management for the Big Eddy area.

**REPORTS: (Continued...)**

**Planning and Culture - Councillor Johnston (Continued...)**

**10. Official Community Plan Bylaw No. 1950 - Establish a Public Hearing Date**

Various interest groups have asked for a little more time to offer public input on various sections of the Official Community Plan bylaw.

**Moved by Councillor Bender that the Committee recommends to Council that the Public Hearing originally scheduled for Wednesday, June 10, 2009 be rescheduled to Monday, June 22, 2009 at 7:00 p.m. at the Community Centre.**

**CARRIED**

The Director of Planning Services advised the Committee that a Special Council Meeting may need to be scheduled subsequent to the Public Hearing.

**Parks and Recreation - Councillor Scarcella**

No report.

**Public Works and Protection - Councillor Welock**

**1. Cosmetic Pesticide Use on City Fields**

The City of Revelstoke historically has used granular and spray application of cosmetic pesticides for the past 25 years primarily on the playing fields. These applications have never been used on park surfaces or public areas. Currently, the Provincial Government mandates Municipalities to control noxious weeds which are different targeted species than those targeted by the cosmetic pesticide application.

The City contracts a licensed pesticide applicator to perform weed control on playing surfaces at a cost of approximately \$10,000 per year. The pesticide is used to control the growth of plants which create an unlevel playing surface. If pesticide use is discontinued to achieve the same level of playing surface, the City would need to increase the amount of the budget for field maintenance annually. This includes top dressing with sports sand, aeration, and over seeding. This is contracted out once a year at the cost of \$15,000 per application. If cosmetic pesticide use is ceased, this function would also have to be performed midsummer and in the fall to maintain the playing surfaces at the current level. This will be a challenge to get the contractor in Revelstoke three times per year.

**REPORTS: (Continued...)**

**Public Works and Protection - Councillor Welock (Continued...)**

**1. Cosmetic Pesticide Use on City Fields (Continued...)**

The capital costs for the purchase of the equipment has already been included in the City's capital budget. In 2010, the field aerator is \$30,000 and a top dresser is \$30,000. A seeder will need to be included in the budget which is estimated to cost approximately \$20,000 which total \$80,000 being \$8,000 per year amortized. The cost of the equipment will be a 3/4% increase to the property tax base. However, City staff will look for grant opportunities for this initiative.

**Moved by Councillor Frew that the Committee recommends to Council that the City of Revelstoke discontinue use of cosmetic pesticides on City-owned sports fields.**

**CARRIED**

**Opposed: Councillor Scarcella**

**Moved by Councillor Welock that the Committee recommends to Council that staff be directed to collaborate with Sicamous on purchasing and sharing the proposed equipment, look for funding opportunities and embark on a plan for a total cosmetic ban.**

**Administration, Policy, Bylaws and Public Relations - Mayor Raven**

**1. City of Revelstoke Boundary Extension Evaluation Study Terms of Reference**

Members were advised that in the summer of 2008 City Council directed staff to contact the Columbia Shuswap Regional District to request that the CSRD partner financial with the City to Carry out a comprehensive boundary extension study. The CSRD agreed to jointly develop a work plan for such a study and a cost estimate for the Ministry of Community Development's consideration for funding.

The Terms of Reference have been reviewed by the CSRD's Chief Administrative Officer, CSRD staff and the Area 'B' Director. No concerns or comments were brought forward.

**Moved by Mayor Raven that the Committee recommends to Council that the Terms of Reference for the City of Revelstoke Boundary Extension Evaluation Study be approved and that a request to fund the study based on these Terms of Reference be jointly submitted by the City and the Columbia Shuswap Regional District to the Ministry of Community Development.**

**FORCE OF NATURE** WAS LAUNCHED FOR CONTINUOUS TRANSMISSION ON THE INTERNET ON JANUARY 1ST, 2009. IT IS A SERIES OF E-NEWSLETTERS DESTINED FOR THE GREEN SPACE INDUSTRY, THE ENVIRONMENTAL-TERROR-MOVEMENT, GOVERNMENT OFFICIALS, AND THE MEDIA, NATION-WIDE ACROSS CANADA, THE UNITED STATES, AND OVERSEAS.

