Hot Air Of Dr Oz

David Copperfield performed many an illusion on his television specials with his hair blowing in the wind, tussled by an offstage fan.

I was reminded of that Copperfield effect by an episode of the Dr Oz Show, in which the HOT AIR so often generated by the host was amplified by a fan à la Copperfield.

[Mehmet Cengiz Oz, a.k.a. Dr Oz, is a mere author, television personality, and non-practicing surgeon, who has ABSOLUTELY NO training, expertise, or education, in matters concerning pest control products. His opinions on these issues are ABSOLUTELY INVALID and UTTERLY WORTHLESS. Oz is also known as a SNAKE OIL SALESMAN and an UNSCIENTIFIC FEAR-MONGERER — see later segments. Oz CONSPIRES to IMPOSE RECKLESS and ARBITRARY PROHIBITION against pest control products.]

False Perceptions Of Dr Oz

And Oz, on his show, was PERFORMING A SORT OF ILLUSION, if we go by the definition of the term as ...

... something that deceives by a FALSE PERCEPTION or belief.

Gross Mis-Representations By Dr Oz

On his show, Oz dumped a bunch of yellow feathers on a patch of synthetic turf adorned with some synthetic plants to demonstrate the SPRAY DRIFT of pest control products.

The flurry of feathers was meant to illustrate how neighbouring fields, as well as people who happen to be nearby, may be affected.

A powerful VISUAL SKIT to be sure, but a GROSS MIS-REPRESENTATION of the risks posed by SPRAY DRIFT of pest control products.

The Wisdom of Schwarcz — We Need Rational Discussion And Not Unscientific Fear-Mongering By Dr Oz

Unscientific Fear-Mongering Against Enlist Duo By Dr Oz

The reason for the demo, at this particular time, was that, in Oz's words during his show —

*... the Environmental Protection Agency is on the brink of approving a BRAND NEW TOXIC PESTICIDE [Enlist Duo] you don't know about. [**?!?!]***

While no pest control product is completely risk-free, UNSCIENTIFIC FEAR-MONGERING about them is NOT HELPFUL, Dr Schwarcz says.

See next segment for more information about Enlist Duo.

The Wisdom of Schwarcz — We Need Rational Discussion And Not Unscientific Fear-Mongering By Dr Oz

What Is Enlist Duo ?

At issue with Oz was a herbicide named Enlist Duo, a mixture of the weed control ingredients glyphosate and 2,4-D (short for 2,4-dichlorophenoxyacetic acid), designed to be used on corn and soy grown from seeds genetically-engineered to resist these herbicides.

Fields can then be sprayed to control weeds without harming the crops.

Enlist Duo is already APPROVED in Canada.

The need for Enlist Duo was generated by the development of resistance to glyphosate by weeds in fields planted with crops genetically-modified to tolerate this herbicide.

Such resistance has NOTHING TO DO with genetic-modification, it is a consequence of biology, since some members of a target species will have a natural resistance to a herbicide, and will go on to reproduce and yield offspring that are also resistant.

Eventually, the whole population becomes resistant.

This is the same problem we face today with bacteria developing resistance to anti-biotics.

The Safety Of Pest Control Products

Oz got one thing right.

Pest control products are TOXIC.

THAT'S EXACTLY WHY THEY ARE USED.

And that is why there is EXTENSIVE RESEARCH about their effects and strict regulation about their application.

Remember that THERE ARE NO SAFE AND NO DANGEROUS CHEMICALS,
JUST SAFE OR DANGEROUS WAYS TO USE THEM.

2,4-D Herbicide Is Dangerous [?!?!]

As far as 2,4-D and glyphosate go, there is nothing new here, since both of these have been widely used for years, although not in the specific mixture of Enlist Duo.

What is new is the development of crops resistant to 2,4-D, which will allow for its use to control weeds in corn and soy fields, something that was not possible before.

This has raised alarm among those who maintain that 2,4-D is [**somehow**] DANGEROUS, and that its increased use is going to affect human health. [**?!?!**]

Oz apparently is of this belief.

