National Organization Responding Against HIDE that conspire to destroy the Golf Industry (NORAHG)

# The Terrible Legacy Of Rachel Carson

## Carson's Legacy Has Led To Golf Facilities Being Infested With Activist- Extremist-Superintendents

### TERRIBLE LEGACY

Carson was a hysterical, lying, fanatical, female jackal, & a paranoid chemophobe.

She believed that all pesticides contained « *DEATH-DEALING POWER* ».

Carson was wrong about [ *NO-HARM-* ] pesticides.

Most of the allegations in Carson's book « *SILENT SPRING* » concerning the adverse effects of pesticides were ultimately shown to be scientifically inaccurate & filled with anti-pesticide hate-speech & junk-science.

« *SILENT SPRING* » has been evaluated as approximately two-thirds incorrect, & hence only one-third correct.

Carson's work was amateurish & non-scientific.

She never performed any scientific studies.

Carson's concerns were unfounded because she had **NO** competent background, **NO** training, & **NO** expertise in matters concerning pest control products.

The public must recognize that Carson, & her **ACOLYTES**, represent the best example of incompetent, truth-challenged, fanatical, & deadly enviro-abuse !

Carson was the first environmental-extremist & the queen of junk science.

Additionally, Carson & her **ACOLYTES** are considered as the greatest mass-killers in modern history.

Since 1972, Carson's **ACOLYTES** have implemented policies that influenced reckless & arbitrary world-wide prohibitions against the use of DDT, resulting in 30 to 50 million deaths by malaria.

Furthermore, validating the **TERRIBLE LEGACY** of Carson represents a **TREACHEROUS ATTACK** against main-stream golf superintendents & their facilities.

Carson left a **TERRIBLE LEGACY** to « *ACTIVIST-EXTREMIST-SUPERINTENDENTS* », her treacherous acolytes in the golf industry.

Unfortunately, Carson's **TERRIBLE LEGACY** has led to golf facilities being infested with these extremists.

Golf courses managed by « *ACTIVIST-SUPERINTENDENTS* » will **REGRESS** into forms of pest control practiced 100 years ago.

This is because they have adopted **ARBITRARY & UNNECESSARY & FAILED DOCTRINES**, such as « *ORGANIC PESTICIDE-FREE* » & « *IPM* ».

These extremists must be **DISCREDITED**, just like Carson.

Summary & Overview

## CRITICAL ISSUES

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by using the **ARBITRARY & UNNECESSARY & FAILED DOCTRINES** of golf course maintenance.

Consequently, the golf industry's main-stream superintendents must recognize that they are on a collision course with the looming shipwreck of golf-hating & anti-pesticide extremism.

Even though they enjoy **PESTICIDE BAN EXCEPTION STATUSES** from municipal or provincial pesticide bans, main-stream superintendents face some huge challenges because of their high degree of vulnerability concerning several public affairs issues.

It must be noted that Mr William H Gathercole was the creator of the **PESTICIDE BAN EXCEPTION STATUS** that allowed the golf industry to avoid being subjected to anti-pesticide prohibition for a generation & more.

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

Summary & Overview

## NO UNCERTAINTIES ABOUT PESTICIDES

There are **NO** worries & **NO** uncertainties with [**NO-HARM-**] pest control products.

National regulatory agencies, world-wide, have found that pest control products **DO NOT** present risks of concern to human health or the environment when correctly used according to label directions.

## ATTACK-STATEMENTS BY GOLF ( DOT ) COM ?

Has golf ( dot ) com BETRAYED the golf industry ?

Golf ( dot ) com, the digital edition of Golf Magazine, published the anti-golf-industry article entitled « *WHAT IS AN ORGANIC GOLF COURSE, & WHY AREN'T THERE MORE OF THEM ?* ».

It is unsettling that the « *ACTIVIST-PUBLISHERS* » at golf ( dot ) com would demand that the golf industry must adopt ARBITRARY & UNNECESSARY & FAILED DOCTRINES, such as « *ORGANIC PESTICIDE-FREE* » & « *IPM* », that are clearly anti-golf-industry.

Golf course pesticide use is a « *BAD THING* », according to TREACHEROUS ATTACK-STATEMENTS by golf ( dot ) com.

It is inconceivable that golf ( dot ) com would accuse pesticide-using main-stream superintendents of acting like « *MINIONS* » of the so-called chemical industry.

It is further inconceivable that golf ( dot ) com would conspire to IMPOSE RECKLESS & ARBITRARY PROHIBITION against conventional pest control products needed by the golf industry.

It is NOT the role of golf ( dot ) com to dictate policies to the golf industry — its TREACHEROUS ATTACK-STATEMENTS must end.

This is an example of Rachel Carson inspiring a TERRIBLE LEGACY on her ACOLYTES at golf ( dot ) who TREACHEROUSLY ATTACK the golf industry with the publication of « *WHAT IS AN ORGANIC GOLF COURSE, & WHY AREN'T THERE MORE OF THEM ?* ».

Clearly, golf ( dot ) serves absolutely NO useful purpose to the golf industry, & may even represent a SIGNIFICANT THREAT to the main-stream golf industry which must be STOPPED, forever.

**According To Rachel Carson,  
All Pesticides Are Substances  
With Death-Dealing Power ?**

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE  
National Organization Responding Against HIDE that conspire to destroy the Golf Industry (NORAHG)

# Truth By Carson ?

## ATTACK-STATEMENTS BY GOLF ( DOT ) COM

During the post-war years, when the scientific-technical revolution made a number of chemical innovations available in the market-place, the golf industry EMBRACED them. [?!?!]

At the time, that made perfect sense — pesticides were incredibly efficient, they saved time and labor, and little was known about their EFFECTS on human health and the environment. [?!?!?!?!]

The publication of Rachel Carson's book « *SILENT SPRING* » in 1962 brought some unfortunate TRUTHS to light. [?!?!?!?!?!]

## KEY POINT —

### Carson's Book Was Two-Thirds Incorrect

## BACKGROUND INFORMATION —

Background Information

## MIS-INFORMATION BY CARSON

The INFAMOUS Rachel Carson does not deserve such recognition.

She believed that all [ NO-HARM- ] pesticides contained « *DEATH-DEALING POWER* ».

Her book « *SILENT SPRING* » has been evaluated as approximately two-thirds incorrect, & hence only one-third correct.

The FAILURE of « *SILENT SPRING* » is an example of Rachel Carson inspiring a TERRIBLE LEGACY on her ACOLYTES, the « *ACTIVIST-SUPERINTENDENTS* », who TREACHEROUSLY ATTACK the golf industry with ARBITRARY & UNNECESSARY & FAILED DOCTRINES that are #@!!% NONSENSE & DO NOT WORK, & have NO place in decisions concerning golf course maintenance.

# Effects Described By Carson

## ATTACK-STATEMENT BY GOLF ( DOT ) COM

Wide-spread use of pesticides, Carson's [ AMATEUR & NON-SCIENTIFIC ] STUDIES showed, led to a litany of ADVERSE EFFECTS. [ ?!?! ]

### KEY POINT —

#### Carson's Work Was Amateurish & Non-Scientific

### BACKGROUND INFORMATION —

#### Background Information

## INACCURACIES BY CARSON

The INFAMOUS Rachel Carson NEVER performed any scientific studies.

At best, her work was AMATEURISH & NON-SCIENTIFIC.

Most of the allegations in Rachel Carson's book « *SILENT SPRING* » concerning ADVERSE EFFECTS of [ NO-HARM- ] pesticides were ultimately shown to be scientifically inaccurate & filled with anti-pesticide hate-speech & junk-science.

Carson's « *SILENT SPRING* » left a TERRIBLE LEGACY to « ACTIVIST-EXTREMIST-SUPERINTENDENTS », her TREACHEROUS ACOLYTES in the golf industry.

Unfortunately, Carson's TERRIBLE LEGACY has led to golf facilities being infested with these extremists.

Golf courses managed by « ACTIVIST-SUPERINTENDENTS » have adopted UNNECESSARY & FAILED DOCTRINES, such as IMPOSING RECKLESS & ARBITRARY PROHIBITION against conventional [ NO-HARM- ] pest control products.

These extremists must be DISCREDITED, just like Carson.

# Responding To Carson

## ATTACK-STATEMENTS BY GOLF ( DOT ) COM

Her book's publication was met with a BITTER RESPONSE [?!?!] from some [ PESTICIDE ] industry members who believed she was HYSTERICAL.

[ PESTICIDE ] industry members believed Carson's [ AMATEURISH & NON-SCIENTIFIC ] CONCERNS [?!?!] were UNFOUNDED.

### KEY POINT —

**Carson Was A Hysterical, Lying, Fanatical, Female Jackal, & A Paranoid Chemophobe**

### BACKGROUND INFORMATION —

Background Information

## HYSTERIA BY CARSON

Carson was WRONG about [ NO-HARM- ] pesticides.

Carson was more than just HYSTERICAL, she was actually a lying fanatical female jackal & a paranoid chemophobe.

## INCOMPETENCE OF CARSON

Carson's concerns were **UNFOUNDED** because she had **NO** competent background, **NO** training, & **NO** expertise in matters concerning **[ NO-HARM- ]** pest control products.

Carson was an **AMATEUR & NON-SCIENTIFIC** reporter — she was **NOT REAL SCIENTIST**.

The golf industry should focus on the fact that **CARSON WAS INCOMPETENT**, & emphasize that conventional **[ NO-HARM- ]** pest control products are **SCIENTIFICALLY-SAFE** & will **CAUSE NO HARM** since they have been scrutinized & approved by the **HUNDREDS** of **REAL** expert-scientists at US Environmental Protection Agency ( **US EPA** ) & Health Canada.

# Influence By Carson

## ATTACK-STATEMENT BY GOLF ( DOT ) COM

Carson's « *SILENT SPRING* » marked the beginning of an EMBOLDENED ENVIRONMENTAL [ IDIOCY ] MOVEMENT in the United States [ ?!?! ] , and THE GOLF INDUSTRY HAD NO CHOICE BUT TO RE-EVALUATE ITS PRACTICES. [ ?!?! ]

### KEY POINTS —

**Rachel Carson Forced The Golf Industry  
To Re-Evaluate Its Practices [ ?!?! ]**

**Carson & Her Acolytes Are Considered The  
Greatest Mass-Killers In Modern History**

### BACKGROUND INFORMATION —

Background Information

## ENVIRONMENTAL MOVEMENT LAUNCHED BY CARSON ?

The INFAMOUS Rachel Carson did not launch the environmental idiocy movement.

It is an exaggeration to believe that « *SILENT SPRING* » single-handedly launched the modern environmental idiocy movement.

It would be more accurate to say that Carson's book « *SILENT SPRING* » was one of many signature events in the birth of the **IDIOTIC** let's-protect-the-environment movement in the Western World.

The environmental persistence of DDT was a government & public concern well before the launching of this book in 1962.

#### Background Information

## MASS-KILLINGS BY CARSON

The **INFAMOUS** Rachel Carson & her **ACOLYTES** are considered the **GREATEST MASS-KILLERS** in modern history.

