

***Force of Nature Media Report :
The Environmental Movement
in the Media from an
Independent Perspective.***

Consequences.

Part 3.

Consequences.

Part 3.

03/06/2009

*What follows are examples
of the consequences resulting
from the malicious intentions
of the environmental movement.*

2 of 10.

Consequences.

Part 3.

03/06/2009

Golf superintendent in the Maritimes is dismayed over the actions of Canadian Cancer Society (C.C.S.).

Dear Force of Nature

3 of 10.

I've asked this question a number of times to the Golf Association. Why is the Canadian Cancer Society sticking the knife in our backs when the Golf Industry across Canada has raised millions of dollars in support of cancer victims and cancer research ? This makes no sense.

Consequences.

Part 3.

03/06/2009

Owner of a Professional Lawn Care
Company operating in Ontario
will not support activities of
Canadian Cancer Society (C.C.S.).

4 of 10.

Dear Force of Nature

My son was part of a charity marathon last weekend. I can assure you that I made sure that the Canadian Cancer Society WAS NOT involved before I allowed him to run.

Consequences.

Part 3.

03/06/2009

Owner of Professional Lawn Care
Company operating in British
Columbia will not give money to
Canadian Cancer Society (C.C.S.).

5 of 10.

Dear Force of Nature

I used to give money to the Canadian Cancer Society every
single year. From now on, they will not get a red cent from
me. Nothing.

Consequences.

Warren Bell.
Director.
cppbell@web.ca

<< We're very pleased the government is not only banning the use but also the sale of cosmetic pesticides in Ontario. We're especially proud of the tremendous effort of our volunteers and staff who played a significant role advocating for municipal pesticide bylaws. Now with this provincial legislation, all Ontarians will be protected from cancers associated with exposure to certain pesticides. We look forward to more details on the legislation and the development of strong regulations. >>

— **Peter Goodhand.** April 22nd, 2008.

<< C.C.S. Position Statement :

- The Canadian Cancer Society is very concerned about the use of potential carcinogens for the purposes of enhancing the appearance of lawns and gardens, as well as parks, recreational facilities, and golf courses.
- We base this concern on the conclusions of the International Agency for Research on Cancer, which state that some substances used in pesticides are classified as known, probable, or possible carcinogens. >>

Consequences.

Part 3.

03/06/2009

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the **GREEN SPACE INDUSTRY**, the **ENVIRONMENTAL MOVEMENT**, politicians, municipalities, and the media, nation-wide across Canada, and parts of the United States. **FORCE OF NATURE** is produced in two parts. First. The **MEDIA REPORT** itself that reports on the current events affecting the future of the **GREEN SPACE INDUSTRY**.. Second. **INDEPENDENT PERSPECTIVE**., which is a running commentary, sometimes also of a more technical in nature.

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. The opinions expressed in these e-newsletters, even though from an independent perspective, may not reflect those of everyone in the **GREEN SPACE INDUSTRY**, or Mr. Gathercole's many associates. Be warned ! Mr. Gathercole and his team may sometimes be very irreverent and fearless with these e-newsletters.

William H. Gathercole holds a degree in Horticulture from the **UNIVERSITY OF GUELPH**, and another pure and applied science degree from **MCGILL UNIVERSITY**. He has worked in virtually all aspects of the **GREEN SPACE INDUSTRY**, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. Mr. Gathercole has been following the evolution of **ENVIRONMENTAL TERRORISM** for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being **ANTI-ENVIRONMENT-MOVEMENT**, he is, in fact, simply a strong advocate for the **GREEN SPACE INDUSTRY**. However, this position has not precluded him from criticizing the industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is **UNDENIABLE**. (Hopefully !) For many years, Mr. Gathercole has been a contributing columnist for **TURF & RECREATION Magazine**, Canada's Turf and Grounds Maintenance Authority.
