Failure Of Anti-Pesticide Prohibition

Pesticide Ban Leads To Garbage Dumps In Belleville

Ontario's Anti-Pesticide PROHIBITION has CREATED DANGEROUS AND PEST-INFESTED GARBAGE DUMP Green Spaces for municipalities like Belleville.

In 2009, the Province of Ontario IMPOSED ARBITRARY AND RECKLESS PROHIBITION against conventional pest products used in the Urban Landscape.

Incredibly, even though conventional pest control products are ILLEGAL in Ontario, they are, nonetheless, SCIENTIFICALLY-SAFE, HEALTH-CANADA-APPROVED, and will CAUSE NO HARM TO CHILDREN AND ADULTS, CAUSE NO HARM TO ANIMALS, and CAUSE NO HARM TO THE ENVIRONMENT.

Scientific research shows that, as reported through Health Canada's VAST TOXICOLOGY DATABASE, NO HARM WILL OCCUR when conventional pest control products are used properly.

Moreover, the RISK ASSESSMENT of conventional pest control products indicates that they are PRACTICALLY-NON-TOXIC.

In Ontario, the CONSEQUENCE OF PROHIBITION was CATASTROPHIC CARNAGE.

It was a PESTICIDE BAN FAILURE.

PROHIBITION DESTROYED ALL GREEN SPACES throughout Ontario, including those in the City of Belleville.

ALL GREEN SPACES became DANGEROUS WEED-INFESTED and INSECT-DESTROYED GARBAGE DUMPS.

Because of PROHIBITION, WEEDS ARE OUT-OF-CONTROL in Belleville.!!

Belleville's parks and sports fields are nearly 100 PER CENT COVERED IN LARGE WEED PATCHES, WITH BARE GROUND, and WITH RUTTED SURFACES.

Because of PROHIBITION, Belleville's parks and sports fields LOOK LIKE GARBAGE DUMPS.

Government Officials in other jurisdictions can learn a lot from the experience of City of Belleville, which has ENDURED THE HARDSHIP AND COST of this #@!!% PESTICIDE BAN NONSENSE ?!?!

If Ontario Municipalities like Belleville truly want to SAVE their parks and sports fields, then they should have the PROVINCIAL PROHIBITION RESCINDED.

Failure Of Green Alternative Pesticides

Green Alternatives Are Ineffective & Do Not Work

Municipal Officials at City of Belleville are worried that the turf in their parks and sports fields is going to be SERIOUSLY DAMAGED OVER TIME.

Municipal Officials have realized that it is IMPOSSIBLE to control DAMAGING PESTS OF TURF without conventional pest control products.

It was IMPOSSIBLE for City of Belleville to keep its parks and sports fields BEAUTIFUL AND SAFE.

In April 2013, Municipal Officials told Belleville City Council that EFFECTIVE WEED CONTROL WAS IMPOSSIBLE WITHOUT THE USE OF PEST CONTROL PRODUCTS.

Municipal Officials said every kind of Green Alternative Pesticide had been tried, and THEY WERE ALL INEFFECTIVE.

Predictably, Green Alternative Pesticides were DISMAL FAILURES in Belleville.

Since 2009, City of Belleville was FORCED TO RELY UPON Green Alternative Pesticides because of ARBITRARY PROVINCIAL PROHIBITION against conventional pest control products.

It is now COMMON-KNOWLEDGE that Green Alternative Pesticides are not only INEFFECTIVE, they are also INADEQUATE, HIGH-RISK, MORE TOXIC, STUNNINGLY EXPENSIVE, and OVERWHELMINGLY CONDEMNED.

Green Alternatives DO NOT WORK.

It is WRONGLY ASSUMED THAT ALTERNATIVES are somehow safer and work as well as conventional products.

By definition, ALTERNATIVES ARE INFERIOR, which is why they did not win the market-place originally.

Alternative products are usually LESS TESTED as well, raising the prospect that they are NOT ANY SAFER OR BETTER THAN conventional products, and are, in fact, DISMAL FAILURES.

It is IMPOSSIBLE for City of Belleville to keep its parks and sports fields BEAUTIFUL AND SAFE by using Green Alternatives.

