A mini-debate has been running recently among the small community of ento-

It has to do with the emergence of « green » golf courses, and a recent story on the Chambers Bay Links Golf Course on Puget Sound in Washington State.

Chambers Bay Links Golf Course is a sustainable, all-fescue, Scottish-linksstyle course that was built on a reclaimed gravel pit.

The course uses almost no irrigation, chemical fertilizers, or pesticides.

Chambers Bay Links Golf Course BOGUS Organic-and-Pesticide-Free-Golf-Course with Low-End-Playing-Conditions

Virtually All Organic-and-Pesticide-Free Golf Courses Are BOGUS

Organic-and-Pesticide-Free-Golf-Courses are simply day-dreaming in the Outer Limits.

The terms ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE have NOT been OFFICIALLY DEFINED by the Modern Golf Industry.

Organic-and-Pesticide-Free-Golf-Courses are BOGUS.

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are promoted by people with UNVERIFI-ABLE SUCCESS STORIES!

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are promoted by people who falsely allege success, and who are likely concocting LIES, MISCONCEPTIONS, and DECEPTIONS for their own twisted personal interests.

BOGUS-Organic-and-Pesticide-Free-Golf-Courses cannot be adequately maintained with LEGAL Green Alternatives to conventional pest control products.

BOGUS-Organic-and-Pesticide-Free-Golf-Courses use ILLEGAL Green Alternatives, such as beet juice, copper sulphate, and neem oil.

BOGUS-Organic-and-Pesticide-Free-Golf-Courses use conventional pest control products, WHEN IT SUITS THEM!

They will apply pest control products when golfers are not present on the golf course, and when the golf course is closed.

BOGUS-Organic-and-Pesticide-Free-Golf-Courses represent a MAJOR THREAT to the Modern Golf Industry

Lunatic-Prohibition-Terrorists Speak OUT about Pesticide-Free-Golf-Courses

Any trend that supports BOGUS-Organic-and-Pesticide-Free-Golf-Courses will NEVER « appease » Lunatic-Prohibition-Terrorists.

They are all LYING SACS OF ENVIRO-LUNATIC CWAP!

According to CANADIAN-CANCER-SOCIETY and its Prohibition-Terrorist-Allies —

« The [British Columbia] coalition of health and environmental groups [that includes Canadian Association of Physicians for the Environment, CANADIAN CANCER SOCIETY, David bans the use and sale of pesticides used to improve the appearance of lawns and gardens, including a requirement for GOLF COURSES TO PHASE-OUT PESTICIDES. »

« Why should golf courses and other " turf " facilities (our school and sports fields) continue to use chemicals that are known to harm our children, pets and the environment? Turf facilities DO NOT NEED CHEMICALS TO MAINTAIN THEIR GREENS. » [Wrong!]

According to PESTICIDE FREE ONTARIO, a Prohibition-Terrorist-Organization —

« With a set time frame and prescribed regulations, GOLF COURSES SHOULD BECOME PESTICIDE-FREE. There are SEVERAL EXAMPLES of organic or pesticide-free golf courses

According to ONTARIO NEW DEMOCRATIC PARTY (NDP), the POLITICAL SHIELD for the Environmental-Terror-Movement, that has supported the banning of pest control products, and has expressed another of its misinformed views concerning the Golf Industry

« While MORE AND MORE GOLF COURSES IN CANADA ARE GOING PESTICIDE-FREE, the vast majority of Ontario's 800 golf courses still use pesticides. » [Wrong!]

They are all LYING SACS OF ENVIRO-LUNATIC CWAP!

Where are the Organic-and-Pesticide-Free-Golf-Courses ?!?!

In recent years, an infinitesimally small number of RENEGADE golf clubs have suspiciously claimed that they are ORGANIC and PESTICIDE-FREE.

There are approximately two thousand golf courses across Canada.

There are THREE known so-called BOGUS-Organic-and-Pesticide-Free-Golf-Courses in Ca-

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses will DRIVE GOLFERS OUT and will lead to ECONOMIC HARDSHIP and BANKRUPTCY

Reason Why Organic-and-Pesticide-Free-Golf Courses are BOGUS — PLAYING CONDITIONS

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are UNABLE to provide HIGH-END-PLAYING-CONDITIONS.

