Selected And Adapted Excerpts

The Failure Of Pesticide-Free Golf Course Maintenance

Summary Of Pesticide-Free Catastrophe At Hyde Park

Because no one applied pesticides, Hyde Park Golf Course was almost lost or immeasurably damaged !

Because of employee conflicts and lack of planning, Hyde Park unwittingly became a pesticide-free catastrophe.

It became infested with damaging pests that killed turf.

Hyde Park appeared to be unable or unwilling to properly maintain their playing conditions.

And, no one wanted to play on a #@!!% pest-infested golf course that resembled a garbage dump !

A licensed pesticide applicator, Charles Calabro, was hired, and the golf course was saved by pesticides !

Description Of Hyde Park

Hyde Park Golf Course is a thirty-six-hole public course located in the city of Niagara Falls, New York.

It also known as City of Niagara Falls Golf Course, as well as Hyde Park Municipal Golf Course.

No One Wants To Play On A #@!!% Pest-Infested Golf Course

Catastrophic Pest Damage At Hyde Park

Unfortunately, pesticide-free golf courses, like Hyde Park, become infested with destructive and catastrophic pest problems and disorders.

One of the diseases that infested Hyde Park Golf Course was the Dollar Spot fungus, which created huge swaths of straw-coloured, sunken spots about the size of a silver dollar on the greens and fairways as it killed the turf.

Hyde Park was also infested with European Crane Fly larvae which eat the roots, thinning-out turf, and creating large dead patches.

Hyde Park could not successfully control its damaging pests without conventional pest control products.

According to Charles Calabro, no pest control products were applied since spring 2013 —

Basically the city stopped applying fungicide [and insecticide].

99 per cent of the problem is the lack of fungicides.

They didn't get these problems in two weeks or two months.

You should be putting down pesticides every month.

Calabro is a licensed pesticide applicator who was eventually hired to control Hyde Park's catastrophic pest problems.

Pesticide-Free Garbage Dump Catastrophe

Saving Hyde Park With Pesticide Treatments

David Kinney, Director of Department of Public Works, acted in the nick of time to save Hyde Park with pesticide treatments.

But the city of Niagara Falls' Hyde Park Golf Course was almost lost — or rather immeasurably damaged — because no one applied pesticides all summer.

On September 16th, 2013, the Niagara Falls City Council voted to approve an emergency pesticide contract.

The 12,250-dollar emergency pesticide contract was awarded to Turf USA, a company owned by Charles Calabro of Niagara Falls.

Calabro is a licensed pesticide applicator by New York's Department Of Environmental Conservation (DEC).

Calabro will perform five curative pest control treatments.

He has already started and will continue until December 10th, 2013.

The prognosis is good, according to Calabro.

No One Wants To Play On A #@!!% Pest-Infested Golf Course

Hyde Park Would Have Never Survived Without Pesticides

While the pesticide-free catastrophe justified an emergency pesticide contract, which was handed out without bidding, it appears likely the golf course turf by 2014 will be looking pretty green, thanks to the application of pest control products.

According to Charles Calabro of Turf USA —

You had it all year where they neglected it, and now we have to cram it down in three months to get it back to normal conditions.

They would have never survived if they waited.

Once the freeze comes, it's over.

They would have lost a good portion of many of the greens.

David Kinney, Director of Department of Public Works, called the need to hire Calabro and Turf USA an emergency, created, he said, by the fact that the long-time employee, Paul Dickinson, who was Hyde Park's only licensed pesticide applicator, either was either suddenly terminated or forced to retire.

As Dickinson was nearing the end of tenure, no preparation was made for his replacement.

And while Dickinson planned to retire March 2014, he decided to quit in spring 2013.

Hyde Park's Pesticide-Free Golf Course With Low-End Playing Conditions

BOGUS Pesticide-Free Golf Courses

**Business Failures,
Bankruptcies, & Closures**

**Unverifiable Success Of
Pesticide-Free Maintenance**

**Garbage Dump
Playing Conditions**

**Stunningly Exorbitant
Costs Of Maintenance**

**Openings Delayed
Again And Again**

All Exception Statuses Will Come To An End

In several jurisdictions,
PROHIBITION has been ARBITRARILY
IMPOSED against PEST CONTROL
PRODUCTS used in the Urban Landscape

NEEDLESS PROHIBITION SUBVERSION
has also spread against the use of
FERTILIZERS, especially PHOSPHORUS

Anti-Pesticide SUBVERSION will next
eliminate pest control products and
fertilizers from the GOLF INDUSTRY

and then ... SOD PRODUCTION

and then ... NURSERY PRODUCTION

and then ... AGRICULTURE

and finally ... PROHIBITION will be
ARBITRARILY IMPOSED by Lunatic-
Terrorists NATIONALLY against ALL
pest control products and fertilizers

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

N O R A H G

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shettlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
