The DISMAL FAILURE of **EcoLand Golf Course**

So-called Organic Golf Course that alleged being Pesticide-Free only when it is CONVENIENT!

November 2010

Selected and adapted excerpts

BOGUS Pesticide-Free EcoLand

In 2009, EcoLand Golf Club UNWISELY established itself as a pesticide-free golf course that did NOT use « agricultural chemicals ».

The MIS-GUIDED pesticide-free policy of EcoLand Golf Club delighted local Prohibition-Lunatic-Terrorists.

Seemingly, and erroneously, EcoLand Golf Club was changing the stereotype that golf courses need to be damaging to the environment. [?!?!]

Pesticide-Free Golf Courses Tend To Have Low-Quality Low-End Garbage-Dump Playing Conditions

Nobody Wants to Play Golf in a Garbage Dump

In fact, golf courses actually beautify and improve the environmental conditions, especially when using pest control products.

« shining beacon of light » in the hope of creating COERCION, TERROR, and IN-TIMIDATION against other golf clubs in the region.

By the end of 2010, there were already more than FORTY golf courses on the Island of Jeju, and many other golf courses were either under construction or in the planning stages.

Prohibition-Lunatic-Terrorists pointed out that pesticide-free EcoLand Golf - the seemingly perfect example of how being green, can also be good for

It is clearly evident that these Lunatics had absolutely NO education, training, or expertise in matters concerning Golf Course Management — their opinions are TOTALLY IGNORANT and UTTERLY USELESS.

Overall, pesticide-free golf courses tend to produce Low-Quality Low-End Garbage-Dump Playing Conditions — nobody wants to play golf in a garbage dump — Pesticide-free is NOT economically viable.

By summer 2010, the putting greens were DYING at EcoLand Golf Club.

Lunatics FALSELY and FRAUDULENTLY ALLEGE That Golf Courses are the Main Cause of Ground-Water Pollution

Environmental-Terror on the Island of Jeju

EcoLand Golf Club is located on the Island of Jeju, which is the only special country's largest island. The island has a population exceeding 550,000.

Jeju lies in the Korea Strait, southwest of Jeollanam-do Province, of which it was a part before it became a separate province in 1946.

Jeju Government Officals PROHIBITED the EcoLand Golf Club from using « agricultural chemicals » under the pretext that the land is located within a special type of local forest known as « Gotjawal ».

Gotjawal Forest is a naturally-formed forest located on the middle slopes of Halla Mountain.

Parts of Gotjawal Forest have already been developed — some parts of Got-

Other tourist sites are also being planned in or near Gotjawal Forest.

SENSELESS, and MALICIOUS debate from Prohibition-Lunatic-Terrorists.

Local Prohibition-Lunatic-Terrorists falsely and fraudulently alleged that the golf courses are the main cause of ground-water exhaustion and pollution.

Pesticide-Free Putting Greens are DEAD Putting Greens

The DISMAL FAILURE of Pesticide-Free Policy

EcoLand Golf Club is yet another example of a pesticide-free golf course that resulted in DISMAL FAILURE.

EcoLand Golf Club had been MIS-INFORMED that they could avoid using pest control products by using « native grasses » which were allegedly more resilient to disease when compared to bentgrass, which was in use at most other nearby golf courses.

Previous to November 2010, EcoLand Golf Club was mis-managed because of its reliance on a BOGUS Green Alternative to conventional pest control products, in the form of some UTTERLY USELESS micro-organism treatment provided by an Unethical Lying Avaricious For-Profit Lunatic Supplier.

Although it had not presumably used a conventional pest control product since its foundation in 2009, the EcoLand Golf Club recently sought permission

CARNAGE Caused by Pesticide-Free Policy

By summer 2010, the putting greens were DYING at EcoLand Golf Club.

During the summer of 2010, the putting greens at EcoLand Golf Club were afflicted by damaging and fatal pests.

Without Pest Control Products, Golf Course Turf Will Be Damaged and Killed by Deadly Pest Outbreaks

The grass was NOT able to survive, and some greens became dirt patches the ONLY defence against the total collapse of the putting greens was the use of pest control products — the use of pest control products to protect the putting greens from DEATH was determined to be a totally reasonable course of action.

EcoLand STOPPED Being Pesticide-Free

tion in 2009, EcoLand Golf Club sought permission from the government to use « agricultural chemicals ».

putting greens only, which represented 2.7 per cent of the surface of the golf

EcoLand Golf Club sought permission to use pest control products after it was unable to manage the putting greens due to damaging and deadly disease outbreaks.

The request was REJECTED by the government that even prohibited EcoLand Golf Club from using « agricultural chemicals » for ANOTHER two years.

The putting greens will continue to DIE at EcoLand Golf Club.