There are NO viable, efficacious, economical, or low-risk alternatives to replace conventional pest control products.

Well-maintained parks and sports fields can ONLY BE ACHIEVED with conventional pest control products, which are SAFE, EFFECTIVE, ECONOMICAL, and LOW-RISK.

GREEN ALTERNATIVES ARE BOGUS AND DISMAL FAILURES.

Government Officials in other jurisdictions can learn a lot from the experience of City of Belleville, which has ENDURED THE HARDSHIP AND COST of this #@!!% PESTICIDE BAN NONSENSE ?!?!

If Ontario Municipalities like Belleville truly want to SAVE their parks and sports fields, then they should have the PROVINCIAL PROHIBITION RESCINDED.

Pesticide Ban Decision
NOT
The Responsibility
Of Municipalities,
According To Belleville

March 26th, 2007

The Intelligencer

City Of Belleville, Province Of Ontario

Selected And Adapted Excerpts

Not A Municipal Decision

Municipalities Do Not Have The Expertise Or The Resources

On March 26th, 2007, Belleville's PROPOSED PESTICIDE BAN was STOPPED because council believed that the provincial and federal governments should be in A MUCH BETTER POSITION to establish more effective and enforceable legislation.

Belleville home-owners won't have to worry about how to handle weeds this year [2007] after council made a surprise decision on one of the city's most contentious issues.

On March 26th, 2007, Councilor Garnet Thompson requested a suspension of the rules to introduce a motion which ...

... Moved The Responsibility Of Banning Pesticides From The Municipal Level To The Two Higher Levels Of Government

Thompson's motion, which was APPROVED, received little discussion.

Thompson said Belleville has received « considerable input » from residents, anti-pesticide groups, and businesses on a PROPOSED PESTICIDE BAN for cosmetic purposes, but the decision SHOULD NOT BE THE RESPONSIBILITY OF THE MUNICIPALITY.

According to HERO Councilor Garnet Thompson —

The provincial and federal governments are in a much better position to establish more effective and enforceable legislation respecting the use of pesticides for cosmetic purposes in a fair and responsible and considerate and consistent manner.

Following the meeting, HERO Councilor Thompson said the onus should not fall on municipalities —

I feel, and the councilors feel, that THIS IS MORE OF A PROVINCIAL AND FEDERAL REGULATED SITUATION and they have the control to oversee it more than Belleville.

Thompson said the two higher governments HAVE SCIENTISTS AND OTHER PROFESSIONALS who can gauge the effects of pesticides and decide whether they are harmful.

Municipalities DO NOT HAVE THE SAME RESOURCES and HERO Councilor, Thompson said.

Mayor Neil Ellis said while the city has decided not to enact any type of ban, the debate process was not pointless.

According to Mayor Ellis —

I guess, if we look at it, what we've had is education.

I think if we start with education we'll have people stop using (pesticides) themselves.

