

# Message To Golf-Hating Fanatics !

September 18th, 2016 - Page 1 Of 1

## Citizen Scientist Volunteers Needed for Pesticides Project

Golf courses are exempt from "cosmetic" pesticides laws, but in Ontario, the industry committed to reducing pesticide use with Integrated Pest Management. How are they doing ? With 5 to 6 years of data, *Prevent Cancer Now* aims to find out ! Help us extract the data, to see the successes and opportunities for improvement. This is perfect for high school science students' volunteer time. Even an hour or two can help a lot ! Email [info@preventcancer.ca](mailto:info@preventcancer.ca) to find out more.

### Background Information

Golf-hating lunatics at *Prevent Cancer Now* ( a.k.a. *Canadian Cancer Society* ) have launched the WORST ATTACK CAMPAIGN ever perpetrated against the Golf Industry, code-named « *Golf Course Pesticides Project* », with the specific purpose to exploit unsecured IPM data on the IPM Council of Canada web-site [www.ipmcouncilcanada.org/](http://www.ipmcouncilcanada.org/) — these lunatics will then recklessly evaluate the Golf Industry's data in a manner that will humiliate, damage, and destroy the Golf Superintendents' reputations and livelihoods.

This ATTACK CAMPAIGN against the Golf Industry is being perpetrated by Meg Sears, a revenge-obsessed fanatical enviro-leader who holds the Golf Industry falsely accountable for the sad death of her son as a result of his supposed exposure to pest control products used by golf facilities near her home. Sears is now master-minding the ATTACK CAMPAIGN against Golf Superintendents and their facilities. Her objective is to attack, humiliate, damage, and destroy businesses that operate in the golf industry. Sears is seeking revenge for the death of her son.