Overall, pesticide-free policies leads golf courses to look like garbage dumps — nobody wants to play golf in a garbage dump.

Pesticide-Free Havens of Environmental-Terror Make Investors Take Their Money ELSEWHERE

Pesticide-Free Policy is BAD for Local Investment

Prohibition-Lunatic-Terrorists and their Environmental-Terror-Organizations attempted to COERCE, TERRORIZE, and INTIMIDATE EcoLand Golf Club to either CLOSE ITS DOORS FOREVER, or remain open with LOW-QUALITY LOW-END GARBAGE-DUMP PLAYING CONDITIONS.

Moreover, the Lunatics were inflicting FURTHER UNNECESSARY AND MALI-CIOUS CARNAGE on the local community — the Island of Jeju is now a HA-VEN for Environmental-Terror activity — companies and investors will SHUN the community, and GO ELSEWHERE!

Because of Environmental-Terror, the Island of Jeju will no longer benefit from ANY additional investment for new golf course facilities.

That's it. Game over. No more golf courses.

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses will DRIVE GOLFERS OUT and will lead to ECONOMIC HARDSHIP and BANKRUPTCY

Reason Why Organic-and-Pesticide-Free-Golf Courses are BOGUS — PLAYING CONDITIONS

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are UNABLE to provide HIGH-END-PLAYING-CONDITIONS.

Unfortunately, HIGH-END-PLAYING-CONDITIONS lead to UNBEARABLE AND DESTRUCTIVE PEST PROBLEMS AND DISORDERS.

The Modern Golf Industry MUST provide players with HIGH-END-PLAYING-CONDITIONS in order to remain competitive in the market-place.

HIGH-END-PLAYING-CONDITIONS are necessary to the game and business of golf, otherwise the Modern Golf Industry will face ECONOMIC HARDSHIP BY DRIVING GOLFERS OUT.

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are NOT economically viable businesses.

The Modern Golf Industry cannot afford to lose business because of UNBEARABLE AND DE-STRUCTIVE PEST PROBLEMS AND DISORDERS that disrupt playing conditions.

If forced to be Pesticide-Free, Modern Golf Industry will NOT be able to afford the high cost of labour needed to manually remove millions of pests.

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses will lead to ECO-NOMIC HARDSHIP and BANKRUPTCY for the Modern Golf Industry.

Reason Why Organic-and-Pesticide-Free-Golf Courses are BOGUS — NUMBER OF PLAYERS

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are UNABLE TO WITHSTAND A HIGH NUMBER OF ROUNDS OF GOLF.

Most 18-hole golf courses are subject to a BRUTAL 30,000 to 50,000 rounds of golf per year.

Many golf courses have wear problems due to player traffic and golf cars that are far beyond their original design tolerances.

The BRUTAL number of players will lead to UNBEARABLE AND DESTRUCTIVE PEST PROB-LEMS AND DISORDERS.

Golf Courses are BOGUS - WEATHER EXTREMES

BOGUS-Organic-and-Pesticide-Free-Golf-Courses are UNABLE TO WITHSTAND WEATHER EXTREMES, such as heat, drought, and cold.

Most courses are exposed to BRUTAL EXTREMES IN WEATHER CONDITIONS.

Extreme intemperate climates will KILL turfgrasses.

The vast majority of golf courses are not located in temperate climates.

Most turfgrasses growing on the golf course have difficulties tolerating intense heat and drought stress during the summer months, and severe cold temperatures in winter.

The BRUTAL weather extremes lead to UNBEARABLE AND DESTRUCTIVE PEST PROBLEMS AND DISORDERS.

Any trend favouring BOGUS-Organic-and-Pesticide-Free-Golf-Courses will lead to DEAD GRASS for the Modern Golf Industry.

Any trend that embraces BOGUS-Organic-and-Pesticide-Free-Golf-Courses will drain the turf management practices that provide HIGH-END-PLAYING-CONDITIONS, and that will keep playing customers SATISFIED.

Moreover, the presence of any such trend SUPPORTS PROHIBITION-TERRORISM.

Prohibition-Lunatic-Terrorists argue that BOGUS-Organic-and-Pesticide-Free-Golf-Courses are innovative industry leaders. [?!?!]

BOGUS-Organic-and-Pesticide-Free-Golf-Courses represent a MAJOR THREAT to the Modern Golf Industry.

The Modern Golf Industry must scientifically define terms like ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE.

The Modern Golf Industry must publically discredit BOGUS terms like ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE.

Golf Industry Trade Associations must establish policies for EXPELLING clubs using terms like ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE.

Can the Golf Industry Use Green Alternatives ?!?!

There are NO viable, efficacious, or economical Green Alternatives to replace conventional pest control products.

