EVERGREEN

PERFORMING FEATURES:

- Exclusive material, used only in the turf industry.
- Ideal daily use for frost protection.
- Installs and removes in 10-15 minutes using only 2-3 people.
- Quick germination; stronger and earlier root development.
- Vented to allow perfect air, water and light penetration.
- Eliminates damaging winter foot or animal traffic.
- Reduces the usage of water and chemicals; eliminates spring clean up cost.
- Allows greens to be open earlier.
- Non-absorbing or clogging, keeping the same high performance year after year.

SPECIFICATIONS:

- One piece construction in six standard sizes:
- Custom sizes available.
- Complete with storage bag and anchoring pegs.
- Material pro-rated warranty for 3 or 7 years.

This untouched photo shows *green*, that was protected during winter by Evergreen turf cover. Please note the difference between the covered and uncovered areas.