The Wisdom of Schwarcz — We Need Rational Discussion And Not Unscientific Fear-Mongering By Dr Oz

Agent Orange And TCDD

On an episode of the Dr Oz Show, as the feathers were flying around the stage, Oz himself chimed in with how ...

... 2,4-D is a chemical that was used in Agent Orange [a.k.a. Herbicide Orange] which the government banned during the Vietnam War. [?!?!]

2,4-D was indeed one of the components in the notorious Agent Orange used to defoliate trees during the Vietnam War.

Tragically, it was later found to be contaminated with tetrachlorodibenzodioxin (TCDD), a highly toxic chemical linked to birth defects and cancer.

TCDD, however, has NOTHING TO DO with 2,4-D.

TCDD was inadvertently formed during the production of 2,4,5-trichloroacetic acid, or 2,4,5-T, the other component in Agent Orange.

That is why the production of 2,4,5-T, but not 2,4-D, was banned.

WEB-PAGE — HERBICIDE ORANGE

HERBICIDE ORANGE A.K.A. AGENT ORANGE ([Web-Page](#))

The Wisdom of Schwarcz — We Need Rational Discussion And Not Unscientific Fear-Mongering By Dr Oz

Enlist Duo Does Not Contain TCDD

It is DECEITFUL [of Oz] to imply that Enlist Duo is [somehow] DANGEROUS because it [supposedly] contains the harmful chemical [TCDD] that was used in Agent Orange. [?!?!]

Enlist Duo DOES NOT CONTAIN any TCDD.

Moreover, the form of 2,4-D in Enlist Duo is also DIFFERENT from what was used in the Vietnam War.

Enlist Duo is formulated with 2,4-D CHOLINE which has an even SAFER PROFILE than 2,4-D itself, and is far LESS VOLATILE.

While legitimate concerns can be raised about genetic-modification, it is DISINGENUOUS TO SCARE THE PUBLIC by linking Enlist Duo to Agent Orange.

It is also IRRESPONSIBLE to show videos of crops, such as green peppers, being sprayed, insinuating that Enlist Duo will be used on all sorts of crops.

In fact, Enlist Duo is only suitable for Dow's genetically-engineered corn and soy.

The Wisdom of Schwarcz — We Need Rational Discussion And Not Unscientific Fear-Mongering By Dr Oz

Lower Tendency Of Spray Drift With Enlist Duo

On the issue of SPRAY DRIFT with pest control products, it can happen in TWO WAYS —

[1] Tiny droplets of the spray can be carried by air currents, and ...

[2] The chemicals can also evaporate and spread as a vapour after being deposited on a field in their liquid form.

These are realistic concerns especially given that some schools are located in the vicinity of agricultural fields.

But these are just the sort of concerns that are TAKEN INTO ACCOUNT when a pest control product is approved.

For example, one well-designed study concluded that a person standing about 40 metres from a sprayer would be exposed to about 10 microlitres of spray, of which 9 microlitres are just water.

Calculations show that the amount of 2,4-D in the 1 microlitre is WELL WITHIN SAFETY LIMITS, and of course spraying isn't continuous, it is done only a few times a year.

Consider also that 2,4-D CHOLINE, which is what is found in Enlist Duo, has FAR LOWER VOLATILITY AND TENDENCY TO DRIFT than 2,4-D itself, FURTHER IMPROVING ITS SAFETY PROFILE.

[What does Health Canada do to protect against the risks of SPRAY DRIFT ? Under normal use conditions specified on the label, residues of pest control products from SPRAY DRIFT are not a concern for users or by-standers. <http://tinyurl.com/pno7y5l>]

Unscientific Fear-Mongering By Dr Oz

While no pest control product can be regarded as risk-free, the portrayal of Enlist Duo by Oz on his show amounts to UNSCIENTIFIC FEAR MONGERING.

Oz's final comments were —

This subjects our entire nation to one massive experiment, and I'm very concerned that we're at the beginning of a catastrophe that we don't have to subject ourselves to. [?!?!]