Green Alternatives Are BOGUS

Virtually all Green Alternatives are BOGUS, displaying negative characteristics such as the

- BOGUS Green Alternatives are ALMOST TOTALLY INEFFECTIVE except under specific cir-
- BOGUS Green Alternatives require EXTREMELY-HIGH-INPUTS OF ACTIVE INGREDIENT since they will otherwise be less effective

- BOGUS Green Alternatives are HIGHER IN TOXICITY, and pose HIGHER ENVIRON-MENTAL RISKS
- BOGUS Green Alternatives are PROHIBITED in some jurisdictions because of concerns
- BOGUS Green Alternatives are STUNNINGLY MORE EXPENSIVE to use when compared to conventional pest control products
- BOGUS Green Alternatives are supplied by the same For-Profit-Enviro-Terror-Businesses that sought the PROHIBITION-TERRORISM policies against conventional pest control products
- BOGUS Green Alternatives have negative side-effects like PHYTO-TOXICITY (adversely affects plant growth) or CORROSION or RODENT-ATTRACTION or REPULSIVE ODOUR
- BOGUS Green Alternatives require MORE PERSONAL PROTECTION for the user
- Green Alternatives are NOT SAFER, NOT BETTER, and NOT MORE EFFECTIVE

Organic Golf Courses are promoted by the SAME people who advocate for Integrated Pest Management, which is ANOTHER BOGUS form of pest management.

Organic Golf Courses are promoted by people having NO adequate expertise, training, or background, in these matters!

BOGUS Green Alternatives Are a DISMAL FAILURE

Overall, Green Alternatives are a DISMAL FAILURE since they merely SUPPRESS or INHIBIT pests of turf, and require an excessive number of repeat applications, often with EX-TREMELY-HIGH-INPUTS OF ACTIVE INGREDIENT.

On the other hand, conventional pest control products FULLY and EFFECTIVELY CONTROL pests, without the need for excessively repeating applications, or without using exorbitant quantities of active ingredient.

Can the Golf Industry Defend Itself with Integrated Pest Management ?!?!

Integrated Pest Management is a FAILURE and a WASTE OF TIME AND MONEY for the Golf Industry.

Using it accomplishes virtually nothing in terms of resolving the public affairs issues concerning the prohibition of pest control products.

Nor does Integrated Pest Management effectively and consistently control the pests of established turf and ornamental plants — at best, it MAY provide some LIMITED IMPROVE-MENT towards the efficiency and effectiveness of conventional pest control products.

Integrated Pest Management Is a BOGUS and a FAILED Practice

Integrated Pest Management is an INEFFECTIVE management strategy for CONTROLLING the damaging pests of established turfgrasses, as well as trees and shrubs.

protocols for the implementation of the INEFFECTIVE Integrated Pest Management rather than focus on what its playing customers really want ... HIGH-QUALITY PLAYING CONDI-TIONS, and NOT just SUITABLE playing conditions.

Moreover, the Golf Industry has been ridiculously inconsistent in defining parameters for playing surfaces.

In the absence of HIGH-QUALITY PLAYING CONDITIONS, the Golf Industry will face a resulting ECONOMIC HARDSHIP because LOW-QUALITY LOW-END GARBAGE-DUMP PLAYING CONDITIONS will DRIVE GOLFERS OUT.

Sadly, the Golf Industry has embarked on a LUDICROUS and ILL-FATED campaign to DOWNGRADE THE PLAYING CONDITIONS — ostensibly, IDIOTIC Trade Associations like Canadian Golf Superintendents Association claim that THE GOLF INDUSTRY AROUND THE GLOBE HAS EMBARKED ON AN EFFORT TO REDUCE THE EXPECTATIONS OF THE GOLFER.

This is TRULY IDIOTIC!

The Golfers are THE BOSSES of the Golf Industry.

Many Golf Course Superintendents often forget that they are EMPLOYEES, and NEED TO DO WHAT THEY ARE TOLD.

Golfers are DEMANDING HIGH-QUALITY PLAYING CONDITIONS.

The Golf Industry must MEET the expectations of its BOSSES by developing and publishing GOLF MAINTENANCE PROTOCOLS and PERFORMANCE STANDARDS that are EXPECTED by playing customers.

Moreover, the Golf Industry is in a VULNERABLE position regarding pest control products.

Both the Golf Industry and the Modern Professional Lawn Care Industry use the SAME ingredients that are needed to control insect and weed pests.

In fact, Professional Lawn Care maintenance requires LESS PESTICIDE-INPUTS than Golf Course turf.

Status despite the fact that it uses the VERY SAME INGREDIENTS employed in Professional Lawn Care maintenance — this Exception Status will be SHORT-LIVED!

Integrated Pest Management Is a DISMAL FAILURE

Unfortunately, Integrated Pest Management is a FAILED PUBLIC RELATIONS STRATEGY.

