Conspiracy Against Roundup

Statement —

Can Bayer/Monsanto Ever Appease
Roundup-Hating Extremists, Undeserving
Plaintiffs With False-Cancer-Claims, &
Jackpot-Justice Plaintiff-Attorneys ?!?!

No Actual Risk Of Harm & Environmentally-Benign —

Glyphosate is the active ingredient in [NO-ACTUAL-RISK-] Roundup herbicide, which has been manufactured by Bayer since June 7th 2018, when the Monsanto [THE MANUFACTURER] brand was discontinued.

National regulatory agencies & expert organizations have affirmed that there is **NO ACTUAL RISK OF HARM** to public health & the environment when used properly.

According to science-based evidence, glyphosate is **ONLY** toxic to plants because it is an herbicide.

There is no known biological mechanism by which glyphosate could cause cancer, therefore its carcinogenicity is **NOT EVEN** theoretically possible.

World-wide, science-based national regulatory agencies & leading experts have been siding with the overwhelming scientific evidence demonstrating that glyphosate **WILL NOT REPRESENT AN ACTUAL CANCER RISK** — there is **NO** bio-medical & **NO** epidemiological evidence to support the **FALSE-CLAIM** that glyphosate causes cancer.

According to Dr Geoffrey C Kabat, cancer epidemiologist, **FARMERS FAVOUR GLYPHOSATE** because it is **ENVIRONMENTALLY-BENIGN** & has **LOW TOXICITY** — the acute toxicity of glyphosate is **LOWER** than that of **TABLE SALT**.

Roundup Toxicity —

Roundup is scientifically-safe, will **CAUSE NO HARM**, & will **NOT REPRESENT AN ACTUAL CANCER RISK**.

Roundup is **PRACTICALLY NON-TOXIC** according to LD₅₀ assessments — the **LOWEST** toxicity for risk assessments.

Roundup Original Liquid Herbicide, which contains glyphosate, is **PRACTICALLY NON-TOXIC** according to the assessment of its acute oral toxicity, which has been estimated to be **5000+ mg / kg**.

Roundup is **LESS TOXIC THAN** several **HOUSEHOLD ITEMS** — • Aspirin • baking soda • caffeine • cannabis • nicotine • table salt • Tylenol.

[**NO-ACTUAL-RISK**] Roundup is about **THREE TIMES LESS DEADLY** than Tylenol, & **THIRTY TIMES LESS DEADLY** than caffeine.

Roundup is **NO MORE TOXIC THAN** several **HOUSEHOLD ITEMS** — • ethanol (an edible beverage constituent in beer, wine, & other intoxicating beverages) • mouthwash (i.e. Listerine) • Vitamin C.

[**NO-RISK**] Roundup is — • scientifically-safe • practically non-toxic • will cause **NO** harm to human health & the environment • will **NOT** cause cancer • will **NOT** cause irreversible damage if consumed orally.

The probable lethal dose for a person ingesting the concentrated form of [**NO-RISK**] Roundup is **ONE LITRE**, the volume of an entire milk carton.

By comparison, drinking **SIX LITRES** of water, which is considered **HARMLESS**, can lead to water poisoning or dilutional hyponatremia, which is a potentially fatal disturbance in brain functions.

In essence, water is only **FIVE TIMES SAFER** than Roundup.

Glyphosate is scientifically-safe, will CAUSE NO HARM, & will NOT REPRESENT AN ACTUAL CANCER RISK.

Marxist Socialism —

The extremist-conspiracies against [NO-ACTUAL-RISK-] Roundup are designed to impose MARXIST SOCIALISM.

These conspiracies are not only an attack against scientific innovation, they are also a means of imposing SOCIALISM.

In western countries, the slide towards SOCIALISM (a.k.a. wealth re-distribution) is taking root not only at the ballot box, but also from the GULLIBLE & IGNORANT JURORS.

In essence, the KANGAROO-TRIALS against Roundup are extremist-conspiracies that are designed to re-distribute wealth from innovative companies, like Bayer / Monsanto, to UNDESERVING PLAINTIFFS WITH FALSE-CANCER-CLAIMS against Roundup — all while attorneys are taking a healthy cut for themselves.

Can Bayer / Monsanto ever appease Roundup-hating subversive-extremists & their attorneys ?!?! NO !

Biden Administration Interference —

President Joe Biden's socialist-administration has been INTERFERING WITH the US Supreme Court by demanding that it NOT to hear Bayer / Monsanto's APPEAL to dismiss claims by undeserving-plaintiffs who allege that Roundup causes cancer [?!?!] .

Bayer has argued that the cancer claims against Roundup defy sound science & product clearance from the US Environmental Protection Agency (US EPA).

Even the US EPA has affirmed & re-affirmed that glyphosate, the ingredient in Roundup, is NOT CARCINOGENIC & NOT A RISK to public health when used as indicated on the label.

Consequently, Roundup is scientifically-safe, will CAUSE NO HARM, & will NOT REPRESENT AN ACTUAL CANCER RISK.

Roundup Kangaroo-Trials & Bogus Lawsuits —

Roundup trials (i.e. cancer-trials) have been text-book cases of KANGAROO-COURT-JUSTICE.

Roundup-hating extremists have subversively perpetuated false-cancer-claims, fraudulent science, imaginary danger, & enviro-terrorrism against Roundup.

They are corrupt, fraudulent, politicized, & profit-hungry.

With these KANGAROO-TRIALS, the legal system has been IRRETRIEVABLY-CORRUPTED by this coordinated, well-funded attack by extremists, using FALSE-CANCER-CLAIMS, as well as social media, intimidation, & confrontation.

Who are some of these Roundup-hating extremists ?!?! — • PLAINTIFFS • ATTORNEYS • JUDGES • JURIES • CONSULTANTS.

- PLAINTIFFS — Profit-hungry UNDESERVING PLAINTIFFS have been FALSELY-ALLEGING that they suffer from some form of cancer, usually non-Hodgkin's lymphoma (NHL), often after years of exposure to Roundup.
- ATTORNEYS — Jackpot-justice attorneys have been launching frivolous litigation against Roundup. During the California KANGAROO-TRIALS, the plaintiffs' attorneys have manipulated the juries' emotions by using FALSE-CANCER-CLAIMS against Roundup in order to obtain verdicts that have led to UNJUSTIFIED JACKPOT AWARDS. Their legal arguments defied scientific evidence & manipulated these juries into falsely-believing that Roundup causes harm [?!?!] — the logic of science-based evidence has been replaced with emotion & virtue signaling.
- JUDGES — Kangaroo-trial judges have operated courts that condemn Roundup with FALSE-CANCER-CLAIMS, & have awarded JACKPOT-VERDICTS against the manufacturer of Roundup — virtually ALL verdicts are under appeal. Moreover, the judges in the first three KANGAROO-TRIALS against Roundup let the plaintiff-attorneys BOMBARD the jury with FALSE-CANCER-CLAIMS by the CHERRY-PICKED & POLITICIZED HAZARD REPORT from the controversial International Agency for Research on Cancer (IARC). The FALSE-CLAIMS that Roundup is carcinogenic should NEVER be admitted as evidence in ANY trial.

- **JURIES** — California's **GULLIBLE & IGNORANT JURIES** tend to mandate **UNJUSTIFIED JACKPOT AWARDS** to **UNDESERVING PLAINTIFFS** who have **FALSELY-ALLEGED** that they were dying of cancer because of their exposure to **[NO-ACTUAL-RISK-] Roundup**.
- **CONSULTANTS** — Self-appointed consultants have been used in trials to concoct **FALSE-CANCER-CLAIMS, FRAUDULENT SCIENCE, IMAGINARY DANGER, & ENVIRO-TERRRRORISM** against Roundup. For example, Christopher Portier, an allegedly-corrupt consultant for attorneys suing on behalf of plaintiffs who have falsely-alleged suffering from cancer after years of exposure to Roundup, an otherwise successful, innovative, & safe weed control product — nonetheless, Roundup is **NOT** a carcinogen. Portier has also been a part-time employee at Environmental Defense Fund, a notorious anti-pesticide & environmental-extremist organization. Portier was also behind the failed-evaluation of glyphosate by the controversial International Agency for Research on Cancer (**IARC**), a corrupt, fraudulent, politicized, anti-glyphosate, & environmental-extremist organization. He then served as an **« INVITED SPECIALIST »** for IARC, despite having no background in chemical research.

With Roundup kangaroo-trials (i.e. cancer-trials), the legal system has been **IRRETRIEVABLY-CORRUPTED**.

Examples Of Roundup Kangaroo-Trials & Bogus Lawsuits

Boden V Manufacturer : Roundup bogus lawsuit in Canada with no reported verdict or settlement

Clark V Manufacturer : Roundup kangaroo-trial & victory verdict in California

Gadd V Manufacturer : Roundup bogus lawsuit in Canada with no reported verdict or settlement

Hardeman V Manufacturer : Roundup kangaroo-trial & partial victory in California

Hunter V Manufacturer : Roundup bogus lawsuit in Canada with no reported verdict or settlement

Johnson V Manufacturer : Roundup kangaroo-trial & partial victory in California

Lindeblad V Manufacturer : Roundup kangaroo-trial in California with no reported verdict or settlement

Miller & Smolnicki V Manufacturer: Roundup bogus lawsuit in Canada with no reported verdict or settlement

Penner V Manufacturer : Roundup bogus lawsuit in Canada with no reported verdict or settlement

Pilliod V Manufacturer : Roundup kangaroo-trial & partial victory in California

Stephens V Manufacturer : Roundup kangaroo-trial & victory verdict in California

Roundup Causing Cancer Is A Myth —

There is **NO** legitimate research that is disturbing about Roundup (a.k.a. glyphosate).

A classification of [**NO-ACTUAL-RISK-**] Roundup with regard to carcinogenicity is **NOT JUSTIFIED**.

Roundup continues to survive the intense, periodic scientific scrutiny of the world's most rigorous national regulatory bodies.

Roundup causing cancer is a **MYTH**.

National regulatory agencies around the world agree Roundup is **SAFE** when used according to label directions.

Glyphosate-based products are the most widely used herbicides in the world, & these agencies have re-affirmed, over & over again, that Roundup is **NOT** carcinogenic.

These agencies include — • European Food Safety Authority (EFSA) • European Chemicals Agency (ECHA) • German BfR • Australian, Canadian, Korean, New Zealand, & Japanese regulatory authorities • Joint FAO / WHO Meeting on Pesticide Residues (JMPR) • US Environmental Protection Agency (US EPA).

Roundup will **NOT CAUSE HARM**.

People are killed by real carcinogens, such as alcohol & cigarettes, but **NOT** by Roundup or any other pesticides.

Roundup causing cancer is a **MYTH**.

Contrary to what pesticide-hating extremists lie about, there are **NO** pest control products that are known or probable carcinogens.

Prohibiting ingredients like glyphosate will prevent virtually **NO CANCER-HARM**.

Pest control products are nowhere near a leading cause of cancer-death, & there is **NO** chance that they will make you die of cancer.

In fact, there is **NOT ONE** known cancer-death from the proper use of these products used in the urban landscape & in agriculture.

Allegations that exposure to Roundup leads to cancer is **BIOLOGICALLY IMPOSSIBLE**.

Roundup is scientifically-safe, will **CAUSE NO HARM**, & will **NOT REPRESENT AN ACTUAL CANCER RISK**.

No Association Between Glyphosate & Non-Hodgkin's Lymphoma —

In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded in May 2022 that consumers should be confident that there is currently **NO EVIDENCE** of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL).

The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate **WITHOUT A CANCER WARNING LABEL**.

The results also raise questions on the **VALIDITY OF THOUSANDS OF PENDING LAWSUITS** alleging that glyphosate exposure causes cancer.

Glyphosate is scientifically-safe, will **CAUSE NO HARM**, & will **NOT REPRESENT AN ACTUAL CANCER RISK**.

Cancer Is Inevitable, But Not Because Of Pesticides —

Given that cancer is the number 2 leading cause of death, there is a good chance that you are going to die of cancer no matter what you do.

By contrast, pest control products, like Roundup, are nowhere near a leading cause of cancer-harm, & there is **NO** chance that they will make you die of cancer.

So, chill-out & have a drink, & forget about prohibiting ingredients like Roundup.

Appeasing Roundup-Hating Extremists !?! —

Roundup-hating extremists will **NEVER** be appeased & their environmental-terror will **NEVER** end !

Bayer / Monsanto face hostile Roundup-hating extremists with lunatic-doctrines that are fanatical in character, ruthless in purpose, subversive in method, & frivolous in nature.

In the 9|11 era of environmental-terror ... extremist-conspiracies have now spread against agriculture — & the golf industry will be next.

These conspiracies have attempted to prohibit Roundup, & other ingredients, from these hated industries.

Bayer / Monsanto must **STRIKE BACK** against Roundup-hating extremists !

California's Proposition 65

Statements —

California Wants A Cancer-Label Put On Products That Contain Glyphosate [?!?!]

