

Guelph Turfgrass Institute – Why Would Anyone Be Witless Enough To Give More & More Money To An Institution With A History Of Repeated Failures, Betrayals, & Bad Services ?!?! – 2017 06 26

WILLIAM H GATHERCOLE AND NORAH G

Once GTI Has Been Declared Dead, We Will All Be Better Off !

Summary

Why would anyone be witless enough to give more & more money to an institution with a disappointing history of repeated failures, betrayals, and bad services ?!?!

Why give millions of dollars, for the second time in thirty years, for the construction of more facilities for Guelph Turfgrass Institute (GTI) at the University of Guelph ?!?!

With its 2009 provincial prohibition, government of Ontario failed and betrayed legal and tax-paying businesses operating in the professional lawn care industry.

These products were desperately need by businesses in order to adequately control damaging pest of turf, and to retain residential and commercial customers.

Like its government-employer, GTI also failed and betrayed these businesses, as its so-called « *turf experts* » operated as the instruments of government propaganda against pest control products.

In essence, GTI's so-called « *turf experts* » are employees of the pesticide-hating government of Ontario, the regime that imposed reckless, arbitrary, and destructive prohibition against pest control products used in the urban landscape.

In fact, ALL GTI staff, who, basically, are mere government officials employed by the provincial government, have been told to « *toe the line* » on policy issues like prohibition.

Overall, every government official, including GTI staff, MUST support prohibition, or face termination from employment, and suffer the loss of the lucrative government pension plan.

GTI staff have been forced to become anti-pesticide business-loathing fanatical-activists, posing as « *turf experts* », who do the bidding of the government at the expense of the businesses they are supposed to serve.

Additionally, GTI has fallen under further scrutiny because of its failures, betrayals, and bad services.

Consequently, businesses operating in the professional lawn care industry lost over 500,000,000 dollars, with over 12,500 unemployed.

In addition to a catastrophic loss of customers, Ontario's prohibition cost businesses millions of dollars when they were forced to radically change their operations and re-brand their market.

In the midst of this financial carnage, inflicted deliberately by its government-employer, GTI is asking, yet again, for more millions of dollars for new facilities.

The first facilities of the Guelph Turfgrass Institute (GTI) were officially established in 1987.

At the time, GTI asked the green space industry to pay-out millions of dollars to make GTI a reality at the University of Guelph.

Construction began with the sod-turning ceremony in November 1991.

Unfortunately, government of Ontario owned the land the GTI was built on, with the lease expiring in 2018.

The provincial government decided not to renew GTI's lease, preferring to use the land for profit in real estate development.

And now, in 2017, GTI is asking for more money for more facilities ... again.

Should the green space industry financially support director Eric Lyons and GTI ... again ?!?!

Should the professional lawn care industry support GTI ... again ?!?!

Should ANY industry provide financial support ?!?!

Hasn't GTI fooled everyone enough, and repeatedly, with its failures, betrayals, and bad services ?!?!

Should each business owner say ...

*I am a good enough person TO FORGIVE YOU,
But not stupid enough TO TRUST YOU AGAIN.*

Let GTI die.

Once it has been declared dead, we will all be better off !

GTI's Bad Treatments – Failures

What are the bad treatments that have been dispensed by GTI ?!?!

The Failures Of GTI

GTI Has Actually Badly-Treated Its Beloved Founder

GTI Has Badly-Treated Businesses Operating In The Professional Lawn Care Industry

GTA Has Also Badly-Treated Chemical Manufacturers

GTI Loathes Businesses ?!?!

Shockingly, in 2013, NO ONE at GTI even bothered to pay tribute to the passing of Dr Jack Eggens, including Eric Lyons.

<http://pesticidetruths.com/2013/10/02/dr-jack-l-eggens-disrespected-by-idiotic-leaders-of-the-turf-industry-2013-10-02/>

Why ?!?!

Should observers conclude that GTI deserves no money since it appears to be composed of bad people who act as Dr-Eggens-hatingfanatxcal-activists ?!?!

Is GTI planning to reverse its bad treatment against Dr Eggens, and take steps to honor his name ?!?!

With its bad treatment of the founding father of GTI, Dr Jack Eggens, it is no small wonder that GTI also badly-treated the professional lawn care industry. (See above segments entitled Bad Actions and Bad Advice.)

Has GTI badly treated the professional lawn care industry because it loathes businesses ?!?!

And GTI has also badly treated chemical manufacturers.

It is widely-known that some chemical manufacturers have refused to employ GTI to research their products because it is not trustworthy !

So now, businesses operating in the professional lawn care industry are expected to provide more money to compensate for GTI's bad treatment of manufacturers.

Really ?!?!

Is GTI planning to stop its bad treatment of the past ?!?!

Do the businesses operating in the professional lawn care industry believe that they have been badly-treated by GTI ?!?!

Do they believe that their interests and their profitability would be best served by financially supporting GTI's services ?!?!