Since 1972, Carson's **ACOLYTES** have implemented policies that influenced reckless & arbitrary world-wide prohibitions against the use of DDT, resulting in **30 TO 50 MILLION DEATHS** by malaria.

The public must recognize that Carson & her **ACOLYTES** represent the **BEST** example of incompetent, truth-challenged, fanatical, & deadly environmental abuse !

Observers agree that Carson was the first environmental-extremist & the queen of junk science.

Carson recklessly wrote the subversive anti-pesticide book entitled « *SILENT SPRING* » while she was stricken & dying with breast cancer, which was diagnosed in spring 1960.

While writing the book, she underwent radical mastectomy in April 1960, as well as radiation treatment.

Given her own terminal state of health, Carson decided to wail endlessly about the supposed risks of chemicals in the environment, specifically DDT insecticide.

In the minds of many observers, there is **NO DOUBT** that Carson's illness tainted her views regarding chemicals.

It is a known fact that while a person is dying due to a disease, the human mind often attempts to link the reason for the disease with a specific event or blunder.

Consequently, « *SILENT SPRING* » was Carson's scientifically inaccurate blunder.

With the passage of time, it has become clear that « *SILENT SPRING* » was subversively flawed & horribly truth-challenged.

Most of the allegations in « *SILENT SPRING* » were ultimately shown to be scientifically inaccurate & filled with anti-pesticide hate-speech & junk-science.

Some observers maintain that « *SILENT SPRING* » was approximately two-thirds incorrect, & hence only one-third correct.

The failure of « *SILENT SPRING* » is not surprising since Carson had **NO** competent background, **NO** training, & **NO** expertise in matters concerning pest control products.

She was **NEVER** competent to discuss [ **NO-HARM-** ] pest control products.

In fact, Carson can only be described as a mere zoologist, spinster, cancer victim, & subverter of the truth.

Her acts of subversion have served as the inspiration for all environmental-extremists, including « *ACTIVIST-SUPERINTENDENTS* ».

Rachel Carson's Terrible Legacy With Their  
Treacherous Attacks Against The Golf Industry**

## BACKGROUND INFORMATION —

Background Information

### DEFINING ACTIVIST-SUPERINTENDENTS

Rachel Carson has inspired a **TERRIBLE LEGACY** on her **ACOLYTES**, « **ACTIVIST-SUPERINTENDENTS** », who **TREACHEROUSLY ATTACK** the golf industry with the imposition of **ARBITRARY & UNNECESSARY & FAILED DOCTRINES**.

These doctrines melt under the scrutiny of science, reason, & sanity.

These extremist « **ACTIVIST-SUPERINTENDENTS** » serve **NO** useful purpose to the golf industry.

« **ACTIVIST-SUPERINTENDENTS** » represent the **GREATEST THREATS** to the main-stream golf industry.

Golf courses managed by « **ACTIVIST-SUPERINTENDENTS** » will **REGRESS** into forms of pest control practiced 100 years ago.

This is because they have adopted **ARBITRARY & UNNECESSARY & FAILED DOCTRINES**, such as « **ORGANIC PESTICIDE-FREE** » & « **IPM** ».

These extremists must be **DISCREDITED**, just like Carson.

#### Background Information

## DESCRIPTION OF ACTIVIST-SUPERINTENDENTS

In general, « *ACTIVIST-SUPERINTENDENTS* » may be described by the following examples

---

- Prefer to operate as activists supporting failed maintenance doctrines, demonizing no-harm-pesticides, defending their failures to satisfy paying golf-customers, reducing golfer expectations, confessing to being the cause of dead grass, & exposing their mental health issues.
- Choose to deviate from, & conspire against, main-stream turf maintenance protocols & performance standards for science-based & time-tested & correct methods that are overwhelmingly science-based, time-tested, correct, & disciplined.
- Adopt arbitrary & unnecessary & failed maintenance doctrines — see later segment entitled « *ACTIVIST-MAINTENANCE* ».
- Fail to provide paying-golfers with high-quality playing conditions & aesthetics achieved by thicker, greener, pest-free, & manicured turf.
- Promote organic pesticide-free & IPM & other arbitrary & unnecessary & failed doctrines, with unverifiable success stories.
- Demand that golf facility owners & paying-golfers shut up & put up with dead grass & useless playing conditions.
- Campaign to reduce the expectations of paying-golfers by promoting pest-infested & low-quality garbage dump playing surfaces.
- Adopt the incorrect doctrine that the use of conventional pesticides is somehow harmful.
- Conspire to self-impose prohibition, perhaps unwittingly, against pest control products used on their golf courses.
- Confess, eventually, that their doctrines have led to dead grass & useless golf playing surfaces.

- Blame their failures with excuses about uncontrollable mother nature ( i.e. environmental extremes ).
- Expect to be rewarded for their failures.
- Do not like being seen as incompetent.
- Seek to be immunized from job termination because they are incompetent & golf course conditions are unacceptable.
- Blame their mental health issues on grass & golfers.
- Allow themselves to succumb to critical incident stress — they struggle with mental health & feel a lot of snowflake stress.
- Demand that treatments for their mental health issues, brought on by their incompetence, be paid for by golf facility owners & golfers.
- State that their worsening mental health issues will render them unable to provide high-quality playing conditions & aesthetics.
- Exploit the threat of suicide as the ultimate snowflake weapon of terror which is being used as an excuse when they shirk their responsibilities as golf superintendents.
- Represent the greatest threats to the main-stream golf industry — overall, « *ACTIVIST-SUPERINTENDENTS* » do not deserve to work in the industry that they betray.

#### Background Information

## CRITICAL ISSUES

They **CANNOT BE TRUSTED**, & they do not represent main-stream golf superintendents.

They are a **THREAT** to the golf industry, & they are **BAD** for golf business.

There is **NO** industry oversight & **NO** regulatory oversight concerning any of the **FALSE-ALLEGATIONS** by « *ACTIVIST-SUPERINTENDENTS* ».

Moreover, « *ORGANIC PESTICIDE-FREE* » is promoted by « *ACTIVIST-SUPERINTENDENTS* » with **UNVERIFIABLE SUCCESS STORIES**.

They needlessly alarm & enrage the public by spreading inaccurate pesticide-hating propaganda & false-information about the golf industry.

In essence, these « *ACTIVIST-SUPERINTENDENTS* » can say whatever they want, & they can **LIE & LIE & LIE & LIE** with impunity.

« *ACTIVIST-SUPERINTENDENTS* » simply **DO NOT** deserve to work in the industry that they betray.

The golf industry should focus on the fact that conventional pest control products are **SCIENTIFICALLY-SAFE** & will **CAUSE NO HARM** since they have been scrutinized & approved by the **HUNDREDS** of expert-scientists at US Environmental Protection Agency ( US EPA ) & Health Canada.

Overall, when they are used properly, there are **NO** harmful irreversible effects to human health & the environment !

#### Background Information

## COURSE OF ACTION

« *ACTIVIST-SUPERINTENDENTS* » must be **DISCREDITED**.

The golf industry must **REFUSE TO ALLOW** « *ACTIVIST-SUPERINTENDENTS* » from participating & speaking at all trade association events.

Furthermore, the golf industry must vigorously embark on a massive public relations campaign to **DISCREDIT** the **THREAT** of « *ACTIVIST-SUPERINTENDENTS* » who employ the mis-leading & destructive term « *ORGANIC PESTICIDE-FREE* ».

Additionally, the golf industry must also establish policies for **EXPELLING** from its trade associations the **THREAT** of golf facilities that use mis-leading & destructive terms like « *ORGANIC PESTICIDE-FREE* » & « *IPM* » in their advertisements & web-sites.

They serve absolutely **NO** useful purpose to the golf industry.

## Activist-Maintenance

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE  
*National Organization Responding Against HIDE that conspire to destroy the Golf industry (NORAHG)*

Background Information

# Doctrines Of Activist-Maintenance

## KEY POINT —

**Activist-Maintenance Contradicts What  
Paying-Golfers Demand ... High-Quality  
Playing Conditions & Aesthetics**

## BACKGROUND INFORMATION —

Background Information

### **ARBITRARY & UNNECESSARY & FAILED DOCTRINES**

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with « *ACTIVIST-MAINTENANCE* ».

They **FALSELY-ALLEGED** that « *ACTIVIST-MAINTENANCE* » & other **FAILED DOCTRINES** will work, & can be used to successfully to manage golf courses.

They allow themselves to become distracted with **ARBITRARY & UNNECESSARY & FAILED DOCTRINES** that **DO NOT WORK**, & have **NO** place in decisions concerning golf course maintenance.

## FAILED DOCTRINES OF ACTIVIST-MAINTENANCE

Here are examples of **FAILED DOCTRINES** of « *ACTIVIST-MAINTENANCE* » that are **#@!!% NONSENSE & DO NOT WORK** —

- Fertilizer Nutrient Reduction — **FAILURE.**
- Go Brown Anti-Cosmetic Golf Maintenance — **FAILURE.**
- Environmental Impact Quotient ( EIQ ) — **FAILURE.**
- Green Alternative Pesticides & Practices — **FAILURES.**
- Integrated Pest Management ( IPM ) — **FAILURE.**
- Organic Pesticide-Free Maintenance — **FAILURE.**
- Pollinator Best Management Practices — **FAILURES.**
- Spot-Spraying To Replace Blanket Application — **FAILURE.**
- Zero-Cultivation & Reduced Core Aeration — **FAILURE.**

Golf courses managed with « *ACTIVIST-MAINTENANCE* » will often **REGRESS** into forms of maintenance practiced 100 years ago.

## CONSEQUENCES

Not surprisingly, golf courses that are managed with « *ACTIVIST-MAINTENANCE* » tend to become victims of the following **FAILURES** —

- Pest-infested & low-quality garbage dump playing surfaces — **FAILURE.**
- Large-scale-death caused by uncontrolled pests — **FAILURE.**
- Bankruptcies & receivership & business destruction — **FAILURE.**

## TERRIBLE LEGACY

This is an example of Rachel Carson inspiring a TERRIBLE LEGACY on her ACOLYTES, « ACTIVIST-SUPERINTENDENTS », who TREACHEROUSLY ATTACK the golf industry with the imposition of ARBITRARY & UNNECESSARY & FAILED DOCTRINES like « ACTIVIST-MAINTENANCE ».

« ACTIVIST-SUPERINTENDENTS » represent the GREATEST THREATS to the main-stream golf industry, & their TREACHEROUS ATTACKS must be STOPPED, forever.

If their DOCTRINES of « ACTIVIST-MAINTENANCE » are not curtailed, only the immensely-wealthy elite-golfers will be able to afford golf courses with HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS.

Also, the golf industry must immediately address more-important CRITICAL ISSUES ... see below.

## CRITICAL ISSUES

« ACTIVIST-SUPERINTENDENTS » are betraying the golf industry in the most insidious ways possible with these ARBITRARY & UNNECESSARY & FAILED DOCTRINES of « ACTIVIST-MAINTENANCE ».

« ACTIVIST-SUPERINTENDENTS » have also adopted the INCORRECT DOCTRINE that conventional [ NO-HARM- ] pest control products are somehow undesirable, & must be eliminated from the golf maintenance program. [?!?!]