US EPA Will Not Permit California To Put A Cancer-Label On Glyphosate Products

US EPA Will Not Allow California's Proposition 65 To Dictate Federal Policy

Cancer-Label Warnings —

California's Proposition 65 is an **EXERCISE IN MADNESS**.

The law, which is officially titled « *THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986* », has nothing to do with water.

Proposition 65 was merely an excuse for **PREDATORY TRIAL LAWYERS**, to file **LAWSUITS** against companies, small & large, with the laughable goal of « *PROTECTING THE PUBLIC* » by **SUING** companies that fail to « *WARN THE PUBLIC* » with **CANCER-LABEL WARNINGS** for **HARMLESS PRODUCTS**, like bird feeders, purses, shoes, Starbucks coffee, & Tiffany lamps, as well as hotel rooms, & amusement parks.

California also wants a **CANCER-LABEL WARNING** put on [**NO-ACTUAL-RISK-**] glyphosate. [?!?!]

However, the US Environmental Protection Agency (**US EPA**) **DOES NOT** see it that way when it comes to glyphosate.

The US EPA announced that it **WOULD NOT PERMIT** California to put a **CANCER-LABEL WARNING** on glyphosate.

The US EPA's decision is **SCIENTIFICALLY SOUND** on every level.

According to US EPA Administrator Andrew Wheeler —

*We will not allow California's **FLAWED PROGRAM** to dictate federal policy.*

The « **EVIDENCE** » supporting the use of a **CANCER-LABEL WARNING** for glyphosate is not only **FLIMSY** — it is a product of **FRAUDULENT RESEARCH** by the International Agency for Research on Cancer (**IARC**).

IARC is a corrupt, controversial, & fraudulent anti-glyphosate & environmental-extremist organization.

California's Proposition 65 was based on IARC's **PHONY FINDINGS** in its **CHERRY-PICKED & POLITICIZED HAZARD REPORT**.

Here is an excerpt from Dr Alex Berezow's evaluation of the IARC **HAZARD REPORT** —

We now have an answer ...

*The Times reports that Christopher Portier, a [**CORRUPT GLYPHOSATE-HATING**] key IARC advisor who lobbied to have glyphosate listed as a carcinogen, accepted **\$160 Thousand** from trial lawyers representing cancer patients who stood to profit handsomely by **SUING** glyphosate manufacturers.*

*Mr Portier's failure to disclose such an obvious **CONFLICT-OF-INTEREST** has exploded into a textbook case of **SCIENTIFIC FRAUD**.*

Scientific Fraud —

IARC is an organization that conspires against pest control products.

Fifty-two years after its inception, International Agency for Research on Cancer (**IARC**) has become a fringe group, seemingly more interested in scaring & terrorizing people than identifying actual health threats.

Any organization like IARC, that declares bacon to be as dangerous as plutonium, may have entirely lost its way.

Things started to unravel for IARC over a popular herbicide called glyphosate, which IARC considers a « *PROBABLE HUMAN CARCINOGEN* ». [?!?!]

Every major science & regulatory body **DISAGREES** with IARC, including US EPA & European Food Safety Authority (EFSA).

Even the World Health Organization (WHO), which is the parent of IARC, believes that glyphosate **DOES NOT CAUSE CANCER**.

What is going on ?!?!

We now have an answer.

Thanks largely to the investigative work of David Zaruk on Science 2.0, it has been reported that Christopher Portier, a key IARC-advisor who lobbied to have glyphosate listed as a carcinogen, **ACCEPTED \$160,000-DOLLARS** from trial lawyers representing cancer patients who stood to profit handsomely by **SUING** glyphosate manufacturers.

Portier's failure to disclose such an **OBVIOUS CONFLICT-OF-INTEREST** has exploded into a textbook case of **SCIENTIFIC FRAUD**.

Remember, glyphosate **WILL NOT REPRESENT AN ACTUAL CANCER RISK**.

California Lawsuit :

Hardeman V Manufacturer

Statements

Roundup Kangaroo-Trial &
Partial Victory In California

ALLEGATION

Plaintiff Alleges Cancer-Harm [?!?!] After
Years Of Exposure To Roundup During
Landscape Maintenance On A Property

PARTIAL VICTORY VERDICT

Jury Concludes That Roundup's
Design Was Defective [?!?!]

Product Lacks Sufficient Cancer-
Label Warnings [?!?!]

Manufacturer Was Negligent [?!?!]

Judge Slashes The Damages Awarded
From \$80 Million To \$20 Million

APPEAL

The Verdict Is Under Vigorous
Appeal At The US Supreme Court

Roundup Will Be Vindicated

Hardeman V Manufacturer

Partial Victory For Manufacturer

In 2019, a [GULLIBLE & IGNORANT] jury awarded Edwin Hardeman \$80 Million in damages after the ruling his NON-HODGKIN'S LYMPHOMA [NHL] was caused by his use of [NO-ACTUAL-RISK-] Roundup. [?!?!]

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

<http://pesticidetruths.com/wp-content/uploads/2022/05/Reference-glyphosate-2022-05-00-Safety-Meta-Analyses-Of-Non-Hodgkins-Lymphoma-Expert-Panel-Conclusions-Recommendations.pdf>

The damages later were reduced to \$25 Million.

Back in July 2021, Bayer [THE MANUFACTURER] CEO Werner Baumann said, during a call with investors, that he believed the Hardeman V Manufacturer case offered the company's best chance of receiving Supreme Court review.

Hardeman V Manufacturer

Manufacturer Asks For Review

Bayer petitioned the Supreme Court on August 16th, 2021, asking for **REVIEW** of the **Hardeman V Manufacturer** ruling.

The court has yet to render a decision on the petition.

On December 13th, 2021, the court asked the solicitor general to file a brief on the case.

A brief had not been filed as of April 14th, 2022.

From US EPA's Amicus Brief Of Support - **Hardeman V Manufacturer**

Manufacturer Supported By US EPA

According to US Environmental Protection Agency's (US EPA's) Amicus Brief of Support —

« *DECISION OF EPA CORRESPONDS TO THE LONG-STANDING ASSESSMENTS OF LEADING INTERNATIONAL HEALTH AUTHORITIES* », says Liam Condon, Bayer Board Member.

The **AMICUS BRIEF** of the US Department of Justice in the **Hardeman V Manufacturer** case also supports glyphosate's safety.

Background Information

AMICUS BRIEFS — Legal documents filed in appellate court cases by non-litigants with a strong interest in the subject matter. The briefs advise the court of relevant, additional information or arguments that the court might wish to consider.

The US EPA had already confirmed its position on glyphosate earlier in 2020.

Together with the US Department of Justice, on behalf of the US government, US EPA filed an **AMICUS BRIEF** in the Roundup Litigation in the **Hardeman V Manufacturer** appeal.

In this brief, both authorities are supportive of the company's arguments.

In August 2019, the US EPA sent a letter to glyphosate registrants, which stated respectively that a **CANCER-LABEL WARNING** on products containing this active ingredient would be « *INCONSISTENT WITH THE AGENCY'S SCIENTIFIC ASSESSMENT OF THE CARCINOGENIC POTENTIAL OF THE PRODUCT* » and would be a « *FALSE AND MISLEADING STATEMENT* ».

From Bayer's Settlements & Five-Point Plan - **Hardeman V Manufacturer**

Manufacturer's Strong Legal Argument

According to Bayer —

The petition in Pilliod follows a similar filing in Hardeman.

*The company believes there are **STRONG LEGAL ARGUMENTS** to support Supreme Court **REVIEW AND REVERSAL** of both the Hardeman and the Pilliod verdicts.*

*Monsanto [**THE MANUFACTURER**] has also **WON** the last two cases in the Roundup litigation to go to trial, Clark and Stephens, and has **REACHED AGREEMENTS** to resolve the **VAST MAJORITY** of claims.*

*Following these two recent trial wins and the request made by the Supreme Court for the views of the solicitor general in Hardeman, the company will be **VERY SELECTIVE** in entertaining **FUTURE SETTLEMENT** discussions.*

Bayer has faced thousands of similar lawsuits connected to the glyphosate-based product.

Biden Administration Interference

On May 11th, 2022, President Joe Biden's administration asked [I.E. INTERFERED WITH] the US Supreme Court NOT to hear Bayer's bid to dismiss claims by customers who contend that Roundup causes cancer [?!?!] .

Bayer has argued that the cancer claims against Roundup go against sound science and product clearance from the US EPA.

The US EPA has upheld guidance that glyphosate is NOT carcinogenic and NOT a risk to public health when used as indicated on the label.

Summary

Hardeman V Manufacturer

Roundup Kangaroo-Trial & Partial Victory In California —

Plaintiff : Edwin Hardeman

Defendant : Manufacturer Monsanto Company

Nature of Suit : Personal injury product liability

Allegation : Suffering from non-Hodgkin's lymphoma (NHL) after years of exposure to [NO-ACTUAL-RISK-] Roundup during landscape maintenance on a property [?!?!]

Partial Victory : Unjustified jackpot-award of \$80 Million reduced to \$25 Million in partial victory for manufacturer

Verdict Details : Gullible & ignorant jury found that Roundup's design was defective, lacked sufficient cancer-label warnings, & its manufacturer was negligent [?!?!] — verdict was not supported by real science-based evidence at trial

Presiding Judges : Vince Girdhari Chhabria

Circuit Judges Michael D Hawkins, N Randy Smith, & Ryan D Nelson

Courts : US District Court or Federal Court, California, & US Court of Appeals for the Ninth Circuit

Judge's Decision : Judge let the plaintiff-attorneys bombard the jury with false-cancer-claims by the hazard report from the controversial International Agency for Research on Cancer (IARC)

Judge's Decision : Judge slashed damages awarded from **\$80 Million** to **\$25 Million**

Judge's Interference : Judge actually blocked the introduction of US EPA analyses that concluded glyphosate was not likely to be carcinogenic in humans because he wanted to avoid wasting time or misleading the jury because the primary inquiry is what the scientific studies show, not what the US EPA concluded they show. [?!?!?!?!]

Attorneys : Aimee Wagstaff & Jennifer Moore of Andrus Wagstaff

Appeal : Verdict is under vigorous appeal at the US Supreme Court — Roundup will be vindicated

Appeal Details : Manufacturer believes that serious errors were made in the case & should have never made it to trial — there are strong legal arguments to support US Supreme Court review & reversal of both the Hardeman & the Pilliod verdicts — a cancer-label warning would be false & misleading & should be pre-empted by federal law

Biden Interference : President Biden's administration has been interfering with the US Supreme Court by demanding a rejection of Bayer's appeal

US EPA : In August 2019, the US EPA sent a letter to glyphosate registrants, which stated that a cancer-label warning on products containing glyphosate would be inconsistent with the agency's scientific assessment of the carcinogenic potential of

the product & would be a false & misleading statement

Distinction : This case is considered a « *BELLWETHER* », i.e. a pace-setter, trial for hundreds of similar cases against [*NO-RISK-*] Roundup

Fact : Roundup will not cause harm & represents no actual cancer risk

Hardeman & Others V Manufacturer

False-Cancer-Claims —

The judges in the first three KANGAROO-TRIALS against Roundup, Hardeman V Manufacturer, Johnson V Manufacturer, & Pilliod V Manufacturer, let the jackpot-justice plaintiff-attorneys BOMBARD the jury with FALSE-CANCER-CLAIMS by the CHERRY-PICKED & POLITICIZED HAZARD REPORT from the controversial International Agency for Research on Cancer (IARC).

In Hardeman V Manufacturer, US District Court Judge Vincent Chhabria BLOCKED the introduction of US EPA analyses that concluded —

... GLYPHOSATE IS NOT LIKELY TO BE CARCINOGENIC IN HUMANS.

Judge Vincent Chhabria said he wanted ...

... to avoid wasting time or misleading the jury because the primary inquiry is what the scientific studies show, not what the EPA concluded they show. [?!?!?!?!]

However, IARC did not do any original studies either.

The IARC HAZARD REPORT simply concluded that glyphosate is ...

... PROBABLY CARCINOGENIC TO HUMANS GROUP 2A ...

This meant that the studies IARC reviewed found LIMITED EVIDENCE OF CARCINOGENICITY in humans, plus sufficient evidence of carcinogenicity in lab animals that had been exposed to very high doses or lower doses for prolonged periods of time.

In other words, UNDER CONDITIONS THAT NO ANIMAL OR HUMAN WOULD EVER BE EXPOSED TO IN THE REAL WORLD.

The FALSE-CANCER-CLAIMS by the glyphosate-hating IARC have been secretive, sloppy, bungled — & perhaps even systematically & deliberately fraudulent.

These FALSE-CANCER-CLAIMS should NEVER have been allowed in court.

Plaintiff Alleges Cancer-Harm [?!?!] After
Years Of Exposure To Roundup During
Landscape Maintenance On A Property

PARTIAL VICTORY VERDICT

Jury Finds Omission Of Cancer
Warning On Roundup Label [?!?!]

