

By Early 2012 ...

- Park District of Highland Park CONCLUDED that Organic and Pesticide—Free Maintenance of its sports fields was a DISMAL FAILURE.
- The MANUAL WEED PICKING program was deemed TOTALLY INEFFECTIVE.
- In order to rid the sports fields of weeds by using Manual Weed Picking, Highland Park observed that you would NEED AN ARMY and concluded that « we don't think that's a solution ».
- Highland Park needed to RESCUE THE WEED— RIDDEN SPORTS FIELDS from Organic and Pesticide— Free Maintenance FAILURES.
- Three major sports fields were OVER-RUN with MORE THAN 60 PER CENT WEED INVASION.
- The Non-Expert Anti-Pesticide Activists, like the LUNATIC-CLOWNS from Beyond Pesticides, who recommended Organic and Pesticide-Free Maintenance, KNEW NOTHING and were UTTERLY INCOMPETENT.
- Pest control products used in the Urban Landscape are GOVERNMENT—APPROVED, FEDERALLY—LEGAL, SCIENTIFICALLY—SAFE, and PRACTICALLY—NON— TOXIC ... these products DID NOT need to be PRO-HIBITED.

Overview from an Independent Perspective

In the summer of 2011, Park District of Highland Park, in the State of Illinois, had planned to apply a weed control product on public green spaces.

COERCION and INTIMIDATION from Anti-Pesticide Activists resulted in a temporary postponement.

Anti-Pesticide Activists FALSELY AL-LEGED to Highland Park Officials pest control products are somehow associated with certain health issues.

They also CONCOCTED THE STORY that pest control products somehow enter lakes and rivers through surface runoff and storm sewers.

They also ERRONEOUSLY ALLEGED that Pesticide–Free maintenance is successful for adequate turf conditions — when in fact, Pesticide–Free is a DISMAL FAILURE.

What Is Highland Park?

Highland Park is one of several municipalities located on the North Shore of the Chicago Metropolitan Area.

Highland Park is a relatively affluent suburb of Chicago, located 40 kilometres north of Chicago on the shore of Lake Michigan, in the State of Illinois.

The population is over 33,000.

Highland Park is considered a Democratic stronghold, which explains the small CONSPIRACY within this community to PROHIBIT pest control products used in the Urban Landscape.

Local Anti-Pesticide Activists ALLEGED that the community was somehow shown overwhelming support for organic lawn care.

This was FALSE!

LESS THAN TWO-DOZEN Non-Expert Anti-Pesticide Lunatic-Residents CO-ERCED, INTIMIDATED, and TERROR-IZED Park Commissioners to PROHIB-IT pest control products from the community's sports fields, under the PRETEXT that children and ground-water were at risk.

The Highland Non-Expert Anti-Pesticide Lunatics were WRONG.

COTTON-PICKING in Highland Park

Without the use of conventional pest control products, Highland Park had to resort to the BACK-BREAKING JOB OF WEED-PULLING BY HAND.

This ultimately led to DISMAL FAIL-URE, as it has in other jurisdictions.

Without effective weed control products, municipal employees and volunteer residents were required to CRAWL ON THEIR HANDS AND KNEES on lawns — pulling weeds manually.

Highland Park's Anti-Pesticide PROHI-BITION converted an educated professional labour force and middle-class

Overview from an Independent Perspective

home-owners into a group of mere COTTON-PICKING NIGGARS!

Highland Park soon discovered that it CANNOT afford the high cost manual labour required for WEED-PULLING.

It also discovered that VOLUNTEERS are TOTALLY UNRELIABLE.

NO ONE wants to be a COTTON-PICKER!

In desperation, COTTON-PICKING municipalities are often forced to enlist the help of UNRELIABLE resident VOL-UNTEERS, most of whom are women, elderly, and unemployed.

Ultimately, municipalities and homeowners are UNABLE to take care of their green spaces, and they end up LOOKING LIKE GARBAGE DUMPS.

They become WEED-INFESTED and INSECT-DESTROYED GARBAGE DUMPS.

Scientifically Safe

Pest control products used for turfgrass maintenance SELECTIVELY AND EFFECTIVELY CONTROL pests, but are COMPLETELY SAFE for other non-target organisms — they DO NOT INJURE TURFGRASSES, and have NO persistence beyond season of use.

These products can be USED SAFELY because the amount required to affect human health is SIGNIFICANTLY

HIGHER than any potential level of exposure.

We are exposed daily to numerous examples of man-made and natural substances that may impact human health, but harmless in small doses (example, low levels of naturally-occurring cyanide in almonds), and conversely, ordinarily harmless substances that can be deadly if overconsumed (example, water).

The impact of pest control products on human health is EXTENSIVELY EVAL-UATED by the Environmental Protection Agency to ensure that these compounds, like other chemicals, such as prescription drugs and vitamins, are SAFE when directions for use are properly followed.

Highland Park Residents HAD NO REASON to be worried about the infiltration of pest control products into the local watershed.

Pest control products used in the Urban Landscape DO NOT enter lakes and rivers through surface runoff and storm sewers.

Moreover, it is a MYTH to believe that ANY PROHIBITION protects the environment.