Clearly, they know NOTHING about these products.

« ACTIVIST-MAINTENANCE » contradicts what paying-golfers demand ... HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS ACHIEVED BY THICKER, GREENER, PEST-FREE, & MANICURED TURF.

« ACTIVIST-MAINTENANCE » is a TREACHEROUS ATTACK against the golf industry

« ACTIVIST-SUPERINTENDENTS » serve absolutely NO useful purpose to the golf industry.

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

**Arbitrary & Unnecessary & Failed  
Doctrine Of Activist-Maintenance**

**Fertilizers Used To Enhance The  
Golf Course Are Good For Human  
Health & The Environment, &  
Do Not Need To Be Reduced**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

LOATHSOME trade associations operated by « *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's TERRIBLE LEGACY with their TREACHEROUS ATTACKS against the golf industry with the ARBITRARY & UNNECESSARY & FAILED DOCTRINE of « *FERTILIZER NUTRIENT REDUCTION* », which will, perhaps unwittingly, obliterate all golf facilities, by conspiring to PROHIBIT essential, YES ESSENTIAL, fertilizer nutrients.

These trade associations are CLUELESS BEYOND COMPREHENSION.

The golf industry's main-stream superintendents are being HARMED by « *ACTIVIST-EXTREMISTS* » who operate in LOATHSOME & FAILED trade associations, such as —

- Golf Course Superintendents Association of America ( GCSAA ) — LOATHSOME FAILURE.
- National Golf Foundation ( NGF ) — LOATHSOME FAILURE.
- Pace Turf Information Service — LOATHSOME FAILURE.
- United States Golf Association ( USGA ) — LOATHSOME FAILURE.

Golf Course Superintendents Association of America ( GCSAA ) is especially INFAMOUS with its DOCTRINE of « *FERTILIZER NUTRIENT REDUCTION* ».

GCSAA has self-designated itself as the critic against correct & disciplined main-stream golf course superintendents & their management practices.

GCSAA's ARBITRARY & UNNECESSARY & FAILED DOCTRINES will quickly doom the golf industry's superintendents, who will become unable to manage their facilities without essential, YES ESSENTIAL, fertilizer nutrients.

#### Background Information

## CRITICAL ISSUES

Main-stream superintendents must OPPOSE these LOATHSOME & FAILED trade associations that have absolutely NO expertise regarding the assessment of essential fertilizer nutrients.

Without these ESSENTIAL fertilizer nutrients, it will be impossible for main-stream superintendents to provide what paying-golfers demand ... HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS ACHIEVED BY THICKER, GREENER, PEST-FREE, & MANICURED TURF CONDITIONS.

It is WRONG to allege that « *FERTILIZER NUTRIENT REDUCTION* » would be helpful environmentally.

## COURSE OF ACTION

LOATHSOME & FAILED trade associations must **CEASE** conspiring to impose the **ARBITRARY & UNNECESSARY & FAILED DOCTRINE** of « *FERTILIZER NUTRIENT REDUCTION* » which represents a **TREACHEROUS ATTACK** against the golf industry.

They must **STRONGLY ADOPT THE POSITION** that conventional fertilizer nutrients are scientifically-safe & will cause **NO** harm to the environment.

« *FERTILIZER NUTRIENT REDUCTION* » defies over twenty-five years of research — this **DOCTRINE WILL NOT** lead to lower concentrations of fertilizer contaminants in our environment.

Trade associations must also **STOP** choosing anti-fertilizer speakers for their conferences.

They **MUST** address **ALL** of the **CRITICAL ISSUES** facing the golf industry — see link below.

## TERRIBLE LEGACY

This is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her **ACOLYTES**, the **LOATHSOME & FAILED** trade associations, that **TREACHEROUSLY ATTACK** the golf industry with the imposition of « *FERTILIZER NUTRIENT REDUCTION* ».

**LOATHSOME & FAILED** trade associations serve absolutely **NO** useful purpose to the golf industry when imposing this kind of **ARBITRARY & UNNECESSARY & FAILED DOCTRINE**.

**LOATHSOME & FAILED** trade associations represent **SIGNIFICANT THREATS** to the mainstream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

## NITROGEN FERTILIZATION

The **ARBITRARY & UNNECESSARY & FAILED DOCTRINE** of « *FERTILIZER NUTRIENT REDUCTION* » will quickly doom the golf industry's main-stream superintendents, who will become unable to manage their facilities without essential, **YES ESSENTIAL**, fertilizer nutrients, such as nitrogen.

Nitrogen is the most essential nutrient in turfgrass fertilization programs.

Although other nutrients are essential for thick, green, & healthy turf, nitrogen is most definitely used in larger quantities.

Consequently, nitrogen deficiency is very often a limiting factor in turfgrass growth & appearance.

The natural background levels of nitrogen normally present in the soil are insufficient to meet the expectations of superintendents.

For this reason, nitrogen is supplemented through a fertilization program to improve poor quality turfgrass, or to simply maintain it.

The goal of nitrogen fertilization is to augment this nutrient in the soil so that colour, density, & growth are improved.

To achieve this goal, an « *ADEQUATE* » amount of nitrogen must be provided.

The term « *ADEQUATE* » will be fully defined throughout this segment.

Nitrogen is used directly by the plant in either the nitrate and ammonium form.

Each of these forms is soluble in water.

They enter the plant through the roots in solution with water.

Once in the plant, nitrogen is highly « *MOBILE* », which means it will tend to move toward the younger turfgrass leaves.

Consequently, the older leaves are the first to show nitrogen deficiency symptoms, such as premature leaf death, reduced growth, & yellow colour.

The vast majority of nitrogen applied to turf is absorbed by the root system.

This is true even of most nitrogen applications in a liquid form.

From the roots, nitrogen moves through the plant vascular system to various sites of metabolic activity.

The activity of nitrogen in the soil can be complex.

It is affected by — aeration, microbes, moisture, organic matter, pH, temperature, & many other factors.

Although nitrogen influences several metabolic processes in the plant, the most visible effects of nitrogen on turf are shoot and root growth, density, &, of course, green colour.

There are other beneficial effects, such as accelerating recovery from injury, improving resistance to disease and weed invasion, and improving resistance to heat, cold, & drought.

Conversely, nitrogen may have an adverse effect on turf growth if it is applied in surplus quantities.

Adverse effects may include — excessive unwanted growth, poor hardiness to environmental extremes, and increased susceptibility to certain fungal diseases such as brown patch.

Evidently, applying the correct amount and type of nitrogen is sometimes more of an art form than a science.

Sometimes, high levels of nitrogen will need to be used.

Maintenance practices that will necessitate more nitrogen include — clippings removal, high irrigation, & short mowing height.

Golf courses & sports fields are high nitrogen users.

Turf growing in sandy soils & turf worn by high traffic will need more nitrogen.

For every growing month, a certain amount of nitrogen will be required in order to maintain proper health, colour, density, & vigour.

For most turfgrass situations, the yardstick for a maintenance level of nitrogen fertilization is 1.0 pound of available nitrogen per 1000 square feet per growing month ( 0.50 kilogram of available nitrogen per 100 square metres ).

The required quantity of nitrogen for golf course putting greens may be higher, in a range of 1.0 to 1.4 pounds per 1000 square feet per growing month ( 0.50 to 0.70 kilogram per 100 square metres ).

Obviously, the entire quantity is not to be applied all at once.

Overall, there are **NO** effective IPM-style cultural-practices that will economically lower the requirements for nitrogen.

If a golf facility is willing to incur the expenses of renovation, there are selections of turfgrass varieties that can tolerate more moderate levels of nitrogen fertilization.

Overall, the golf industry must develop & publish **MAIN-STREAM TURF MAINTENANCE PROTOCOLS & PERFORMANCE STANDARDS** for fertilizers, based upon **REAL** scientific studies.

Fertilizers used by the golf industry are safe for the environment !

**Arbitrary & Unnecessary & Failed  
Doctrine Of Activist-Maintenance**

**Go-Brown Is Indicative Of Unhealthy  
& Unplayable & Undesirable Golf  
Course Turf That Will Look Like Death**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with the « *GO-BROWN ANTI-COSMETIC GOLF MAINTENANCE* » doctrine.

They allow themselves to become distracted with **ARBITRARY & UNNECESSARY & FAILED DOCTRINES** of « *ACTIVIST-MAINTENANCE* » that **DO NOT WORK**, & have **NO** place in decisions concerning golf course maintenance.

« *GO-BROWN* » is being spear-headed by « *ACTIVIST-EXTREMISTS* » that have infested **LOATHSOME & FAILED** trade associations like the United States Golf Association ( *USGA* ).  
[ ?!?! ]

If they have their way, main-stream golf superintendents will be forced to adopt the **ARBITRARY & UNNECESSARY & FAILED DOCTRINE** of « *GO-BROWN* ».

These **LOATHSOME & FAILED** trade associations are **CLUELESS BEYOND COMPREHENSION**.

Background Information

## CRITICAL ISSUES

This **DOCTRINE** contradicts what paying-golfers demand ... **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS ACHIEVED BY THICKER, GREENER, PEST-FREE, & MANICURED TURF CONDITIONS**.

Golf-hating extremists want « *GO-BROWN* » golf courses that are **#@!!% PEST-INFESTED & LOW-QUALITY GARBAGE DUMP PLAYING SURFACES THAT LOOK LIKE DEATH**.

When it comes to golf, the newly coined phrase « *BROWN IS BEAUTIFUL* » is of serious concern.

« *GO-BROWN* » makes golf courses **LOOK LIKE GARBAGE DUMPS**.

« *GO-BROWN* » actually makes golf courses **LOOK LIKE DEATH**.

« *ACTIVIST-USGA-EXTREMISTS* » falsely-allege that « *GO BROWN* » is better for the environment **[ WRONG ! ]** , requires fewer inputs **[ WRONG ! ]** , saves money **[ WRONG ! ]** , & plays better **[ WRONG ! ]** .

Background Information

## COURSE OF ACTION

The golf industry must oppose the USGA's « *GO-BROWN* ».

Paying-golfers **DO NOT** want to play on brown depressing unplayable courses.

These paying-golfers demand **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS ACHIEVED BY THICKER, GREENER, PEST-FREE, & MANICURED TURF**.

In fact, USGA's « *GO-BROWN* » is indicative of **UNHEALTHY & UNPLAYABLE & UNDESIRABLE TURF THAT LOOKS LIKE DEATH.**

#### Background Information

## TERRIBLE LEGACY

« *GO-BROWN* » is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** with her **ACOLYTES** at **LOATHSOME & FAILED** trade associations like USGA.

The USGA **TREACHEROUSLY ATTACKS** the golf industry with the imposition of this **ARBITRARY & UNNECESSARY & FAILED DOCTRINE.**

In this regard, USGA serves absolutely **NO** useful purpose to the golf industry.

USGA represents a **SIGNIFICANT THREAT** to the main-stream golf industry, & its **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

USGA, & all other trade associations, must **CEASE** focusing on this **ARBITRARY & UNNECESSARY & FAILED DOCTRINE** which represents a **TREACHEROUS ATTACK** against the golf industry.