Judge Slashes The Damages Awarded
From \$2.055 Billion To \$87 Million

APPEAL

The Verdict Is Under Vigorous
Appeal At The US Supreme Court

Jackpot Verdict Violates The Constitution

Roundup Will Be Vindicated

Partial Victory For Manufacturer

Bayer scored a **PARTIAL VICTORY** in its long-running legal battle over allegations that its Roundup pesticide causes cancer [**WRONG !**], after a California judge **SLASHED THE DAMAGES AWARDED** in the most costly case so far for the German chemicals and pharmaceuticals group from **\$2.055 Billion** to **\$87 Million**.

The decision reverses — at least in part — an [**UNJUSTIFIED JACKPOT**] **VERDICT** handed down in May 2019 that shocked Bayer investors and triggered yet another sharp slide in the group's share price.

It was the third ruling in a row that found a causal link between Bayer's glyphosate-based weed killer and cancer, and the biggest legal setback so far.

The two earlier rulings, **Hardeman V Manufacturer & Johnson V Manufacturer**, also made by California juries, had imposed much lower damages.

The latest case involves Alva and Alberta Pilliod, an elderly US couple suffering from **NON-HODGKIN'S LYMPHOMA [NHL]** after years of exposure to Roundup.

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

<http://pesticidetruths.com/wp-content/uploads/2022/05/Reference-glyphosate-2022-05-00-Safety-Meta-Analyses-Of-Non-Hodgkins-Lymphoma-Expert-Panel-Conclusions-Recommendations.pdf>

In May 2019, the [GULLIBLE & IGNORANT] jury awarded them app \$1 Billion each in punitive damages, as well as millions of dollars to cover medical costs and non-economic damage.

In a statement, Bayer said it welcomed the judge's decision as a « STEP IN THE RIGHT DIRECTION », but that it would still file an APPEAL to have the entire verdict overturned.

The German group has insisted all along that glyphosate-based pesticides are SAFE FOR USE.

According to Bayer —

The court's decision to reduce the punitive, non-economic, and future medical damage awards is A STEP IN THE RIGHT DIRECTION, but we continue to believe that the VERDICT and DAMAGE AWARDS are NOT SUPPORTED BY THE EVIDENCE at trial and conflict with the EXTENSIVE BODY OF RELIABLE SCIENCE AND CONCLUSIONS OF LEADING HEALTH REGULATORS WORLD-WIDE.

A REDUCTION IN THE DAMAGES AWARD in the Pilliod V Manufacturer case had been widely expected.

The US Supreme Court has ruled in the past that PUNITIVE DAMAGES SHOULD NOT EXCEED COMPENSATORY DAMAGES by a factor of more than NINE.

In the Pilliod V Manufacturer case, the PUNITIVE DAMAGES — \$2.055 Billion in total — EXCEEDED THE COMPENSATORY DAMAGES of \$55 Million by a factor of THIRTY-SEVEN.

Bayer's shares LOST MORE THAN A THIRD OF THEIR VALUE over the previous 12 months, largely as a result of the legal risk associated with Roundup.

Manufacturer Asks For Review

For the second time in eight months, Bayer [THE MANUFACTURER] petitioned the US Supreme Court to REVIEW A VERDICT in a Roundup product liability case.

The new petition, filed in March 2022, however, is the first Roundup challenge filed by Bayer alleging a California jury's awarding of \$87 Million in damages to cancer victims VIOLATED THE CONSTITUTION.

The new petition asks the court to REVIEW the verdict in Pilliod V Manufacturer.

In August 2021, a California state appellate court upheld the [UNJUSTIFIED JACKPOT] VERDICT that awarded \$87 Million in damages to Alva and Alberta Pilliod of Livermore, California.

The couple had used [NO-ACTUAL-RISK-] Roundup at home for about 30 years — later the Pilliods developed similar types of cancers, according to court documents.

As it did in the Hardeman V Manufacturer petition, Bayer's new petition in the Pilliod V Manufacturer case argues the Federal Insecticide, Fungicide and Rodenticide Act, or FIFRA, BARS STATES FROM ADDING NEW LABEL REQUIREMENTS such as CANCER-WARNING LABELS.

In addition, Bayer said the US Environmental Protection Agency (US EPA) has found —

... NEITHER ROUNDUP NOR ITS ACTIVE INGREDIENT, GLYPHOSATE, CAUSES CANCER IN HUMANS.

According to the company's brief in the Pilliod V Manufacturer case —

EPA has authorized Roundup for sale, repeatedly approved Roundup's labeling WITHOUT A CANCER-WARNING, and informed pesticide registrants that including a CANCER-WARNING on the labeling of a glyphosate-based pesticide would render it « MISBRANDED » in VIOLATION of federal law.

According to the brief, the Pilliods were **AWARDED THE DAMAGES** because a jury ...

*... found that the omission of a **CANCER-WARNING** from Roundup's label **VIOLATED STATE LAW.** [?!?!]*

Bayer said the **\$87 Million** award to the Pilliods **VIOLATES THE 14TH AMENDMENT'S DUE-PROCESS CLAUSE** because the company « *ACTED IN ACCORDANCE WITH THE SCIENTIFIC AND REGULATORY CONSENSUS* » regarding the safety of its product.

Brook Duer, staff attorney with the Penn State Center for Agricultural and Shale Law, has stated there is a reason why Bayer's second appeal to the Supreme Court came nearly eight months after the petition on the **Hardeman V Manufacturer** case.

Bayer was required to wait 90 days after the California Supreme Court's **DENIAL OF BAYER'S APPEAL** on the **Pilliod V Manufacturer** case on November 17th, 2021, Duer said, before filing the March 2022 appeal to the Supreme Court.

Manufacturer's Strong Legal Argument

According to Bayer —

The petition in Pilliod follows a similar filing in Hardeman.

*The company believes there are **STRONG LEGAL ARGUMENTS** to support Supreme Court **REVIEW AND REVERSAL** of both the Hardeman and the Pilliod verdicts.*

*Monsanto [THE MANUFACTURER] has also **WON** the last two cases in the Roundup litigation to go to trial, Clark and Stephens, and has **REACHED AGREEMENTS** to resolve the **VAST MAJORITY** of claims.*

*Following these two recent trial wins and the request made by the Supreme Court for the views of the solicitor general in Hardeman, the company will be **VERY SELECTIVE** in entertaining **FUTURE SETTLEMENT** discussions.*

Bayer has faced thousands of similar lawsuits connected to the glyphosate-based product.

Summary

Pilliod V Manufacturer

Roundup Kangaroo-Trial & Partial Victory In California —

Plaintiffs : Alva & Alberta Pilliod

Defendant : Manufacturer Monsanto Company

Nature of Suit : Personal injury product liability

Allegation : Suffering from non-Hodgkin's lymphoma (NHL) after years of exposure to [NO-ACTUAL-RISK-] Roundup during landscape maintenance on a property [?!?!]

Partial Victory : Unjustified jackpot-award of \$2.055 Billion reduced to \$87 Million in partial victory for manufacturer

Verdict Details : Gullible & ignorant jury found that Roundup lacked sufficient cancer-label warnings [?!?!] — verdict was not supported by real science-based evidence at trial

Presiding Judge : Winifred Smith

Judge Ioana Petrou replaced

Court : Judicial Council of California Proceedings

Judge's Decision : Judge let the plaintiff-attorneys bombard the jury with false-cancer-claims by the hazard report from the controversial International Agency for Research on Cancer (IARC)

Judge's Decision : Judge slashed damages awarded from \$2.055 Billion to \$87 Million

Attorneys : Baum Hedlund Aristei & Goldman

Appeal : Verdict is under vigorous appeal at the US Supreme Court — the lawsuit should be dismissed because federal regulators consider [NO-RISK-] Roundup safe — Roundup will be vindicated

Appeal Details : Manufacturer believes that serious errors were made in the case & should have never made it to trial — jury's awarding of millions in damages to cancer victims violates the US Constitution — there are strong legal arguments to support US Supreme Court review & reversal of both the Hardeman & the Pilliod verdicts

Investors : One-third drop in manufacturer's share values occurred during 12 months in 2018-2019 — this reflected investor concern about the legal risk associated with Roundup

Fact : Roundup will not cause harm & represents no actual cancer risk

Pilliod V Manufacturer

False-Cancer-Claims —

In Pilliod V Manufacturer, the plaintiff-attorneys were **MAKING BANK** on a **CHERRY-PICKED & POLITICIZED HAZARD REPORT** issued by the controversial, corrupt, & fraudulent International Agency for Research on Cancer (**IARC**), an affiliate of the World Health Organization (**WHO**).

The judge let the plaintiff-attorneys **BOMBARD** the jury with **FALSE-CANCER-CLAIMS** by the **HAZARD REPORT** from the **IARC**.

In **ALL BUT ONE** of its **900 EVALUATIONS**, **IARC's** flawed methodology led it to identify a chemical (caprolactam), as **NOT CARCINOGENIC TO HUMANS**.

The corrupt & fraudulent **IARC** concocted a treachery-picked conclusion that glyphosate is « **PROBABLY** » carcinogenic to humans, which was particularly **TAINTED**.

IARC peddles in **FALSE-CANCER-CLAIMS**.

Cancer-Harm

Roundup Causing Cancer Is A Myth —

Pest control products like Roundup will **NOT CAUSE HARM**.

People are killed by real carcinogens, such as alcohol & cigarettes, but **NOT** by pesticides.

Contrary to what pesticide-hating extremists lie about, there are **NO** pest control products that are known or probable carcinogens.

Prohibiting these products will prevent virtually **NO ACTUAL RISK OF CANCER-HARM**.

Pest control products are **NOWHERE NEAR** a leading cause of **ACTUAL RISK OF CANCER-HARM**, & there is **NO** chance that they will make you die of cancer.

In fact, there is **NOT ONE** known cancer-death from the proper use of these products used in the urban landscape & in agriculture.

A pesticide will only be approved if it will **NOT REPRESENT ANY ACTUAL CANCER RISK**.

Common **CANCER-HARMS** are most likely **NOT** caused by pesticides.

Regulatory agencies world-wide, such as US Environmental Protection Agency (US EPA) & Health Canada, will only grant a registration for legal pesticide use when there is **NO ACTUAL CANCER RISK** to humans.

There is neither strong nor consistent data supportive of a positive association between occupational pesticide exposure & the five most common types of **CANCER-HARM** — breast, colorectal, lung, non-Hodgkin's lymphoma, & prostate cancer.

Animal toxicology study findings have **NOT** corresponded to the few epidemiology studies that may have suggested a link between pesticides & **ACTUAL CANCER-HARM**.

Ingredients like [**NO-RISK-**] glyphosate are scientifically-safe, will **CAUSE NO HARM**, & **REPRESENTS NO ACTUAL CANCER RISK**.

Seventeen reviews conducted by national regulatory agencies around the world, such as US EPA & Health Canada, have reached the same conclusion that a classification of Roundup with regard to carcinogenicity is **NOT JUSTIFIED**.

Pest control products like Roundup causing **CANCER-HARM** is a **MYTH**.

No Association Between Glyphosate & Non-Hodgkin's Lymphoma —

Independent Scientific Panel Review Challenges Activist Cancer Claims

In an independent critical scientific review of the existing meta-analyses of studies on the potential health hazards of exposure to glyphosate, a panel of six senior scientists expressed **LOW CONFIDENCE** that any of the studies demonstrated a causal relationship between glyphosate exposure & non-Hodgkin's lymphoma (NHL).

This consistent score of **LOW CONFIDENCE** — an average of 3 on a scale of 1-10, with no score going above 5 — indicates that consumers should be confident that there is currently **NO EVIDENCE** of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL).

This is one of the most comprehensive analyses of existing research on the topic to date, & the findings support the most recent actions taken by the US EPA to allow the continued use of glyphosate **WITHOUT A CANCER WARNING LABEL**.

Further, the results raise questions on the **VALIDITY** of thousands of pending lawsuits claiming that glyphosate exposure causes cancer.

According to Joseph Annotti, board member & former President and CEO of Center for Truth in Science —

We hope this research brings clarity to the ongoing and contentious debate about glyphosate exposure.

The findings of these independent and unbiased experts increase the likelihood that future policy outcomes on glyphosate will be based on validated science.

Summary

Stephens V Manufacturer

Roundup Kangaroo-Trial & Victory Verdict In California

Plaintiff : Donnetta Stephens

Defendant : Manufacturers Monsanto & Wilbur-Ellis

Nature of Suit : Personal injury product liability

Allegation : Suffering from non-Hodgkin's lymphoma (NHL)
after 30 years of exposure to Roundup [?!?!]

