Everett Resumes Spraying

The Lowell Park Pesticide-Free Pilot-Project ENDED in May 2012, and the City of Everett, Washington, RESUMED SPRAYING WEEDS WITH CONVENTIONAL PRODUCTS.

The effort to keep Lowell Neighborhood Park as Pesticide-Free CAME TO AN END in May 2012 when the city BEGAN SPRAYING PARTS OF THE PARK ONCE AGAIN.

The Lowell Civic Association maintained the entire 10-acre park Pesticide-Free since 2010 under an MISGUIDED EFFORT led by association vice chair Megan Dunn.

The neighborhood agreed to let the parks department spray in the park.

The application of pest control products was resumed because NOT ENOUGH VOLUNTEERS COULD KEEP THE PARK UP TO CITY STANDARDS.

Everett is a coastal city in the State of Washington, with a population of over 100,000.

Everett is home to Boeing's assembly plant for the 747, 767, 777, and the new 787 in the largest building in the world by volume at 116.5 million cubic feet.

Located on the western banks of the Snohomish River, the community of LOWELL exists within the larger City of Everett.

A burst of town pride gave birth to LOWELL PARK when members of the Lowell Civic Association volunteered their time to clear land for this purpose. In 1966 the park was given to the City of Everett.

Prohibition **REVERSED** By Everett

It was TOO MUCH WORK FOR VOLUNTEERS to maintain the whole park, Dunn said.

Without the use of conventional pest control products, City of Everett was FORCED TO RESORT TO THE BACK-BREAKING AND AGONIZING JOB OF WEED PULLING BY HAND !

RESIDENT WEED-PICKING VOLUNTEERS, most of whom are elderly and unemployed, were forced to become A GROUP OF MERE WEED-PICKING COTTON-PICKERS.

VOLUNTEERS were needed because Green Alternative Pesticides were BOGUS and DID NOT WORK !

It is now common-knowledge that there are NO viable, efficacious, economical, or low-risk alternatives to replace conventional pest control products.

The city began spraying herbicide along the fences and curb lines of the park the week of May 7th, 2012.

The city plans to spray the park's turf by the end of May to get rid of the moss and to restore it.

June 6th, 2012

Snohomish County Tribune

City of Everett, Washington

Selected and Adapted Excerpts

Pesticide Bans Lead To Cotton-Picking Work

GREEN ALTERNATIVE PESTICIDES ARE BOGUS

PESTICIDE BANS lead to the CATASTROPHIC PROBLEMS OF WEED INVASION AND INSECT INFESTATION.

Weeds and insects DAMAGE TURF shortly after any municipality has PROHIBITED the use of pest control products.

Because of Anti-Pesticide PROHIBITION, municipal parks and sport fields are OVER-RUN BY WEEDS, and MUST BE TOTALLY RENOVATED since they are in an UNUSABLE CONDITION FOR PLAYING SAFELY.

Government Officials, the Green Space Industry, and the public were DUPED by Anti-Pesticide Lunatics.

The lunatics FALSELY ALLEGED that so-called safe and effective Green Alternative Pesticides were/are already available to replace conventional pest control products. [Wrong !]

There are NO viable, efficacious, economical, or low-risk alternatives to replace conventional pest control products.

It is IMPOSSIBLE for home-owners or professionals to keep their properties beautiful by using so-called Green Alternative Pesticides.

In many cases, Green Alternative Pesticides are questionably HIGHER IN TOXICITY, and pose HIGHER ENVIRONMENTAL RISKS.

A well-maintained conventional lawn and landscape can ONLY BE ACHIEVED WITH CONVENTIONAL PEST CONTROL PRODUCTS.

Fortunately, CONVENTIONAL pest control products are SAFE, EFFECTIVE, ECONOMICAL, and LOW-RISK.

Pesticide Bans Lead To Cotton-Picking Work (continued)

MUNICIPAL EMPLOYEES TREATED LIKE COTTON-PICKERS

Without the use of conventional pest control products, Anti-Pesticide jurisdictions were/are FORCED TO RESORT TO THE BACK-BREAKING AND AGONIZING JOB OF WEED PULLING BY HAND !

Municipal Employees have been DEVALORIZED INTO A GROUP OF MERE WEED-PICKING COTTON-PICKERS.

This is because Green Alternative Pesticides are BOGUS and DO NOT WORK !

Consequently, Government Officials are RAPIDLY REVERTING BACK TO CONVENTIONAL PEST CONTROL PRODUCTS.

Because of the FAILURE OF ORGANIC PESTICIDE-FREE MAINTENANCE, Municipal Employees have had to resort to the BACK-BREAKING AND AGONIZING JOB of WEED PULLING BY HAND USING SCRAPERS AND HOES !

Municipal Employees are DEMANDING that Anti-Pesticide PROHIBITIONS BE RESCINDED so that they can be allowed to use conventional pest control products.

Municipal Employees want to stop being treated like COTTON-PICKERS.

Pest control products are SCIENTIFICALLY SAFE, and will NOT CAUSE HARM TO PEOPLE, ANIMALS OR THE ENVIRONMENT.

In ALL Anti-Pesticide jurisdictions where WEED PULLING BY HAND is used, Government Officials RAPIDLY REVERT BACK TO CONVENTIONAL PEST CONTROL PRODUCTS.

Pesticide Bans Lead To Cotton-Picking Work (continued)

VOLUNTEERS TREATED LIKE COTTON-PICKERS

Municipalities CANNOT AFFORD THE HIGH COST of manual labour required for WEED PULLING BY HAND.

Because of the FAILURE OF ORGANIC PESTICIDE-FREE MAINTENANCE, Government Officials are forced to enlist the help of RESIDENT WEED-PICKING VOLUNTEERS, most of whom are elderly and unemployed.

RESIDENT VOLUNTEERS have had to resort to the BACK-BREAKING AND AGONIZING JOB OF WEED PULLING BY HAND !

Moreover, RESIDENT VOLUNTEERS rapidly become interested to volunteer their time in a LOSING BATTLE AGAINST WEEDS.

In ALL Anti-Pesticide jurisdictions where RESIDENT WEED-PICKING VOLUNTEERS are used, Government Officials RAPIDLY REVERT BACK TO CONVENTIONAL PEST CONTROL PRODUCTS.

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

N O R A H G

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorkrism where at least ONE SUBVERSIVE ACT OF TERRORKR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORKRISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNOCENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorkrist Acts of SUBVERSION.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide Terrorkrism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental Terrorkrist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damage lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career →

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide Terrxrism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, workplace safety • supervisor, consultant, and programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters, first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver Fraser Valley region • with Dr. Peter Dermoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scab as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils, the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec, retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of the Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined in pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec, launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.

The Whole Truth from an Independent Perspective