Furthermore, main-stream superintendents must **STRONGLY ADOPT THE POSITION** that « *GO-BROWN* » will **CAUSE HARM** to the golf industry.

## KEY POINTS —

**Flawed & Misleading & Failed  
Doctrine Of Activist-Maintenance**

**EIQ Is Not A Valid Tool  
To Evaluate Pesticides**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with « *ENVIRONMENTAL IMPACT QUOTIENT* » or « *EIQ* ».

They allow themselves to become distracted with **ARBITRARY & UNNECESSARY & FAILED DOCTRINES** of « *ACTIVIST-MAINTENANCE* » that **DO NOT WORK**, & have **NO** place in decisions concerning golf course maintenance.

The **FLAWED & MISLEADING & FAILED DOCTRINE** of « *EIQ* » must **NEVER** be used as a tool to evaluate [ **NO-HARM-** ] pesticides.

It represents a **TREACHEROUS ATTACK** against the golf industry, because it is part of the conspiracy to **IMPOSE RECKLESS & ARBITRARY PROHIBITION** against conventional **[ NO-HARM- ]** pesticides used by the golf industry.

« **ACTIVIST-CONSULTANTS** » at Cornell University & University of Wisconsin-Madison concocted « **EIQ** » as a **FLAWED & MISLEADING & FAILED DOCTRINE FIELD USE RATINGS** to **MEASURE OF THE RELATIVE IMPACT** of conventional **[ NO-HARM- ]** pest control products on human health & the environment.

The « **ACTIVIST-CONSULTANTS** » who concocted « **EIQ** » are also known to conspire to **IMPOSE RECKLESS & ARBITRARY PROHIBITION** against conventional **[ NO-HARM- ]** pesticides that are desperately needed by the golf industry.

Interestingly, these « **ACTIVIST-CONSULTANTS** » were **PAID-FOR-PROFIT** to consult at **BETHPAGE** State Park Green Golf Course, in New York State, USA, by using a **FLAWED & MISLEADING & FAILED DOCTRINE** of « **EIQ** » **FIELD USE RATINGS** that they were **PAID-FOR-PROFIT** to concoct while imposing their « **ORGANIC PESTICIDE-FREE** » doctrine at **BETHPAGE**.

For example, the « **PESTICIDE-FREE** » version of « **IPM** », supported by **FLAWED & MISLEADING & FAILED DOCTRINE** « **EIQ** », has led to **CATASTROPHIC ECOLOGICAL CARNAGE** at **BETHPAGE** State Park Green Golf Course.

This « **IPM** » **DISASTER** at **BETHPAGE** resulted in the **LARGE-SCALE CATASTROPHIC ECOLOGICAL DISASTER & DEATH** of **ANNUAL BLUEGRASS**.

By « **SELF-PROHIBITING** » conventional **[ NO-HARM- ]** pest control products, **BETHPAGE** was unable to provide **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS**.

« **EIQ** » **RATINGS** are actually **LOWER** for many conventional products than it is for many other mundane household items & « **NATURAL** » pest control product alternatives.

For example, **THE EIQ FOR SOAP IS HIGHER THAN THE EIQ FOR 2,4-D**.

« **EIQ** » is **NOT** a valid tool to evaluate pesticides.

## CRITICAL ISSUES

Golf courses **DO NOT** need additional « *PROTECTION* » with « *EIQ* ».

Human health & the environment are already **PROTECTED** by both Health Canada & US Environmental Protection Agency ( US EPA ).

These national regulatory agencies, & **NOT** the « *ACTIVIST-CONSULTANTS* » who concocted « *EIQ* », have the **ESSENTIAL EXPERTISE & ULTIMATE CREDIBILITY** on pest control products.

These products may only be registered for use after **REAL** expert-scientists at Health Canada & US EPA have confirmed that they **WILL NOT HARM** human health & the environment.

## TERRIBLE LEGACY

This is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her **ACOLYTES**, the « *ACTIVIST-CONSULTANTS* » at Cornell University & University of Wisconsin-Madison who concocted « *EIQ* ».

They have conveniently considered the hundreds of **REAL** expert-scientists of Health Canada & US EPA to be incompetent & / or incapable of arriving at correct scientific conclusions concerning [ **NO-HARM-** ] pesticides.

They **TREACHEROUSLY ATTACK** the golf industry with the imposition of **FLAWED & MISLEADING & FAILED DOCTRINES** like « *EIQ* ».

These « *ACTIVIST-CONSULTANTS* » serve absolutely **NO** useful purpose to the golf industry.

They represent **SIGNIFICANT THREATS** to the main-stream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

Main-stream golf course superintendents **DO NOT** need this « *EIQ* » nonsense.

## RE-ENTRY INTERVALS

Main-stream golf superintendents can use « *RE-ENTRY INTERVALS* » instead of the « *EQ* » nonsense.

« *RE-ENTRY INTERVALS* » are necessary to ensure that any pest control product residues on the treated turfgrass surfaces do not pose an unacceptable risk to human health.

« *RE-ENTRY INTERVALS* » reflect the amount of time required for pest control product levels to dissipate ( either from uptake into the turfgrass plant, or by degradation through natural processes ) to a level that is well below any point of concern.

« *RE-ENTRY INTERVALS* » are established using a science-based approach to predict the amount of dislodgeable foliar residues ( DFR ) & turf transferrable residues ( TTR ) that may be deposited onto the skin from contact with any treated turfgrass surface.

« *RE-ENTRY INTERVALS* » are determined in order to protect people against potential harm from pest control products applied to turfgrasses.

See link below.

Not Provide A Golf Course With High-  
Quality Playing Conditions & Aesthetics**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with **INFERIOR & FAILED** « *GREEN ALTERNATIVE PESTICIDES & PRACTICES* ».

They allow themselves to become distracted with **ARBITRARY & UNNECESSARY & FAILED DOCTRINES** of « *ACTIVIST-MAINTENANCE* » that **DO NOT WORK**, & have **NO** place in decisions concerning golf course maintenance.

There is no such thing as non-toxic & effective alternatives to conventional [ **NO-HARM-** ] pest control products.

According to field experience & anecdotal evidence, as well as university studies, « *GREEN ALTERNATIVE PESTICIDES* » are **NOT** equivalent alternatives & **NOT** safer when compared to conventional [ **NO-HARM-** ] products.

In fact, the products may be **HIGHER-RISK & INEFFECTIVE & INFERIOR & FAILED**, with questionably higher toxicity & with higher environmental risks.

Overall, « *ACTIVIST-SUPERINTENDENTS* » who rely upon « *GREEN ALTERNATIVE PESTICIDES & PRACTICES* » will not be able to provide a golf course with **HIGH-QUALITY PAYING CONDITIONS & AESTHETICS**.

#### Background Information

## EXAMPLES

Here are examples of mostly **INFERIOR & FAILED** « *GREEN ALTERNATIVE PESTICIDES & PRACTICES* » that are used on the golf course —

- Boiling water alternative — Hazardous & ineffective for weed control — **FAILURE**.
- Civitas ecological pesticide — Cannot replace conventional disease control products — **FAILURE**.
- Cleaning golf shoes — Ineffective for weed control — **FAILURE**.
- Compost tea pesticide concoctions — Illegal & ineffective for disease control — **FAILURES**.
- Dew removal — May be partially effective for disease suppression — **FAILURE**.
- Fiesta iron pesticide — May provide weed suppression only — **FAILURE**.
- Greens rolling — May be partially effective for disease suppression.
- Irrigation reduction — May be partially effective for disease suppression.
- Kitchen dish detergent — Ineffective for moss control — **FAILURE**.
- Manual weed-picking — Ineffective for weed control — **FAILURE**.
- Nematodes — Ineffective for biological insect control — **FAILURE**.
- Sulphur pesticide — Illegal & ineffective for disease control — **FAILURE**.

## CRITICAL ISSUES

ALL main-stream golf superintendents must MEET the expectations of golfers by following MAIN-STREAM TURF MAINTENANCE PROTOCOLS & PERFORMANCE STANDARDS for science-based & time-tested & correct methods that are overwhelmingly science-based, time-tested, correct, & disciplined.

These superintendents must not abandon their SCIENCE-BASED & TIME-TESTED & CORRECT maintenance methods in favour of « GREEN ALTERNATIVES & other HIGHER-RISK & INEFFECTIVE & INFERIOR & FAILED DOCTRINES.

In some cases, « GREEN ALTERNATIVE PESTICIDES » may be considered as unsafe as using Agent Orange, DDT, & other banned products.

Many alternatives are NOT federally registered & are NOT proven to be scientifically safe.

In many cases, these alternatives should NOT be allowed anywhere near CHILDREN.

Government regulations, that arbitrarily PROHIBIT conventional products but NOT « GREEN ALTERNATIVE PESTICIDES », will NOT stop the public from realizing that a large quantity of deliberate mis-information is being spread by officials.

Main-stream superintendents DO NOT need additional « PROTECTION » by adopting the nonsense of « GREEN ALTERNATIVE PESTICIDES & PRACTICES ».

These national regulatory agencies, & NOT users of « GREEN ALTERNATIVES », have the ESSENTIAL EXPERTISE & ULTIMATE CREDIBILITY on conventional [ NO-HARM- ] pesticides.

At Health Canada & US EPA, risk assessments are performed by REAL expert-scientists to ensure that these products CAN BE USED SAFELY, & that human health & the environment will be « PROTECTED ».

## TERRIBLE LEGACY

This is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her **ACOLYTES**, the « **ACTIVIST-SUPERINTENDENTS** » who have adopted « **GREEN ALTERNATIVE PESTICIDES & PRACTICES** » that are **HIGHER-RISK & INEFFECTIVE & INFERIOR & FAILED**.

« **ACTIVIST-SUPERINTENDENTS** » serve absolutely **NO** useful purpose to the golf industry.

They **TREACHEROUSLY ATTACK** the golf industry with the use of **INFERIOR & FAILED** « **GREEN ALTERNATIVE PESTICIDES & PRACTICES** ».

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

« **ACTIVIST-SUPERINTENDENTS** » represent the **GREATEST THREATS** to the main-stream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

Main-stream superintendents do not need the nonsense of « **GREEN ALTERNATIVE PESTICIDES & PRACTICES** » that are **HIGHER-RISK & INEFFECTIVE & INFERIOR & FAILED**.

PLEASE GIVE ME A PRODUCT THAT WORKS !

# FAILURE

Green Alternative Pesticides  
& Practices Will Not Be Able  
To Provide A Golf Course  
With High-Quality Playing  
Conditions & Aesthetics

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE  
National Organization Responding Against HUE that conspire to harm the Green space and other natural resources

# FAILURE IPM

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE  
*National Organization Responding Against HIDE that conspire to destroy the Golf industry (NORAHG)*

# Integrated Pest Management ( IPM )

## KEY POINTS —

**Medieval & Ineffective & Failed  
Doctrine Of Activist-Maintenance**

**It Will Be Impossible For Main-Stream Golf  
Superintendents To Provide Paying-Golfers  
With High-Quality Playing Conditions &  
Aesthetics By Relying Upon IPM**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with the **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE** of « *INTEGRATED PEST MANAGEMENT* » or « *IPM* ».