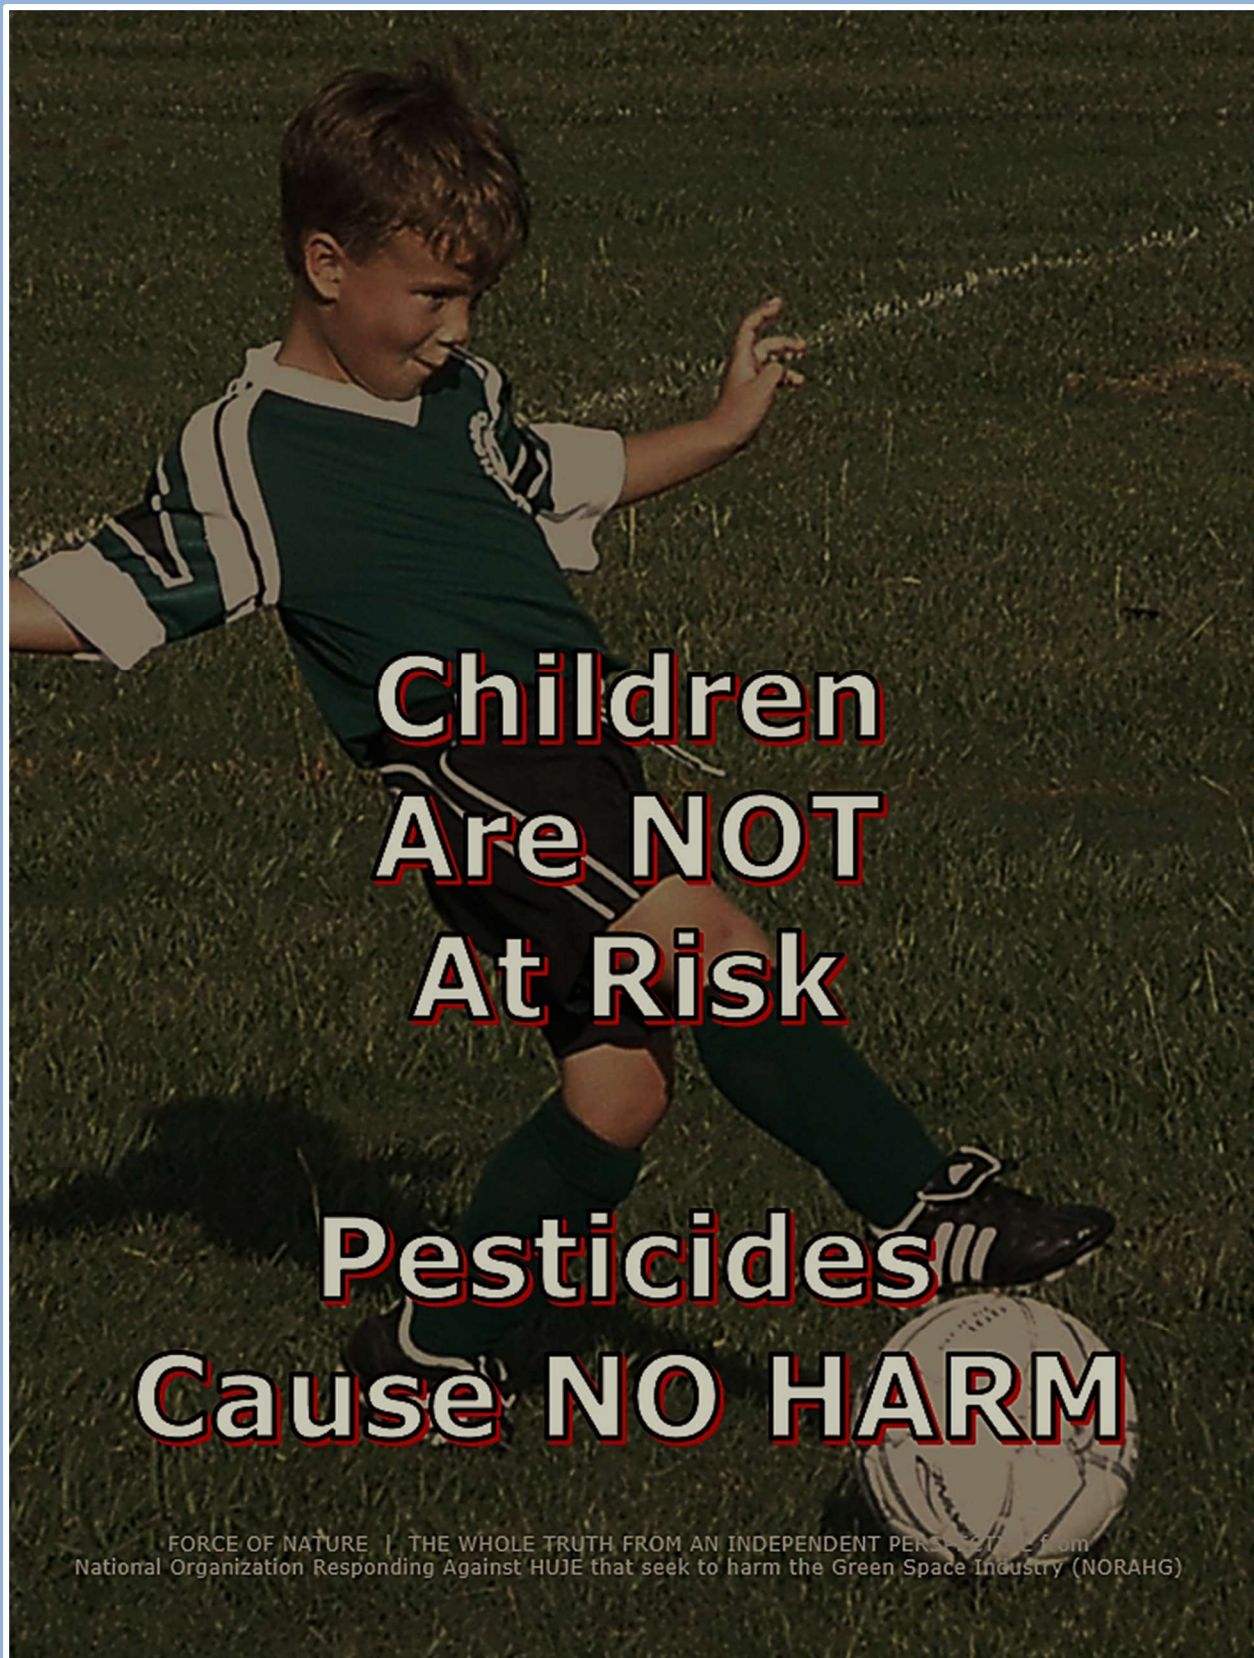

Mayor Ellis said having the OTHER LEVELS OF GOVERNMENT TAKE RESPONSIBILITY is the right move.

According to Mayor Ellis —

If you want a successful by-law, it should start with the non-professionals and work back to the professionals.

No One Wants A #@!!% Pesticide Ban.

Pest Control Products Decrease Slipping Hazards & Decrease Injuries To Children

- Children Are Not At Risk From Pesticides, Children Are At Risk From Pesticide Bans.
- Pesticide Bans Are Dangerous & Dismal Failures.
- There Is Little Debate About The Fact That Ontario's 2009 Provincial Prohibition Is A Dismal Failure, & Has Converted Communities Into Shabbier & Dangerous Pest-Infested Garbage Dumps.
- Conventional Pest Control Products Were Arbitrarily & Recklessly Prohibited In Ontario, & Are Illegal For Use In The Urban Landscape.
- It Is Impossible To Keep Parks & Sports Fields Beautiful & Safe Without Conventional Pest Control Products.
- Without Conventional Pest Control Products, Parks & Sports Fields Become Thin & Yellow, & Over-Run With Weeds & Infested With Insects, Resulting In The Dismal Destruction Of Safe Turf Playing Surfaces.
- Children Are Forced To Play In #@!!% Dangerous & Pest-Infested Garbage Dumps.