Victory Verdict : Jury rejected the claim that [NO-ACTUAL-RISK-]
Roundup caused cancer-harm — Roundup has
been vindicated

Verdict Details : Manufacturer was not negligent in designing its
product, nor did it know that it was likely to be
dangerous

Presiding Judge : Gilbert Ochoa

Court : Superior Court of the State of California, County of
Alameda of San Bernardino

Settlement : No reported settlement — Roundup should be
vindicated

Fact : Roundup will not cause harm & represents no
actual cancer risk

Clark V Manufacturer

Statements

Roundup Kangaroo-Trial &
Victory Verdict In California

ALLEGATION

Plaintiff Alleges Cancer-Harm [?!?!] After
Exposure To Roundup At The Family's Residence

VICTORY VERDICT

Jury Rules In Favour Of The Manufacturer

Verdict Finding Personal Exposure To
Roundup Was Not Enough To Be A
Substantial Factor In Disease Development

Roundup Has Been Vindicated

Clark V Manufacturer

Victory Verdict For Manufacturer

In October 2021, another California jury **RULED IN BAYER'S FAVOR** in a lawsuit filed by Los Angeles County, California, resident Destiny Clark on behalf of her daughter Ezra Clark who was born in May 2011 and diagnosed with **NON-HODGKIN'S LYMPHOMA [NHL]** in 2016.

Bayer won its first court decision amid a seemingly endless trail of allegations that its non-selective herbicide **ROUNDUP IS TO BLAME FOR CAUSING CANCER [?!?!]** in thousands of litigants.

In a decision that left both sides claiming victory, a Los Angeles jury ruled against plaintiff Destiny Clark, who claimed that Roundup was to blame for the Burkitt's lymphoma that killed her son **[?!?!]**, Ezra, attorneys said October 5th, 2021.

According to court documents, Ezra Clark was 4 years old when he was diagnosed in 2016 with Burkitt's lymphoma, a rare form of **NON-HODGKIN'S LYMPHOMA [NHL]**.

Destiny Clark said her son often accompanied her when she applied Roundup to the family residence.

She sued Bayer for **FAILING TO ADEQUATELY WARN HER OF THE CANCER RISKS [WITH CANCER-WARNING LABELS]** of using glyphosate, the active ingredient in Roundup.

Roundup has been blamed for causing **NON-HODGKIN'S LYMPHOMA [NHL]** in thousands of people since Bayer bought Roundup's maker, Monsanto, in 2018 for **\$63 Million**.

According to Bayer —

*While we have great sympathy for Ezra Clark and his family, the jury carefully considered the science applicable to this case and determined that **ROUNDUP WAS NOT THE CAUSE OF HIS ILLNESS**.*

An attorney for Clark said they will consider an **APPEAL**.

According to Fletcher Trammel, an attorney for the defense, said in published reports —

We're disappointed for the boy and his family.

We have multiple Roundup cases set across the country over the next year and look forward to trying them.

In 2020, Bayer settled more than 100,000 of those cases for **\$11 Billion**, and set aside another **\$4.5 Billion** for potential future settlements, that currently count in excess of 30,000 additional claims.

So far, four trials have been decided by jury.

The Clark case is the first to be decided in Bayer's favor.

According to Bayer, about 90 per cent of all lawsuits originated in the consumer market.

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

Manufacturer Will Not Seek Supreme Court
Review Of Nation's First Roundup Verdict

EXTORTION

Plaintiff's Attorney Charged With Extortion

Johnson V Manufacturer

Partial Victory For Manufacturer

A California jury awarded Johnson a **\$289 Million [JACKPOT] VERDICT** in 2018,
REDUCED to **\$20.5 Million** on appeal.

Background Information

ROUNDUP SOCIALISM — The Roundup (i.e. glyphosate) kangaroo-trials, like **Johnson V Manufacturer**, are designed to impose socialism through jackpot-verdicts. The conspiracy against **[NO-ACTUAL-RISK]** Roundup is not only an attack against scientific innovation, it is also a means of imposing socialism. In western countries, the slide towards socialism (a.k.a. wealth re-distribution) is taking root not only at the ballot box, but also from the jury box. In essence, the Roundup kangaroo-trials are campaigns to re-distribute wealth from innovative companies, like Bayer, to undeserving plaintiffs who allege suffering from cancer because of their exposure to Roundup — all while their attorneys are taking a healthy cut for themselves. Polls indicate that a majority of Americans think socialism would be a bad thing for the country. Roundup-socialism extremism **MUST** end !

<http://pesticidetruths.com/2019/12/25/roundup-terr%0%0b6r-is-endless-kangaroo-trials-in-california-sliding-towards-socialism-2019-06-18/>

<http://pesticidetruths.com/2019/10/30/conspiracy-against-glyphosate-california-lawsuits-jackpot-kangaroo-court-justice-fraud-corruption-bring-big-payoffs-questions-bayers-defense-attorneys-should-have-asked-plaintiffs/>

Manufacturer Will Not Ask For Review

Bayer **WILL NOT APPEAL** a **\$20.5 Million** Roundup verdict — the first Roundup verdict in the nation — to the US Supreme Court, the company announced March 10th, 2021.

The decision will end the litigation brought by Dewayne Johnson against Bayer's Monsanto [**THE MANUFACTURER**] over claims its [**NO-ACTUAL-RISK-**] Roundup pesticide caused his **NON-HODGKIN'S LYMPHOMA** [**NHL**] .

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

<http://pesticidetruths.com/wp-content/uploads/2022/05/Reference-glyphosate-2022-05-00-Safety-Meta-Analyses-Of-Non-Hodgkins-Lymphoma-Expert-Panel-Conclusions-Recommendations.pdf>

From Juris Dr Paul K Driessen **Johnson V Manufacturer**

Plaintiff Alleges Being Drenched

Grounds-keeper Dewayne Johnson has said he somehow got « **DRENCHED** » twice by glyphosate.

But, in each case, Johnson failed to take a shower or wash the chemical off, follow other standard or specific detoxification procedures, or seek immediate medical attention.

Perhaps Johnson's legal team could make a plausible argument that getting « *DRENCHED* » twice constituted the extremely high doses that are often cited as carcinogenic by the International Agency for Research on Cancer (IARC).

Background Information

IARC's FALSE-CANCER-CLAIMS — IARC is the only major science body that attacks against Roundup with false-cancer-claims, fraudulent science, & imaginary danger [?!?!] . IARC has been caught ... • cherry-picking low-value studies • doctoring documents • excluding relevant safety data • manipulating evidence • undermining the safety findings of every respected national regulatory agency & organization world-wide. IARC conducts bad & fraudulent science, which is, on occasion, promoted by its fanatical-officials who receive pay-offs to undermine Roundup. Jackpot-justice plaintiff-attorneys use the IARC's false-cancer-claims to **MAKE BANK** with gullible juries in kangaroo-trials against Roundup. Only one [?!?!] chemical has ever been evaluated by IARC as non-carcinogenic — this has proved that IARC is a corrupt, fraudulent, & politicized organization with ridiculously flawed evaluations. IARC's fraudulent science must be kept out of our courtrooms ! IARC's claims should never be admitted as evidence in any trial, especially in kangaroo-trials against Roundup.

<http://pesticidetruths.com/2018/01/02/lying-sacks-of-cr%D0%B6p-at-iarc-glyphosate-gate-lunatic%D0%B6-liars-blair-portier-lies-scientific-fraud-pays-off-bribery-conspiracy-2017-10-24-22/>

<http://pesticidetruths.com/2020/01/06/enviro-profit-from-false-cancer-claims-against-roundup-reversing-2-billion-verdict-against-manufacturer-roundup-hating-socialism-attacks-2019-07-26/>

<http://pesticidetruths.com/2019/12/25/roundup-terr%D0%BB-is-endless-kangaroo-trials-in-california-sliding-towards-socialism-2019-06-18/>

However, IARC's **SECRETIVE, SLOPPY, BUNGLED** — or even **SYSTEMATICALLY AND DELIBERATELY FRAUDULENT SCIENCE** — the handling of its glyphosate review makes even that possibility little more than **PSEUDO-EVIDENCE** that should be barred from [**PLAINTIFF**] Johnson's case, the pending Edwin Hardeman case, and all other glyphosate [**KANGAROO-TRIALS**] .

Background Information

FRAUDULENT SCIENCE — The Roundup-cancer trials have been textbook cases of kangaroo-court justice. With these kangaroo-trials, the legal system will be irretrievably corrupted by this coordinated, well-funded attack by extremists, using glyphosate-cancer litigation, as well as social media, intimidation, & confrontation. The false-claims that glyphosate represents a risk of cancer-harm should never be admitted as evidence in any trial. We must keep fraudulent science out of our courtrooms !

Plaintiff's Attorney Charged With Extortion

With Roundup kangaroo-trials (i.e. cancer-trials), the legal system has been **IRRETRIEVABLY-CORRUPTED** with con-artist attorneys.

Attorney Timothy Litzenburg has been charged by federal prosecutors with attempted extortion of **\$200 Million** from another manufacturer involved in the production of Roundup.

Litzeburg was an attorney who represented the plaintiff in the first lawsuit against glyphosate, [Johnson V Manufacturer](#).

Litzenburg has been accused of plotting to extort a **\$5 Million** settlement, in addition to **\$200 Million** in consulting fees paid-off to him & his two partners in exchange for the attorneys making a liability lawsuit go away.

If successful, Litzenburg would have been able to shift litigation to focus on chemical suppliers who provide materials to produce herbicides, such as glyphosate.

Litzenburg states that he enjoys holding uncaring companies accountable for the reckless products they release that can leave consumers vulnerable.

In reality, he & his associates have operated as con-artists attempting to shake down companies in order to receive pay-offs.

Summary

Johnson V Manufacturer

Roundup Kangaroo-Trial & Partial Victory In California —

Plaintiff : Dewayne « *Lee* » Johnson

Defendant : Manufacturers Monsanto & Wilbur-Ellis

Nature of Suit : Personal injury product liability

Allegation : Suffering from non-Hodgkin's lymphoma (NHL) after exposure to Roundup [?!?!] as a grounds-keeper

Noteworthy : The plaintiff said he somehow got « *DRENCHED* » twice by Roundup, but, in each case, he failed to take a shower or wash the chemical off, follow other standard or specific de-toxification procedures, or seek immediate medical attention

Partial Victory : Unjustified jackpot-verdict of \$289 Million verdict in 2018, reduced on appeal to \$78.5 Million & then \$20.5 Million in partial victory for manufacturer

Verdict Details : Gullible & ignorant jury found unanimously that Roundup caused NHL [?!?!] & that manufacturer failed to warn about health hazard [?!?!] — jury also found that manufacturer acted with malice, oppression, or fraud [?!?!]

Presiding Judge : Vince Girdhari Chhabria, who acknowledged that there was no evidence of harm from Roundup

Court : State Court, San Francisco, California

Judge's Decision : The judge let the plaintiff-attorneys bombard the jury with false-cancer-claims by the hazard report from the controversial International Agency for Research on Cancer (IARC)

Attorneys : Plaintiff's team of attorneys was from a Virginia-based Miller Firm, which included Timothy Litzeburg, who has been charged by federal prosecutors with extortion against the manufacturer Bayer

Appeal : Manufacturer vigorously appealed the verdict several times, but lost — finally decided to stop appealing the verdict, March 19th, 2021

Distinction : The first lawsuit to proceed to trial over Roundup supposedly causing cancer

Fact : Roundup will not cause harm & represents no actual cancer risk

Johnson & Others V Manufacturer

False-Cancer-Claims —

The judges in the first three KANGAROO-TRIALS against Roundup, Johnson V Manufacturer, Hardeman V Manufacturer, & Pilliod V Manufacturer, let the jackpot-justice plaintiff-attorneys BOMBARD the jury with FALSE-CANCER-CLAIMS by the CHERRY-PICKED & POLITICIZED HAZARD REPORT from the controversial International Agency for Research on Cancer (IARC).

With Johnson V Manufacturer, California jury mandated an UNJUSTIFIED JACKPOT AWARD to a school grounds-keeper who FALSELY-ALLEGED that he was dying of NON-HODGKIN'S LYMPHOMA (NHL) because of his exposure to [NO-ACTUAL-RISK-] Roundup.

With Pilliod V Manufacturer, another California jury mandated an UNJUSTIFIED JACKPOT AWARD to a couple who FALSELY-ARGUED that [NO-RISK-] Roundup caused their CANCER-HARM. [?!?!]

Cancer Is Biologically Impossible —

In California's Johnson V Manufacturer, the plaintiff alleged that his cancer was due to exposure to Roundup, even though that is BIOLOGICALLY IMPOSSIBLE.

During the trial, the plaintiff's attorneys manipulated the jury's emotions by using FALSE-CANCER-CLAIMS against Roundup in order to score a jackpot \$289.2 Million verdict.

Their legal argument trumped scientific evidence & tricked a [GULLIBLE & IGNORANT] jury into believing that Roundup causes harm with NON-HODGKIN'S LYMPHOMA (NHL) — which is FALSE.

Even the judge acknowledged that there was NO EVIDENCE OF ACTUAL RISK OF HARM.

Nonetheless, the judge let the plaintiff-attorneys BOMBARD the jury with FALSE-CANCER-CLAIMS by the CHERRY-PICKED & POLITICIZED HAZARD REPORT from the controversial International Agency for Research on Cancer (IARC).

