**State of Texas
REPEALS I.P.M.**

February, 2011

State of Texas (U.S.A.)

A bill submitted to the Texas Senate includes a provision that would ELIMINATE ALL REQUIREMENTS FOR SCHOOLS TO FOLLOW I.P.M.

Section 13 paragraph (2) of Senate Bill 468, introduced by Senator Florence Shapiro (R) of Plano, Texas, would REPEAL Section 1951.212 of the

I.P.M.
Repealed

I.P.M. REPEALED in the State of Texas

Occupations Code, the section of state law entitled « *Integrated Pest Management Programs for School Districts* ».

The intent of the bill is to reduce costs to Texas school districts in this time of very tight budgets.

A BILL TO BE ENTITLED AN ACT relating to the flexibility of the board of trustees of a school district in the management and operation of public schools in the district.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 13. The following provisions are repealed:

- (1) Section 21.402(d), Education Code; and
- (2) Section 1951.212, Occupations Code.

SECTION 17. This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section 39, Article III, Texas Constitution. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2011.

Considerations ...

In agriculture, Integrated Pest Management (I.P.M.) is a pest control strategy that uses a variety of complementary strategies including — mechanical devices, physical devices, genetic, biological, cultural management, and chemical management.

For several decades, Integrated Pest Management has been BASTERDIZED into many versions in order to suit the needs Enviro-Lunatics, Educators, and others.

The Enviro-Lunatic-Version of Integrated Pest Management includes the ELIMINATION of the use of conventional pest control products while at the same time managing pest populations at an acceptable level.

Unfortunately, Integrated Pest Management has been designed to be applicable to the Agriculture Industry, and NOT the Green Space Industry.

Overall, Integrated Pest Management is a FAILURE and a WASTE OF TIME AND MONEY for the Green Space Industry.

Integrated Pest Management is a FAILURE
and a WASTE OF TIME AND MONEY
for the Green Space Industry

Using Integrated Pest Management ACCOMPLISHES VIRTUALLY NOTHING in terms of resolving the PUBLIC AFFAIRS ISSUES concerning the PROHIBITION of pest control products.

Nor does the Pesticide-Free Version of Integrated Pest Management effectively and consistently control the pests of turf and ornamental plants.

Pesticide-Free Integrated Pest Management will NEVER achieve the level of total reduction or elimination attained by using conventional pest control products.

Wherever Pesticide-Free Integrated Pest Management is entirely relied upon for the maintenance of turf and ornamentals, damaging pests MAY only be slightly suppressed, AT THE EXPENSE OF PLANT GROWTH AND PLAYING CONDITIONS.

In practice, I.P.M. MAY BE MORE USEFUL in providing some LIMITED IMPROVEMENT towards the efficiency and effectiveness of conventional pest control products.

I.P.M. Doom

The leaders of the Green Space Industry who are promoting Integrated Pest Management are leading everyone to their DOOM !

The DISMAL FAILURE of Ontario Voluntary Turf Integrated Pest Management Accreditation

In essence, Integrated Pest Management became FASHIONABLE because of the impending threat of PROHIBITION of conventional pest control products.

For example, in 2005, the Ontario Green Space Industry launched I.P.M. ACCREDITATION as an alternative to the looming municipal PROHIBITIONS against conventional pest control products.

Indeed, since 2003, Pamela Charbonneau, a Turfgrass Specialist with Ontario Ministry of Agriculture, Food and Rural Affairs, had been spear-heading the ambitious Ontario Voluntary Turf Integrated Pest Management Accreditation program.

Charbonneau claimed, naively, but in good faith, that ...

« *The I.P.M. Council has proposed I.P.M. Accreditation as an alternative to pesticide prohibitions in municipalities in Ontario as a means to APPEASE environmentalists.* »

Ontario Voluntary Turf Integrated Pest Management Accreditation may have served only to irritate Non-Expert-Lunatic-Prohibition-Terrorists, who countered that this I.P.M. program SHOULD HAVE ELIMINATED the need to use ALL conventional pest control products.

In the final analysis, the Ontario Voluntary Turf Integrated Pest Management Accreditation program was a DISMAL FAILURE — despite the fact that pest control products are HEALTH-CANADA-APPROVED and SCIENTIFICALLY-SAFE, dozens of Ontario municipalities legislated PROHIBITION.

On April 22nd, 2009, the Government of Ontario implemented legislation the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products used by the Modern Professional Lawn Care Industry.

The **DISMAL FAILURE** of
Integrated Pest Management
to **REDUCE** pest control product use

Integrated Pest Management **DOES NOT** necessarily reduce the use of pest control products.

Moreover, Pesticide-Free Integrated Pest Management **DOES NOT** effectively and consistently control the pests of turf and ornamental plants.

In fact, municipal parks departments that have boasted using I.P.M. practices have been reportedly using **MORE** chemicals rather than less.

Furthermore, the Green Space Industry has been criticized by lunatics for not being forthcoming in acknowledging **REDUCTION** as the goal of their I.P.M. programs.

With #@!!% I.P.M. **NONSENSE**, the Green Space Industry is **SIMPLY VALIDATING A NEED-LESS APOLOGY** for its use of pest control products when **NO** apology is necessary.

And sadly, the Green Space Industry has accepted the **FEAR-MONGERING** from Environmentalists as fact.

Integrated Pest Management was solely adopted by the Green Space Industry to **APPEASE** Environmentalists.

TRUTH — Conventional pest control products are **SCIENTIFICALLY SAFE** !

Overall, when they are used properly, there are **NO** harmful irreversible effects to health and the environment !

Unfortunately, Integrated Pest Management has **NOT** been scientifically proven to **SIGNIFICANTLY REDUCE** or **ELIMINATE** the use of pest control products while effectively and consistently controlling the pests that damage turf and ornamental plants.

MOST people who claim Integrated Pest Management actually works are simply DAY-DREAMING IN THE OUTER LIMITS.

Moreover, several people who allege that Integrated Pest Management works effectively are likely concocting LIES, MISCONCEPTIONS, and DECEPTIONS for their own twisted personal interests — their so-called success stories regarding I.P.M. are usually UNVERIFIABLE.

Trade associations and business groups that support #@!!% I.P.M. NONSENSE DO NOT KNOW WHAT THEY ARE TALKING ABOUT, and may actually be deliberately DECEPTIVE AND MALICIOUS with their UNVERIFIABLE SUCCESS STORIES !

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
