

In the 9 | 11 Era of Anti-Pesticide Terrжrism ...

- Anti-pesticide prohibition leads to the problem of weed invasion and insect infestation, occurring shortly after any municipality has prohibited the use of pest control products.
- Because of anti-pesticide prohibition, municipal parks and sport fields are over-run by weeds, and must be totally renovated since they are in an unusable condition for playing safely.
- Because of the failure of organic pesticide-free maintenance, municipal employees have had to resort to the back-breaking and agonizing job of weed pulling by hand using hoes!
- Consequently, municipal employees have been devalorized into a group of mere cotton-pickers.
- Municipal employees are demanding that prohibitions be rescinded so that they can be allowed to use pest control products that are Health-Canada-approved and federally-legal.
- Municipal employees want to stop being treated like cotton-pickers.
- Municipal government officials are now considering reverting back to conventional pest control products like Roundup since green alternative pesticides and practices do not work.

Cotton-Picking and the Return of Roundup

March 11th. 2012

District of Coldstream

[Greater Vernon, British Columbia]

Vernon Morning Star

Selected and adapted excerpts

Manual Cotton-Picking Labour

In municipalities throughout British Columbia, Government Officials are now CONSIDERING REVERTING BACK to conventional pest control products like Roundup since Green Alternative Pesticides and Practices DO NOT WORK.

Without the use of conventional pest control products, municipal employees have had to resort to the BACK-BREAKING and AGONIZING JOB of WEED PULLING BY HAND USING HOES!

In municipalities like Coldstream, British Columbia, the professional labour force has been DEVALORIZED into a group of mere COTTON-PICKERS.

District Municipality of Coldstream

Coldstream is a District Municipality in British Columbia, located in the Okanagan Valley, with a population under 10,000.

The municipality is directly south-east of the City of Vernon, and is considered part of Greater Vernon.

It is a member municipality of, and also the location of the head offices of, the Regional District of North Okanagan.

Anti-Pesticide CARNAGE

Coldstream parks are OVER-RUN BY WEEDS, and MUST BE TOTALLY RENO-VATED.

The PROBLEM OF WEEDS surfaced after Coldstream PROHIBITED the use of pest control products in 2009.

While WEED-PICKING was used initially to control weeds, it appears NO professional municipal employee wanted to continue with this form of MANUAL COTTON-PICKING LABOUR.

Regional District of North Okanagan staff reported that, because of Anti-Pesticide PROHIBITION, the Creekside Park BASEBALL DIAMOND will cost ...

- 6,000 dollars **PER WEEK** for MANUAL COTTON-PICKING LABOUR involving HOEING, and
- 5,809 dollars **PER WEEK** for DRAGGING THE SITE.

Moreover, the Creekside Park BASEBALL DIAMOND must be COMPLETELY RENOVATED with RE-SURFACING and NEW SHALE.

Regional District of North Okanagan will spend 3,000 DOLLARS to bring the Creekside Park BASEBALL DIAMOND up to standard SINCE THE WEEDS LEFT IT IN AN UNUSABLE CONDITION FOR PLAYING SAFELY.

Anti-Pesticide CARNAGE (continued)

According to the Coldstream Park Administrator —

We will RESTORE the diamond to a USABLE STATE.

However, it is undetermined exactly how Regional District of North Okanagan will ensure weed growth will not occur again.

This is because there are NO viable, efficacious, economical, or low-risk alternatives to replace conventional weed control products like Roundup.

Organic Pesticide-Free Maintenance DOES NOT WORK.

Roundup Is Environmentally-Friendly

Coldstream has DEMANDED that Regional District of North Okanagan allow it to use a federally-approved « *organic* » weed control product to control weeds along the BASEBALL PATHS.

The BASEBALL PATH is the area within which a base runner must stay when running between bases.

But there are differences of opinion between reasonable people and antipesticide lunatwcs on what the term « *organic* » means as all compounds are organic in nature, but there may still be an environmental impact.

Roundup Is Environmentally-Friendly (continued)

According to the Coldstream Park Administrator —

Whether it is ROUNDUP or other federally approved chemicals, yes (WE WILL USE THEM).

If you talk to the people who approve herbicides, they will argue it is ENVIRONMENTALLY-FRIENDLY.