Should they forgive GTI for all of its bad actions, bad advice, bad experts, and bad treatments, and give it more money ?!?!

Or, should they conclude that GTI deserves no money since its so-called « *turf experts* » serve absolutely no useful purpose to the professional lawn care industry ?!?!

Really ?!?!

Suzuki was honoured three years after the government of Ontario imposed its prohibition against pest control products used in the urban landscape.

Because of Suzuki's interference in partisan anti-pesticide conspiracies in Ontario, thousands of decent, hard-working, and law-abiding people have lost their jobs and have suffered hardship because of disintegrating customers and plummeting revenues in the professional lawn care industry.

Does David Suzuki and University of Guelph (and GTI) have some kind of a secret agreement ?!?!

It is now common knowledge that David Suzuki DID have a secret agreement with Premier Dalton McGuinty about environmental policy in Ontario !

It is a fact that McGuinty used The Ontario Trillium Foundation to finance anti-pesticide & environmental-terrorist organizations, like David Suzuki's, that, in return, supported the conspiracy against pest control products in Ontario.

It is a fact that, in 2010, David Suzuki Foundation received between 100,000 and 250,000 dollars from McGuinty through The Ontario Trillium Foundation.

Overall, through The Ontario Trillium Foundation, McGuinty paid out over 2,000,000 dollars towards the subversive anti-pesticide conspiracy of prohibition.

How much money has University of Guelph (and GTI) given to David Suzuki !?!

As a result of his political interference in the Ontario 2011 General Election, David Suzuki was quietly forced to step down from the board of directors of David Suzuki Foundation

But, David Suzuki still got his honorary degree from the University of Guelph in 2012.

Is there enough separation between environmental-terrorists and government officials in Ontario !?!

Is there enough separation between environmental-terrorists and University of Guelph (and GTI) !?!

Additionally, Ontario's prohibition cost businesses millions of dollars when they were forced to radically change their operations and re-brand their market.

Should businesses forgive GTI's employer, the government of Ontario, for this financial carnage ?!?!

Nonetheless, even if businesses forgive GTI for all of its bad actions, bad advice, bad experts, and bad treatments, then should they also forget that GTI will continue in its role as a despicable propaganda shield for the Liberal government of Ontario.

No More Free Money For GTI

Why not consider the following policy that some observers have been advocating for over a decade ?!?! ... (See link & text below.)

<http://pesticidetruths.com/toc/professional-lawn-care-industry-critical-issues/>

Policy Recommended For The Professional Lawn Care Industry

Get Rid Of Anti-Pesticide Teaching & Research Institutions

The professional lawn care industry must terminate all relationships with all teaching and research institutions that support the prohibition against conventional pest control products.

This includes Guelph Turfgrass Institute (GTI) at the University of Guelph.

All joint activities and educational seminars must be ended for an indefinite period of time.

All financial donations must be stopped indefinitely.

No more free money for GTI.

If they are not with us, then they are against us !

Let GTI, and other institutions, die.

Once it has been declared dead, we will all be better off !

WE SPEAK THE WHOLE TRUTH ABOUT GUELPH TURFGRASS INSTITUTE FROM AN INDEPENDENT PERSPECTIVE !

We are the **N**ational **O**rganization **R**esponding **A**gainst **HUJE** that conspire to destroy the **G**reen space and other industries (**NORAHG**). As a non-profit and independent organization, we are environmentalists who are dedicated to reporting about truth-challenged pesticide-hating fanatics (**HUJE**) who conspire to destroy businesses that are dependent on the use of safe and effective conventional pest control products. We also report on the work of several highly-rated leading experts who have recognized expertise, training, and background in matters concerning pest control products, and who promote environmental realism and pesticide truths.

<http://wp.me/p1jq40-8DV>

NORAHG is the sworn enemy of lying, pompous, smug, badly educated, & pesticide-hating enviro-fanatics like those found at Guelph Turfgrass Institute (**GTI**). Overwhelming scientific evidence clearly demonstrates that pest control products are scientifically-safe, and will not cause harm to children, adults, animals, or the environment. <http://wp.me/p1jq40-7HR>
<http://wp.me/P1jq40-2ha> <http://wp.me/p1jq40-6Q6>
<http://wp.me/p1jq40-5ni>

Not surprisingly, enviro-fanatics have demonstrated that they are incapable of processing overwhelming scientific evidence. Should we trust these fanatics, who conveniently ignore scientific evidence, and attempt to impose their politicized-doctrines and twisted life-style choices against our society !?!?

NORAHG was the brainchild of Mr William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder. We dare to defy the pesticide-hating fanatics by exploring the whole truth from an independent perspective on The Pesticide Truths Web-Site ... <http://pesticidetruths.com/>

With a Conservative victory in the 2019 Canadian Federal Election, there will be NO NATIONAL PROHIBITION against pest control products.