The Professional Lawn Care Industry used Integrated Pest Management, and FAILED to defend itself from PROHIBITION-TERRORISM.

Furthermore, it will be increasingly difficult for the Golf Industry to defend its Exception products, including those used on the golf course, represent a perceived threat to health and environment.

Even the so-called FERTILIZER-REDUCTION-STRATEGIES have been NEEDLESS as well as DISASTROUS for the Golf Industry.

Integrated Pest Management is a DISMAL FAILURE and a WASTE OF TIME AND MONEY for the Golf Industry.

They represent a MAJOR THREAT

This Enviro-Vermin must be eradicated from the Modern Golf Industry

dustry faces some huge challenges because of its HIGH DEGREE OF VULNERABILITY concerning several public affairs issues.

Terrorists, the GOLF INDUSTRY must immediately address the following sixteen critical is-

- 1. The GOLF INDUSTRY must CEASE focusing on the INEFFECTIVE Integrated Pest Management (IPM) strategies as the solution to its public affairs problems. Unfortunately, IN-TEGRATED PEST MANAGEMENT has been DESIGNED and DOCTORED to be applicable to the AGRICULTURE INDUSTRY, and NOT the Green Space Industry.
- 2. The GOLF INDUSTRY must publicly DIVULGE to the public ALL scientific information that ascertains that its chemicals are definitely MINIMUM-RISK or REDUCED-RISK.
- 3. The GOLF INDUSTRY must publicly DENOUNCE the so-called Green Alternatives to conventional pest control products as BOGUS, and the biological-natural-organic methods, as almost INEFFECTIVE and NON-EXISTENT. Many of the BOGUS Green Alternatives are supplied by the very Environmental-Terror-Organizations that seek NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION-TERRORISM policies.

- 4. The GOLF INDUSTRY must CREATE a FULLY TRANSPARENT database for right-to-know
- 5. The GOLF INDUSTRY must directly and actively SUPPORT LITIGATION launched against those Prohibition-Lunatic-Terrorists who have conspired to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE pest control products, and cease being a mere casual observer.
- 6. The GOLF INDUSTRY must explain why some of its chemicals are prohibited by other nations, but not in Canada, and cease its wasteful WAG-THE-DOG policies on irrelevant issues such as SAVING QUINTOZENE.
- 7. The GOLF INDUSTRY must VIGOROUSLY EMBARK on a massive PUBLIC RELATIONS CAMPAIGN to stop the proposed scheme by Prohibition-Lunatic-Terrorists and NATIONAL DEMOCRATIC PARTY OF CANADA threatening a NATIONAL prohibition of pest control products. NDP is the political shield for the Environmental-Terror-Movement.
- 8. The GOLF INDUSTRY must review and justify its current and extensive array of chemi-
- 9. The GOLF INDUSTRY must plan for the INEVITABLE and TOTAL REVOCATION of its EX-CEPTION STATUS in most jurisdictions across Canada, in two to four years. The GOLF IN-DUSTRY will lose many or ALL of its valued and necessary pest control products.
- 10. The GOLF INDUSTRY must provide the public with scientific information supporting the idea that its innovative management practices MAY SLIGHTLY reduce the use of pest control products.
- 11. The GOLF INDUSTRY must develop and publish GOLF MAINTENANCE PROTOCOLS and PERFORMANCE STANDARDS that are EXPECTED by its playing customers. So far, the GOLF INDUSTRY has been ridiculously inconsistent in defining SUITABLE PLAYING SURFACES. If it does not do so, lay-people such as the Prohibition-Lunatic-Terrorists will step in and design these standards and protocols for the industry. The GOLF INDUSTRY appears to be more worried about a set of protocols for the implementation of the INEFFECTIVE INTE-GRATED PEST MANAGEMENT rather than focus on what its playing customers really want ...
- 12. The GOLF INDUSTRY must SCIENTIFICALLY DEFINE and PUBLICALLY DISCREDIT the BOGUS terms ORGANIC-GOLF-COURSE and PESTICIDE-FREE-GOLF-COURSE, and establish policies for expelling clubs using these INACCURATE and MISLEADING terms from its trade associations.
- 13. The GOLF INDUSTRY must STRONGLY ADDRESS and DISCREDIT the misconceptions concerning IMIDACLOPRID, CHLOROTHALONIL, 2,4-D, and other chemicals.
- 14. The GOLF INDUSTRY must TERMINATE all relationships with Environmental-Terror-Organizations like Contemptible-CANADIAN-CANCER-SOCIETY, WORLD WILDLIFE FUND, and others. All related charitable tournaments that provide financial donations and support to these Environmental-Terror-Organizations must be SUSPENDED and REDIRECTED.

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MIS-CONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAYED INDIFFERENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and work-place safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Ouebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
