

## RESPONSE TO NIKKITYTOM

This woman complains about being arrested for CIVIL DISOBEDIENCE.

She was also involved with the same gang who would dress up with respirators and use blood-curdling screams in order to SUBVERT town council meetings in Dollard-Des-Ormeaux ( a suburb of Montreal ).

She was part of the Beechwood gang who CONCOCTED ALLEGATIONS regarding school children being exposed to pesticides, and ended being recompensed for it.

In fact, nikkitom may be in BREACH OF THE AGREEMENT that was signed in order to get money from ChemLawn.

But, what does she care about operating within the respectful boundaries of society.

Some observers have commented that handcuffs were not good enough for nikkitom.

While lying in front on the ChemLawn truck, she may have preferred being run over by the employee, or shot by police, then she would have something to complain about.
