FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

In the 9 | 11 Era of Anti-Pesticide Terrorism ...

# Mississauga's Anti-Pesticide Prohibition

---

In 1995, City of Mississauga, Ontario, began IMPLEMENTING the PROHIBITION against pest control products under the PRETEXT of protecting health and environment.

Mississauga is a city in Southern Ontario on the shores of Lake Ontario, in the western part of the Greater Toronto Area, with a population of over 700,000.

In 1995, Mississauga Council approved an ANTI-PESTICIDE POLICY which included —

- NO PESTICIDE USE for general parkland
- Spot spraying only for sports fields

The following information was retrieved from Mississauga's web-site in 2012 —

*The City of Mississauga is recognized as a leader in Plant Health Care and has utilized Integrated Pest Management ( IPM ) practices since 1990.*

*IPM practices involve the use of various control measures to reduce weed and pest populations in trees and turfed areas.*

*The City manages weed and pest populations through a variety of physical, biological and cultural practices.*

# THE FAILURE of ANTI-PESTICIDE Prohibition

*PESTICIDES ARE ONLY USED WHEN THERE ARE NO OTHER EFFECTIVE ALTERNATIVES.*

*The City has also adopted a practice that NEIGHBOURHOOD AND GENERAL PARK AREAS NOT BE SPRAYED WITH PESTICIDES.*

## The Cost Of Mississauga's Prohibition

---

Mississauga's LUNATIC ANTI-PESTICIDE PROHIBITION resulted in Municipal Employees being FORCED TO ENDURE THE BACK-BREAKING AND AGONIZING JOB OF WEED-PULLING BY HAND.

Additionally, Mississauga's LUNATIC ANTI-PESTICIDE PROHIBITION guaranteed that NATURAL GRASS SPORTS FIELDS ARE ON THE PATH TO EXTINCTION ?

By 2010, Mississauga replaced SIX NATURAL GRASS SPORTS FIELDS at with ARTIFICIAL/SYNTHETIC FIELDS.

This is because Mississauga's Anti-Pesticide PROHIBITION has made it IMPOSSIBLE TO NURSE DAMAGED NATURAL GRASS SPORTS FIELDS BACK TO HEALTH.

With NO WAY TO SAVE FIELDS THAT BECOME INFESTED WITH WEEDS, the sensible solution has been to SWITCH TO PLASTIC TURF.

# THE FAILURE of ANTI-PESTICIDE Prohibition

Hence, there is a risk of children and adults picking up a STAPH INFECTION while playing on ARTIFICIAL/SYNTHETIC GRASS, although the risk is quite REMOTE ... about as REMOTE, in fact, as the risk posed by REGULATED PESTICIDES when properly and responsibly used.

Mississauga's LUNATIC ANTI-PESTICIDE PROHIBITION, IMPOSED under the PRETEXT of protecting health and environment, is exposing children and adults to different and equally minuscule risks.

Because of Anti-Pesticide PROHIBITION, Mississauga WAS REGULARLY FORCED TO IMPLEMENT MAJOR TURF RENOVATIONS ON NATURAL GRASS FIELDS, REPRESENTING A COST OF 200,000 DOLLARS PER FIELD.

## The City Of Hypocritical Anti-Pesticide Policy

---

Predictably, Mississauga's LUNATIC ANTI-PESTICIDE PROHIBITION has been conveniently used as an example by Anti-Pesticide Activists as a means to VALIDATE MORE PROHIBITIONS across North America.

In fact, MISSISSAUGA USES PEST CONTROL PRODUCTS ON AN ARBITRARY BASIS.

Essentially, Mississauga continues to recognize that pest control products are SCIENTIFICALLY-SAFE, and CAUSE NO HARM to health or environment.

# THE FAILURE of ANTI-PESTICIDE Prohibition

Mississauga is THE CITY OF HYPOCRITICAL ANTI-PESTICIDE POLICY.

