Pesticide Ban GARBAGE DUMPS

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTHFROM AN INDEPENDENT PERSPECTIVE <u>National Organization Responding Against HUJE</u> that conspire to destroy the Green space and other industries (NORAHG)

The Wisdom of a REAL Expert

Nanaimo residents, and perhaps visitors/tourists as well, have been COMPLAIN-ING ABOUT WEEDS IN PARKS, ROAD CRACKS AND SIDEWALKS, AND PLAY-GROUNDS.

It boggles my mind to think that people such as Councillor Jim Kipp are MAKING DECI-SIONS THAT HAVE TURNED MANY OF OUR CITIES INTO SOME OF THE WORST HELL-HOLES TO BE SEEN ANYWHERE.

Whatever happened to listening to scientists and those in the know rather than many of these anti-pesticide extremists ?

There is now a sizable list of jurisdictions which have either rescinded their pesticide ban, or have modified it substantially. The Wisdom of Art C. Drysdale

Nanaimo BC Pesticide Ban

Questioning the Expertise of Mr Jim Kipp

July 17th, 2012

Art C. Drysdale

Letter To The Editor

Selected And Adapted Excerpts

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG)

Questioning the Expertise of Mr Jim Kipp

From what I have read in the Nanaimo Daily News, I gather that Nanaimo residents, and perhaps visitors/tourists as well, have been COMPLAINING ABOUT WEEDS IN PARKS, ROAD CRACKS AND SIDEWALKS, AND PLAY-GROUNDS, and so they should.

Like many other cities who thought they were doing the right thing by introducing the so-called Integrated Pest Management (IPM) did not realize just who and what organizations were urging this upon them.

It is unfortunate that Councillors like Jim Kipp [City of Nanaimo, British Columbia] CAN BE AS NAÏVE AS HE APPEARS TO BE when he says in your paper (and elsewhere, no doubt) —

The growing proliferation of unsightly weeds in cracks in the centre medians of the city's thoroughfares this summer likely has little to do with the city's ban on many toxic pesticides.

I certainly WOULD NOT BE LISTENING TO ANYTHING THE COUNCILLOR HAS TO SAY on any subject in as much as he obviously makes comments as the one above ON TOPICS ABOUT WHICH HE KNOWS NOTHING.

Horticultural advice and information has been my life for fifty years, and I was a personal friend of the late Dr. R. Milton Carleton of Chicago who considered himself the co-discoverer of the chemical 2,4-D for weed control in lawns.

« *Milt* », as those who knew him well called him, was at that time the Director of Research for the Vaughan Seed Company in Chicago.

If you wish to read more about just how Milt Carleton \ll *co-invented* 2,4-D \gg just go to my March 14, 2010 article on ICanGarden.com — the largest Canadian gardening Web-Site.

[See the next segment entitled « *Is This the Beginning of the Americanization of Gardening in Canada ?* » Art C. Drysdale. March 14th, 2010.]

It boggles my mind to think that people such as him [Councillor Jim Kipp] are MAKING DECISIONS THAT HAVE TURNED MANY OF OUR CITIES INTO SOME OF THE WORST HELL-HOLES TO BE SEEN ANYWHERE.

WHATEVER HAPPENED TO LISTENING TO SCIENTISTS AND THOSE IN THE KNOW RATHER THAN MANY OF THESE ANTI-PESTICIDE MANIACS ?

Are your people at the Nanaimo Daily News aware that THERE IS NOW A SIZABLE LIST OF JURISDICTIONS WHICH HAVE EITHER RE-SCINDED THEIR PESTICIDE BAN, OR HAVE MODIFIED IT SUBSTANTIALLY ?

You can find that list in my ICanGarden.com article.

I hope your editors will see the light and publish some or all of the list to show that there really is another side to this story ! Feel free to pick up all or any part of it.

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG)

Art C. Drysdale

March 14th, 2010

Back in the mid-eighties, I well remember a so-called garden writer from the US coming to Canada on a regular basis as a paid « *expert* » on the behalf of a consumer home show.

He was formerly a Detroit police officer, and had published several books containing ridiculous suggestions for the control of pests and other gardening chores.

The suggestions included « *special formulas* » that contained odd ingredients including beer.