According to the scientific evidence, & because it is an herbicide, Roundup is ONLY toxic to plants.

There is no known biological mechanism by which Roundup could cause CANCER-HARM, therefore its carcinogenicity is NOT EVEN THEORETICALLY POSSIBLE.

World-wide, national regulatory agencies & leading experts have been siding with the overwhelming scientific evidence demonstrating that Roundup REPRESENTS NO ACTUAL CANCER RISK — there is NO bio-medical & NO epidemiological evidence to support the claim that Roundup causes CANCER-HARM. [?!?!]

Nonetheless, the plaintiff's attorneys' legal arguments trumped scientific evidence because logic & data have been replaced by emotion & virtue signaling.

America cannot remain #1 in the world for scientific research if society allows attorneys to bleed companies dry over crimes they never committed.

Farmers & Cancer-Harm ?

Agriculture Does Not Increase Cancer Risk —

The researchers at US National Cancer Institute (US NCI) concluded that — glyphosate, the ingredient in Roundup, was **NOT** statistically significantly associated with **ACTUAL CANCER-HARM**.

This large long-term research was published in the Journal of the National Cancer Institute (JNCI) on November 9th, 2017.

This was the largest research study of agricultural workers in history, a gold standard, over the longest period of time.

50,000 + LICENSED PESTICIDE APPLICATORS, the people with the greatest potential exposure to pesticides, were followed for more than 20 years, & there was **NO ASSOCIATION** found between glyphosate-based herbicide use & cancer, according to the US NCI & its Agricultural Health Study.

It definitively demonstrated in a real-world environment that glyphosate **REPRESENTS NO ACTUAL CANCER RISK**.

Conspiracy Against Roundup

California Lawsuit :

Lindeblad V Manufacturer

Statements

Roundup Kangaroo-Trial In California
With No Reported Verdict Or Settlement

ALLEGATION

Plaintiff Alleges Suffering Cancer-Harm
[?!?!] & Significant Economic & Non-Economic
Damages [?!?!] While Working At A Golf Courses

OUTCOME

No Reported Verdict Or Settlement

Roundup May Still Be Vindicated

Lindeblad V Manufacturer

Manufacturer Will Ask For Settlement

The most recent **SETTLEMENT** comes about a month after a golf professional in the Spokane, Washington area **FILED A LAWSUIT CLAIMING THAT [NO-ACTUAL-RISK-] ROUNDUP CAUSED HIS CANCER [!?!?!?!]** .

On August 3rd, 2020, Gary Lindeblad **FILED A LAWSUIT** against Bayer and Monsanto, saying it caused his cancer **[!?!?!?!]** .

According to the **LAWSUIT**, Lindeblad « *SPRAYED ROUNDUP ON A REGULAR BASIS* » beginning in the 1970s.

He was diagnosed with **NON-HODGKIN'S LYMPHOMA [NHL]** in 1999.

He has since incurred « *SIGNIFICANT ECONOMIC AND NON-ECONOMIC DAMAGES* », according to the **LAWSUIT**.

Lindeblad worked for 31 years at the Indian Canyon Golf Course.

Most recently, he has worked at the Kalispel Golf and Country Club.

Background Information

FALSE-GOLF-CANCER-CLAIMS — Playing on a golf course does not increase cancer risk. There is not one known case of cancer-harm from the proper use of pest control products used on any golf facility. This lawsuit advances the extremist-conspiracies to arbitrarily eliminate pest control products from the hated golf industry. Golf is next.

<http://pesticidetruths.com/2017/03/04/david-suzuki-attack-against-the-golf-industry-cbc-documentary-pesticides-on-golf-course-may-cause-cancer-2017-03-11/>

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits

alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

Summary

Lindeblad V Manufacturer

Roundup Kangaroo-Trial In California With No Reported Verdict Or Settlement —

Plaintiff : Gary G Lindeblad

Defendant : Manufacturer Bayer / Monsanto

Nature of Suit : Personal injury product liability

Allegation : Suffering from non-Hodgkin's lymphoma (NHL), & incurring significant economic & non-economic damages [?!?!]

Noteworthy : According to the lawsuit, the plaintiff sprayed [NO-ACTUAL-RISK-] Roundup on a regular basis beginning in the 1970s at Indian Canyon Golf Course & Kalispel Golf & Country Club

Presiding Judge : Vince Girdhari Chhabria

Court : US District Court for the Northern District of California

Judge Assignment : Notice of Judge Assignment, Judge Salvador Mendoza, Jr, assigned to case, August 3rd, 2020

Case Transfer : From Eastern Washington US District Court

Golf Is Next : This lawsuit advances the extremist-conspiracies to arbitrarily eliminate pest control products from the hated golf industry

Outcome : No reported verdict or settlement

Expectation : Roundup may still be vindicated

Fact : Roundup will not cause harm & represents no actual cancer risk

Golfers & Cancer-Harm ?

Playing On A Golf Course Does Not Increase Cancer Risk

Pesticides on golf courses may cause cancer !?!

Really !?!

Under the false-pretext of stopping cancer, golf businesses are being attacked by golf-hating extremists like David Suzuki.

Suzuki's anti-golf campaign includes a documentary with FALSE-CANCER-CLAIMS against pesticides used on golf courses.

In fact, Suzuki has found ONLY ONE person who MAY have been afflicted.

However, photos of this person clearly show him as being bloated, fat, pale, stressed, & totally out-of-shape — the perfect candidate for cancer.

Does Suzuki's documentary represent any evidence of CANCER-HARM because of golf !?!?

NO !

Do golf courses cause cancer !?!

NO !

Is golf making people sick !?!

NO !

In fact, there is NOT ONE KNOWN CASE OF CANCER-HARM from the proper use of pest control products used on ANY golf facility.

In essence, Suzuki HAS NOTHING !

Sadly, this kind of reckless anti-golf campaign will inevitably lead to terrorized & destroyed golf businesses, lost jobs & hardship for golf employees, & weakened communities.

Pest control products **DO NOT REPRESENT AN ACTUAL CANCER RISK !**

Suzuki has **NO REAL** evidence of **CANCER-HARM**, just **FALSE-CANCER-CLAIMS** intended to harm the golf industry.

Health Canada & US EPA, & **NOT** Suzuki, has the essential expertise on the subject of pest control products used by the golf industry.

Even Canadian Cancer Society has **STATED REPEATEDLY** that scientific research does **NOT** provide a conclusive link between pest control products and cancer.

Suzuki & other extremists must get off the **grASS** of the golf industry !

Prohibiting golf course pesticides will prevent **NO CANCER-HARM**.

Roundup Will Be Vindicated

False-Farm-Cancer-Claims

Two law firms have now launched **CLASS-ACTION LAWSUITS** involving **HUNDREDS** of Canadians, mostly from the Prairies — Diamond & Diamond Lawyers and Merchant Law Group.

Roundup lawsuits are multiplying in Canada.

At least 360 Canadians have contacted these law firms, asking to join **CLASS-ACTION LAWSUITS** against Bayer and Monsanto.

This spring, Merchant Law Group filed the first class-action lawsuit in Canada regarding the safety of **[NO-ACTUAL-RISK-]** Roundup, which contains the ingredient glyphosate.

The lawsuit contends that exposure to Roundup contributed to the **CANCER-HARM [?!?!]** of a Saskatchewan **FARMER** and the cancer of other Canadians.

Background Information

DEBUNKING FALSE-FARM-CANCER-CLAIMS — According to several large population studies around the world, farmers have less cancer overall than the general population. Living on a farm does not increase cancer risk. Furthermore, an Agricultural Health Study conducted by US National Cancer Institute (US NCI) found no glyphosate-cancer link. Four decades & 3,300 studies by respected national regulatory agencies & organizations world-wide have concluded that glyphosate is safe & non-carcinogenic, based on assessments of actual risk. Overall, the data do not support the false-claims that glyphosate is carcinogenic.

<http://pesticidetruths.com/2021/08/14/glyphosate-cancer-european-union-glyphosate-does-not-cause-cancer-farmers-have-less-cancer-overall-than-the-general-population-natural-plant-pesticides-pesticide-toxic/>

<http://pesticidetruths.com/2017/11/29/glyphosate-herbicide-will-not-cause-cancer-victory-against-anti-pesticide-terr%D0%B6rists-glyphosate-vindicated-by-us-national-cancer-institute-2017-11-09/>

<http://pesticidetruths.com/2018/11/24/conspiracy-against-glyphosate-victories-against-anti-glyphosate-terr%d0%b6rism-2018-11-24/>

In June and July 2021, Diamond & Diamond Lawyers, a firm with offices in Ontario, Alberta, and British Columbia, **FILED A STATEMENT OF CLAIMS** against Bayer and Monsanto in those three provinces.

The majority of people who contacted Merchant Law Group have **NON-HODGKIN'S LYMPHOMA [NHL]** .

It's a cancer of the body's lymphatic system, which fights off disease.

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

<http://pesticidetruths.com/wp-content/uploads/2022/05/Reference-glyphosate-2022-05-00-Safety-Meta-Analyses-Of-Non-Hodgkins-Lymphoma-Expert-Panel-Conclusions-Recommendations.pdf>

The number of lawsuits in Canada related to the safety of Roundup are small when compared to the United States.

Approximately 18,000 cases are before the courts in that country.

Attorneys in British Columbia, Ontario and Alberta have launched a **\$500-Million CLASS-ACTION LAWSUIT** against the makers of **[NO-RISK-]** Roundup for allegedly **WITHHOLDING INFORMATION [?!?!?!]** that Roundup **CAUSES CANCER [?!?!?!]** .

Attorneys in Vancouver, Toronto, and Edmonton announced on November 20th, 2019, the legal action against numerous manufacturers including Bayer, Monsanto, and Intertek Group.

The statement of claim accuses the manufacturers of **CONCEALING [?!?!]**

...

... studies from regulatory authorities in Canada and the world that proved [NO-RISK-] Roundup was causing or materially contributing to DEVELOPING CANCER [?!?!?!] .

Basil Bansal, a Diamond & Diamond attorney in Edmonton, said Health Canada **WAS NOT INCLUDED** in the **CLASS-ACTION LAWSUIT** because the government body was **TRICKED [?!?!]** by the manufacturers into believing their product was safe.

He wouldn't comment on whether criminal action should be taken.

Canada Lawsuits

Manufacturer Supported By Health Canada

According To Health Canada —

In January 2019, Health Canada concluded —

After a thorough scientific review, [CONCERNS ABOUT GLYPHOSATE SAFETY] could not be scientifically supported when considering the entire body of relevant data .

Health Canada also noted that the 20 scientists who conducted the review, who had **NOT** been involved in its 2017 re-evaluation of glyphosate ...

... left no stone unturned [AND] had access to all relevant data and information from federal and provincial governments, international regulatory agencies, published scientific reports and multiple pesticide manufacturers.

Farmers Have Less Cancer-Harm

Living On A Farm Does Not Increase Cancer Risk —

Does occupational exposure to pesticides **INCREASE** the risk of farmers getting cancer ? **NO** !

Does living near or on a farm increase cancer risk ?

Pesticides are **NOT** associated with five cancer types most often evaluated in farmers — breast, colorectal, lung, non-Hodgkin's lymphoma, & prostate cancer.

Farmers have less cancer overall than the general population.

In fact, farmers, pesticide applicators, & their spouses have had cancer **DEFICITS** when compared to the general population.

Farmers & their families can rest assured that using legally registered **[NO-ACTUAL-RISK-]** pesticides according to label practices will **NOT** increase their risk of breast, colorectal, lung, non-Hodgkin's lymphoma, or prostate cancer.

Living near or on a farm **DOES NOT INCREASE CANCER-RISK.**

According to several large population studies around the world, **NOT AT ALL.**

According to Dr Geoffrey C Kabat, cancer epidemiologist, **FARMERS FAVOUR GLYPHOSATE** because it is **ENVIRONMENTALLY-BENIGN** & has **LOW TOXICITY** — the acute toxicity of glyphosate is **LOWER** than that of **TABLE SALT.**

Conspiracy Against Roundup

Canada Lawsuit :

Miller & Smolnicki V Manufacturer

Statements

Roundup Bogus Lawsuit In Canada
With No Reported Verdict Or Settlement

ALLEGATIONS

Plaintiffs Allege Cancer-Harm
[?!?!] After Exposure To Roundup

Plaintiffs Further Allege Manufacturer
Was Negligent [?!?!]

Was Withholding The Risks Of Cancer [?!?!]

Was Providing Secret Ghost-Written Articles [?!?!]

Was Disseminating Information That Roundup Is Safe

Was Colluding With Health Canada [?!?!]

SETTLEMENT

No Reported Verdict Or Settlement

Roundup Will Be Vindicated

Miller & Smolnicki V Manufacturer

Roundup Caused Cancer-Harm ?

The lead plaintiff for Diamond & Diamond Lawyers is Barry Miller, who is 76 and lives in Edmonton.

Miller has **LEUKEMIA**.