Oz's comments TOTALLY IGNORES THE MASSIVE NUMBER OF ASSESSMENTS that have been carried out on pest control products before approval, based on a scientific rather than an emotional evaluation of the risk versus benefit ratio.

The Wisdom of Schwarcz — We Need Rational Discussion And Not Unscientific Fear-Mongering By Dr Oz

What We Need Is Rational Discussion

True, when it comes to pest control products, there is no free lunch.

But without the judicious use of such agrochemicals producing that lunch for the close to 10 billion people, who by 2050 will be lining up for it, becomes a challenge.

WHAT WE NEED IS RATIONAL DISCUSSION, not the spraying around of feathers and ill-informed rhetoric in a deception-laden stage act [like an episode of the Dr Oz Show].

If I want DECEPTION ON THE STAGE [or on an episode of the Dr Oz Show], I'll stick to watching David Copperfield.

Selected And Adapted Excerpts

Background Information

Dr Oz Is A Snake-Oil Salesman Who Says Things That Are NOT True !

On July 15th, 2014, Oz took a beating on the U.S. Capitol Hill as he was GRILLED, SCOLDED, CRITICIZED, and RIPPED (those are just some of the headlines) by members of a Senate Panel on Consumer Protection, led by Democratic Senator Claire McCaskill of Missouri.

And, Oz is being called A SNAKE OIL SALESMAN.

It all came down to ONE MAJOR DEVASTATING INTERACTION.

Senator McCaskill asked Oz about describing certain supplements on his show as a so-called MAGIC WEIGHT-LOSS CURE, and the supposed NO. 1 MIRACLE IN A BOTTLE.

Senator McCaskill said —

I don't get why you say this stuff because you know IT'S NOT TRUE.

So why, when you have this amazing mega-phone, and this amazing ability to communicate, WHY WOULD YOU CHEAPEN YOUR SHOW BY SAYING THINGS LIKE THAT ?

And Senator McCaskill also said —

I get that you do a lot of good on your show, but I don't get why you need to say this stuff because you know IT'S NOT TRUE.

Oz's weak answers —

I actually do personally believe in the items I talk about in the show. [?!?!]