I have not heard of him lately, and was thankful that most of the advice being offered to Canadians for their gardening was by Canadians (although that advice offered by some ex-pats remains questionable !).

Last week, I learned that history is repeating itself with the importation of one Paul Tukey coming to Canada for several speaking engagements and to introduce his not-sogreat home-made video called A Chemical Reaction which includes his interpretation of just what happened in Hudson, Québec that was the beginning of banning chemical pesticides in Canada.

This thing with Paul Tukey seems to have started back on September 6, 2008, when I received the following e-mail message from him -

I would like to interview you for a book I am writing about the history of the lawn care industry in North America. Would you have some time for such a pursuit ? All the best.

I responded on September 9^{th} as follows –

Yes, I could do that at some point, but I should point out that I am not exactly a supporter of organic-only lawn care ! Did you wish to do it by telephone ?

He then responded on the 10^{th} –

Our first conversation should be by phone. That would be fine. Just give me a time. Thank you. I would like to talk about Milton Carelton [sic] and his and your views on 2-4, D. [sic]

Art C. Drysdale

March 14th, 2010

I found it interesting that a supposed radio, TV and print journalist would not only spell Dr. R. Milton Carleton's name INCORRECTLY, but also MISSPELL the short form name of the weed-control chemical 2,4-Dichlorophenoxyacetic acid (2,4-D)!

By the time I wrote back to him, I had already checked him out both on the Web and also in the Membership Directory of the Garden Writers Association of America (of which I am the only Canadian to have been President, 1979 - 1981).

Though I have not continued my membership (because I do not believe the organization does as much for writers as it used to), I do remain in close contact with certain old-time members.

My own membership goes back to the mid 60s, whereas I note Paul Tukey has only been a member since 2005.

I was also a close friend of GWAA member the late Dr. R. Milton Carleton. [1899-1986]

As I have written previously, I used to see him at least two times per year, including annually at the Chicago Flower Show.

When I began to encounter opposition to 2,4-D in Ontario in the 90s (and even earlier) I wrote to Milt (as we affectionately called him), and here follows what he wrote back to me -

I probably know more about the history and use of this chemical than anyone alive. Dr. Franklin D. Jones, who discovered its phytochemical properties and patented its use as a control for unwanted plants, walked into my office right after WWII.

He said he had a marvellous weed killer for drive[way]s.

My answer was « Frank, we have plenty of chemicals that will do that — even old crank case oil will do the job. What we need is a better control for crabgrass ! »

« Unfortunately », he replied, « it doesn't do too good a job on grasses; in fact they don't die unless you use so much that I suspect it's the carrier that kills, not the 2,4-D. »

Art C. Drysdale

March 14th, 2010

This set me to thinking — if it doesn't kill crabgrass, maybe it won't kill bluegrass, which proved to be true when I ran tests.

That was the birth of modern selective weed killers.

[The Ultimate Drink Test –] « *Milt* » usually carried a flask around with him that contained 2,4-D from which he would drink on request « *just to prove it harmless* ».

Anyone who knew the distinctive smell of 2,4-D knew that he was actually drinking the real stuff.

It didn't seem to harm him too much — he lived to the age of 87, and almost up to the end, drove annually from Chicago to his summer home off the US east coast. He moved to Sarasota, Florida in 1980. The Ultimate Drink Test Proves That 2,4-D Is Safe

BACKGROUND INFORMATION — Doctor R. Milton Carleton is a FOUNDER of the Modern Green Space Industry in North America. In 1957, Doctor Carleton published « *New Way to Kill Weeds* », in which he discussed at length about 2,4-D. He was also a founder and a member of the FIRST Board of Directors of The Illinois Turfgrass Foundation, a trade association founded on December 22nd, 1959 in the State of Illinois. Doctor Carleton also wrote articles for several prestigious organizations, such as American Horticultural Society and Brooklyn Botanic Garden. In 1959, he published the book « *Your Lawn, How To Make It and Keep It* », as well as « *The Small Garden Book* » in 1971.

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG)

Art C. Drysdale

March 14th, 2010

The product [2,4-D] was definitely NOT developed to eradicate rice fields (as was stated in the April 23, 2004 Ontario College of Family Physicians (OCFP) « *Review Of The Effects Of Pesticides On Humans* ».