Pest control products are ACCEPTABLE FOR CONTINUED USE IN AMERICA because ...

 Pest control products are APPROVED for use by the Environmental Protection Agency (EPA).

Overview from an Independent Perspective

- EPA-Approved pest control products MEET STRICT HEALTH AND SAFETY STANDARDS.
- Pest control products are SCIENTIFICALLY SAFE.
- EPA-Approved pest control products provide a reasonable certainty that NO HARM will occur from their use.
- Overall, when they are used properly, there are NO harmful irreversible effects to health and the environment.

Beyond Pesticides

Beyond Pesticides is a Non-Expert Anti-Pesticide Fund-Raising Organization that has been CONSPIRING to PROHIBIT pest control products in Highland Park.

This organization has expertise in FUND-RAISING, but has NO EXPERTISE in science or research.

The PRIMARY CONCERNS of Beyond Pesticides are BUSINESS, CASH-FLOW, PROFIT, and CELEBRITY.

Beyond Pesticides PAID two of its PARTISAN-DIRECTORS to operate as ANTI-PESTICIDE LOBBYISTS in the CONSPIRACY to PROHIBIT pest control products in the Highland Park.

One Beyond Pesticides DIRECTOR was a mere zoology professor, Warren Por-

ter, and the other, Chip Osborne, was an organic lawn care operator with a failing business.

Neither one of these NON-EXPERT PARTISAN-DIRECTORS has ANY recognized background, training, or expertise in matters concerning pest control products.

Their advice was/is TOTALLY WORTH-LESS and UTTERLY VALUELESS.

Beyond Pesticides is operated by a CLOWNISH group who are clearly NOT COMPETENT to express ANY opinion concerning pest control products.

The Board of Directors of Beyond Pesticides is comprised of Non-Expert Activists ...

- a duck farm operator
- a native Indian movement organizer
- a zoology professor
- an indigent goat herder
- an organic lawn care operator with a failing business
- an organic produce distributor

In other words, the LUNATIC-CLOWNS who operate Beyond Pesticides know NOTHING about conventional pest control products!

NO ONE at Beyond Pesticides is COM-PETENT TO GIVE ADVICE!

Sports Fields Under Anti-Pesticide BAN Need To Be RESCUED

January 23rd, 2012

Highland Park

[State of Illinois]

Sun-Times Media

Selected and adapted excerpts

Manual Weed Picking INEFFECTIVE

The Park District task force convened to research and recommend new turf management practices to treat the community's WEED-RIDDEN SPORTS FIELDS has CONCLUDED THE PREVIOUS MANUAL WEED PICKING PROPOSAL WOULD PROVE INEFFECTIVE.

While no official plan was determined during the group's first meeting on January 18th, 2012, Executive Director Liza McElroy reported that the Parks Advisory Committee will reconvene to discuss other short–term options to RESCUE THE SPORTS FIELDS at Danny Cunniff, West Ridg,e and Larry Fink parks.

The panel was created in Fall 2011 after LESS THAN TWO-DOZEN Non-Expert Anti-Pesticide Lunatic-Residents COERCED, INTIMIDATED, and TER-RORIZED Park Commissioners to PROHIBIT pest control products from the community's sports fields, under the PRETEXT that children and ground-water were at risk.

Three major sports fields have been OVER-RUN with MORE THAN 60 PER CENT WEED INVASION

Consequently, the district to backed-off a planned one-time application of an herbicide.

Parks officials reported that THE THREE MAJOR SPORTS FIELDS HAVE BEEN OVER-RUN WITH MORE THAN 60 PERCENT WEED INVASION.

According to Executive Director Liza McElroy —

In order to rid the sports fields of weeds by the spring [by using Manual Weed Picking] you would NEED AN ARMY.

The committee agreed that WE DON'T THINK THAT'S A SOLUTION.

To rid the sports fields of weeds by using Manual Weed Picking, you NEED AN ARMY, and this is NOT a solution

In other words, the Non-Expert Anti-Pesticide Activists, like Michelle Kramer and the LUNATIC-CLOWNS from Beyond Pesticides, who recommended Organic and Pesticide-Free Maintenance, KNEW NOTHING and were UTTERLY INCOMPETENT.

The Parks Advisory Committee did provide the district the GO-AHEAD TO CONTINUE USING HERBICIDES at Heller Nature Center to address the invasive spread of Buckthorn.

The district sought the approval of the committee as it had suspended chemical spraying district—wide in Fall 2011.

The use of pest control products was never previously PROHIBITED in open, natural areas as they are not heavily populated by park users.

Organic and Pesticide-Free Maintenance Practices Are DISMAL FAILURES

They Represent a MAJOR THREAT to the LEGITIMATE Green Space Industry

Enviro-Vermin Promoting These Practices Must Be Eradicated from the Green Space Industry

Rat them out!

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OP-POSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti-Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION!

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Environmentas • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defence • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our grASS • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terror in Canada • History of the Turfgrass Industry • Letters to the Editor • LIARS and Lying Sacks of (Enviro Maniac) Cwap • Mock Advertisements • Mock Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTARIC Conspiracy, Haven For Environmental Terrorists • Ontario College of Family Physicians • Organic Golf Courses • Organic Mainte-

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career -

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach–head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