Definition of HYPOCRISY —

*Hypocrisy is the state of pretending to have beliefs, opinions, virtues, feelings, qualities, or standards that one does not actually have.*

*Hypocrisy involves the deception of others, and is thus a LIE.*

« *Spraying The Stuff All Over The Place* »

---

According to a report on August 27<sup>th</sup>, 2012 —

MISSISSAUGA BREAKS OUT THE TOXINS.

Mississauga doesn't pass smell test.

The stretch along Burnhamthorpe Road from City Centre to beyond the Credit Valley Bridge has been **SPRAYED WITH PESTICIDE BY THE CITY TO CONTROL WEEDS.**

This area is opposite Riverwood Park.

When it comes to use of pesticides, the City of Mississauga is **NOT LEADING BY EXAMPLE.**

# THE FAILURE of ANTI-PESTICIDE Prohibition

Supposedly, Mississauga had adopted a practice that NEIGHBOURHOOD AND GENERAL PARK AREAS NOT BE SPRAYED WITH PESTICIDES.

While ORDINARY FOLKS ARE DRIVEN TO THEIR WIT'S END trying to keep their properties from being OVER-RUN BY WEEDS AND OTHER PESTS ...

... MISSISSAUGA IS SPRAYING THE STUFF ALL OVER THE PLACE.

## Mississauga Took The Easy Way Out

---

According to a report on August 27<sup>th</sup>, 2012 —

On August 22<sup>nd</sup>, 2012, Mississauga treated the sidewalk and median areas along Burnhamthorpe Road all the way from City Centre to the Credit River Bridge.

That trailway is heavily used by pedestrians, joggers, and cyclists, and even four days later, the smell of the chemical — a product called FIESTA, classified as a class 2 chemical, according to the notice — still hung in the air.

Signs containing application information were posted in the treated areas.

# THE FAILURE of ANTI-PESTICIDE Prohibition

The signs stated the treatment was applied to control « *weeds in turf* ».

You would think the municipality would find a less toxic way to control the weeds without wide-spread application of toxins.

Instead, MISSISSAUGA TOOK THE EASY WAY OUT.

Meanwhile, there are reports of home-owners, at huge personal expense, HAVING TO RIP OUT ENTIRE LAWNS AFTER THEY WERE IRREMIABLE DESTROYED BY PESTS.

# THE FAILURE of ANTI-PESTICIDE Prohibition

## Mississauga Failed

---

The public is puzzling why certain organizations, such as municipalities and golf courses, are EXEMPT FROM THE ONTARIO PESTICIDE BAN.

If anything, these organizations have better resources to deal with pest problem.

According to some quarters, politics, not science, is driving the Mississauga's LUNATIC ANTI-PESTICIDE PROHIBITION.

But that's a discussion for another time.

Mississauga's so-called Organic and Pesticide-Free Maintenance is a DISMAL FAILURE.

Mississauga's Anti-Pesticide PROHIBITION is a FAILURE.

Mississauga supposedly adopted a practice that NEIGHBOURHOOD AND GENERAL PARK AREAS NOT BE SPRAYED WITH PESTICIDES ... and FAILED.

August 27<sup>th</sup>, 2012

# prohibition carnage

Because of Anti-Pesticide PROHIBITION, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

Anti-Pesticide PROHIBITION has led to CATASTROPHIC CARNAGE for Professional Lawn Care companies, in the form of HORRIFIC FINES and BUSINESS FAILURES.

NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION led to the DESTRUCTION of the Modern Professional Lawn Care Industry.

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

In Ontario, Government Officials were OFFICIALLY WARNED about the CATASTROPHIC CARNAGE or SUN-SETTING that would result from PROHIBITION.

The Environmental Commissioner's Report to the Ontario Legislative Assembly on October 6<sup>th</sup>, 2009, OFFICIALLY WARNED Government Officials about the SUN-SETTING CARNAGE of that would result from PROHIBITION —

*In the short-term, however, the ban may have SIGNIFICANT EFFECTS on the economic health or continued viability of many lawn care businesses, effectively SUN-SETTING components of an industry.*

Because of PROHIBITION in Ontario, the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with UP TO 12,500 UNEMPLOYED.

Because of PROHIBITION in Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION.

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

# N O R A H G

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