2,4-D is a highly improbable herbicide to be used to « *eradicate* » rice.

In fact, it very quickly became the world's most widely used rice herbicide, used to protect rice from yield-destroying invasive weeds.

It is still extensively used by Japanese rice growers today.

It has been an important tool used to increase rice production world-wide (and the production of wheat, barley, corn, oats, rye, etc ...) and thus having a significant impact on reducing world hunger.

That so-called fact as stated in the OCFP report alone makes the entire « *review* » suspect.

And, a closer examination reveals that nothing of what is presented should even be considered.

So now we have Paul Tukey (said to be a failed and bankrupt lawn care operator who was apprehended by local authorities for applying pest control products without the necessary licensing, according to Force Of Nature) coming to Canada with a bunch of lies, scare tactics and innuendos and attempting to take supremacy over what a distinguished scientist like Milt Carleton continued to defend all through his life in a very effective way.

Art C. Drysdale

March 14th, 2010

By the way, it is thought by many that the reason Tukey is coming up here at this time is that some of the activists in Ontario and elsewhere have decided not to take as strident actions as they have been doing simply because of the threatened and ongoing lawsuits against both organizations and individuals.

Solution - bring in an American who will be free of actions by we Canadians.

That also brings up another interesting point.

When Tukey returns to the US will he be reporting his « *profits* » both direct payments and other « *goodies* » he received in Canada to the Canadian and/or American tax authorities ?

I understand he does not accept a penny for any of these appearances; instead he has all such monies directed to his little business « *SafeLawns* » and thus tax-free.

I believe Paul Tukey ought to have been BANNED from entry to Canada since he is clearly trying to interfere with the court fights which are currently going on here with regard to the banning of 2,4-D and other « *cosmetic lawn chemicals* » both in Ontario, and against the federal government (by Dow AgroSciences) as regards the banning in Québec.

The worst of this whole mess is that if they remain successful, the enviro-maniacs will go after items such as chemical fertilizers next, and non-native plants will not be far behind that.

Do we want that ?

If folks do not want to use the perfectly safe, Canadian-government-approved chemicals to control weeds and other garden problems, then they are welcome to do so.

But those who wish to go a simpler route should have the right to do so, and not be dictated to by a small bunch of enviro-maniacs who know little or nothing about the very large topic on which they profess to be experts !

And, we don't need any further Americanization of gardens and gardening here in Canada.

Just ask any American tourist what they think of our gardens and cities vs. theirs in the US !

City of Nanaimo, British Columbia

Nanaimo is the second largest city on Vancouver Island in British Columbia, with a population of almost 80,000.

In 2011, the City of Nanaimo IMPOSED PROHIBITION against pest control products used in the Urban Landscape.

The PROHIBITION was NEEDLESS, SENSELESS, and MALICIOUS.

Pest control products are HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFI-CALLY-SAFE, PRACTICALLY-NON-TOXIC, and CAUSE NO HARM.

Nanaimo is also affectionately known as « The Hub of Lunatic Environmental Terror on Vancouver Island ».

Some of the local newspapers, such as Nanaimo News Bulletin, are also CORRUPTED by Anti-Pesticide Activists.

The Nanaimo City Council was/is INFESTED with Anti-Pesticide Activists who DO THE BIDDING of Anti-Pesticide Organizations.

The following Anti-Pesticide Organizations operate in Nanaimo —

- Canadian Cancer Society
- Pesticide Abatement or Pesticide Action Nanaimo,
- Pesticide Free BC

Canadian Cancer Society Is Truth-Challenged

Nancy Falconer of Canadian Cancer Society introduced herself as a so-called « *expert* » to the City of Nanaimo.

Canadian Cancer Society is a CONTEMPTIBLE, SUBVERSIVE, and RADICAL Anti-Pesticide Organization.

Falconer was/is a Truth-Challenged Non-Expert Paid-For-Profit Anti-Pesticide Lunatic.

Falconer was asked if she or Canadian Cancer Society had heard of any LEGAL CHAL-LENGES arising from PROHIBITION.