- When Safe & Effective Pest Control Products Are Applied On Parks & Sports Fields, Slipping Injuries Are Prevented Because Damaging Weeds & Insects Are Eliminated.
- When Conventional Pest Control Products Are Arbitrarily & Recklessly Prohibited, Hazardous Conditions Are Created In Parks & Sports Fields.
- Because Of Prohibition, Nearly 100 Per Cent Of Parks & Sports Fields Become Covered In Large Weed Patches, With Bare Ground, & With Rutted Surfaces.
- Because Of Prohibition, There Are Increases In Slipping Hazards & Increases In Injuries To Children.

- The Precautionary Principle Dictates That Pest Control Products Should Not Be Prohibited, Otherwise, Children Will Be Injured.
- With The Choice Between Treating & Not Treating, The Decision For Safe & Effective Weed & Insect Control Must Be Made In Order To Avoid Slipping Hazards & Injuries To Children.
- Pesticide Bans Have Never Made Our Green Spaces Look So #@!!% Ugly & Dangerous.
- Beautiful, Appealing, Well-Maintained, & Pest-Free Parks & Sports Fields Will Increase The Public's Sense Of Safety, & Increase The Desire For Outdoor Activities.
- Who Wants To Live In #@!!% Dangerous & Pest-Infested Garbage Dumps ?!?!
- If Government Officials Truly Want To Save Their Parks & Sports Fields, & Reduce The Risks Of Injuries To Children, Then They Should Have Anti-Pesticide Prohibition Rescinded.

