

What follows is an example of the CARNAGE inflicted by Environmental-Terrorist attacks against the Green Space Industry

### Carnage Caused by Environmental–Maniac Lies

### THERE ARE NO VALID ECONOMICAL ALTERNATIVES TO CONVENTIONAL PEST CONTROL PRODUCTS!

what they were talking about.

On April 22<sup>nd</sup>, 2009, Ontario legislated a NEEDLESS, SENSELESS, and MALICIOUS prohibition against « cosmetic

Spaces are over-run by invasive weeds, and LOOK LIKE GARBAGE DUMPS!

There are serious issues with the Ontario Minister of the Environment, John Gerretsen, who has been indiscreet with his close public ties with Enviro-Maniac-Activists, raising the question about the radical interests of the subble pest control products.

its limited financial resources on fertilizers.

### CARNAGE CAUSED BY ENVIRONMENTAL-TERROR IN ONTARIO WILL NEVER END.

The Horrendous Carnage of Province–Wide Loss of Revenues in Ontario

Care Industry will attain an ANNUAL DOWNFALL of 500,000,000 DOLLARS.

### Overview from an Independent Perspective

The Horrendous Carnage of Customer Losses in the Province of Ontario, Canada

By early summer 2009, Professional Lawn Care customers were OBLITERATED BY AT-LEAST-TWENTY-FIVE-PER-CENT!

By autumn 2009, up to FORTY-TO-SEVENTY-PER-CENT were ANNIHILATED!

The Horrendous Carnage of Unemployment in Ontario

By late 2009, OVER 5,000 HAPLESS VICTIMS were UNEMPLOYED (full time employees and summer students).

Eventually, a total of 8,300 to 12,500 will be UNEMPLOYED.

The Horrendous Carnage of Business Failures in Ontario

Several dozen companies exited the market by late 2009.

Eventually, SEVEN HUNDRED AND EIGHTY BUSINESSES will FAIL or suffer BANKRUPTCY within thirty-six months after prohibition.

Other Consequences of Prohibition in Ontario

The Green Space Industry has outlined the list of CHARGES OF FRAUD AND CONSPIRACY against the Government of Ontario, as well as individual Enviro-Maniac members of Environmental-Terror-Organizations.

A consensus is building among members of lawn care franchise companies seeking damages with a class-action lawsuit against any parent-company that did not adequately oppose or prepare for prohibition.

Enviro-Maniacs Do Not Know What They Are Talking About !

It is abundantly evident, and not surprising, that NOT A SINGLE Environmental-Maniac-Activist has ANY recognized expertise, training or background in matters concerning pest control products or the management of Green Spaces!

The opinions of Enviro-Maniac-Activists in matters concerning turf management and weed control are TOTALLY VALUELESS and UTTERLY WORTHLESS.

There are fifteen principal Environmental–Terror–Organizations that operate in the Province of Ontario — • Canadian Association of Physicians for the Environment (C.A.P.E.) • Canadian Cancer Society (C.C.S.) • Canadian Environmental Law Association (C.E.L.A.) • Children's Hospital of Eastern Ontario. (C.H.E.O.) • David Suzuki Foundation • Ecojustice Canada • Environmental Defence • Ontario Medical Association (O.M.A.) — Pediatrics Section • Ontario Public Health Association (O.P.H.A.) • Organic Landscape Alliance (O.L.A.) • Coalition For Pesticide Reform Ontario • Prevent Cancer Now • Registered Nurses' Association of Ontario (R.N.A.O.) • The Learning Disabilities Association of Canada (L.D.A.C.) • The Ontario College Of Family Physicians (O.C.F.P.).

Stopping the Carnage Caused by Malicious and Incompetent Enviro-Maniacs

In January 2010, the Green Space Industry outlined the list of charges against the McGuinty-Ontario-Enviro-Terror-Regime and the Ministry of the Environment. Additionally, individual Enviro-Maniac members of Environmental-Terror-Organizations are also facing fraud charges under the Canadian Criminal Code. The legal challenge is being organized by Jeffrey Lowes and M-REP Communications.

Pesticide ban gives weeds the advantage in lawn battle

days. The Guelph resident said she got a late start on this year's weeding, but lately spends as many as four hours a day carefully digging dandelions out of her yard.

According to [Enviro-Maniac] Christie —

<< We're really battling it this year. >>

# Professional Lawn Care Companies LOSE at least THIRTY-PER-CENT of their business when prohibition first comes into effect

An early bout of warm weather, and a province-wide pesticide ban, mean lawns, parks, and fields across the city are teeming with dandelions.

The City of Guelph banned landscaping companies from using pesticides two years ago.

Last year, the bylaw was set to extend to all residents when it was superseded by a provincial ban on all cosmetic pesticide use.

Marty Kendall said his family's lawn care company LOST 30 per cent of its business when the city bylaw first came into effect two years ago.

Without pesticides, Kendall thinks residents like the [ Enviro-Maniac ] Christies are FIGHTING A LOSING BATTLE.

According to Kendall —

<< Lawns are a competition for space, so if you don't take the weeds out, the weeds will win the war. >>

And the only way to take those weeds out for good is with pesticides, Kendall added.

## The only way to control weeds is with pest control products

[ Enviro-Maniac ] Karen McKeown, the city's healthy landscapes technician, said she understands that many residents still struggle to find alternatives to pesticides for their lawns. [ There are NO alternatives! ]

According to [Enviro-Maniac] McKeown —

<< A lot of people are concerned about their weeds. Especially at this time of year when you see all the dandelions, they're a little frustrated about how to get all of them without being able to use pesticides. >>

### BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE -

Karen McKeown comes from a family associated with Environmental–Terror–Organizations. Allan McKeown is C.E.O. of Sarnia–Lambton Green Party, and was a Candidate for Green Party of Ontario. David McKeown is Medical Officer for Toronto Public Health. Both organizations have conspired to seek the NEEDLESS, SENSELESS, and MALICIOUS prohibition of pest control products. David McKeown has also served on the Environment Program Committee of Laidlaw Foundation, which finances Environmental–Terror–Organizations.

But [Enviro-Maniac] Karen McKeown insists it is possible to prevent the weeds from spreading without using chemicals. [?!?!] Her department provides home visits to assess residents' lawns and offer nonchemical suggestions. Last year, city staff visited 500 houses, and McKeown said the service is already booked up for this month.

# It is NOT POSSIBLE to control weeds without the use of pest control products

But Murray Cameron, the city's Manager of Parkland and Greenways admits that's probably not enough to keep the weeds in check.

According to Cameron —

<< It's not really possible to control them. You can cut them one day, and you take the flower top off, they will literally grow overnight and the next thing you know the flower has come up and you've got another bloom showing. We do our best, but in some ways, it's the new esthetic. You have to get used to weeds. >>

The city puts most of its lawn care resources into sports fields, which are regularly aerated and seeded in addition to the usual lawn mowing. But when it comes to parks, Cameron said, the weeds are something people are just going to have to accept.

The weeds are something people are being coerced to accept with NEEDLESS, SENSELESS, and MALICIOUS prohibition

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDU-LENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRA-CIES that are DESIGNED to SCAM and DECEIVE the public into believing that families are in some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANK-RUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