He used **[NO-ACTUAL-RISK-]** Roundup on his **FARM** and properties that he owned in Alberta and British Columbia, the statement of claim says.

Background Information

DEBUNKING FALSE-FARM-CANCER-CLAIMS — According to several large population studies around the world, farmers have less cancer overall than the general population. Living on a farm does not increase cancer risk. Furthermore, an Agricultural Health Study conducted by US National Cancer Institute (US NCI) found no glyphosate-cancer link. Four decades & 3,300 studies by respected national regulatory agencies & organizations world-wide have concluded that glyphosate is safe & non-carcinogenic, based on assessments of actual risk. Overall, the data do not support the false-claims that glyphosate is carcinogenic.

Summary

Miller & Smolnicki V Manufacturer

Roundup Bogus Lawsuit In Canada With No Reported Verdict Or Settlement —

Plaintiffs : Farmer Barry W Miller of Edmonton, Alberta
Barbara Smolnicki of Toronto, Ontario

Defendant : Monsanto, Bayer, Intertek, & Cantox

Nature of Suit : Personal injury product liability — seeking damages in the amount of **\$500 Million**

Smolnicki Allegation: Smolnicki worked at Home & Garden RONA for 18 years, & was exposed to Roundup — she was diagnosed with non-Hodgkin's lymphoma (NHL)

Miller Allegation : Suffering from leukemia after exposure to [**NO-ACTUAL-RISK-**] Roundup while working on a farm & other properties in Alberta & British Columbia [?!?!]

Exposure Studies : According to several large population studies around the world, farmers have less cancer overall than the general population

Other Allegations : Manufacturer & others negligently [?!?!] placed Roundup into the stream of commerce in Ontario & elsewhere in Canada — withheld [?!?!] the risks of cancer & other health risks, including by secretly ghost-writing [?!?!] scientific journal articles provided to Health Canada — manufacturer

has continued to disseminate information to its consumers that Roundup is safe, persuading Health Canada, before the collusion [?!?!] was known, to extend its re-approval of Roundup to 2032

Court : Ontario Superior Court of Justice

Attorneys : Diamond & Diamond Lawyers

Outcome : No reported verdict or settlement

Expectation : Roundup will be vindicated

Fact : Roundup will not cause harm & represents no actual cancer risk

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

Roundup Bogus Lawsuit In Canada
With No Reported Verdict Or Settlement

ALLEGATIONS

Plaintiff Alleges Cancer-Harm [?!?!] After
Exposure To Roundup On A Golf Course

OUTCOME

No Reported Verdict Or Settlement

Roundup Will Be Vindicated

Boden V Manufacturer

Roundup Caused Cancer-Harm ?

In British Columbia, the co-plaintiff for Diamond & Diamond is Genevieve Boden of Duncan.

She is 78 and worked on a **GOLF COURSE** with her husband.

She developed **NON-HODGKIN'S LYMPHOMA [NHL]** in 2001.

The statement of claim says she was **EXPOSED** to **[NO-ACTUAL-RISK-]** Roundup at the **GOLF COURSE**, but also because his clothes went into the laundry with the family clothes.

Background Information

FALSE-GOLF-CANCER-CLAIMS — Playing on a golf course does not increase cancer risk. There is not one known case of cancer-harm from the proper use of pest control products used on any golf facility. This lawsuit advances the conspiracy to arbitrarily eliminate pest control products from the hated golf industry. Golf is next.

<http://pesticidetruths.com/2017/03/04/david-suzuki-attack-against-the-golf-industry-cbc-documentary-pesticides-on-golf-course-may-cause-cancer-2017-03-11/>

False-Farm-Cancer-Claims

At a news conference in Edmonton, Tony Hunter, a plaintiff in the lawsuit, and his wife Brenda, shared their story about how Roundup has impacted them.

Hunter, 55, said he grew up on a 1,000-acre **FARM** where he and his father would routinely use [**NO-ACTUAL-RISK-**] Roundup.

He started using the herbicide when he was around 16-years old and continued to use the product until he was 18.

He was diagnosed with **CANCER** when he was 24 years old and is currently in remission after battling the disease for the past 20 years.

Background Information

DEBUNKING FALSE-FARM-CANCER-CLAIMS — According to several large population studies around the world, farmers have less cancer overall than the general population. Re : Health Canada

Selected And Adapted Excerpts

Edited For Length & Clarity

Canada Lawsuits :

Health Canada

In January 2022, Health Canada found no reason to crack down on glyphosate after conducting a re-evaluation in 2017.

According to Health Canada —

NO pesticide regulatory authority in the world currently considers glyphosate to be a cancer risk to humans at the levels at which humans are currently exposed.

We continue to monitor for new information related to glyphosate, including regulatory actions from other governments, and will take appropriate action if risks of concern to human health or the environment are identified.

Health Canada

Human Health & The Environment Will Be Protected —

Health Canada helps protect the Canadian public by researching, assessing & collaborating in the management of the **ACTUAL RISKS OF HARM** associated with the many consumer products that Canadians use every day.

Health Canada's Pest Management Regulatory Agency (PMRA) regulates pest control products used in the nation.

PMRA requires thorough scientific reviews & safety assessments to ensure that pest control products meet strict health & environmental standards & are shown to have value.

Pest control products are one of the most stringently regulated products in Canada.

It employs over 350 doctorate-level experts & leading scientific experts on pest control products.

Health Canada's Pest Management Regulatory Agency has the **ESSENTIAL** expertise on pest control products.

Health Canada has stated that it is confident that the pest control products that it approves can be used safely when product label directions are followed.

Incident reports are monitored by Health Canada to identify any **ACTUAL RISKS OF HARM** to health or the environment from the use of pest control products & to take corrective actions when necessary.

The more serious individual incident reports may lead to an official evaluation & action.

Hundreds of laboratory & field studies are evaluated to ensure that pest control products are scientifically-safe & will **CAUSE NO HARM**.

There are **NO UNACCEPTABLE RISKS OF HARM** to human health & the environment because of Health Canada's internationally-accepted scientific standards, i.e. « *GOOD LABORATORY PRACTICES* ».

Risk assessments are performed by the 350 professional real expert-scientists at Health Canada to ensure that these products can be used safely.

Health Canada's real expert-scientists evaluate hundreds of laboratory & field studies on the potential human health effects & exposure routes that pest control products could take, as part of a thorough science-based assessment of **ACTUAL RISK OF HARM**.

Health Canada, & **NOT** pesticide-hating extremists, has the essential expertise & ultimate credibility on pest control products.

There are **NO** worries with pest control products.

Health Canada, & national regulatory agencies, world-wide, have found that pest control products **DO NOT** present **ACTUAL RISKS OF HARM** to human health & the environment when used properly.

Health Canada Statement On Glyphosate —

Health Canada's primary objective in regulating pesticides is to PROTECT Canadians' health and the environment.

That is why the Department regularly reviews all pesticides to make sure that they continue to meet modern health and safety standards.

Following the release of the Department's final re-evaluation decision on glyphosate in 2017, Health Canada received eight notices of objection.

There have also been concerns raised publicly about the validity of some of the science around glyphosate in what is being referred to as the Monsanto Papers.

Health Canada scientists reviewed the information provided in these notices, and assessed the validity of any studies in question, to determine whether any of the issues raised would influence the results of the assessment and the associated regulatory decision.

After a thorough scientific review, we have concluded that THE CONCERNS RAISED BY THE OBJECTORS COULD NOT BE SCIENTIFICALLY SUPPORTED WHEN CONSIDERING THE ENTIRE BODY OF RELEVANT DATA.

The objections raised DID NOT CREATE DOUBT OR CONCERN regarding the scientific basis for the 2017 re-evaluation decision for glyphosate.

Therefore, the Department's final decision will stand.

Health Canada follows a transparent and rigorous science-based regulatory process when making decisions about the safety of pesticides.

As part of this process, Health Canada will publish its response to each notice of objection in the Pest Management Regulatory Agency's Public Registry on January 14.

Our scientists left no stone unturned in conducting this review.

They had access to all relevant data and information from federal and provincial governments, international regulatory agencies, published scientific reports and multiple pesticide manufacturers.

This includes the reviews referred to in the Monsanto Papers.

Health Canada also had access to numerous individual studies and raw scientific data during its assessment of glyphosate, including additional cancer and genotoxicity studies.

To help ensure an unbiased assessment of the information, Health Canada selected a group of 20 of its own scientists who were not involved in the 2017 re-evaluation to evaluate the notices of objection.

NO PESTICIDE REGULATORY AUTHORITY IN THE WORLD CURRENTLY CONSIDERS GLYPHOSATE TO BE A CANCER RISK TO HUMANS AT THE LEVELS AT WHICH HUMANS ARE CURRENTLY EXPOSED.

We continue to monitor for new information related to glyphosate, including regulatory actions from other governments, and will take appropriate action if risks of concern to human health or the environment are identified.

Edited For Length & Clarity

Future Settlements Unlikely

Statements

Manufacturer Has Won The Last Two Cases,
Clark V Manufacturer & Stephens V Manufacturer

Manufacturer Has Reached Agreements
To Resolve The Vast Majority Of Claims

Roundup Defence Has Gained Momentum

Future Settlements Unlikely

Bayer AG said it believes it has **GAINED MOMENTUM** in the Roundup legal battle, and it is becoming **LESS LIKELY** the company will pursue new settlements with outstanding plaintiffs.

According to Bayer —

The petition in Pilliod follows a similar filing in Hardeman.

*The company believes there are **STRONG LEGAL ARGUMENTS** to support Supreme Court **REVIEW AND REVERSAL** of both the Hardeman and the Pilliod verdicts.*

*Monsanto [**THE MANUFACTURER**] has also **WON** the last two cases in the Roundup litigation to go to trial, Clark and Stephens, and has **REACHED AGREEMENTS** to resolve the **VAST MAJORITY** of claims.*

*Following these two recent trial wins and the request made by the Supreme Court for the views of the solicitor general in Hardeman, the company will be **VERY SELECTIVE** in entertaining **FUTURE SETTLEMENT** discussions.*

Bayer has faced thousands of similar lawsuits connected to the glyphosate-based product.

Five-Point Plan

Statement

107,000 Of About 138,000 Roundup
Personal Injury Claims Have Been Resolved
Or Found To Be Ineligible For Settlement

Resolving Future Litigation Risk

In July 2021, Bayer [THE MANUFACTURER] announced a FIVE-POINT PLAN TO MANAGE AND RESOLVE FUTURE LITIGATION RISK from Roundup.

Among the moves, Bayer announced it would STOP SELLING Roundup products for RESIDENTIAL USE starting in 2023.

According to Bayer's 2021 third-quarter financial report, Bayer said the Pilliod and Hardeman cases are not covered by the settlement REJECTED by the US District Court for the District of Northern California.

The court REJECTED a broader Bayer AG settlement in 2021 out of concern the settlement would not adequately address the concerns of families who may later be diagnosed with NON-HODGKIN'S LYMPHOMA [NHL] .

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

<http://pesticidetruths.com/wp-content/uploads/2022/05/Reference-glyphosate-2022-05-00-Safety-Meta-Analyses-Of-Non-Hodgkins-Lymphoma-Expert-Panel-Conclusions-Recommendations.pdf>

Bayer [**THE MANUFACTURER**] CEO Werner Baumann said during a Bayer earnings call in March 2022 that **ABOUT 107,000 OF ABOUT 138,000 ROUNDUP PERSONAL INJURY CLAIMS** had been **RESOLVED** or found to be **INELIGIBLE** for settlement.

He said the company was **NOT** going to « *ENTERTAIN ANY FURTHER SETTLEMENT DISCUSSIONS* » until the solicitor general files a brief in the Hardeman case.

According to a March 26th, 2022, story by Bloomberg, one of Bayer's main investors, Singapore-based Temasek Holdings Pte, is pushing for Baumann's resignation because of what has been a **COSTLY ACQUISITION** of Monsanto.

Bayer acquired Roundup brands as part of its **\$63 Billion** purchase of Monsanto.

Bayer continues to maintain that the [**NO-ACTUAL-RISK-**] Roundup ingredient glyphosate is **SAFE**.

In February 2022, Bayer alerted retail partners the company may not be able to fill some glyphosate contracts this spring because of a supplier's manufacturing problem.

Bayer declared a « *FORCE MAJEURE* » event, a term used to describe an uncontrollable event that prevents a party from fulfilling a contract.

The situation could leave some farmers who are awaiting glyphosate deliveries on shaky ground.

Update On Path To Closure Of Roundup Litigation

<http://pesticidetruths.com/wp-content/uploads/2022/04/Reference-glyphosate-2021-07-29-Bayer-Update-On-Path-To-Closure-Of-Roundup-Litigation-Bayer-News-1.pdf>

Statement

Manufacturer Provides Update On Path To Closure Of Roundup Litigation

Five-Point Plan

Bayer today provided an update on its **FIVE-POINT PLAN** to address future Roundup **LITIGATION RISK** after its May 27th, 2021, decision to **WITHDRAW** from the national class process.

