SUMMARY – WHY DON'T YOU KNOCK IT OFF WITH THEM NEGATIVE WAVES ?!?!

The green space industry has been maintaining and conserving the world's largest ground cover vegetation (turfgrass), as well as ornamental plants, and has contributed extensively to the beautification of our urban green spaces, and the preservation of our environment with outstanding, innovative and interesting ideas.

This creates positive waves for society !

The public DOES NOT want to live in unattractive, pest-infested, and dangerous green spaces.

It is a fact that pesticide-hating fanatxcs are inherently opposed to the modern maintenance and beautification of urban green spaces.

These fanatxcs are obsessed with preserving our world with anti-modernist and anti-technology thinking.

They thrive on junk-science and fake-news, and resort to lies rather than the truth.

Pesticide-hating fanatxcs prefer junk-lawns and junk-landscapes that are unaltered by human activity, and that are infested with invasive weeds,damaging insects, and destructive diseases ... just as these fanatxcs infest our society.

Pesticide-hating fanatxcs particularly despise the cosmetic standards used for the maintenance of golf facilities, which are arbitrarily considered too lofty.

Pesticide-hating fanatxcs are re-enacting the malicious conspiracy against DDT insecticide.

They are proceeding to terrxize and annihilate the green space industry, just like they did with the makers of DDT insecticide !

We must promote and defend the green space industry, whatever the cost may be
!

National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG)

WE SPEAK THE WHOLE TRUTH ABOUT POSITIVE WAVES FROM AN INDEPENDENT PERSPECTIVE !

We are the National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG). As a non-profit and independent organization, we are environmentalists who are dedicated to reporting about truth-challenged pesticide-hating fanatics (HUJE) who conspire to destroy businesses that are dependent on the use of safe and effective conventional pest control products. We also report on the work of several highly-rated leading experts who have recognized expertise, training, and background in matters concerning pest control products, and who promote environmental realism and pesticide truths.

Not surprisingly, enviro-fanatixcs have demonstrated that they are incapable of processing overwhelming scientific evidence. Should we trust these fanatixcs, who conveniently ignore scientific evidence, and attempt to impose their politicized-doctrines and twisted life-style choices against our society ?!?!

NORAHG was the brain-child of Mr William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder. We dare to defy the pesticide-hating fanatixcs by exploring the whole truth from an independent perspective on The Pesticide Truths Web-Site ... <http://pesticidetruths.com/> If you wish to receive free reports on issues that concern you, please contact us at ... force.of.de.nature@gmail.com WILLIAM H GATHERCOLE AND NORAH G