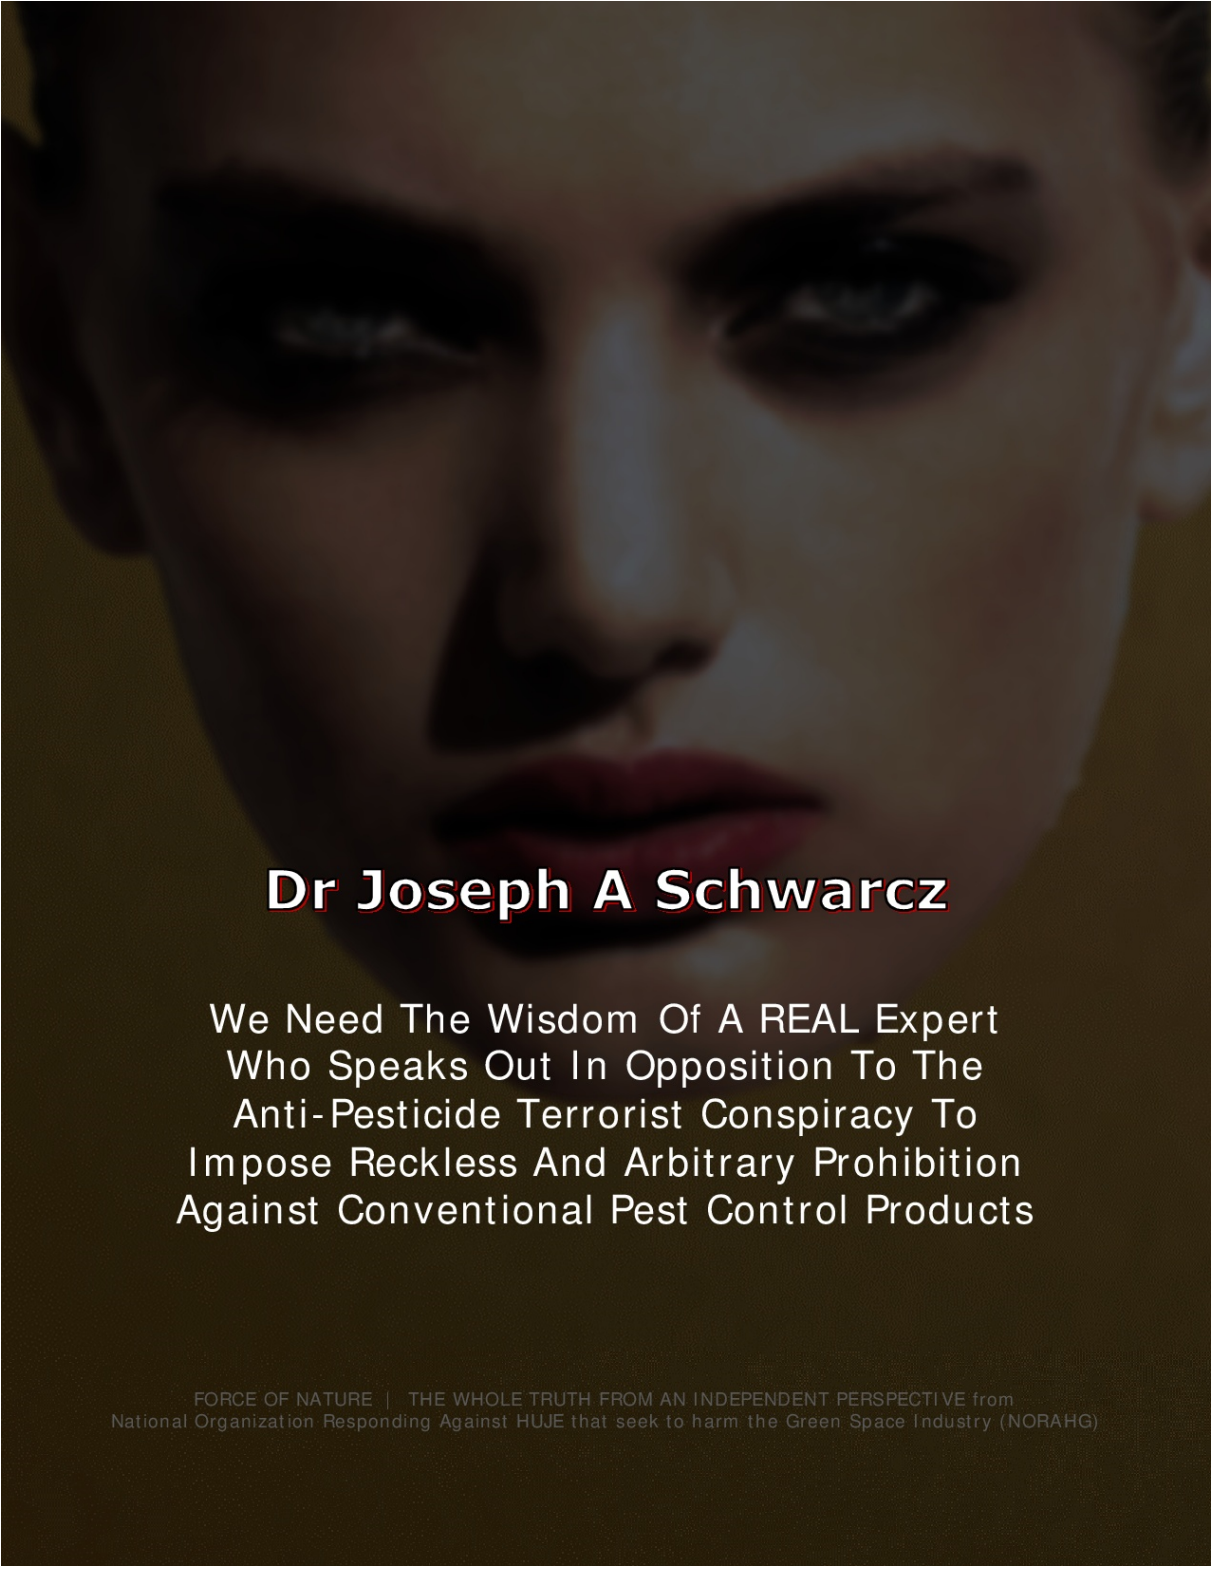

I passionately study them. [?!?!]

I recognize that, often times, THEY DON'T HAVE THE SCIENTIFIC MUSTER TO PRESENT AS FACT. [?!?!]

And another of Oz's weak answers —

My job, I feel, on the show is to be a cheer-leader for the audience when they don't think they have hope, and they don't think they can make it happen. [?!?!]

Yup. A SNAKE OIL SALESMAN.

Go to [THE PESTICIDE TRUTHS WEB-SITE — ARCHIVE OF REPORTS](#)

Communities and businesses are being HARMED and DESTROYED and RAPED by LUNATICS who ARBITRARILY AND RECKLESSLY IMPOSE PROHIBITIONS against pest control products used in the Urban Landscape, and who PERPETRATE OTHER ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is perpetrated EVERY SINGLE DAY by LUNATICS.

A LUNATIC is a person whose actions and manner are marked by extreme recklessness.

The RECKLESS ACTS OF SUBVERSION by these LUNATICS has led to the ARBITRARY IMPOSITION of Anti-Pesticide PROHIBITION in several jurisdictions throughout North America.

The result was CATASTROPHIC CARNAGE !

Because of Anti-Pesticide PROHIBITION, provinces like Ontario now have a TRAIL OF ECONOMIC DESTRUCTION WITH HUNDREDS OF SMALL BUSINESSES DESTROYED and THOUSANDS OF PEOPLE OUT OF WORK, a MORE DANGEROUS OUTDOOR ENVIRONMENT, and a BLACK MARKET IN PESTICIDES.

Only TRUE LUNATICS would wish to create a TRAIL OF ECONOMIC DESTRUCTION WITH HUNDREDS OF SMALL BUSINESSES DESTROYED and THOUSANDS OF PEOPLE OUT OF WORK.

Because of these LUNATICS, we are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from so-called activists (a.k.a. LUNATICS) who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space and other industries, and the well-being of our communities.