« *IPM* » is **INAPPROPRIATE** for the golf industry, & is **NOT** based on scientific research.

The pesticide-free-version of « *IPM* » will **NOT** control damaging pest populations to an acceptable level.

« *ACTIVIST-SUPERINTENDENTS* » have FALSELY-ALLEGED that « *IPM* » will work, & can be used to successfully to manage golf courses. [?!?!]

They allow themselves to become distracted with ARBITRARY & UNNECESSARY & FAILED DOCTRINES of « *ACTIVIST-MAINTENANCE* » that DO NOT WORK, & have NO place in decisions concerning golf course maintenance.

They falsely-allege that « *IPM* » is strongly ingrained throughout the golf industry. [?!?!]

This is clearly FALSE since « *IPM* » is #@!!% NONSENSE & DOES NOT WORK.

Background Information

## IPM FAILURE AT BETHPAGE

« *ACTIVIST-SUPERINTENDENTS* » have made the HIGHLY-MISTAKEN PREMISE that « *IPM* » will eliminate [NO-HARM-] pest control products from the golf maintenance program. [?!?!]

However, INFAMOUS « *IPM* » golf courses like BETHPAGE State Park Green Golf Course will NEVER become « *PESTICIDE-FREE* ».

Because of the pesticide-free-version « *IPM* », BETHPAGE suffered CATASTROPHIC ECOLOGICAL DISASTER with the LARGE-SCALE-DEATH of ANNUAL BLUEGRASS.

By « *SELF-PROHIBITING* » conventional [NO-HARM-] pest control products, BETHPAGE was UNABLE to provide HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS.

Background Information

## CRITICAL ISSUES

« *IPM* » represents a TREACHEROUS ATTACK against the golf industry, because it is part of the conspiracy to IMPOSE RECKLESS & ARBITRARY PROHIBITION against conventional [NO-HARM-] pesticides that are desperately needed by the golf industry.

« *IPM* » serves absolutely NO useful purpose to the golf industry.

It will be **IMPOSSIBLE** for golf superintendents to provide paying-golfers with **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS** by relying upon the **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE** of « *IPM* ».

Without conventional [**NO-HARM-**] pest control products, golf courses will become **#@!!% PEST-INFESTED & LOW-QUALITY GARBAGE DUMP PLAYING SURFACES THAT LOOK LIKE DEATH**  
...

... unless **STAGGERING & UNLIMITED AMOUNTS OF MONEY** are provided by either government hand-outs or ultra-wealthy club-members.

The golf industry must **OPPOSE** the pesticide-free version of « *IPM* ».

Furthermore, the golf industry must **SUPPORT** its main-stream golf superintendents & their technicians who have trained for hundreds & hundreds of hours on the issue of pesticide application.

These professionals are certified for pesticide use by state, provincial, & local authorities.

Whenever « *IPM* » is adopted, there is no longer a need to employ these professionals — all they need to know how to do is bend over & pull or scoop.

They will be forced to perform back-breaking manual weed-picking, which is **MEDIEVAL & INEFFECTIVE**.

Because of the pesticide-free-version « *IPM* », manual weed-picking will convert these professionals into a labour force of mere weed-pickers who are forced to remove hundreds-of-thousands of weed pests manually.

Clearly, main-stream superintendents **DO NOT NEED** this « *IPM* » **NONSENSE**.

#### Background Information

## COURSE OF ACTION

Main-stream golf courses cannot afford this **#@!!% « *IPM* » NONSENSE !**

« *IPM* » cannot be relied upon to properly maintain golf courses.

In reality, superintendents are expected to follow **MAIN-STREAM TURF MAINTENANCE PROTOCOLS & PERFORMANCE STANDARDS** that are based upon **REAL** scientific research.

Overall, « *IPM* » threatens the golf courses' **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS**.

## TERRIBLE LEGACY

This is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her **ACOLYTES**, the « **ACTIVIST-SUPERINTENDENTS** », who **TREACHEROUSLY ATTACK** the golf industry with their adoption of « **IPM** ».

« **ACTIVIST-SUPERINTENDENTS** » represent the **GREATEST THREATS** to the main-stream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

The golf industry must **VIGOROUSLY EMBARK** on a massive public relations campaign to **DISCREDIT** « **IPM** », declaring it as a **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE**.

Main-stream superintendents **DO NOT NEED** this « **IPM** » **NONSENSE**.

Doctrine Of Activist-Maintenance**

**Organic Pesticide-Free Will Not  
Provide A Golf Course With High-  
Quality Playing Conditions & Aesthetics**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

« ACTIVIST-SUPERINTENDENTS » perpetuate Rachel Carson's TERRIBLE LEGACY with their TREACHEROUS ATTACKS against the golf industry by managing their golf courses with the MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE of « ORGANIC PESTICIDE-FREE ».

According to a surprising confession by a prominent « ACTIVIST-SUPERINTENDENT » —

*Many golf facilities that have tried ORGANICS have GONE-OUT-OF-BUSINESS. [?!?!]*

*We can't just say we are going to be ORGANIC, because there are NO PROVEN METHODS.*

*There is one [GOLF] course in the world that does it [I.E. VINEYARD GOLF CLUB].*

« ACTIVIST-SUPERINTENDENTS » allow themselves to become distracted with ARBITRARY & UNNECESSARY & FAILED DOCTRINES of « ACTIVIST-MAINTENANCE » that DO NOT WORK, & have NO place in decisions concerning golf course maintenance.

Background Information

### CRITICAL ISSUES

« ACTIVIST-SUPERINTENDENTS » FALSELY-ALLEGED that the MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE of « ORGANIC PESTICIDE-FREE » will somehow work, & can be used to successfully to manage golf courses.

They often lie & cheat about their successes with « ORGANIC PESTICIDE-FREE ».

« *ORGANIC PESTICIDE-FREE* » golf courses must often resort to using **FAILED** practices like —

- Killing weeds with boiling water — **FAILURE.**
- Removing moss with kitchen dish detergent — **FAILURE.**
- Manually removing pests with back-breaking & weed-picking labour — **FAILURE.**

They even resort to using conventional [**NO-HARM-**] pest control products ... when it suits them.

They will apply conventional pest control products when paying-golfers are not present on the property, or when the facilities are closed.

« *ACTIVIST-SUPERINTENDENTS* » argue that « *ORGANIC PESTICIDE-FREE* » golf facilities are, somehow, innovative industry leaders. [?!?!]

If they can do it, why can't everybody else ?!?!]

In fact, they **CANNOT** because « *ORGANIC PESTICIDE-FREE* » is a **HUGE OPERATIONAL FAILURE.**

Unfortunately, in all cases examined so far, « *ORGANIC PESTICIDE-FREE* » leads to **CATASTROPHIC ECOLOGICAL DESTRUCTION** with **LARGE-SCALE-DEATH** caused by **UNCONTROLLED PESTS.**

Without conventional pest control products, « *ACTIVIST-SUPERINTENDENTS* » can only provide **#@!!% PEST-INFESTED & LOW-QUALITY GARBAGE DUMP PLAYING SURFACES THAT LOOK LIKE DEATH ...**

... unless **STAGGERING & UNLIMITED AMOUNTS OF MONEY** are provided by either government hand-outs or ultra-wealthy club-members.

## COURSE OF ACTION

The golf industry must **STRONGLY ADOPT THE POSITION** that conventional [ **NO-HARM-** ] pest control products are scientifically-safe & will cause **NO** harm to players, workers, & the environment.

The golf industry must also **ADOPT** the policy that the **ONLY** course of action against **RECKLESS & ARBITRARY PROHIBITION** is **AGGRESSIVE CHALLENGES** through actions like **LITIGATION**.

Court action will never permanently stop golf-hating extremists, but will drain their resources while the golf industry seeks other courses of action.

The golf industry must **ESTABLISH** policies for **EXPELLING** « *ACTIVIST-SUPERINTENDENTS* » from its trade associations for falsely-alleging that the use of [ **NO-HARM-** ] pest control products harm people & / or the environment.

## TERRIBLE LEGACY

This is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her **ACOLYTES**, the « *ACTIVIST-SUPERINTENDENTS* », who **TREACHEROUSLY ATTACK** the golf industry with the imposition of **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE** of « *ORGANIC PESTICIDE-FREE* ».

« *ACTIVIST-SUPERINTENDENTS* » serve absolutely **NO** useful purpose to the golf industry.

They represent the **GREATEST THREATS** to the main-stream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

The main-stream golf industry **DOES NOT NEED** this « *ORGANIC PESTICIDE-FREE* » **NONSENSE**.

# Organic Pesticide-Free Maintenance In America

**Vineyard Golf Club Is The Only Organic  
Pesticide-Free Golf Course In America**

**It Is Impossible For Activist-Superintendents  
To Maintain High-Quality Playing Conditions  
& Aesthetics Unless Staggering & Unlimited  
Funds Are Wasted On Arbitrary &  
Unnecessary & Failed Doctrines**

## ORGANIC FAILURE AT VINEYARD

« *ACTIVIST-SUPERINTENDENTS* » who have operated VINEYARD Golf Club have perpetuated Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by adopting the **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE** of « *ORGANIC PESTICIDE-FREE* ».

VINEYARD Golf Club, in Massachusetts, USA, is the **ONLY** « *ORGANIC PESTICIDE-FREE* » golf course in America.

VINEYARD has **SELF-IMPOSED RECKLESS & ARBITRARY PROHIBITION** against so-called synthetic [ **NO-HARM-** ] pesticides.

This **PROHIBITION** was adopted because of a false-perception about the uncertainty of [ **NO-HARM-** ] pesticides. [ **?!?!** ]

This **SELF-IMPOSED PROHIBITION** was decreed by an ill-informed & possibly corrupt local county commission.

VINEYARD has been forced to adopt a MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE that CANNOT possibly control pests that will DAMAGE PLAYING CONDITIONS & AESTHETICS.

It is clear that VINEYARD utilizes methods that CANNOT possibly control pests.

And this PROHIBITION DOCTRINE is #@!!% NONSENSE, & stunningly huge amounts of funds & resources have been wasted on FAILED practices like —

- Killing weeds with boiling water — FAILURE.
- Removing moss with kitchen dish detergent — FAILURE.
- Manually removing pests with back-breaking & weed-picking labour — FAILURE.

At VINEYARD, there is no longer a need to employ golf course technicians with professional training.

All they need to know how to do is bend over & pull or scoop to manually remove weeds.

In fact, there is NO uncertainty about pesticides, & NO prohibition will ever be necessary.

National regulatory agencies, world-wide, have found that [ NO-HARM- ] pest control products DO NOT present risks of concern to human health or the environment when used according to label directions.

VINEYARD is an ABYSMAL OPERATIONAL FAILURE requiring staggering & unlimited funds to waste on dozens & dozens of employees performing back-breaking weed-picking labour.

The golf industry must DISCREDIT facilities like VINEYARD that embrace the MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE of « ORGANIC PESTICIDE-FREE ».

**At Bethpage State Park Green Golf Course,  
Organic Pesticide-Free Has Been A  
Medieval & Ineffective & Failed Doctrine**

## ORGANIC FAILURE AT BETHPAGE

« *ORGANIC PESTICIDE-FREE* » has been a **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE** at **BETHPAGE** State Park Green Golf Course, in New York State, USA.

