Selected And Adapted Excerpts

Qualicum Beach Town Council OKs Another Pesticide Ban Exception Status

The Temerity Of Qualicum Beach Town Council

**With A #@!!% Pesticide Ban, Pests On
Lawn Bowling Greens Uncontrolled, Invasive,
Destructive, & Cosmetically Ruinous**

Qualicum Beach is a town located on the north-eastern coast of Vancouver Island, British Columbia, with a population of almost 9000.

On November 20th, 2017, the town of Qualicum Beach had the TEMERITY to arbitrarily grant an EXCEPTION STATUS for the Qualicum Beach Lawn Bowling Club, allowing it to use pest control products for mere cosmetic enhancement.

The town council has been perpetually APOLOGIZING FOR ITS FAILURES of imposing its prohibition against conventional pest control products by legislating a by-law that has allowed HUNDREDS AND HUNDREDS of inconsistent and unfair EXCEPTION STATUSES.

Its latest APOLOGY is to the lawn bowling industry, that has now been granted its own EXCEPTION STATUS.

ANTI-PESTICIDE PROHIBITION LEADS TO DISMAL FAILURES !

Pretext For Lawn Bowling Exception Status

No One Wants To Play On #@!!% Pest-Infested Lawn Bowling Greens

The EXCEPTION STATUS was deemed necessary after a disease began to develop on the bowling greens.

In fact, the disease, Microdochium Patch, has always been present on the lawn bowling greens.

This is nothing new !

<http://pesticidetruths.com/2017/11/01/turf-disease-microdochium-patch-bayer-guide-2017-00-00/>

In essence, officials at Qualicum Beach have confirmed that their prohibition has created the catastrophic ecological carnage of uncontrolled, invasive, destructive, cosmetically ruinous pests !

Without conventional pest control products, green spaces, including bowling greens, become pest-infested and cosmetically unattractive garbage dumps because it is impossible to control invasive and destructive pests by using so-called green alternative pesticides and practices.

Town council has an added incentive for allowing a BOWLING GREEN EXCPTION STATUS.

In September 2018, Qualicum Beach Lawn Bowling Club is scheduled to host the Canadian Mixed Pairs Championships.

According to club officials ...

... [the championship] *obviously relies on the bowling green being PERFECT. [?!?!]*

... *due to the outbreak of [Microdochium Patch], the greens are in desperate need of spray treatment before winter sets in.*

If it can't get done [before then], the greens may not recover before the spring and they could be rendered unviable due to this.

An EXCEPTION STATUS for Qualicum Beach Lawn Bowling Club has been brewing for many years

On July 29th, 2010, municipal staff recommended amending the by-law to REMOVE EXCEPTIONS for Qualicum Beach Lawn Bowling Club, as well as Qualicum Beach Memorial Golf Club and Semiahmoo Golf Centre.

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-07-29-Pesticide-By-Law-Put-Aside-For-More-Study.pdf>

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-07-29-Pesticide-By-Law-Put-Aside-For-More-Study.pdf>

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-10-06-Minutes-Select-Committee-On-Environment.pdf>

To blazes with the Canadian Mixed Pairs Championships in September 2018 !

THERE SHOULD BE NO #@!!% LAWN BOWLING EXCEPTION STATUS !

Who Cares About Perfect Lawn Bowling Greens ?!?!

Qualicum Beach's Friggin' Lawn Bowling Greens Should Just Be Allowed To Remain As Imperfect Disease-Infested Garbage Dumps

On November 20th, 2017, the town of Qualicum Beach had the TEMERITY to arbitrarily grant an EXCEPTION STATUS for the Qualicum Beach Lawn Bowling Club, allowing it to use pest control products for mere cosmetic enhancement.

If Qualicum Beach is somehow concerned about the « *natural environment* » for the mere cosmetic enhancement for the appearance of lawns, it should also be concerned about the alleged hazardous effects of pesticide-treated lawn bowling greens.

Since Qualicum Beach Lawn Bowling Club is a source of income for the Qualicum Beach community, of course the town's elected officials have ABSOLUTELY NO SCRUPLES regarding the use of pest control products ... when it suits THEM !

Lawn bowling greens represent the best example of the FAILURE and the RIDICULOUSNESS of anti-pesticide prohibition in Qualicum Beach.

Without conventional pest control products, the lawn bowling greens WILL NOT BE PERFECT since disease will be RAMPANT.

THERE SHOULD BE NO #@!!% LAWN BOWLING EXCEPTIONS !