NORAHG morally represents the [VAST SILENT MAJORITY](#) of people associated with turf and ornamental plant maintenance who are OPPOSED to LUNATICS and their Anti Pesticide PROHIBITIONS, resulting in the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT CONCOCTED BY LUNATICS of somehow « *saving* » the environment.

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting PESTICIDE FREE FAILURES, as well as the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

NORAHG busts the [THE MYTHS ABOUT BANNING PESTICIDES](#).

NORAHG responds on behalf of the [VAST SILENT MAJORITY](#) of THE PUBLIC THAT DOES NOT WANT PESTICIDE BANS, and SUPPORT those who work in the Professional Lawn Care Industry, the Golf Industry, and the Agriculture Industry.

NORAHG is opposed to PESTICIDE FREE jurisdictions where LUNATICS have DOOMED CHILDREN to SUFFER INJURIES since Anti-Pesticide PROHIBITION inevitably leads to public and residential green spaces that become DANGEROUS AND PEST-INFESTED GARBAGE DUMPS.

NORAHG is concerned that, because of PESTICIDE FREE MAINTENANCE of parks and sports fields, CHILDREN ARE AT HIGHER RISK OF SUFFERING INJURIES with [DANGEROUS PLAYING SURFACES CREATED BY #@!!% PESTICIDE BANS](#).

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder.

Force Of Nature was launched by NORAHG for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press.

Pesticide Truths and Force Of Nature, in some ways, are like Google for everything concerning the SUBVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.