More Manual Cotton-Picking Labour

But some Anti-Pesticide Enviro-Lunatxc Officials are not sure staff actions are consistent with Coldstream's wishes not to put so-called harmful substances into the environment.

Lunatxc Director Gyula Kiss wants the district's professional labour force to continue working as COTTON-PICKERS.

Here is statement of MOCK-IGNORANCE from Lunatжс Director Gyula Kiss —

l don't know why it's that difficult to maintain it without herbicides. [?!?!]

The reason is simple — Lunatæc Director Gyula Kiss has ABSOLUTELY NO training, background, or expertise in matters pertaining to weed control.

Dangerous Playing Surfaces

Organic Pesticide-Free Maintenance creates GARBAGE DUMPS and DANGER-OUS PLAYING SURFACES — ESPECIALLY FOR CHILDREN!

Anti-Pesticide Activists are willing to COMPROMISE ON THE SAFETY OF CHIL-DREN who need a CUSHION OF HIGH-QUALITY TURFGRASS when playing and running and falling.

Without conventional pest control products, playing surfaces become THIN AND YELLOW, and OVER-RUN WITH WEEDS and INFESTED WITH INSECTS, resulting in the DISMAL DESTRUCTION OF TURF PLAYING SURFACES.

Concerns about the Creekside Park infields have come from the Vernon Baseball Association —

It presents some real challenges to our young ball players.

There's SIGNIFICANT RISK for them, and they don't want to slide, there's fear of TRIPPING.

Anti-Pesticide PROHIBITION imposed under the PRETEXT of protecting children's health is WRONG since children are actually AT HIGH RISK of TRIPPING and becoming SERIOUSLY HURT.

Safe Conditions WITH Pest Control Products

Pest control products PREVENT slipping injuries on sports turf.

Organic Pesticide-Free Maintenance creates HAZARDOUS SLIPPING CONDITIONS on playing surfaces.

On sports turf, safety considerations also influence decisions to use pest control products because bare areas, or large weedy patches, can increase the SLIPPING HAZARD.

The Precautionary Principle dictates that pest control products SHOULD NOT BE PROHIBITED.

With the choice between treating and not treating, the decision for proper weed control must be made.

Proper weed control on turf helps PREVENT SLIPPING INJURIES by eliminating broad-leaved weeds with pest control products that have been SCIENTIF-ICALLY-ASSESSED.

The SAFETY ASSESSMENT of pest control products takes into consideration CHILDREN's physiology, behaviours, and habits WHILE PLAYING ON TREATED GRASS.

Moreover, there are NO valid reports of problems with children, and there is NOT ONE KNOWN ILLNESS or DEATH from the proper use of pest control products used in the Urban Landscape.

Organic and Pesticide-Free Maintenance Practices Are

DISMAL FAILURES

They Represent a MAJOR THREAT to the SAFETY of CHILDREN and ADULTS

Enviro-Vermin Promoting These Practices Must Be Eradicated from the Green Space Industry

Rat them out!

We are living in the 9|11 Era of Anti Pesticide Terrxrism where at least ONE SUBVERSIVE ACT OF TERRXR is Perpetrated EVERY SINGLE DAY by enviro lunatxcs.

We are living in the DARK AGE OF ANTI PESTICIDE TERRXRISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OP-POSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatxcs and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti-Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION!

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide Terrxrism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental Terrxrist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunabac Terracity Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terracity UNMASKED • Environmental Terracity Organizations • Enviro PROFIT • Environmental Defence • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunabaces • Fertilizer TERRACA • Food and Farming • Get Off Our grASS • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terracity • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terracity • History of Environmental Terracity in Canada • History of the Turfgrass • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTAR-IO Conspiracy, Haven For Environmental Terracity Sontation on College of Family Physicians • Organic Golf Courses • Organic Mainte-Industry • Ontario College of Family Physicians • Organic Golf Courses • Organic Mainte-Industry • Ontario College of Family Physicians • Organic Golf Courses • Organic Mainte-Industry • Ontario College of Family Physicians • Organic Golf Courses • Organic Mainte-Industry • Ontario College of Family Physicians • Organic Mainte-Industry • On

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide Terrxrism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