Real Trends Against Pesticide Bans

Across North America, Government Officials are no longer readily jumping in favour of Anti-Pesticide PROHIBITION.

The City of Belleville is one of many jurisdictions that have STOPPED or RESCINDED or LIMITED or OPPOSED Anti-Pesticide PROHIBITION.

When it comes to PROHIBITION, Government Officials are thinking twice about banning pesticides by looking at the experience of those jurisdictions that have suffered the hardship and STUNNINGLY EXORBITANT COSTS of this #@!!% NONSENSE.

In fact, there are REAL TRENDS AGAINST PROHIBITION.

Children need PEST-FREE turf to avoid HURTING THEMSELVES.

There are dozens of jurisdictions that HAVE KEPT CHILDREN SAFE by STOPPING or RESCINDING or LIMITING Anti-Pesticide PROHIBITION, or by GRANTING Professional Lawn Care businesses with an EXCEPTION STATUS.

The TREND AGAINST PROHIBITION has continued again and again.

The following jurisdiction have KEPT CHILDREN SAFE —

- Alberta (Province) • Altona (Manitoba) • Ashland (Oregon)
- Beaumont (Alberta) • Belleville (Ontario) • British Columbia (Province) • Calgary (Alberta) • Campbell River (British Columbia) • Chicago (Illinois) • Durango (Colorado) • Edmonton (Alberta) • Everett (Washington) • Guelph (Ontario)
- Guelph-Eramosa (Ontario) • Kamloops (British Columbia) • Kelowna (British Columbia) • Merritt (British Columbia) • New Brunswick (Province) • Newfoundland & Labrador (Province) • Ogunquit (Maine) • Port Alberni (British Columbia) • Portage La Prairie (Manitoba) • Quebec (Prohibition Invalidated When Lawsuit Defeated Ban) • Regina (Saskatchewan) • Rossland (British Columbia) • Salmon Arm (British Columbia) • Scarborough (Maine) • Saint John's (Newfoundland & Labrador) • Steinbach (Manitoba) • Stuartburn (Manitoba) • Vernon (British Columbia)
- Winkler (Manitoba).

The Trends Against Pesticide Bans Continue

No One Can Afford This #@!!% Nonsense

National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

Background Information From An Independent Perspective

Who Wants To Live In #@!!% Pest-Infested Garbage Dumps ?!?!

The ONLY people who want to IMPOSE PESTICIDE BANS are a SMALL GROUP OF ACTIVISTS with VESTED INTERESTS IN CONCOCTING IMAGINARY DANGER against pest control products.

Nonetheless, pest control products are SCIENTIFICALLY SAFE, and will NOT CAUSE HARM TO CHILDREN AND ADULTS, ANIMALS OR THE ENVIRONMENT.

The safety assessments of pest control products by Pest Management Regulatory Agency of Health Canada (PMRA) DO take children into consideration.

These assessments DO consider children's physiology, behaviours, and habits while playing on treated grass.

Moreover, there are NO valid reports of pest control product problems with children.

In fact, MEDICATION is the leading cause of poisoning in children.

Anti-Pesticide Activists ALLEGE that children are somehow MORE vulnerable to pest control products.

This is a MYTH.

**Only Anti-Pesticide Lunatics Want To Live
In #@!!% Pest-Infested Garbage Dumps**

Pesticide Bans MUST Be RESCINDED

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

Polls Show That The Public Rejects Prohibition

**The Public Does Not Want
This #@!!% Ban Nonsense ?!?!**

In 2011, an Ontario POLL showed that the public REJECTS PESTICIDE BANS, and MORE THAN HALF of Ontario residents believed that the provincial government DID NOT DO THE RIGHT THING BY IMPOSING AN ARBITRARY PESTICIDE BAN. Ontario residents WOULD RATHER HAVE THE BAN SCRAPPED OR MODIFIED.

In 2011, a BC POLL conducted by Canadian Consumer Specialty Products Association (CCSPA) showed that the VAST MAJORITY of residents are OPPOSED to a PROPOSED PROHIBITION against the use conventional pest control products, and they actually FAVOUR the continued use of these products around their homes and in public green spaces.