The company is now **IN MORE CONTROL** of important aspects of the **RISK MITIGATION PROCESS** and has sketched out two basic scenarios going forward to provide a **PATH FOR CLOSURE** of this litigation.

The first scenario is based on obtaining a **FAVORABLE DECISION** by the United States Supreme Court on a cross-cutting issue like **FEDERAL PRE-EMPTION** which would effectively and largely **END** the US Roundup litigation.

The second scenario assumes that the US Supreme Court either **DECLINES** to hear the Hardeman case or issues a ruling in favor of plaintiff — in that case the company would activate its own claims administration program.

The company sees good chances for the first scenario and believes there are **STRONG ARGUMENTS** for the US Supreme Court to accept the case and ultimately render a supporting verdict.

However, Bayer is also prepared for the second scenario to manage anticipated claims, through settlement and litigation, to ultimately **BRING AN END** to this litigation.

For this second scenario, the company posts an additional provision of a gross amount of **4.5 Billion US Dollars** (3.8 Billion Euros), i.e. before tax and discounting in the second quarter 2021, reflecting the company's potential long-term exposure.

According to CEO Werner Baumann during an investor call —

*We want to provide comfort to our investors that the **GLYPHOSATE LITIGATION EXPOSURE** should now be reasonably accounted for and leaves significant upside in the event of a favorable Supreme Court decision on the case.*

It is important for the company, our owners, and our customers that we move on and put the uncertainty and ambiguity related to the glyphosate litigation behind us.

This clarity should also allow informed investors to direct their focus on operational performance, the quality of Bayer's businesses and its intrinsic value.

As announced in May 2022, Bayer expects the cash flow to improve this year compared to the original assumptions and confirms its mid-term projection provided during Capital Markets Day.

US Supreme Court Petition In August 2022

The company will file its **PETITION** seeking Supreme Court review of the Hardeman case in August 2022.

If the US Supreme Court grants review, the Court will likely render a final decision in 2022.

Given this impending schedule, Bayer will be **VERY SELECTIVE IN ITS SETTLEMENT APPROACH** in the coming months and **WILL NOT ENTERTAIN ANY FURTHER SETTLEMENT DISCUSSIONS** when and if the Supreme Court grants review.

In case of a negative US Supreme Court outcome, Bayer would set up a professionally-run **CLAIMS' ADMINISTRATION PROGRAM** that will come with pre-determined compensation values whose amounts will be similar to the values for current inventory settlements, but net of plaintiffs' attorneys commission.

The program would address eligible individuals directly, who used Roundup previously and develop **NON-HODGKIN'S LYMPHOMA [NHL]** over the next 15 years.

This would cover any alleged NHL latency period, although regulators consistently conclude that **THE LARGE BODY OF SCIENCE DOES NOT SUPPORT A CAUSAL RELATIONSHIP BETWEEN NHL AND GLYPHOSATE** and despite substantially different scientific opinions on the latency.

Background Information

NO ASSOCIATION BETWEEN GLYPHOSATE & NON-HODGKIN'S LYMPHOMA — In one of the most comprehensive analyses of existing research on the potential health hazards of exposure to glyphosate, a panel of six senior scientists concluded that consumers should be confident that there is currently no evidence of a relationship between glyphosate & non-Hodgkin's lymphoma (NHL). The findings support the actions taken by the US EPA & Health Canada to allow the continued use of glyphosate without a cancer warning label. The results also raise questions on the validity of thousands of pending lawsuits alleging that glyphosate exposure causes cancer. Glyphosate is scientifically-safe, will cause no harm, & will not represent an actual cancer risk.

<http://pesticidetruths.com/wp-content/uploads/2022/05/Reference-glyphosate-2022-05-00-Safety-Meta-Analyses-Of-Non-Hodgkins-Lymphoma-Expert-Panel-Conclusions-Recommendations.pdf>

From President Biden's Administration

US Supreme Court Told To Shun Appeal

On May 11th, 2022, President Joe Biden's administration asked the US Supreme Court **NOT** to hear Bayer's bid to dismiss claims by customers who contend that Roundup causes cancer [?!?!] .

Bayer has argued that the cancer claims against Roundup go against sound science and product clearance from the US EPA.

The US EPA has upheld guidance that glyphosate is **NOT** carcinogenic and **NOT** a risk to public health when used as indicated on the label.

Long-Term Risk-Mitigation Actions

As part of the **FIVE-POINT PLAN**, the company will also take additional steps to help **CLOSE THE DOOR ON THIS LITIGATION** and ensure that any claims brought by individuals who use Roundup in the future are few in number and unlikely to succeed.

These measures include that the company and its partners will **REPLACE** its glyphosate-based products in the US residential lawn and garden market with new formulations that rely on **ALTERNATIVE** active ingredients beginning in 2023, subject to a timely review by the US Environmental Protection Agency (US EPA) and state counter-parts.

This move is being made exclusively to **MANAGE LITIGATION RISK** and not because of any safety concerns.

As the vast majority of claims in the litigation come from lawn and garden market users, this action **LARGELY ELIMINATES THE PRIMARY SOURCE OF FUTURE CLAIMS** beyond an assumed latency period.

There will be no change in the availability of the company's glyphosate formulations in the US professional and agricultural markets.

Moreover, the company will engage in discussions with US EPA about Roundup labels with the goal of providing more information to users about the science as an additional element towards ensuring even more informed purchasing and application decisions.

It will also set up a new web-site with scientific studies relevant to Roundup's safety that will provide even more transparency to purchasers about the products they use.

The web-site is expected to be launched by the end of 2021.

According to CEO Werner Baumann —

*We have set up a very strong team that reports directly to the Board of Management and is laser focused on the further execution of our **FIVE-POINT PLAN**, while the Board of Management will now fully concentrate on business performance and strategy execution.*

Roundup Kangaroo-Trials & Bogus Lawsuits

Roundup Terrorism Will NEVER End —

There are THOUSANDS OF LAWSUITS that have been filed against Roundup & glyphosate-related products.

After a HANDFUL OF LOSSES so far in the courtroom, which have stretched into the billions of dollars, Bayer has attempted to SETTLE THE REMAINING CASES OUT OF COURT.

Can Bayer / Monsanto ever appease Roundup-hating extremists, undeserving plaintiffs with false-cancer-claims, & jackpot-justice plaintiff-attorneys ?!?!

NO !

These extremists, & their attorneys, will NEVER be appeased & their environmental-terrorism against Bayer / Monsanto will NEVER end !

Bayer, which acquired Monsanto, faces hostile Roundup-hating doctrines that are fanatical in character, ruthless in purpose, subversive in method, & frivolous in nature.

In the 9|11 era of environmental-terrorism, extremist-conspiracies have now spread against the hated agriculture industry because of its use of Roundup.

As a consequence of Roundup KANGAROO-TRIALS, Bayer's share price has dropped significantly.

Investors have been understandably concerned about the liability in the thousands of upcoming cases of frivolous litigation.

Bayer / Monsanto will STRIKE BACK by seeking to repair its reputation, & to somehow appease some extremists, by announcing that it would invest \$5.6 Billion US in R&D research.

With this R&D investment, Bayer will aim at better understanding of how pesticide resistance develops, discovering new pesticides, & devising more precise application methods.

Observers have commented that Bayer is diverting R&D research from solving more pressing problems, such as, developing cures for cancer or controlling disease-carrying vermin in the tropics.

The cost to society for this attempted-appeasement will likely be more suffering in the world than there would otherwise have been.

Glyphosate Has Been Vindicated

Glyphosate Is Not A Carcinogen —

Every major regulatory agency around the world, including Health Canada, has concluded that glyphosate **REPRESENTS NO ACTUAL CANCER RISK**.

National regulatory agencies world-wide have vindicated glyphosate — these agencies include those within the European Union, the United States, the United Nations, & Canada.

These agencies have found that glyphosate **DOES NOT** present **ACTUAL RISK OF HARM** to human health & the environment when used according to label directions.

Four decades and 3300 studies by respected agencies & organizations world-wide have concluded that Roundup is **SAFE & NON-CARCINOGENIC**, based on assessments of **ACTUAL RISK OF HARM**.

Glyphosate is **VINDICATED**, & continues to be registered as a successful & safe product.

Glyphosate has **A LOWER TOXICITY** than many commonly consumed items in our daily lives, including — • **TABLE SALT** • caffeine • vanilla • vitamin D3.

The safety findings of every respected national regulatory agency & expert organization world-wide, with 4 decades & 3300 studies, have concluded that glyphosate **REPRESENTS NO ACTUAL CANCER RISK**.

There is **NO** bio-medical & **NO** epidemiological & **NO** real science-based evidence to support the perpetuation of **FALSE-CANCER-CLAIMS** against glyphosate, based on assessments of **ACTUAL RISK OF HARM**.

National regulatory agencies & expert organizations have **VINDICATED** glyphosate with their relevant safety data, which include — • US Environmental Protection Agency (US EPA) • Health Canada • European Food Safety Authority • European Chemicals Agency • UN Food & Agriculture Organization • Germany's Institute for Risk Assessment • Australia's Pesticides & Veterinary Medicines Authority • & others.

They have all concluded that glyphosate **REPRESENTS NO ACTUAL CANCER RISK**.

Health Canada did a full re-evaluation of [**NO-RISK-**] glyphosate where it declared « *PRODUCTS CONTAINING GLYPHOSATE DO NOT PRESENT RISKS OF CONCERN TO HUMAN HEALTH OR THE ENVIRONMENT* ».

The US Environmental Protection Agency (US EPA) has evaluated the herbicide glyphosate, & has reaffirmed that there is **NO ACTUAL RISK OF HARM** to public health when used properly.

Furthermore, US EPA has evaluated this herbicide, & has re-affirmed that there is **NO ACTUAL RISK OF HARM** to public health when used properly.

Additionally, a study conducted by US National Cancer Institute (US NCI) followed the health of 54,000 farmers & commercial pesticide applicators for over two decades, & found **NO GLYPHOSATE-CANCER LINK**.

Glyphosate has been **VINDICATED**.

Fraudulent Lies, Misconceptions, Coercion, Threats,
Deceptions, Terror, & Paranoid Conspiracies

IARC LIARS

FORCE OF NATURE DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE
National Organization Responding Against BUJE that conspire to destroy the Greenhouse and other industries (NORAHG)

International Agency For Research On Cancer (IARC)

IARC Conspiracies Against Glyphosate —

IARC has NOT proven that glyphosate ACTUALLY REPRESENTS A CANCER RISK.

IARC based its conclusions on A MERE EIGHT CHERRY-PICKED STUDIES based upon THEORETICAL HAZARD, & NOT ACTUAL RISK.

Its CHERRY-PICKED & POLITICIZED HAZARD REPORT simply concluded that glyphosate is ...

... *IARC'S PROBABLY CARCINOGENIC TO HUMANS GROUP 2A* ...

But IARC DID NOT classify glyphosate as ...

... *IARC'S GROUP 1 CARCINOGENIC TO HUMANS.*

Conversely, four decades & 3,300 STUDIES by respected national regulatory agencies & organizations world-wide have concluded that glyphosate is SAFE & NON-CARCINOGENIC, based on assessments of ACTUAL RISK OF HARM.

Overall, the data DO NOT SUPPORT THE FALSE-CLAIMS that glyphosate is carcinogenic.

This means that the EIGHT CHERRY-PICKED STUDIES that were reviewed by IARC provided EXTREMELY LIMITED EVIDENCE [!!!!] of carcinogenicity in humans.

Unfortunately, glyphosate-hating extremists have implied that IARC's « LIMITED EVIDENCE » has somehow been withheld from EVERY science-based national regulatory agency in the world.

Nonetheless, IARC DID NOT classify glyphosate as ...

... *IARC'S GROUP 1 CARCINOGENIC TO HUMANS.*

In other words, according to IARC, glyphosate represents NO ACTUAL CANCER RISK !

And we repeat, IARC DID NOT classify glyphosate as ...

... *IARC'S GROUP 1 CARCINOGENIC TO HUMANS.*

Glyphosate REPRESENTS NO ACTUAL CANCER RISK !

The FALSE-CANCER-CLAIMS by the IARC's THEORETICAL HAZARD REPORT not only EXTREMELY LIMITED, they are also SECRETIVE, SLOPPY, BUNGLED — & perhaps even systematically & deliberately FRAUDULENT.

The IARC's HAZARD REPORT should never be admitted as evidence in any trial.

According to US Environmental Protection Agency (US EPA), German Federal Institute For Risk Assessment, Health Canada, & EVERY other science-based national regulatory agency in the world, the weight of evidence is AGAINST carcinogenicity.

In other words, according to these agencies, glyphosate REPRESENTS NO ACTUAL CANCER RISK !

The IARC's THEORETICAL HAZARD REPORT did NOT indicate the ACTUAL RISK OF CANCER-HARM.

On the other hand, national regulatory agencies, like US EPA and Health Canada, DO evaluate ACTUAL RISK OF HARM.