There is only one organic golf course in America — & it is **NOT BETHPAGE**.

**BETHPAGE** is definitely **NOT** « *ORGANIC PESTICIDE-FREE* », but rather, it is merely **LESS RELIANT** on pesticides, which means it still uses pesticides with impunity.

When **SELF-IMPOSING RECKLESS & ARBITRARY PROHIBITION** against conventional pest control products, **BETHPAGE** was **UNABLE** to provide **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS**.

**BETHPAGE** suffered **CATASTROPHIC ECOLOGICAL CARNAGE** with the **LARGE-SCALE-DEATH & DESTRUCTION** of **ANNUAL BLUEGRASS**, because of a combination of factors, including —

- The adoption of the pesticide-free-version of « *IPM* » which will not control damaging pests.
- The reckless & arbitrary imposition of prohibition against conventional no-harm-pesticides.
- The prevalence of annual bluegrass that infests the golf course — it is highly-susceptible to pests & disorders.
- The incompetence of « *ACTIVIST-SUPERINTENDENTS* » & « *ACTIVIST-CONSULTANTS* » who operate the golf course.
- The abandonment of main-stream turf maintenance standards that are based upon **REAL** scientific research.
- The reliance on arbitrary & unnecessary & failed doctrine of organic pesticide-free.
- The failure to transition the putting greens from annual bluegrass to creeping bentgrass.
- The promotion of organic pesticide-free using unverifiable & unscientific success stories.
- **NOT** because of [ **NO-HARM-** ] pesticide use for more than 60 years.

Attempts had been made to adapt « *INTEGRATED PEST MANAGEMENT* », or « *IPM* », into a supposedly more progressive [?!?!?!] « *PESTICIDE-FREE* » version — supposedly bringing BETHPAGE one step closer to becoming an « *ORGANIC* » golf course.

Predictably, so-called « *IPM* » golf courses like BETHPAGE will NEVER become « *PESTICIDE-FREE* ».

Not surprisingly, the MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE of « *IPM* » will NEVER control infestations of recurring invasive weeds & destructive insects & harmful diseases.

BETHPAGE has been an ABYSMAL OPERATIONAL FAILURE.

## **Hyde Park Golf Course Was A Resounding Success Because Of The Resumption Of No-Harm-Pesticides**

### Background Information

## **PESTICIDE SUCCESS AT HYDE PARK**

HYDE PARK was saved by [NO-HARM-] pesticides.

Because no one had applied pesticides for a long time, HYDE PARK Golf Course, in Niagara Falls, New York State, USA, was almost lost or immeasurably damaged.

Because of employee conflicts & lack of planning, HYDE PARK unwittingly became a « *PESTICIDE-FREE CATASTROPHE* ».

It became infested with damaging pests that killed turf.

HYDE PARK appeared to be unable or unwilling to provide HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS.

And, no one wanted to play on a #@!!% « *PESTICIDE-FREE* » golf course that was a #@!!% PEST-INFESTED & LOW-QUALITY GARBAGE DUMP PLAYING SURFACES THAT LOOKED LIKE DEATH.

A licensed pesticide applicator was hired, & the golf course was saved by pesticides.

HYDE PARK was a **RESOUNDING SUCCESS** because of the resumption of [ **NO-HARM-** ] pesticides.

# Organic Pesticide-Free Maintenance In Canada

**There Are No Organic Pesticide-  
Free Golf Courses In Canada**

**Canada's Organic Golf Courses Have  
Fallen Into Receivership & Bankruptcy**

## NO ORGANIC IN CANADA

« *ACTIVIST-SUPERINTENDENTS* » in Canada have perpetuated Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by **FALSELY-ALLEGING** that the **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINE** of « *ORGANIC PESTICIDE-FREE MAINTENANCE* » has become a major trend in the golf industry. [?!?!]

This is **RIDICULOUS & WRONG**.

What is the Canadian golf industry's official position statements on « *ORGANIC PESTICIDE-FREE MAINTENANCE* » ? —

- Golf courses have not adopted a policy of no-pesticides.
- Canadian conditions are not conducive for pesticide-free maintenance.
- Acceptable playing conditions can only be achieved through the use of pest control products.
- These products are a necessity due to the requirement for professional turfgrasses grown in difficult climate conditions.

Consequently, there are **NO** « *ORGANIC PESTICIDE-FREE* » golf courses in Canada.

Elsewhere, « *ORGANIC PESTICIDE-FREE* » golf courses adopt **MEDIEVAL & INEFFECTIVE & FAILED DOCTRINES** that **CANNOT** possibly control pests that will **DAMAGE PLAYING CONDITIONS & AESTHETICS**.

« *ORGANIC PESTICIDE-FREE* » golf courses inevitably become victims of the following problems —

- Pest-infested & low-quality garbage dump playing surfaces.
- Large-scale-death caused by uncontrolled pests.
- Bankruptcies & receivership & business failures.

They risk going-out-of-business unless staggering & unlimited amounts of money becomes available from either government hand-outs or immensely-wealthy elite golfers.

« *ORGANIC PESTICIDE-FREE MAINTENANCE* » has been **DOOMED-TO-FAIL**.

#### Background Information

## **FAILED ORGANIC GOLF COURSES IN CANADA**

There have been four, yes only **FOUR**, golf courses that have **PRETENDED** being « *ORGANIC PESTICIDE-FREE* » in Canada —

- Blackburn Meadows Golf Club — **FAILED ORGANIC PESTICIDE-FREE**.
- Brigadoon Golf Course — **FAILED ORGANIC PESTICIDE-FREE**.
- Fiddler's Green Golf Course — **FAILED ORGANIC PESTICIDE-FREE**.
- Granby River Golf Course — **FAILED ORGANIC PESTICIDE-FREE**.

They represented 0.15 per cent of all facilities — there are approximately 2000 main-stream golf courses in Canada.

These **FOUR** are « *ORGANIC* » examples of **ABYSMAL OPERATIONAL FAILURES**.

They are now **CLOSED & GONE**.

They have **GONE-OUT-OF-BUSINESS**, forever.

Except Brigadoon, which no longer **PRETENDS** to be « *PESTICIDE-FREE* ».

They prove, once & for all, that golf courses with « *ORGANIC PESTICIDE-FREE MAINTENANCE* » are **DOOMED-TO-FAIL**.

# FAILURE

## **Bee Protection**

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE  
*National Organization Responding Against HIDE that conspire to destroy the Golf industry (NORAHG)*

# Pollinator Best Management Practices

## KEY POINTS —

**Radical, Ineffective, Harmful,  
Expensive, Time-Consuming, & Failed  
Doctrine Of Activist-Maintenance**

**There Should Be No Bee-Hives  
Allowed On The Golf Course**

**Main-Stream Golf Superintendents  
Are Not Responsible For The  
Problems Of The Bee Industry**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with « *ACTIVIST-MAINTENANCE* ».

They install & maintain **BEE-HIVES OR POLLINATOR GARDENS** on their golf courses, under the guise of adopting the **RADICAL, INEFFECTIVE, HARMFUL, EXPENSIVE, TIME-CONSUMING, & FAILED DOCTRINE** of « *POLLINATOR BEST MANAGEMENT PRACTICES* ».

Main-stream golf superintendents are being coerced & intimidated by the golf industry's « *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » who concoct these practices.

Under the false-pretext, false public perception, & fake-news, « *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » have recklessly & arbitrarily decided that [ *NO-HARM-* ] pest control products are somehow harming bees. [?!?!]

Consequently, they have decided to concoct a never-ending litany of pointless practices like « *POLLINATOR BEST MANAGEMENT PRACTICES* », to no avail.

Main-stream superintendents are **NOT RESPONSIBLE** for the problems of the bee industry, & do not need to follow « *POLLINATOR BEST MANAGEMENT PRACTICES* ».

#### Background Information

## CRITICAL ISSUES

Unfortunately, over-worked & under-paid main-stream golf superintendents are now expected to adopt **RADICAL, INEFFECTIVE, HARMFUL, EXPENSIVE, TIME-CONSUMING, & FAILED** « *POLLINATOR BEST MANAGEMENT PRACTICES* » that will **DO NOTHING** to mitigate the losses of bees by bee-keepers.

However, superintendents **ARE** responsible for satisfying playing customers & their demands for **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS ACHIEVED BY THICKER, GREENER, PEST-FREE, & MANICURED TURF.**

Why are a few bee-keepers losing bees ?!?!]

Because they are **INCOMPETENT.**

Bee-keepers are killing their own hives because they have **NO** idea what they are doing, & are simply **NOT** skilled to raise bees.

Bees are certainly **NOT** being lost because of the golf course use of [ *NO-HARM-* ] pesticides.

Nonetheless, « *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » coerce, intimidate, & terrrize superintendents to arbitrarily reduce pesticides, especially neonicotinoids.

Furthermore, superintendents are also expected to **ATTRACT & PROTECT** bees on their golf courses, according to « *POLLINATOR BEST MANAGEMENT PRACTICES* ».

ATTRACT & PROTECT ?!?!

With the installation of bee-hives ?!?!

Bees are a proven danger to employee-workers as well as playing-customers.

There should be NO BEE-HIVES OR POLLINATOR GARDENS on the golf course.

Main-stem golf superintendents are NOT RESPONSIBLE for the problems of the bee industry.

Besides, bee-hives are NOT NECESSARY, since it is common knowledge that bees are GROWING & THRIVING throughout the bee industry.

#### Background Information

## DANGER TO GOLFERS & WORKERS

Bee-hives on the golf course represent a DANGER for playing-customers & employee-workers.

Bee-hives attract KILLER bees.

The owners of golf facilities should NEVER allow superintendents to install & manage ANY bee-hives on the golf course.

Bee-hives attract bees that can harm, & possibly even KILL, people.

They attract KILLER bees.

What if playing-customers & employee-workers get stung ?!?!

What if they happen to be allergic to bee stings ?!?!

A sting may trigger a dangerous anaphylactic reaction that is potentially deadly.

Stings will also release pheromones that prompt other nearby bees to attack.

The owners of golf facilities will inevitably have their brains' sued out.

There should be NO BEE-HIVES OR POLLINATOR GARDENS on the golf course.

Bees represent a clear & present danger to playing-customers & employee-workers.

## BEES ATTACK GOLF COURSE WORKERS

A swarm of bees **ATTACKED** six workers at Umhlali Country Club & Golf Estate, in South Africa.

The men were mowing a lawn **NEAR A BEE-HIVE**, causing the bees to become **AGITATED**.

A local bee expert had stated that any form of vegetation trimming or mowing grass around bees causes them to **FEEL THREATENED**.

Of the six workers attacked by the swarm, two **NEEDED ADVANCED LIFE-SUPPORT**.

The men were attended to by paramedics before being **TAKEN TO HOSPITAL** for further evaluation.

Bees are a clear & present danger to employee-workers as well as playing-customers.

There should be **NO BEE-HIVES OR POLLINATOR GARDENS** on the golf course.

See link below.

## COURSE OF ACTION

« *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » must **STOP** coercing, intimidating, & terrxrizing main-steam golf superintendents.