Hundreds & Hundreds Of Exception Statuses

Qualicum Beach Imposed A Failed Pesticide -Free Community, & It Has Apologized By Allowing Inconsistent & Unfair Exceptions

Despite imposing prohibition, Qualicum Beach's by-law has allowed HUNDREDS AND HUNDREDS of inconsistent and unfair EXCEPTION STATUSES for conventional pest control applications, including ...

- agriculture operations – EXCEPTION STATUS
- alien invasive species – EXCEPTION STATUS
- commercial properties – EXCEPTION STATUS
- forestry operations – EXCEPTION STATUS
- golf facilities – EXCEPTION STATUS
- green alternative pesticides – EXCEPTION STATUS
- hotel properties – EXCEPTION STATUS
- industrial properties – EXCEPTION STATUS
- institutional properties – EXCEPTION STATUS

And now ... lawn bowling clubs – **THE LATEST EXCEPTION STATUS**

THERE SHOULD BE NO #@!!% LAWN BOWLING EXCEPTION STATUS !

Mock Concern Versus Depraved Indifference

To Blazes With The Canadian Mixed Pairs Championships In September 2018

There Should Be No Lawn Bowling Exception

The elected officials at Qualicum Beach have displayed mock-concern for a mere disease problem on its lawn bowling greens.

Conversely, they have, since 2011, displayed depraved indifference regarding those business destroyed by its prohibition.

Qualicum Beach's prohibition is arbitrary and discriminatory.

The prohibition specifically discriminates against ONE SPECIFIC TYPE of businesses — those that operate in the professional lawn care industry.

It is a fact that prohibition leads to business destruction and business failures in the professional lawn care industry. <http://wp.me/P1jq40-43B>
<http://wp.me/P1jq40-238>

Because of prohibition in Qualicum Beach and beyond, the owners, employees, and families dependent on safe and effective pest control products have faced terror, despair, and destitution.

In essence, elected officials at Qualicum Beach conspired with other municipalities to destroy their businesses, their assets, their customers, their homes, their lifestyles, their job security, their families, their children, their loved-ones, and their future.

Prohibitions have hurled them all into squalor and despair, forcing them to burn-in-hell.

If Qualicum Beach can display depraved indifference regarding those business destroyed by its prohibition, then it should also tolerate imperfect lawn bowling greens.

To blazes with the Canadian Mixed Pairs Championships in September 2018 !

THERE SHOULD BE NO #@!!% LAWN BOWLING EXCEPTION STATUS !

No Arbitrary Exception Statuses

Observers contend that prohibition must apply to EVERYONE.

In order to be consistent and fair, there should be NO ARBITRARY EXCEPTION STATUSES for anyone.