Unfortunately, HIGH-END-PLAYING-CONDITIONS lead to UNBEARABLE AND DESTRUCTIVE PEST PROBLEMS AND DISORDERS.

The Modern Golf Industry MUST provide players with HIGH-END-PLAYING-CONDITIONS in order to remain competitive in the market-place.

HIGH-END-PLAYING-CONDITIONS are necessary to the game and business of golf, otherwise the Modern Golf Industry will face ECONOMIC HARDSHIP BY DRIVING GOLFERS OUT.

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are not economically viable businesses.

The Modern Golf Industry cannot afford to lose business because of UNBEARABLE AND DE-STRUCTIVE PEST PROBLEMS AND DISORDERS that disrupt playing conditions.

If forced to be Pesticide-Free, Modern Golf Industry will NOT be able to afford the high cost of labour needed to manually remove millions of pests.

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses will lead to ECO-NOMIC HARDSHIP and BANKRUPTCY for the Modern Golf Industry.

Reason Why Organic-and-Pesticide-Free-Golf Courses are BOGUS — NUMBER OF PLAYERS

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are UNABLE TO WITHSTAND A HIGH NUMBER OF ROUNDS OF GOLF.

Most 18-hole golf courses are subject to a BRUTAL 30,000 to 50,000 rounds of golf per year.

Many golf courses have wear problems due to player traffic and golf cars that are far beyond their original design capabilities.

The BRUTAL number of players will lead to UNBEARABLE AND DESTRUCTIVE PEST PROB-LEMS AND DISORDERS.

Reason Why Organic-and-Pesticide-Free-Golf Courses are BOGUS — WEATHER EXTREMES

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are UNABLE TO WITHSTAND WEATHER EXTREMES, such as heat, drought, and cold.

Most courses are exposed to BRUTAL EXTREMES IN WEATHER CONDITIONS.

Extreme intemperate climates will KILL turfgrasses.

The vast majority of golf courses are not located in temperate climates.

Most turfgrasses growing on the golf course have difficulties tolerating intense heat and drought stress during the summer months, and severe cold temperatures in winter.

The BRUTAL weather extremes lead to UNBEARABLE AND DESTRUCTIVE PEST PROBLEMS AND DISORDERS.

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses will lead to DEAD GRASS for the Modern Golf Industry.

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses SUPPORTS LUNATIC-TERRORIST-PROHIBITION

What Must Be Done With BOGUS Organic-and-Pesticide-Free-Golf Courses

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses SUPPORTS LUNA-TIC-TERRORIST-PROHIBITION, and the goals of Prohibition-Terrorist-Organizations.

Any trend that embraces BOGUS-Organic-and-Pesticide-Free-Golf-Courses will drain the turf management practices that provide HIGH-END-PLAYING-CONDITIONS that will keep customers SATISFIED.

Moreover, the presence of any such trend SUPPORTS LUNATIC-TERRORIST-PROHIBITION.

Lunatic-Prohibition-Terrorists argue that BOGUS-Organic-and-Pesticide-Free-Golf-Courses are innovative industry leaders. [?!?!]

If they can do it, why can't everybody else ?!?!

BOGUS-Organic-and-Pesticide-Free-Golf-Courses represent a MAJOR THREAT to the Modern Golf Industry.

The Modern Golf Industry must scientifically define terms like ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE.

The Modern Golf Industry must publically discredit BOGUS terms like ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE.

Golf Industry Trade Associations must establish policies for EXPELLING clubs using terms like ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE.

Can the Golf Industry Use Green Alternatives ?!?!

There are NO viable, efficacious, or economical Green Alternatives to replace conventional pest control products.