City of Nanaimo, British Columbia (continued)

Nancy Falconer explained that she HAD NOT HEARD OF ANY LEGAL CHALLENGES [?!?!], and had plenty of literature that suggests the success rate of PROHIBITIONS in other municipalities.

Falconer was a Lying-Sac-of-Lunatic-Cwap !

Falconer knew full well that, in January 2010, the Green Space Industry outlined the list of CHARGES against the Government of Ontario and Anti-Pesticide Government Officials working in the Ministry of the Environment.

Additionally, Falconer provided Nanaimo with stories that showed that landscaping retailers located in areas with PROHIBITION had NOT SUFFERED ECONOMICALLY, due to the period of transition provided.

Yet again, Cancer-Vixen Falconer was a Lying-Sac-of-Lunatic-Cwap !

Falconer knew full well about the CATASTROPHIC CARNAGE CAUSED BY PESTICIDE BANS.

PROHIBITION DESTROYED the Professional Lawn Care Industry across Canada !

Carnage Caused By Prohibition

PROHIBITION led to the ANNIHILATION of Professional Lawn Care businesses in Nanaimo.

Two business owners had predicted that PROHIBITION WOULD DAMAGE their businesses because Green Alternative Pesticides SIMPLY DO NOT WORK.

According to Blake Howe of Bumble Bee Lawn Care -

I started out 100 per cent organic about five years ago, but because I was expected to bring home money, I switched to [selective pesticide use].

I was losing half my clients after a year or two when the weeds return.

If there is a ban, I will have to change my business.

City of Nanaimo, British Columbia (continued)

Nanaimo's Illegal Green Alternative Concoctions

The City of Nanaimo issued its own recommendations for Green Alternatives to conventional pest control products.

According to Nanaimo's SUBVERSIVE advertisement –

The health risks associated with using pesticides vary from mild irritation of the skin or eyes to cancer and nervous system disruption. [Wrong !]

If the City of Nanaimo was so concerned about HEALTH, then why is it recommending ILLEGAL, BOGUS, UNTESTED, DANGEROUS, and POTENTIALLY DEADLY ILLEGAL CON-COCTIONS designed to replace conventional pest control products ?

Examples of Nanaimo's ILLEGAL CONCOCTIONS -

- Hot or Cayenne Pepper Spray
- Gin and Vinegar Spray
- Rubbing Alcohol Spray

It is a VIOLATION OF FEDERAL LAW to recommend or sell products for controlling pests that are NOT registered under the Pest Control Products Act.

Nanaimo's Government Official Is Truth-Challenged

Thoroughfares, like streets and roads, are transportation routes connecting one location to another.

Because of Nanaimo's Anti-Pesticide PROHIBITION, THOROUGHFARES LOOK LIKE GAR-BAGE DUMPS.

Not surprisingly, Nanaimo's TRUTH-CHALLENGED Anti-Pesticide Government Officials LIE and LIE and LIE.

They attempt to DECEIVE THE PUBLIC by FALSELY ALLEGING that their PESTICIDE BAN is somehow NOT responsible for UGLY WEEDS GROWING IN ROAD CRACKS.

City of Nanaimo, British Columbia (continued)

According to Anti-Pesticide Councillor Jim Kipp –

The GROWING PROLIFERATION OF UNSIGHTLY WEEDS in cracks in the centre medians of the city's thoroughfares this summer LIKELY HAS LITTLE TO DO WITH THE CITY'S BAN on many toxic pesticides.

Integrated Pest Management Is A Dismal Failure

In 1994, Nanaimo decreed that care for all city-owned properties must be done in accordance with Integrated Pest Management (IPM).

It is now common knowledge that Integrated Pest Management is a DISMAL FAILURE.

It is IMPOSSIBLE for Nanaimo to keep its thoroughfares WEED-FREE by using IPM.

It is also IMPOSSIBLE for Nanaimo to keep its properties playable and beautiful by using IPM.

Pesticide Bans Mean Weed Invasion

Nonetheless, Anti-Pesticide Councillor Kipp FALSELY ALLEGES that the WEEDS THAT ARE GROWING THROUGH THE CONCRETE AND ASPHALT on Nanaimo's streets and roads is PROBABLY NOT CONNECTED TO THE PESTICIDE BAN.