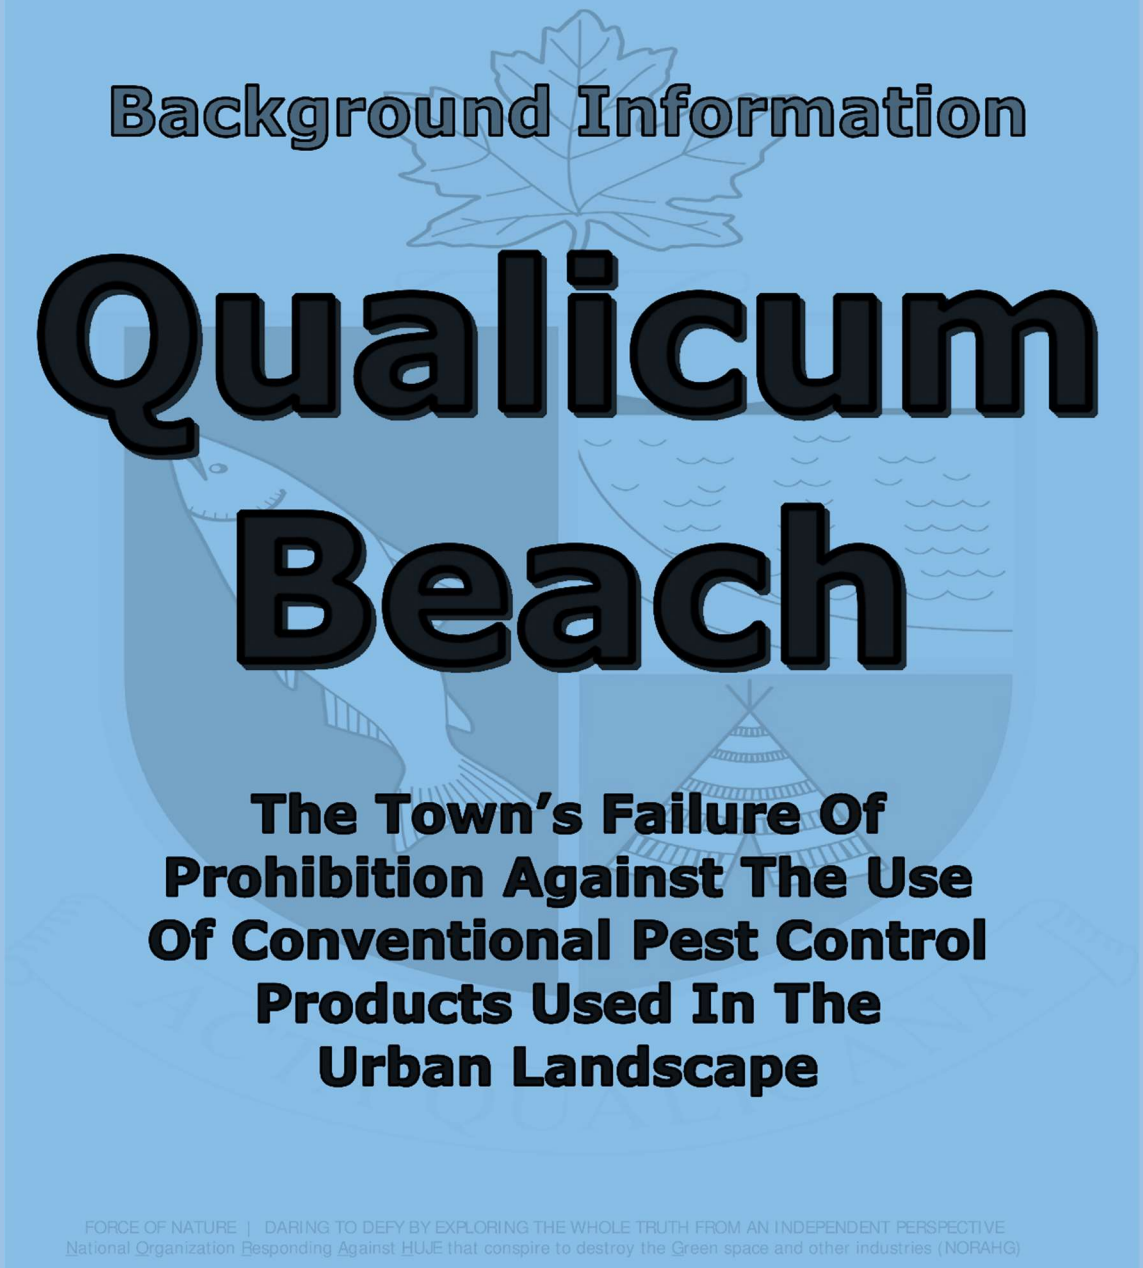

Qualicum Beach's town council must PROHIBIT ALL PEST CONTROL PRODUCTS from EVERYONE, including ...

- agriculture operations – NO EXCEPTION STATUS !
- alien invasive species – NO EXCEPTION STATUS !
- commercial properties – NO EXCEPTION STATUS !
- forestry operations – NO EXCEPTION STATUS !
- golf facilities – NO EXCEPTION STATUS !
- green alternative pesticides – NO EXCEPTION STATUS !
- hotel properties – NO EXCEPTION STATUS !
- industrial properties – NO EXCEPTION STATUS !
- institutional properties – NO EXCEPTION STATUS !
- lawn bowling clubs – NO EXCEPTION STATUS !

THERE SHOULD BE NO #@!!% EXCEPTIONS WHATSOEVER !

Prohibition

SUMMARY – IMPOSITION OF PROHIBITION

On November 1st, 2010, town of Qualicum Beach legislated its reckless and arbitrary prohibition against conventional pest control products used in the urban landscape, since town councillors were convinced that there were ...

... safe alternatives to get your lawn off drugs [?!?!]

Beginning on November 1st, 2010, this fanatical and unnecessary life-style choice was imposed against town-owned green spaces.

And, beginning July 1st, 2011, this life-style choice was also imposed against residential properties.

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-11-01-By-Law-No-650-To-Regulate-Pesticides-OFFICIAL-DOCUMENT.pdf>

Anti-pesticide prohibition imposed by the town of Qualicum Beach is a blow against science-based assessments of pesticides, against safe and cosmetically-attractive green spaces, and against local businesses that rely on the use of conventional pest control products.