Green Alternatives Are BOGUS

Virtually all Green Alternatives are BOGUS, displaying negative characteristics such as the

- BOGUS Green Alternatives are ALMOST TOTALLY INEFFECTIVE except under specific cir-
- BOGUS Green Alternatives require EXTREMELY-HIGH-INPUTS OF ACTIVE INGREDIENT since they will otherwise be less effective

- BOGUS Green Alternatives are HIGHER IN TOXICITY, and pose HIGHER ENVIRON-MENTAL RISKS
- BOGUS Green Alternatives are PROHIBITED in some jurisdictions because of concerns about safety
- BOGUS Green Alternatives are STUNNINGLY MORE EXPENSIVE to use when compared to conventional pest control products
- BOGUS Green Alternatives are supplied by the same For-Profit-Enviro-Terror-Businesses that sought the LUNATIC-TERRORIST-PROHIBITION policies against conven-
- BOGUS Green Alternatives have negative side-effects like PHYTO-TOXICITY (adversely affects plant growth) or CORROSION or RODENT-ATTRACTION
- BOGUS Green Alternatives require MORE PERSONAL PROTECTION for the user
- Green Alternatives are NOT SAFER, NOT BETTER, and NOT MORE EFFECTIVE

Organic Golf Courses are promoted by the SAME people who advocate for Integrated Pest Management, which is ANOTHER BOGUS form of pest management.

Organic Golf Courses are promoted by people having NO adequate expertise, training, or background, in these matters!

BOGUS Green Alternatives Are a DISMAL FAILURE

Overall, Green Alternatives are a DISMAL FAILURE since they merely SUPPRESS or INHIBIT pests of turf, and require an excessive number of repeat applications, often with EX-TREMELY-HIGH-INPUTS OF ACTIVE INGREDIENT.

On the other hand, conventional pest control products FULLY and EFFECTIVELY CONTROL pests, without the need for excessively repeating applications, or without using exorbitant quantities of active ingredient.

with Integrated Pest Management ?!?!

Integrated Pest Management is a FAILURE and a WASTE OF TIME AND MONEY for the Golf Industry.

Using it accomplishes virtually nothing in terms of resolving the public affairs issues concerning the prohibition of pest control products.

Nor does Integrated Pest Management effectively and consistently control the pests of es-MENT towards the efficiency and effectiveness of conventional pest control products.

Integrated Pest Management Is a BOGUS and a FAILED Practice

Integrated Pest Management is an INEFFECTIVE management strategy for CONTROLLING the damaging pests of established turfgrasses, as well as trees and shrubs.

In the Golf Industry, misguided trade association leaders appear to be more worried about than focus on what its playing customers really want ... HIGH-QUALITY PLAYING CONDI-TIONS, and NOT just SUITABLE playing conditions.

Moreover, the Golf Industry has been ridiculously inconsistent in defining parameters for playing surfaces.

In the absence of HIGH-OUALITY PLAYING CONDITIONS, the Golf Industry will face a resulting ECONOMIC HARDSHIP because LOW-QUALITY PLAYING CONDITIONS will DRIVE GOLFERS OUT.

Sadly, the Golf Industry has embarked on a LUDICROUS and ILL-FATED campaign to DOWNGRADE THE PLAYING CONDITIONS — ostensibly, IDIOTIC Trade Associations like Canadian Golf Superintendents Association claim that THE GOLF INDUSTRY AROUND THE GLOBE HAS EMBARKED ON AN EFFORT TO REDUCE THE EXPECTATIONS OF THE GOLFER.

This is TRULY IDIOTIC!

The Golfers are THE BOSSES of the Golf Industry.

Many Golf Course Superintendents often forget that they are EMPLOYEES, and NEED TO DO WHAT THEY ARE TOLD.

Golfers are DEMANDING HIGH-QUALITY PLAYING CONDITIONS.

The Golf Industry must MEET the expectations of its BOSSES by developing and publishing golf MAINTENANCE PROTOCOLS and PERFORMANCE STANDARDS that are EXPECTED by

Moreover, the Golf Industry is in a VULNERABLE position regarding pest control products.

Integrated Pest Management Is a DISMAL FAILURE

Unfortunately, Integrated Pest Management is a FAILED PUBLIC RELATIONS STRATEGY.

The Professional Lawn Care Industry used Integrated Pest Management, and FAILED to defend itself from LUNATIC-TERRORIST-PROHIBITION.

Furthermore, it will be increasingly difficult for the Golf Industry to defend its Exception Status on the need for high-quality playing conditions, especially since ALL pest control products, including those used on the golf course, represent a perceived threat to health and environment.