According to Anti-Pesticide Councillor Jim Kipp –

It's been a pretty prolific year for weeds and other plants so far and I expect our workers are behind schedule and likely just haven't got to dealing with all of them yet.

Kipp cannot possibly be brought to admit that Nanaimo's Anti-Pesticide PROHIBITION is leading to GARBAGE DUMP thoroughfares and green spaces.

It is now accepted as a fact that Anti-Pesticide PROHIBITION leads to the PROBLEM OF WEED INVASION.

Because of the PROHIBITION, Municipal Employees have had to resort to the BACK-BREAKING and AGONIZING JOB of WEED PULLING BY HAND USING HOES AND SCRAPERS !

Consequently, Nanaimo's Municipal Employees have been DEVALORIZED into a group of mere COTTON-PICKERS.

The nation's best-known celebrity horticulturist, plant expert, writer, speaker, radio and television broadcaster

Art C. Drysdale http://www.artdrysdale.com

Media highlights & accomplishments

Mr Drysdale is one of Canada's bestknown horticulturists.

Mr Drysdale is best known for his syndicated radio show & commercials for the Garden Claw.

For the past four decades, he has been writing, & presenting radio & television broadcasts, with PRACTICAL GARDEN-ING HINTS on stations such as CFRB, AM740 & CFCA.

His radio GARDENING VIGNETTES are heard throughout South-Western Ontario over two radio stations —

- Easy 101 FM out of Tillsonburg at 2:00 PM weekdays
- CD98.9 FM out of Norfolk County at 11:40 AM weekdays

Mr Drysdale also presented all of Canada's Weather Network GARDENING VI-GNETTES, hourly from April to October annually for a decade.

He was the spokesman for the Garden Claw across the country.

As a speaker, Mr Drysdale has addressed amateur & professional groups all across Canada, as well as in the United States, England, Holland, Switzerland, Australia, South Africa, & aboard cruise ships.

Art C. Drysdale (continued)

Fields of study and alma mater

1958 - 1961 — Mr Drysdale attended The Niagara Parks Commission School of Gardening (now NPC Botanical Garden & School of Horticulture), where he won all five awards presented at the graduation. He initiated & edited the school's first yearbook.

1957 — He graduated from East York Collegiate with the Ontario Secondary School Honour Graduation Diploma.

1955 - 1969 — He was active & held several executive positions in the East York Garden Club.

Notable work at Shur-Gain

March 1961 - August 1962 — After graduation, Mr Drysdale worked with the Shur-Gain Division of Canada Packers where he ...

- consulted with consumers & the turf industry
- developed new consumer fertilizer products (Feed 'n Weedaway)
- wrote various consumer literature

Notable work with Sheridan Nurseries

1962 - 1969 — Mr Drysdale was then employed with Sheridan Nurseries Lim-ited.

Drysdale was Chief Horticulturist & Advertising Manager, with full responsibility for Sheridan catalogues & botanical nomenclature.

Notable work with Parks/Recreation Association

1964 — Mr Drysdale was appointed part-time Executive Director & Editor with the Canadian Parks/Recreation Association (CP/RA), with the office in his home.

1969 - 70 — He was employed fulltime as Executive Director of Canadian Parks/Recreation Association, & Editor of Recreation Canada magazine.

Early 1971 — He set up Canadian Parks/Recreation Association's first permanent office in Ottawa.

Notable work with Garden Writers Association

1973 — Mr Drysdale was appointed Regional Director (Canada) of the Garden Writers Association of America (GWAA).

1979 - 1981 — He served as President of the Garden Writers Association of America, & was the first-ever Canadian to hold the office, representing over 1,000 members, mostly in the USA

Art C. Drysdale (continued)

Notable work with publications

December 1963 - March 1969 — Mr Drysdale wrote a feature column for a new magazine, CANADIAN NURSERY-MAN. He was also a member of the founding committee.

1971 - 1978 — He free-lanced as a horticultural writer, & published/edited RECREATION CANADA magazine.

Notable work with books

March 1975 — Dent Canada published Mr Drysdale's book GARDENING OFF THE GROUND that he wrote on the invitation of the publisher. It was the first Canadian book for balcony gardeners.

