

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

# In the City of Newmarket, Ontario ...

Newmarket is a town located 25 kilometres north of the City of Toronto, Ontario.

It is part of the Greater Toronto Area, and has a population of 80,000.

Newmarket has been INFESTED with weed and insect pests.

Because of Anti-Pesticide PROHIBITION, Newmarket's Green Spaces have been RUINED by weeds, and DESTROYED by White Grubs called European Chafer.

White Grubs are larvae that attack the roots of turfgrasses, creating damage that first appears as drought stress, eventually causing death in large irregular patches.

They also attract SKUNK AND RACCOONS that dig-up, or shred, turf like roto-tillers.

There are several types of White Grubs that damage RESIDENTIAL and COMMERCIAL LAWNS • Bluegrass Billbug • European Chafer • May-June Beetle • Japanese Beetle.

White Grubs also damage GOLF COURSE FAIRWAYS and ROUGH • Black Turfgrass *Ataenius* • European Chafer • May-June Beetle • Japanese Beetle.

One type of White Grubs damages GOLF COURSE PUTTING GREENS and TEEING GROUNDS • Annual Bluegrass Weevil.

## History of the European Chafer

---

Of all the types of White Grubs, European Chafer has been historically VERY DESTRUCTIVE.

In 1940, in the State of New York, the European Chafer was officially identified as a turfgrass pest.

It was accidentally introduced from the Orient and Europe.

Forty years later, in 1980, it reached the Niagara Peninsula in South-Western Ontario.

Its rampage continued across the Greater Toronto Area throughout the 1980s and 1990s.

## Art Drysdale — Nematodes Do Not Work

---

Art Drysdale is the nation's best-known celebrity horticulturist, plant expert, writer, speaker, radio and television broadcaster.

According to Drysdale —

***NEMATODES DO NOT WORK, and I DO NOT RECOMMEND THEM.***

*Currently, Nematodes have NOT BEEN WIDELY-ADOPTED for use by the turf industry because of their HIGH COST and because the environmental conditions necessary to guarantee the success of the Nematode treatments RARELY EXIST.*

*In addition to all of this, Nematode insecticides are NOT REGISTERED as pest control products in Canada.*

*Neither the federal nor the provincial governments have officially scheduled or classified Nematode insecticides as a pest control product.*

*Consequently, there is NO OBLIGATION on the part of the manufacturer to divulge a full range of safety information such as human toxicity and environmental impact, which is the case with conventional pest control products.*

*This information will eventually be required, not just concerning the Nematodes themselves, but also for the SYMBIOTIC BACTERIA that they carry.*

*It is inevitable that the failure to regulate Nematode products will eventually create a public relations problem.*

*It will not be taken for granted for very long that an organism that is defined as INFECTIVE will require the need for more safety information in order to justify its status as reduced-risk.*

*Additionally, the failure to regulate Nematode products appears to be in direct contravention of the federal definition of a pest control product ( or pesticide ), as interpreted by the federal Pest Control Products Act.*

# Letters From Newmarket Residents ...

## *PESTICIDE BAN TOUGH ON LAWNS – WHITE GRUBS.*

*Is it possible Premier Dalton McGuinty is seeking to extend the vote to the SKUNK AND RACCOON populations of Ontario ?*

*If so, he has a rapidly growing electorate that would ensure him majority governments for as long as he desires to remain in office.*

*The reason for my suspicion lies with my SHREDDED LAWN, which has become MORE SHREDDED with every passing year since Premier Dad [ a.k.a. McGuinty ] brought in his PESTICIDE BAN in 2009.*

*Convinced the critters were using a ROTO-TILLER to dig up my lawn looking for grub, I went out late one night to find a small army of skunks TEARING UP MY LAWN without the use of any mechanical assistance.*

*This occurred despite my neighbour having a battalion of seven skunks removed from under his porch the previous week.*

*Since we can no longer spray an effective grub killer on our lawns, the urban skunk population seems to have SOARED.*

*So what about the eco-friendly solution ?*

*Here are the instructions for the Ontario-born-and-bred brand of NEMATODES I use –*

- 1. Pre-water area being treated 2 to 3 inches ( 5 to 8 cm ) deep.*
- 2. Apply the nematodes using a hose-end sprayer.*
- 3. KEEP SOIL WATERED FOR THREE TO FOUR DAYS after application to ensure the nematodes get into the soil to find grubs.*

*So, FLOODING MY LAWN WITH NEAR-BIBLICAL LEVELS OF WATER IS THE ECO-FRIENDLY SOLUTION ?*

PESTICIDE BANS DESTROY PUBLIC AND RESIDENTIAL GREEN SPACES BY TURNING THEM INTO GARBAGE DUMPS.

Summary of CATASTROPHIC CARNAGE CAUSED BY GARBAGE DUMP GREEN SPACES ...

- Children are at HIGH RISK OF TRIPPING ON WEEDS and BECOMING HURT.
- Dandelions are the DOMINANT GROUND COVER ... EVERYWHERE !
- Invasive noxious weeds like Japanese Knotweed and Giant Hogweed.
- Lawns are DECIMATED and ruined by pests like white grubs.
- Mature street trees are DYING because of uncontrolled pests.
- Natural grass sports fields are being REPLACED by dangerous artificial turf.
- Parks are INFESTED with weeds that crowd out grass.
- People are SUFFERING from SEVERE REACTIONS to weeds like Poison Ivy.
- Pesticide-free maintenance is STUNNINGLY EXPENSIVE.
- Playing surfaces are INFESTED with damaging weeds and insects.
- Rose plantations are DYING and must be REMOVED by cities.
- Swarms of flies are EVERYWHERE !
- Weed-infested playing surfaces are HARD and DANGEROUS.
- Weeds are UNCONTROLLED in ditches and are INVADING nearby farms.
- WHO WANTS TO LIVE IN #@!!% PEST-INFESTED GARBAGE DUMPS !?!?

# N O R A H G

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