Even the so-called FERTILIZER-REDUCTION-STRATEGIES have been NEEDLESS as well as DISASTROUS for the Golf Industry.

This Enviro-Vermin must be eradicated from the Modern Golf Industry

WARNING - Regardless of its Exception Status in many jurisdictions, the Modern Golf Industry faces some huge challenges because of its HIGH DEGREE OF VULNERABILITY concerning several public affairs issues.

In order to successfully deter the malicious prohibition efforts of Enviro-Lunatic-Activists, the GOLF INDUSTRY must immediately address the following sixteen critical issues.

- ment (IPM) strategies as the solution to its public affairs problems. Unfortunately, INTE-GRATED PEST MANAGEMENT has been DESIGNED and DOCTORED to be applicable to the AGRICULTURE INDUSTRY, and NOT the Green Space Industry.
- 2. The GOLF INDUSTRY must publicly DIVULGE to the public ALL scientific information that ascertains that its chemicals are definitely MINIMUM-RISK or REDUCED-RISK.
- 3. The GOLF INDUSTRY must publicly DENOUNCE the so-called Green Alternatives to conventional pest control products as BOGUS, and the biological-natural-organic methods, as almost INEFFECTIVE and NON-EXISTENT. Many of the BOGUS Green Alternatives are supplied by the very Environmental-Terror-Organizations that seek NEEDLESS, SENSELESS, and MALICIOUS LUNATIC-TERRORIST-PROHIBITION policies.

- 4. The GOLF INDUSTRY must CREATE a FULLY TRANSPARENT database for right-to-know information concerning its chemicals.
- 5. The GOLF INDUSTRY must directly and actively SUPPORT LITIGATION launched against those Prohibition-Terror-Activists that have conspired to prohibit FEDERALLY LEGAL, SCI-ENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE pest control products, and cease being a mere casual observer.
- 6. The GOLF INDUSTRY must explain why some of its chemicals are prohibited by other nations, but not in Canada, and cease its wasteful WAG-THE-DOG policies on irrelevant issues such as saving quintozene.
- 7. The GOLF INDUSTRY must VIGOROUSLY EMBARK on a massive PUBLIC RELATIONS CAMPAIGN to stop the proposed scheme by Prohibition-Terror-Activists and NATIONAL DE-MOCRATIC PARTY OF CANADA threatening a NATIONAL prohibition of pest control products.

- 9. The GOLF INDUSTRY must plan for the INEVITABLE and TOTAL REVOCATION of its EX-CEPTION STATUS in most jurisdictions across Canada, in two to four years. The GOLF IN-DUSTRY will lose many or ALL of its valued and necessary pest control products.
- 10. The GOLF INDUSTRY must provide the public with scientific information supporting the idea that its innovative management practices MAY SLIGHTLY reduce the use of pest control products.
- 11. The GOLF INDUSTRY must develop and publish golf MAINTENANCE PROTOCOLS and PERFORMANCE STANDARDS that are EXPECTED by its playing customers. So far, the GOLF INDUSTRY has been ridiculously inconsistent in defining SUITABLE PLAYING SURFACES. If worried about a set of protocols for the implementation of the INEFFECTIVE INTEGRATED PEST MANAGEMENT rather than focus on what its playing customers really want ... highquality playing conditions.
- 12. The GOLF INDUSTRY must SCIENTIFICALLY DEFINE and PUBLICALLY DISCREDIT the BOGUS terms ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE, and establish policies for expelling clubs using these INACCURATE and MISLEADING terms from its trade associations.
- 13. The GOLF INDUSTRY must STRONGLY ADDRESS and DISCREDIT the misconceptions concerning IMIDACLOPRID, CHLOROTHALONIL, 2,4-D, and other chemicals.
- 14. The GOLF INDUSTRY must TERMINATE all relationships with Environmental-Terror-Organizations like Contemptible-CANADIAN-CANCER-SOCIETY, WORLD WILDLIFE FUND, and others. All related charitable tournaments that provide financial donations and support to these Environmental-Terror-Organizations must be SUSPENDED and REDIRECTED.

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertain ment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Report might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE. HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MIS-CONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and work-place safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson. Quebec

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