Nonetheless, main-steam superintendents may still be required to **ATTRACT & PROTECT** bees, according to « *POLLINATOR BEST MANAGEMENT PRACTICES* ».

This does not seem fair in view of the fact that there is **NO** proof of harm to bees by golf course products, especially **[ NO-HARM- ]** neonicotinoids.

There is **NO** bee crisis because of golf courses !

In fact, there is **NO** bee crisis ... period !

Again, main-steam golf superintendents are **NOT RESPONSIBLE** for the problems of the bee industry.

Furthermore, the bees are actually **GROWING & THRIVING** — see links below.

Unfortunately, there IS a bee crisis because of bee-hives that attract bees that can harm, & possibly even kill, employee-workers & playing-customers.

There should be **NO BEE-HIVES OR POLLINATOR GARDENS** on the golf course.

#### Background Information

## CRITICAL ISSUES

Main-stream golf superintendents are **NOT** responsible for the problems of the bee industry.

Under the circumstances, why aren't researchers & educators defending the golf industry ?!?!

Because they have become « *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* ».

There is **NO** proof of harm to bees by golf course products, especially [ **NO-HARM-** ] neonicotinoids.

Why is the golf industry paying these guys who, for all intents & purposes, concoct anti-golf **DOCTRINES** that are **RADICAL, INEFFECTIVE, HARMFUL, EXPENSIVE, TIME-CONSUMING & FAILED.**

« *POLLINATOR BEST MANAGEMENT PRACTICES* » recommended by « *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » will **DO NOTHING** to mitigate the losses of bees by bee-keepers.

If these guys continue to remain silent about defending the golf industry ... then, to blazes with them !

« *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » serve **US** — **WE** are not **THEIR** servants.

There should be more stringent industry oversight over their bloated travel budgets, their lavish life-styles, their mindless research, & their damaging recommendations.

« *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » must STOP wasting everyone's time on the **RADICAL, INEFFECTIVE, HARMFUL, EXPENSIVE, TIME-CONSUMING, & FAILED DOCTRINE** of « *POLLINATOR BEST MANAGEMENT PRACTICES* ».

They must invalidate the false public perception that [ ~~NO-HARM-~~ ] pest control products are somehow harming bees.

They must state that reducing the use for fungicides, herbicides, & insecticides will have absolutely **NO** effect on bees — including neonicotinoids.

Background Information

## TERRIBLE LEGACY

« *POLLINATOR BEST MANAGEMENT PRACTICES* » is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her ACOLYTES, the « *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* », who **TREACHEROUSLY ATTACK** the golf industry with their concoction of **RADICAL, INEFFECTIVE, HARMFUL, EXPENSIVE, TIME-CONSUMING, & FAILED DOCTRINES**.

« *ACTIVIST-RESEARCHERS* » & « *ACTIVIST-EDUCATORS* » represent **SIGNIFICANT THREATS** to the main-stream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

# Spot-Spraying To Replace Blanket Application

## KEY POINTS —

**Inapplicable & Ineffective & Failed  
Doctrine Of Activist-Maintenance**

**Activists-Superintendents Adopt Spot-  
Spraying As A Means Of Falsely-  
Persuading Paying-Golfers That Blanket  
Applications Are Somehow Less Safe**

## BACKGROUND INFORMATION —

Background Information

### **FAILED DOCTRINE OF ACTIVIST-MAINTENANCE**

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with the **INAPPLICABLE & INEFFECTIVE & FAILED DOCTRINE** of « *SPOT-SPRAYING* » a.k.a. « *SPOT-TREATMENT* ».

« *ACTIVIST-SUPERINTENDENTS* » tend to know **NOTHING** about pest control, & promote bad recommendations regarding « *SPOT-SPRAYING* ».

They allow themselves to become distracted with **ARBITRARY & UNNECESSARY & FAILED DOCTRINES** of « *ACTIVIST-MAINTENANCE* » that **DO NOT WORK**, & have **NO** place in decisions concerning golf course maintenance.

« *ACTIVIST-SUPERINTENDENTS* » publicly exploit the term « *SPOT-SPRAYING* » as a means of persuading everyone that their maintenance doctrines are somehow safer than the main-stream golf industry. [?!?!]

The use of the term « *SPOT-SPRAYING* » also implies that the use of conventional pest control products is somehow harmful — which is **FALSE** !

Any use of the term « *SPOT-SPRAYING* » is **EXTREMELY HARMFUL** to the main-stream golf industry.

The term « *SPOT-SPRAYING* » is used as pesticide-hating propaganda that is simply designed to alarm & enrage the public, & that attempts to validate the **LIE & the MYTH** that **BLANKET APPLICATIONS** of conventional pest control products are somehow harmful to the environment. [?!?!]

The terms « *SPOT-SPRAYING* » or « *SPOT-TREATMENT* » are defined as applications that are confined to small areas such as individual weeds or small patches of weeds & plants.

« *SPOT-SPRAYING* » is used where **INVASIVE WEEDS** have not entirely covered the entire turfgrass surface.

However, « *SPOT-SPRAYING* » is an **INAPPLICABLE & INEFFECTIVE & FAILED DOCTRINE** for the control of **HARMFUL DISEASES** of turf, especially on the golf course, where **BLANKET APPLICATIONS** are absolutely necessary.

Small areas of visible disease symptoms is indicative of wide-spread infection, which demands **BLANKET APPLICATIONS** of fungicide at the highest recommended rate.

The primary responsibility of main-stream golf superintendents is **NOT** « *SPOT-SPRAYING* » — it is to ensure that the paying-golfer is provided with **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS**.

Background Information

## CRITICAL ISSUES

« *ACTIVIST-SUPERINTENDENTS* » who operate with « *SPOT-SPRAYING* » for the control of turfgrass pests are doing a **DISSERVICE** to the paying-golfers who demand **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS**.

The main-stream golf industry **DOES NOT NEED** this « *SPOT-SPRAYING* » **NONSENSE**.

Background Information

## TERRIBLE LEGACY

« *SPOT-SPRAYING* » is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her **ACOLYTES**, the « *ACTIVIST-SUPERINTENDENTS* », who **TREACHEROUSLY ATTACK** the golf industry with the imposition of this **INAPPLICABLE & INEFFECTIVE & FAILED DOCTRINE**.

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

« *ACTIVIST-SUPERINTENDENTS* » represent the **GREATEST THREATS** to the main-stream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

# Zero-Cultivation & Reduced Core Aeration

## KEY POINT —

**Destructive & Costly & Failed  
Doctrines Of Activist-Maintenance**

**Activist-Superintendents Must Stop  
Using Zero-Cultivation To Ensure That  
Paying-Golfers Will Be Satisfied With High-  
Quality Playing Conditions & Aesthetics**

## BACKGROUND INFORMATION —

Background Information

### FAILED DOCTRINE OF ACTIVIST-MAINTENANCE

« *ACTIVIST-SUPERINTENDENTS* » perpetuate Rachel Carson's **TERRIBLE LEGACY** with their **TREACHEROUS ATTACKS** against the golf industry by managing their golf courses with the **DESTRUCTIVE & COSTLY & FAILED DOCTRINES** of « *ZERO-CULTIVATION* » ( a.k.a. no-soil-aeration ) & « *REDUCED CORE AERATION* » ( i.e. reduced soil core removal ).

« *ZERO-CULTIVATION* » & « *REDUCED CORE AERATION* » **DO NOT WORK**, & have **NO** place in decisions concerning golf course maintenance.

By adopting « *ZERO-CULTIVATION* » & « *REDUCED CORE AERATION* », observers question the « *ACTIVIST-SUPERINTENDENTS'* » ability to provide what paying-customers demand

... HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS ACHIEVED BY THICKER, GREENER, PEST-FREE, & MANICURED TURF.

Why do they choose to ignore the OVERWHELMING BENEFITS of CONVENTIONAL TURF CULTIVATION ?!?!

What possible benefit can be touted by « *ACTIVIST-SUPERINTENDENTS* » for unilaterally stopping CONVENTIONAL TURF CULTIVATION ?!?!

« *ACTIVIST-SUPERINTENDENTS* » must STOP « *ZERO-CULTIVATION* », & adopt a MASTER PLAN for CONVENTIONAL TURF CULTIVATION.

Golf superintendents « *ZERO-CULTIVATION* » must be STOPPED , forever.

#### Background Information

## BENEFITS OF TURF CULTIVATION

CONVENTIONAL TURF CULTIVATION ( i.e. soil aeration ) is the SOLUTION to many DESTRUCTIVE & COSTLY PROBLEMS —

- Compaction in the soil alleviated — BENEFICIAL.
- Water infiltration is improved — BENEFICIAL.
- Thatch decomposition is increased & wide-spread thatch problems are avoided — BENEFICIAL.
- Carbon dioxide toxin is better released from the soil — BENEFICIAL.
- Disease resistance of turf is improved — BENEFICIAL.
- Fertilizer applied to the soil is more effectively placed — BENEFICIAL.
- Heat & drought stress resistance of turf is improved — BENEFICIAL.
- Organic matter in the soil is removed — BENEFICIAL.
- Oxygen absorption in the soil is improved — BENEFICIAL.
- Oxygen movement in the soil is also improved — BENEFICIAL.
- Root system is deeper, healthier, & revitalized — BENEFICIAL.

- Seed germination is improved for over-seeded turf — BENEFICIAL.
- Soil is loosened & easier for roots to penetrate — BENEFICIAL.

Background Information

## CRITICAL ISSUES

The golf industry must **STOP** « *ZERO-CULTIVATION* » & « *REDUCED CORE AERATION* », forever.

Those golf courses where these doctrines of have been adopted will tend to have poor turf & lower-quality playing conditions.

The primary responsibility of main-stream golf superintendents is to ensure that the paying-golfer is provided with **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS**, which will be thwarted by « *ZERO-CULTIVATION* » & « *REDUCED CORE AERATION* ».

Background Information

## COURSE OF ACTION ?

Should the adoption of these **DESTRUCTIVE & COSTLY & FAILED DOCTRINES** become grounds for terminating a golf superintendent ?!?!

In order to deter their mis-guided activism & incompetence, perhaps the **MASTER PLAN** for **CONVENTIONAL TURF CULTIVATION** should be written into superintendents' contracts.

This will ensure that « *ACTIVIST-SUPERINTENDENTS* » will **STOP** « *ZERO-CULTIVATION* » & « *REDUCED CORE AERATION* », ensuring that paying-golfers will be satisfied with **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS**.

No excuses. End of discussion.

**CONVENTIONAL TURF CULTIVATION** ( i.e. soil aeration ) **MUST** be performed, regularly.

Even better, perhaps « *ACTIVIST-SUPERINTENDENTS* » who have adopted the **DESTRUCTIVE & COSTLY & FAILED DOCTRINE** of « *ZERO-CULTIVATION* » should not be considered for employment.

Maybe ?!?!

The main-stream golf industry must **STOP** « *ZERO-CULTIVATION* » & « *REDUCED CORE AERATION* »», forever.