In February 2013, Canadian Association Of Agri-Retailers (CAAR) said there is QUESTIONABLE PUBLIC SUPPORT for PROHIBITION against the use of pest control products.

In February 2013, a POLL conducted by Winnipeg Free Press showed that 60 PER CENT OF THE PUBLIC WERE OPPOSED TO PROHIBITION.

In Fall 2012, Professional Lawn Care businesses and clients sent to Manitoba Government Officials the results of a PETITION with 2,500 POST-CARDS OPPOSING A PROPOSED PROHIBITION, which was OVERWHELMING OPPOSITION to Anti-Pesticide Activists who had a MERE 1,000 signatures supporting PROHIBITION, with most signatures ORIGINATING FROM OUTSIDE MANITOBA.

The ONLY people who want PESTICIDE BANS are a SMALL GROUP of Anti-Pesticide Lunatics with VESTED INTERESTS IN CONCOCTING IMAGINARY DANGER against pest control products.

Anti-Pesticide POLLS paid for by lunatics in order to validate PROHIBITION appear to have been conducted by DRUNKEN IRRESPONSIBLE DEAD-BEATS.

In 2011, one of the principal organizers of the Anti-Pesticide POLLS for Canadian Cancer Society was charged with

- impaired operation of a vehicle with « *a deadly blood alcohol level* »
- failing a breath test
- failing to remain at the scene of an accident.

There is a growing body of evidence that Anti-Pesticide POLLS have NO VALIDITY WHATSOEVER.

Anti-Pesticide Lunatics are PUSHING PROHIBITION WITHOUT ANY VALID POLLS.

No One Wants This #@!% Ban Nonsense.

<https://pesticidetruths.com/>

Communities and businesses are being HARMED and DESTROYED and RAPED by PROHIBITIONS against pest control products used in the Urban Landscape, and by other ACTS OF ENVIRONMENTAL TERRORISM.

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is perpetrated EVERY SINGLE DAY.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

An informed public is better able to protect itself and its communities and businesses from so-called activists who are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE about pest control products or the environment.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry, and the well-being of our communities.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT of somehow « *saving* » the environment.

<http://wp.me/P1jq40-2bo>

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting PESTICIDE FREE FAILURES, as well as the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

<http://wp.me/p1jq40-5DD>

NORAHG responds on behalf of the VAST SILENT MAJORITY of the public that DOES NOT WANT PESTICIDE BANS, and SUPPORT those who work in the Professional Lawn Care Industry.

<http://wp.me/P1jq40-2bo>

NORAHG is opposed to Pesticide-Free jurisdictions that have DOOMED children to SUFFER INJURIES since Anti-Pesticide PROHIBITION inevitably leads to public and residential green spaces that become DANGEROUS AND PEST-INFESTED GARBAGE DUMPS.

<http://wp.me/P1jq40-44g>

<http://wp.me/P1jq40-4z3>

NORAHG is concerned that, without pest control products, CHILDREN ARE AT HIGHER RISK OF SUFFERING INJURIES with the creation of HAZARDOUS SLIPPING AND TRIPPING CONDITIONS in sports turf.

<http://wp.me/P1jq40-2ha>

NORAHG pledges to deliver comprehensive reports that are worthy of peoples' time and of peoples' concern, reports that might ordinarily never have breached the parapet.

NORAHG was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Force Of Nature was launched by NORAHG for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

On March 15th, 2010, Uncle Adolph independently launched The Pesticide Truths, an easy-to-use Web-Site that collects relevant reports of information right-off-the-press.

<https://pesticidetruths.com/>

Pesticide Truths and Force Of Nature, in some ways, are like Google for everything concerning the SUBVERSIVE ACTIVITIES of Anti-Pesticide and Enviro-Lunatic Terrorists.

A woman with long dark hair is lying on her side in a field of yellow wildflowers. She is wearing a dark, sleeveless top and leggings. Her head is propped up on her hand, and she is looking towards the camera with a serious expression. The background is a dark, stormy sky with heavy clouds and some light reflecting off the water or wet ground.

Pesticide Bans Lead To **GARBAGE** **DUMPS**