Consequently, Qualicum Beach's municipal prohibition against conventional pest control products has become a DISMAL FAILURE.

SUMMARY – BASIS FOR PROHIBITION

Qualicum Beach's Prohibition Is A
Dismal Failure Because It Is Based Upon
A False-Pretext As Well As False-Principles

The basis for Qualicum Beach's prohibition has been confusing and inconsistent, and conflicts with national regulatory agencies around the world that approve products created by the pesticide manufacturing industry.

Prohibition was validated by town councillors under the FALSE-PRETEXT that ...

... the residents of the Town of Qualicum Beach are concerned about the [ARBITRARILY] NON-ESSENTIAL use of pesticides, and the [SUPPOSED] RISK that pesticides MAY pose to the NATURAL ENVIRONMENT. [?!?!]

Qualicum Beach's prohibition was also based upon several FALSE PRINCIPLES, such as ...

... the application of pesticides contributes to the CUMULATIVE CHEMICAL LOAD ABSORBED BY THE NATURAL ENVIRONMENT. [FALSE !]

... pesticides cannot be necessarily confined to a single location but MOVE THROUGH THE ENVIRONMENT in the air, land and water and may have an impact on non-target organisms and plants. [FALSE !]

... ALTERNATIVES to the application of pesticides exist. [FALSE !]

Qualicum Beach's fanatical-prohibition was / is needless, senseless, malicious, and unnecessary.

Its prohibition has been 100 per cent politically-based and 0 per cent science-based.

The basis for prohibition in Qualicum Beach has been confusing & inconsistent, and conflicts with national regulatory agencies around the world, that are relied upon for health and safety assessments.

Town officials have ignored the fact that conventional pest control products are scientifically-safe, and, when used properly, WILL NOT cause harm to children, people, animals, or the environment.

Consequently, Qualicum Beach's municipal prohibition against conventional pest control products has become a DISMAL FAILURE.

SUMMARY – RESIDENTIAL PROPERTY OWNERS

Its prohibition by-law has been extremely biased and highly prejudicial against residential property owners.

The prohibition has forced residential property owners to resort to the back-breaking, agonizing, and humiliating job of manual weed picking, which is prominently prescribed in a town brochure.

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-11-01-Pesticide-Use-By-Law-Brochure.pdf>

Consequently, Qualicum Beach's municipal prohibition against conventional pest control products has become a DISMAL FAILURE.

SUMMARY – GREEN ALTERNATIVE PESTICIDES

Qualicum Beach's Prohibition Is A Dismal Failure Because It Allows Inconsistent & Unfair Exception Statuses For Bogus Green Alternative Pesticides

Prohibition has been prominently validated by elected officials with the false-pretext that green alternative pesticides can somehow replace conventional pest control products.

Allowing green alternative pesticides is Qualicum Beach's GOVERNMENT-GUIDED FORCED SELECTION PROCESS — it is aimed at serving ARBITRARY POLITICAL PREFERENCES ONLY.

Qualicum Beach has unwisely defied the market-driven and scientifically-assessed conventional products — they are SUPERIOR IN EVERY WAY to green alternative pesticides.

GREEN ALTERNATIVE PESTICIDES ARE BOGUS AND DISMAL FAILURES !

The underlying assumption by Qualicum Beach, which is FOOLISH, is that its prohibition by-law somehow serves society by FORCING residents and businesses to find ALTERNATIVES from an arbitrary list of POLITICALLY-SELECTED green alternative pesticides.

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-11-01-Pesticide-Use-By-Law-Brochure.pdf>

Such FORCED SELECTION also WRONGLY ASSUMES that alternatives are «*green products*» that will be «*safer*» and work as well as conventional products — THEY ARE NOT SAFER, and THEY DO NOT WORK.

Moreover, by definition, ALTERNATIVES ARE INFERIOR, which is why they did not win the market-place originally — which explains why they DO NOT WORK.

<http://pesticidetruths.com/2012/12/06/green-alternatives-what-is-green-chemistry-by-definition-alternatives-are-inferior-2012-12-04/>

The FORCED SELECTION of green alternative pesticides supposedly removes «*bad*» or «*dangerous*» chemicals from the market, and replaces them with «*green products*» that are «*safer*» — THIS IS FALSE.

Overall, green alternative pesticides are BOGUS and LESS TESTED, raising the prospect that they are NOT SAFER than the conventional products arbitrarily banned by Qualicum Beach's government.