Background Information

## MASTER PLAN

Here is a proposed **MASTER PLAN** for **CONVENTIONAL TURF CULTIVATION** —

For example, on golf course putting greens — « *CORE AERATION* » ( i.e. soil core removal ) must be performed by the superintendent once for every 10,000 rounds of play.

Beyond 25,000 rounds, non-core cultivation methods ( a.k.a. venting aeration ), such as solid-tine, must be used in the overall **TURF CULTIVATION** program throughout the summer months.

For aeration operations on golf course putting greens, it is recommended that 20 per cent of surface area be removed every year.

With the optional Quad Tine Holder, the Jacobsen GA-24 Greens Aerator can achieve a 1 x 1 inch hole pattern & pull more material during two « *CORE AERATIONS* » than competitor products can pull in three.

With this Quad Tine Holder, 11.9 per cent of material can be removed in two passes.

By comparison, the Toro ProCore 648 will require 3 passes to achieve the same result since it will only remove 6.55 per cent with its 1.5-inch x 2.0-inch spacing.

The larger hole size — & closer spacing between holes — the better.

Changing from a 0.25-inch tine to a 0.50-inch tine will increase the surface area impacted by four times.

Using a 0.625-inch tine versus a 0.50-inch tine increases, the surface area impacted by approximately 50 per cent.

## TERRIBLE LEGACY

This is an example of Rachel Carson inspiring a **TERRIBLE LEGACY** on her **ACOLYTES**, « **ACTIVIST-SUPERINTENDENTS** », who **TREACHEROUSLY ATTACK** the golf industry with the imposition of a **DESTRUCTIVE & COSTLY & FAILED DOCTRINES** like « **ZERO-CULTIVATION** » & « **REDUCED CORE AERATION** ».

« **ACTIVIST-SUPERINTENDENTS** » represent the **GREATEST THREATS** to the main-stream golf industry, & their **TREACHEROUS ATTACKS** must be **STOPPED**, forever.

In order to successfully deter all **TREACHEROUS ATTACKS** against the golf industry, several **CRITICAL ISSUES** must immediately be addressed — see link below.

The main-stream golf industry must **STOP** « **ZERO-CULTIVATION** » & « **REDUCED CORE AERATION** », & must adopt a **MASTER PLAN** for **CONVENTIONAL TURF CULTIVATION**.

# The Greatest Mass-Killers In Modern History

## Rachel Carson & Her Followers

They are the greatest mass-killers in modern history. Since 1972, Carson's followers implemented policies that influenced reckless & arbitrary world-wide prohibitions against the use of DDT, resulting in millions of deaths by malaria. Carson's acts of subversion have served as the inspiration for these enviro-extremists ( her followers ).

Carson Mass-Killings — 30 To 50 Million Dead

## Mao Zedong

People's Republic Of China. One of the greatest mass-killers in modern history. Mass-murders & policies leading to famine & millions of deaths. 1949 - 1975.

Mao Mass-Killings — Up To 76 Million Dead

## Adolf Hitler

Third Reich Of Nazi Germany. One of the greatest mass-killers in modern history. Mass-murders by systematic genocide leading to millions of deaths. 1937 - 1945.

Hitler Mass-Killings — 9 To 15 Million Dead

## Joseph Stalin

Regime In The Soviet Union. One of the greatest mass-killers in modern history. State-sanctioned mass-murders leading to millions of deaths. 1924 - 1953.

Stalin Mass-Killings — 20 Million Dead

# Main-Stream Maintenance

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE  
*National Organization Responding Against HUIE that conspire to destroy the Golf industry (NORAHG)*

# Main-Stream Golf Course Maintenance

## KEY POINT —

**The Main-Stream Golf Industry Will Be Successful When Following Main-Stream Golf Course Maintenance Protocols & Performance Standards**

## BACKGROUND INFORMATION —

Background Information

### SUCCESSFUL MAIN-STREAM MAINTENANCE

The main-stream golf industry **DOES NOT** need this nonsense of **ARBITRARY & UNNECESSARY & FAILED DOCTRINES** of « *ACTIVIST-MAINTENANCE* » by « *ACTIVIST-SUPERINTENDENTS* ».

This industry **DOES** need to satisfy paying-customers who want golf courses with **HIGH-QUALITY PLAYING CONDITIONS & AESTHETICS ACHIEVED BY THICKER, GREENER, PEST-FREE, & MANICURED TURF.**

The main-stream golf industry **WILL** be **SUCCESSFUL** when following **MAIN-STREAM GOLF COURSE MAINTENANCE PROTOCOLS & PERFORMANCE STANDARDS** for science-based & time-tested & correct methods that are overwhelmingly science-based, time-tested, correct, & disciplined — see links below.

There are **NO** worries & **NO** uncertainties with pest control products.

The main-stream golf industry **MUST** focus on the fact that conventional pest control products are **SCIENTIFICALLY-SAFE** & will **CAUSE NO HARM** since they have been scrutinized & approved by the **HUNDREDS** of expert-scientists at US Environmental Protection Agency ( US EPA ) & Health Canada.

These & other national regulatory agencies, world-wide, have found that pest control products **DO NOT** present risks of concern to human health or the environment when correctly used according to label directions.

Overall, when they are used properly, there are **NO** harmful irreversible effects to human health & the environment !

# Norah GFON

The terrible legacy of Rachel  
Carson must come to an end

FORCE OF NATURE | DARING TO DEFEY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE  
National Organization Responding Against HOPE that conspire to destroy Mother Nature | [www.norahgfong.com](http://www.norahgfong.com)

## We Speak The Whole Truth From An Independent Perspective

We are the **NATIONAL ORGANIZATION RESPONDING AGAINST HUJE** that conspire to destroy the **GREEN** space & other industries ( **NORAHG** ). As a non-profit & independent organization, we are environmentalists who are dedicated to reporting about truth-challenged subversive-fanatics ( **HUJE** ) who conspire to destroy businesses that are dependent on the use of safe & effective conventional pest control products. We also report on the work of several highly-rated leading experts who have recognized expertise, training, & background in matters concerning pest control products, & who promote environmental realism & pesticide truths. <https://wp.me/p1jq40-8DV>

**NORAHG** also produces **FORCE OF NATURE**, which dares to defy the pesticide-hating fanatics by exploring the whole truth from an independent perspective on **THE PESTICIDE TRUTHS WEB-SITE** ... <http://pesticidetruths.com/>

**NORAHG** produces **FORCE OF NATURE**, a series of reports & blogs providing **UP-TO-DATE KNOWLEDGE** on issues such as — • bee conspiracies • carnage created by catastrophic anti-pesticide prohibition • complaint channels about the anti-pesticide activists, enemies lists in the 9|11 era of anti-pesticide terrorism • financial carnage & the exorbitant cost of pesticide bans • treacherous golf industry attacks • myths about banning pesticides • pesticide bans are a farce.

**FORCE OF NATURE** is a series destined for the green space industry, nation-wide across Canada, the United States, & overseas, & can be found on **THE PESTICIDE TRUTHS WEB-SITE** ... <http://pesticidetruths.com/>

**FORCE OF NATURE** is a series committed to **SOUND SCIENCE**, as well as ground-breaking original **KNOWLEDGE** that informs, entertains, & creates real change.

**FORCE OF NATURE**, & its various incarnations, was the brain-child of Mr William H Gathercole ( now retired ) & his colleagues.

**ALL KNOWLEDGE**, excerpts, & pictures contained in **FORCE OF NATURE** were retrieved from the Internet, & may be considered in the public domain.

All products mentioned in **FORCE OF NATURE** should be used in accordance with the manufacturer's directions, & according to provincial, state, or federal law.

For the official advantages, benefits, features, precautions, & restrictions concerning any product, the turf manager must rely only on the information furnished by the manufacturer.

The mention of trade names does not constitute a guarantee or a warranty.

### Here Is A Brief Summary Of Mr Gathercole's Astonishing Career

**FIELDS OF UNIVERSITY STUDY** — • Crop, Horticulture, & Turfgrass Sciences • Mathematics & Physics.

**ALMA MATERS** — • McGill University • University of Guelph • the first person ever to obtain bachelors of science degrees & contribute directly to both the professional lawn care & golf maintenance industries.

**EXPERTISE** — • turf & ornamental maintenance & troubleshooting • history of the green space industry • sales & distribution of seeds, chemicals, fertilizers, & equipment • fertilizer manufacturing & distribution • environmental issues & pesticide-hating fanaticism.

**NOTABLE ACTIVITIES** — • worked in virtually all aspects of the green space industry, including golf maintenance, professional lawn care, tree & shrub care, distribution, environmental compliance, government negotiations, public affairs, & workplace safety • the supervisor, consultant, & programmer for the successful execution of hundreds-of-thousands of management operations in the golf course & urban landscape, as well as millions of pest control applications • the advisor, instructor, & trainer for thousands of turf & ornamental managers & technicians • the pesticide certification instructor for thousands of industry workers • a founder of the modern professional lawn care industry • the prolific writer for industry publications, reports, & blogs • the first to confirm the invasion of European Chafer insects in both the Montreal region & the Vancouver / Fraser Valley region • with Dr Peter Dernoeden, the first to confirm the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr David Shetlar, the first to confirm the presence of Kentucky Bluegrass Scale as an insect pest in south-western Ontario, & later, in the Montreal & Vancouver regions.

**SPECIAL CONTRIBUTIONS** — • the creator of the **PESTICIDE BAN EXCEPTION STATUS** that allowed the golf industry to avoid being subjected to anti-pesticide prohibition for a generation & more • the creator of the signs that are now used for posting after application • the co-founder of annual winter convention for Quebec golf course superintendents • the founder of the first ever Turf Summit with guest Dr Jack L Eggens <https://wp.me/p1jq40-7dT> • the major influence in the decision by Canadian Cancer Society to stop selling-for-profit fresh pesticide-treated daffodils <https://wp.me/P1jq40-1OW> • the only true reliable witness of the events of anti-pesticide prohibition in the town of Hudson, Quebec <https://wp.me/p1jq40-asu> • the founder ( now retired ) of the **FORCE OF NATURE** series of reports & blogs.

**NOTABLE AWARD** — • the first man-of-the-year for contributions leading to the successful founding of the Quebec professional lawn care trade association, which served as a beach-head against anti-pesticide activists in the 1980s & 1990s.

**LEGACIES** — Mr Gathercole & his colleagues ... • designed & implemented strategies that reined anti-pesticide activists & provided peace & prosperity for the entire modern green space industry for a generation • orchestrated legal action against anti-pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in the nation • quadrupled the business revenues of one of the largest suppliers in the nation.

Mr Gathercole is now retired, although his name continues to appear as the founder of the **FORCE OF NATURE** series of reports & blogs.

We are the **NATIONAL ORGANIZATION RESPONDING AGAINST HUE** that conspire to destroy the **GREEN** space & other industries ( **NORAHG** ).

We dare to defy by exploring the whole truth from an independent perspective on **THE PESTICIDE TRUTHS** **WEB-SITE** ... <http://pesticidetruths.com/>

If you wish to receive free reports & blogs on issues that concern you, please contact us at ... [force.of.de.nature@gmail.com](mailto:force.of.de.nature@gmail.com) WILLIAM H GATHERCOLE AND NORAH G