July 1996 — He self-published his book GARDENING OFF THE GROUND in a completely revised & enlarged version, including his own colour photos.

GARDENING OFF THE GROUND is Canada's most successful & most practical book on container gardening.

April 2012 — In 2012, Mr Drysdale rereleased a NEW EDITION of GARDENING OFF THE GROUND.

It has 168 pages, 70 sketches, six pages of colour photos & cover photo of my balcony. Now, breaking news,

Mr Drysdale also converted the book into an e-book which avoids all the costs of printing, shipping & handling.

For a copy, simply send Mr Drysdale an e-mail to art@artdrysdale.com OR call this Toronto number 647-977-7507.

Mr Drysdale today

A life-long resident of Toronto, Mr Drysdale is now a resident of Parksville, British Columbia, on Vancouver Island, just north of Nanaimo.

He has renovated an old home & has a new garden there.

Drysdale's Wisdom

In his daily radio GARDENING VIGNETTES, & his weekly I-CAN-GARDEN BLOG, Mr Drysdale has effectively & consistently spoken out against activists & antipesticide prohibitions.

Pesticide Bans MUST Be RESCINDED

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG)

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE & UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, & INTERNET RUMOUR – scientific research PROVES that pest control products CAUSE NO HARM & can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf & ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION & the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, & represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED & HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REAL-ISM & PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics & lawn haters who particularly DESPISE the golf industry - they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against these HUJE, as well as CANCELLATION of GOVERNMENT GRANTS & REVOCA-TION of the TAX EXEMPT STATUS of their organizations. HUJE should Get OFF Our grASS, & they should Roast In Hell.

Anti Pesticide HUJE are advised that all names, statements, activities, & affiliations have been ARCHIVED for eventual CRIM-INAL CHARGES.

NORAHG manages The Library of Force Of Nature Reports & References for all Anti Pesticide Terrorist Acts of Subversion.

The NORAHG of Library Force Of Nature Reports & References is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, & VIDEOS on ALL Anti Pesticide Activities has been made AVAILABLE through NORAHG to anyone interested in LITIGATION.

These ARCHIVES contain names, statements, activities, & affiliations of ALL anti pesticide vermin, including government officials, as well as charitable prohibition terrorist organizations that DO NOT DESERVE ANY tax exempt status.

Interested parties need only to send NORAHG their REQUESTS for ANY INFORMATION needed in the War Against Lunatic Terrorist PROHIBITION.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, & the media, nationwide across Canada, the United States, & overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, & creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE & Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Extremists • David Suzuki Foundation • DDT & Our World of Politicized Science • Death & Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defence • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food & Farming • Get Off Our grASS • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of EnvironMania) Cwap • Mock Advertisements • Mock Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NOV A SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorists • Organizations of the Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorists • Ontario College of Family Physicians • Organic Golf Courses • Organic Maintenance • Organizations of the Prohibition Conspiracy • Pesticide Q & A (Questions & Answers) • Positive Waves (Interesting & Innovative Thinking) • PRINCE EDWARD ISL& (PEI) Conspiracy •

The information presented in FORCE OF NATURE has been developed for the education & entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, & science.

FORCE OF NATURE is TOTALLY INDEPENDENT & provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, & Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada & around the world.

All information, excerpts, & pictures contained in FORCE OF NATURE, A LOOK AT, & LETTERS TO THE EDITOR were retrieved from the Internet, & may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, & their various incarnations, was the brainchild of William H. Gathercole & his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr Gathercole's career -

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees & contribute to both the professional lawn care & golf maintenance industries

Expertise in — environmental issues & anti pesticide terrorism • turf & ornamental maintenance & troubleshooting • history of the industry • sales & distribution of seeds, chemicals, fertilizers, & equipment • fertilizer manufacturing & distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, & workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf & urban landscape, as well as millions of pest control applications • advisor, instructor, & trainer for thousands of turf & ornamental managers & technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications & e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region & the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, & later, in the Montreal & Vancouver regions

Special contributions – creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE & A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s & 1990s

Legacy — Mr Gathercole & his colleagues ... designed & implemented strategies that reined anti pesticide activists to provide peace & prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE & A LOOK AT reports.