FORCE OF NATURE IS THE BRAINCHILD OF WILLIAM H. GATHERCOLE AND HIS ENTOURAGE. NORAH G IS ACTUALLY AN ACRONYM FOR THE STABLE OF ANONYMOUS PRODUCERS AND WRITERS THAT CONTRIBUTE TO THIS E-NEWSLETTER AND HAVE NOW REPLACED MR. GATHERCOLE. THEY CONSIST OF PEOPLE FROM THE FOLLOWING INDUSTRIES : DISTRIBUTION, FERTILIZER, GOLF, LAWN CARE, MANUFACTURING, MUNICIPAL, NURSERY, AND ORCHARD. MANY OF THESE PEOPLE ARE LEADERS IN THEIR OWN INDUSTRIES. THE OPINIONS EXPRESSED IN FORCE OF NATURE, EVEN THOUGH FROM AN INDEPENDENT PERSPECTIVE, MAY NOT REFLECT THOSE OF EVERYONE IN THE GREEN SPACE INDUSTRY, OR MR. GATHERCOLE'S MANY ASSOCIATES. BE WARNED ! FORCE OF NATURE MAY SOMETIMES BE VERY IRREVERENT AND FEARLESS WITH THESE E-NEWSLETTERS. MR. GATHERCOLE IS NOW RETIRED FROM FORCE OF NATURE, ALTHOUGH HIS NAME CONTINUES TO APPEAR AS THE FOUNDER.

# O

WILLIAM H. GATHERCOLE IS A PRINCIPAL FOUNDER OF THE MODERN PROFESSIONAL LAWN CARE INDUSTRY IN BOTH ONTARIO AND QUEBEC. HE HOLDS A DEGREE IN HORTICULTURE FROM THE UNIVERSITY OF GUELPH, AND ANOTHER PURE AND APPLIED SCIENCE DEGREE FROM MCGILL UNIVERSITY. HE HAS WORKED IN VIRTUALLY ALL ASPECTS OF THE GREEN SPACE INDUSTRY, INCLUDING GOLF AND PROFESSIONAL LAWN CARE, AND HAS SERVED IN PUBLIC AFFAIRS, WORKPLACE SAFETY, AND ENVIRONMENTAL COMPLIANCE. MR. GATHERCOLE HAS SUPERVISED, CONSULTED, PROGRAMMED, AND/OR OVERSEEN THE EXECUTION OF HUNDREDS OF THOUSANDS OF PEST CONTROL APPLICATIONS IN THE URBAN LANDSCAPE. HE HAS TRAINED, INSTRUCTED, AND CONSULTED WITH THOUSANDS OF TURF MANAGERS AND TECHNICIANS. MR. GATHERCOLE HAS ALSO BEEN AN AGRICULTURAL AGRONOMIST. FOR MANY YEARS, MR. GATHERCOLE WAS A CONTRIBUTING COLUMNIST FOR TURF & RECREATION MAGAZINE, CANADA'S TURF AND GROUNDS MAINTENANCE AUTHORITY.

# R

MR. GATHERCOLE HAS FOLLOWED THE EVOLUTION OF ENVIRONMENTAL-TERRORISM FOR OVER A QUARTER-CENTURY. HIS INVOLVEMENT IN ENVIRONMENTAL ISSUES REACHED A FEVERED PITCH IN THE 1990s, WHEN HE ORCHESTRATED, WITH HIS COLLEAGUES, LEGAL ACTION AGAINST THE PROHIBITION OF PEST CONTROL PRODUCTS IN THE TOWN OF HUDSON, QUEBEC. FOR FIFTEEN YEARS, THE STRATEGIES DESIGNED AND IMPLEMENTED BY MR. GATHERCOLE AND HIS COLLEAGUES GUARANTEED THE CONTROL OF ENVIRO-TERROR FOR THE ENTIRE MODERN GREEN SPACE INDUSTRY ACROSS CANADA. MR. GATHERCOLE IS PERSONALLY CREDITED FOR CRAFTING THE GOLF INDUSTRY EXCEPTION STATUS, THAT ENDURES TO THIS DAY. HE IS ALSO THE CREATOR OF THE SIGNS THAT ARE NOW USED FOR POSTING AFTER APPLICATION. ALTHOUGH HE CAN BE ACCUSED OF BEING ANTI-ENVIRONMENT-MOVEMENT, HE IS, IN FACT, SIMPLY A STRONG ADVOCATE FOR THE MODERN GREEN SPACE INDUSTRY. HOWEVER, THIS POSITION HAS NOT PRECLUDED HIM FROM CRITICIZING THE GREEN SPACE INDUSTRY ITSELF. NONETHELESS, HIS VAST KNOWLEDGE OF OUR LONG JOURNEY WITH ENVIRONMENTAL ISSUES IS UNDENIABLE. (HOPEFULLY !)