The IARC's HAZARD REPORT reported what is called THEORETICAL HAZARD, & NOT ACTUAL RISK.

IARC DID NOT take into consideration how much of, or how commonly, an ACTUAL RISK glyphosate poses in the real world.

IARC failed to provide any new research concerning glyphosate.

IARC has severely & perhaps irreparably damaged the reputation of its parent, the World Health Organization (WHO).

If the IARC's HAZARD REPORT against glyphosate was truly valid, then why hasn't WHO itself demand more government regulation !?!?

Why should national regulatory agencies listen to IARC when it continues to be ignored by its parent World Health Organization (WHO) !?!?

Why !?!?

Because glyphosate will **CAUSE NO HARM & REPRESENTS NO ACTUAL CANCER RISK !**

The World Health Organization (WHO) & the Food & Agriculture Organization (FAO), both agencies of the United Nations, have stated that glyphosate is **UNLIKELY TO POSE A CARCINOGENIC RISK** to humans.

Glyphosate **REPRESENTS NO ACTUAL CANCER RISK !**

Glyphosate Represents No Actual Cancer Risk —

Glyphosate is **NOT** a carcinogen.

It has been vindicated & continues to be registered as a successful & safe product.

The US Environmental Protection Agency (US EPA) has evaluated this herbicide, & has reaffirmed that there is **ACTUAL RISK OF HARM** to public health when used properly.

IARC has severely & perhaps irreparably damaged the reputation of its parent, the World Health Organization (WHO).

If the IARC's **THEORETICAL HAZARD** against glyphosate was truly valid, then why hasn't WHO itself demand more government regulation !?!?

Why should national regulatory agencies listen to IARC when it continues to be ignored by World Health Organization (WHO) !?!?

Why !?!?

Because, glyphosate will **CAUSE NO HARM & REPRESENTS NO ACTUAL CANCER RISK !**

The World Health Organization (WHO) & the Food & Agriculture Organization (FAO), both agencies of the United Nations, have stated that glyphosate is **UNLIKELY** to pose a carcinogenic risk to humans.

On May 16th, 2016, WHO & FAO, both agencies of the United Nations, stated that ...

... ***GLYPHOSATE IS UNLIKELY TO POSE A CARCINOGENIC RISK TO HUMANS.***

The United Nations announced its assessment that glyphosate is **UNLIKELY TO REPRESENT ANY ACTUAL CANCER RISK** in people & that it is **UNLIKELY** to pose a carcinogenic risk to humans exposed to it through food !

The United Nations' FAO & WHO looked at all pertinent published & un-published studies to assess the health risk to consumers from dietary exposure to glyphosate residues in food.

Glyphosate **REPRESENTS NO ACTUAL CANCER RISK !**

Kangaroo-Trials In California —

The judges in the first three **KANGAROO-TRIALS** against Roundup, **Hardeman V Manufacturer, Johnson V Manufacturer, & Pilliod V Manufacturer**, let the jackpot-justice plaintiff-attorneys **BOMBARD** the jury with **FALSE-CANCER-CLAIMS** by the **CHERRY-PICKED & POLITICIZED HAZARD REPORT** from the controversial International Agency for Research on Cancer (**IARC**).

IARC is a corrupt, fraudulent, & politicized anti-glyphosate & environmental-extremist organization.

It is the only major science body that attacks **[NO-ACTUAL-RISK-]** glyphosate, the ingredient in Roundup, by relying on **FALSE-CANCER-CLAIMS**.

In order to support their conspiracies against glyphosate, IARC-extremists have been caught ...

- cherry-picking low-value studies
- conducting bad & fraudulent science
- concocting ridiculously-flawed false-cancer-claims
- doctoring official documents
- excluding relevant safety data
- manipulating & ignoring real science-based evidence
- receiving illegal pay-offs
- undermining the safety findings of every respected national regulatory agency & expert organization world-wide.

Illegal Pay-Offs —

IARC has conducted bad & fraudulent science, which is, on occasion, promoted by its extremist-officials who receive **ILLEGAL PAY-OFFS** to undermine glyphosate-products.

For example, a key IARC extremist-advisor who lobbied against Roundup had, in essence, received an **ILLEGAL PAY-OFF** of **\$160 Thousand**.

This advisor was bribed by attorneys who stood to profit from launching **KANGAROO-TRIALS** against Roundup.

Clearly, these glyphosate-hating extremists are crooks & lying sacks of crxp !

False-Cancer-Claims —

Attorneys have used the IARC's **FALSE-CANCER-CLAIMS** to **MAKING BANK** with **GULLIBLE & IGNORANT JURIES** in **KANGAROO-TRIALS** against Roundup.

Only one **[?!?!]** chemical has ever been evaluated by IARC as non-carcinogenic — this has disproved IARC's **FALSE-CANCER-CLAIMS**.

We must keep IARC's bad & fraudulent science out of our courtrooms !

The IARC's **FALSE-CANCER-CLAIMS** should **NEVER** be admitted as evidence in any trial, especially in **KANGAROO-TRIALS**, against **[NO-RISK-]** Roundup.

IARC-extremism must end, forever !

According to Juris Dr Paul K Driessen —

Only the International Agency for Cancer Research (IARC) says otherwise — and it based its conclusions on **[A MERE] 8 STUDIES**.

DEBUNKING FALSE-FARM-CANCER-CLAIMS — According to several large population studies around the world, farmers have less cancer overall than the general population. Living on a farm does not increase cancer risk. Furthermore, an Agricultural Health Study conducted by US National Cancer Institute (US NCI) found no glyphosate-cancer link. Four decades & 3,300 studies by respected national regulatory agencies & organizations world-wide have concluded that glyphosate is safe & non-carcinogenic, based on assessments of actual risk. Overall, the data do not support the false-claims that glyphosate is carcinogenic.

<http://pesticidetruths.com/2021/08/14/glyphosate-cancer-european-union-glyphosate-does-not-cause-cancer-farmers-have-less-cancer-overall-than-the-general-population-natural-plant-pesticides-pesticide-toxic/>

<http://pesticidetruths.com/2017/11/29/glyphosate-herbicide-will-not-cause-cancer-victory-against-anti-pesticide-terr%D0%B6rists-glyphosate-vindicated-by-us-national-cancer-institute-2017-11-09/>

<http://pesticidetruths.com/2018/11/24/conspiracy-against-glyphosate-victories-against-anti-glyphosate-terr%d0%b6rism-2018-11-24/>

Even worse, IARC **MANIPULATED**, at least some of these studies, to concoct the **FALSE-CANCER-CLAIMS** it wanted.

Subsequent reviews by ...

- Dr Geoffrey Kabat, epidemiologist
- Dr Robert Tarone, statistician at National Cancer Institute
- Ms Kate Kelland, investigative journalist
- Dr David Zaruk, writer at RiskMonger

... & other investigators have demonstrated that the IARC process was **TAINTED BEYOND REPAIR**.

Norah GFON

All bad Roundup lawsuits
must come to an end

FORCE OF NATURE: UNWILLING TO DEFEY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE
National Organization Resisting Against HUIE that conspire to harm the Green space and other industries (NORAHG)

About NORAHG

We Speak The Whole Truth When We Take A Look At Roundup From An Independent Perspective

We are the **NATIONAL ORGANIZATION RESPONDING AGAINST HUJE** that conspire to destroy the **GREEN** space & other industries (**NORAHG**). As a non-profit & independent organization, we are environmentalists who are dedicated to reporting about truth-challenged subversive-fanatics (**HUJE**) who conspire to destroy businesses that are dependent on the use of safe & effective conventional pest control products. We also report on the work of several highly-rated leading experts who have recognized expertise, training, & background in matters concerning pest control products, & who promote environmental realism & pesticide truths. <https://wp.me/p1jq40-8DV>

NORAHG also produces **FORCE OF NATURE**, which dares to defy the **IRRATIONAL PESTICIDE-HATING EXTREMISTS** by exploring the whole truth from an independent perspective on **THE PESTICIDE TRUTHS WEB-SITE** ... <http://pesticidetruths.com/>

NORAHG produces **FORCE OF NATURE**, a series of reports & blogs providing **UP-TO-DATE KNOWLEDGE** on issues such as — • bee conspiracies • carnage created by catastrophic anti-pesticide prohibition • complaint channels about the **PESTICIDE-HATING EXTREMISTS**, enemies lists in the 9|11 era of anti-pesticide terrorism • financial carnage & exorbitant costs of pesticide bans • treacherous golf industry attacks • myths about banning pesticides • pesticide bans are a farce.

FORCE OF NATURE is a series destined for the green space industry, nation-wide across Canada, the United States, & overseas, & can be found on **THE PESTICIDE TRUTHS WEB-SITE** ... <http://pesticidetruths.com/>

FORCE OF NATURE is a series committed to **SOUND SCIENCE**, as well as ground-breaking original **KNOWLEDGE** that informs, entertains, & creates real change.

FORCE OF NATURE, & its various incarnations, was the brain-child of Mr William H Gathercole (now retired) & his colleagues.

ALL KNOWLEDGE, excerpts, & pictures contained in **FORCE OF NATURE** were retrieved from the Internet, & may be considered in the public domain.

All products mentioned in **FORCE OF NATURE** should be used in accordance with the manufacturer's directions, & according to provincial, state, or federal law.

For the official advantages, benefits, features, precautions, & restrictions concerning any product, the turf manager must rely only on the information furnished by the manufacturer.

The mention of trade names does not constitute a guarantee or a warranty.

Here Is A Brief Summary Of Mr Gathercole's Astonishing Career

FIELDS OF UNIVERSITY STUDY — • Crop, Horticulture, & Turfgrass Sciences • Mathematics & Physics.

ALMA MATERS — • McGill University • University of Guelph • the first person ever to obtain bachelors of science degrees & contribute directly to both the professional lawn care & golf maintenance industries.

EXPERTISE — • turf & ornamental maintenance & troubleshooting • history of the green space industry • sales & distribution of seeds, chemicals, fertilizers, & equipment • fertilizer manufacturing & distribution • environmental issues & pesticide-hating extremism.

NOTABLE ACTIVITIES — • worked in virtually all aspects of the green space industry, including golf maintenance, professional lawn care, tree & shrub care, distribution, environmental compliance, government negotiations, public affairs, & workplace safety • the supervisor, consultant, & programmer for the successful execution of hundreds-of-thousands of management operations in the golf course & urban landscape, as well as millions of pest control applications • the advisor, instructor, & trainer for thousands of turf & ornamental managers & technicians • the pesticide certification instructor for thousands of industry workers • a founder of the modern professional lawn care industry • the prolific writer for industry publications, reports, & blogs • the first to confirm the invasion of European Chafer insects in both the Montreal region & the Vancouver / Fraser Valley region • with Dr Peter Dernoeden, the first to confirm the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr David Shetlar, the first to confirm the presence of Kentucky Bluegrass Scale as an insect pest in south-western Ontario, & later, in the Montreal & Vancouver regions.

SPECIAL CONTRIBUTIONS — • the creator of the **PESTICIDE BAN EXCEPTION STATUS** that allowed the golf industry to avoid being subjected to anti-pesticide prohibition for a generation • the creator of the signs that are now used for posting after application • the co-founder of annual winter convention for Quebec golf course superintendents • the founder of the first ever Turf Summit with guest Dr Jack L Eggens <https://wp.me/p1jq40-7dT> • the major influence in the decision by Canadian Cancer Society to stop selling-for-profit fresh pesticide-treated daffodils <https://wp.me/P1jq40-1OW> • the only true reliable witness of the events of anti-pesticide prohibition in the town of Hudson, Quebec <https://wp.me/p1jq40-asu> • the founder (now retired) of the **FORCE OF NATURE** series of reports & blogs.

NOTABLE AWARD — • the first man-of-the-year for contributions leading to the successful founding of the Quebec professional lawn care trade association, which served as a beach-head against **PESTICIDE-HATING EXTREMISTS** in the 1980s & 1990s.

LEGACIES — Mr Gathercole & his colleagues ... • designed & implemented strategies that reined **PESTICIDE-HATING EXTREMISTS** & provided peace & prosperity for the entire modern green space industry for a generation • orchestrated legal action against **PESTICIDE-HATING EXTREMISTS** in the town of Hudson, Quebec • launched the largest founding professional lawn care business in the nation • quadrupled the business revenues of one of the largest suppliers in the nation.

Mr Gathercole is now retired, although his name continues to appear as the founder of the **FORCE OF NATURE** series of reports & blogs.

We are the **NATIONAL ORGANIZATION RESPONDING AGAINST HUJE** that conspire to destroy the **GREEN** space & other industries (**NORAHG**).

We dare to defy by exploring the whole truth from an independent perspective on **THE PESTICIDE TRUTHS** **WEB-SITE** ... <http://pesticidetruths.com/>

If you wish to receive free reports & blogs on issues that concern you, please contact us at ... force.of.de.nature@gmail.com WILLIAM H GATHERCOLE AND NORAH G