Overall, green alternative pesticides are NOT safer, NOT cutting edge, NOT scientific, NOT progressive, NOT good for public health and the environment, and DO NOT WORK.

They consist of OLD CHEMISTRIES THAT ARE LESS TESTED by national regulatory agencies.

Qualicum Beach's government-guided FORCED SELECTION has NOT provided anyone with truly « *green products* ».

Conversely, the pesticide manufacturing industry already offers its own versions of « *green products* » — every single time it creates new products.

The assessment proving that these products are scientifically-safe is a process that can take up to ten years and cost hundreds of millions of dollars.

The cost to pesticide manufacturing industry to get every pest control product from the lab to store shelves is about 250 million dollars.

These products are proven to be useful and safe at affordable prices — they can only be considered as REAL « *green products* », and NOT so-called green alternative pesticides.

The pesticide manufacturing industry's market-driven and scientifically-assessed « *green products* » are INFINITELY SUPERIOR to Qualicum Beach's government-driven green alternative pesticides.

Consequently, Qualicum Beach's municipal prohibition against conventional pest control products has become a DISMAL FAILURE.

SUMMARY – HOME-MADE CONCOCTIONS

Qualicum Beach's Prohibition Is A Dismal Failure Because An Elected Official Has Been Recommending Illegal & Potentially Dangerous Home-Made Concoctions That Are In Violation Of Federal Law

Prohibition has been prominently validated by an elected official with the false-pretext that home-made concoctions can somehow replace conventional pest control products.

It is disconcerting that town councillor Barry Avis has been recommending illegal concoctions, which is in VIOLATION OF FEDERAL LAW.

It is a VIOLATION OF FEDERAL LAW to recommend products for controlling pests that are not registered under the Pest Control Products Act.

<http://pesticidetruths.com/toc/violating-federal-law/>

If someone, like Avis, recommends or sells material with the claim that it controls pests, it technically becomes a pest control product.

<http://pesticidetruths.com/wp-content/uploads/2017/12/Force-Of-Nature-British-Columbia-Conspiracy-Qualicum-2010-07-25-Drysdale-Sad-State-Of-Affairs-Violation-CCS-Falconer.pdf>

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-07-16-Councillor-Bugged-By-Pesticide-Plan-Lunat%D0%B6c-Falconer.pdf>

Barry Avis is in VIOLATION OF FEDERAL LAW !

He should publicly WITHDRAW his illegal recommendations.

Illegal concoctions represent a danger to our children, a danger to adults, and a danger to the environment.

Moreover, illegal concoctions DO NOT work, and ALL are potentially dangerous and possibly fatal.

Consequently, Qualicum Beach's municipal prohibition against conventional pest control products has become a DISMAL FAILURE.

SUMMARY – GOLF FACILITIES

Qualicum Beach's Prohibition Is A Dismal Failure Because It Allows Inconsistent & Unfair Exception Statuses For Golf Facilities [?!?!]

In July 2010, at a town council public meeting, one resident commented that ...

It was not right to exempt the big players [i.e. golf facilities] from the cosmetic pesticide ban.

If it's good for one, it should be good for everybody.

This is just not right.

<http://pesticidetruths.com/wp-content/uploads/2017/12/Force-Of-Nature-British-Columbia-Conspiracy-Qualicum-2010-07-29-Withdrawal-Revoking-Golf-Exception.pdf>

<http://pesticidetruths.com/wp-content/uploads/2017/12/Reference-BC-Qualicum-Beach-2010-07-29-Pesticide-By-Law-Put-Aside-For-More-Study.pdf>

Some observers are incredulous that Qualicum Beach allowed an arbitrary EXCEPTION STATUS for the golf industry.

Qualicum Beach's provision for this GOLF EXCEPTION STATUS represents another example of the FAILURE and the RIDICULOUSNESS of its anti-pesticide prohibition.

Qualicum Beach's GOLF EXCEPTION STATUS is INCONSISTENT and UNFAIR because golf facilities employ the very same ingredients that are used to control pests that damage city-owned green spaces & residential properties.

If it is safe for children and adults to walk and play on pesticide-treated golf facilities, then why is it not safe for them to walk and play on pesticide-treated lawns ?!?!

What is a solution ?!?!

In order to be consistent and fair, Qualicum Beach must provide NO EXCEPTION STATUS for golf facilities unless they adhere to a proposal that there will be a transition to more pest resistant turfgrass varieties.

For example, all golf facilities in Qualicum Beach should be expected to transition their putting greens from annual bluegrass to creeping bentgrass.

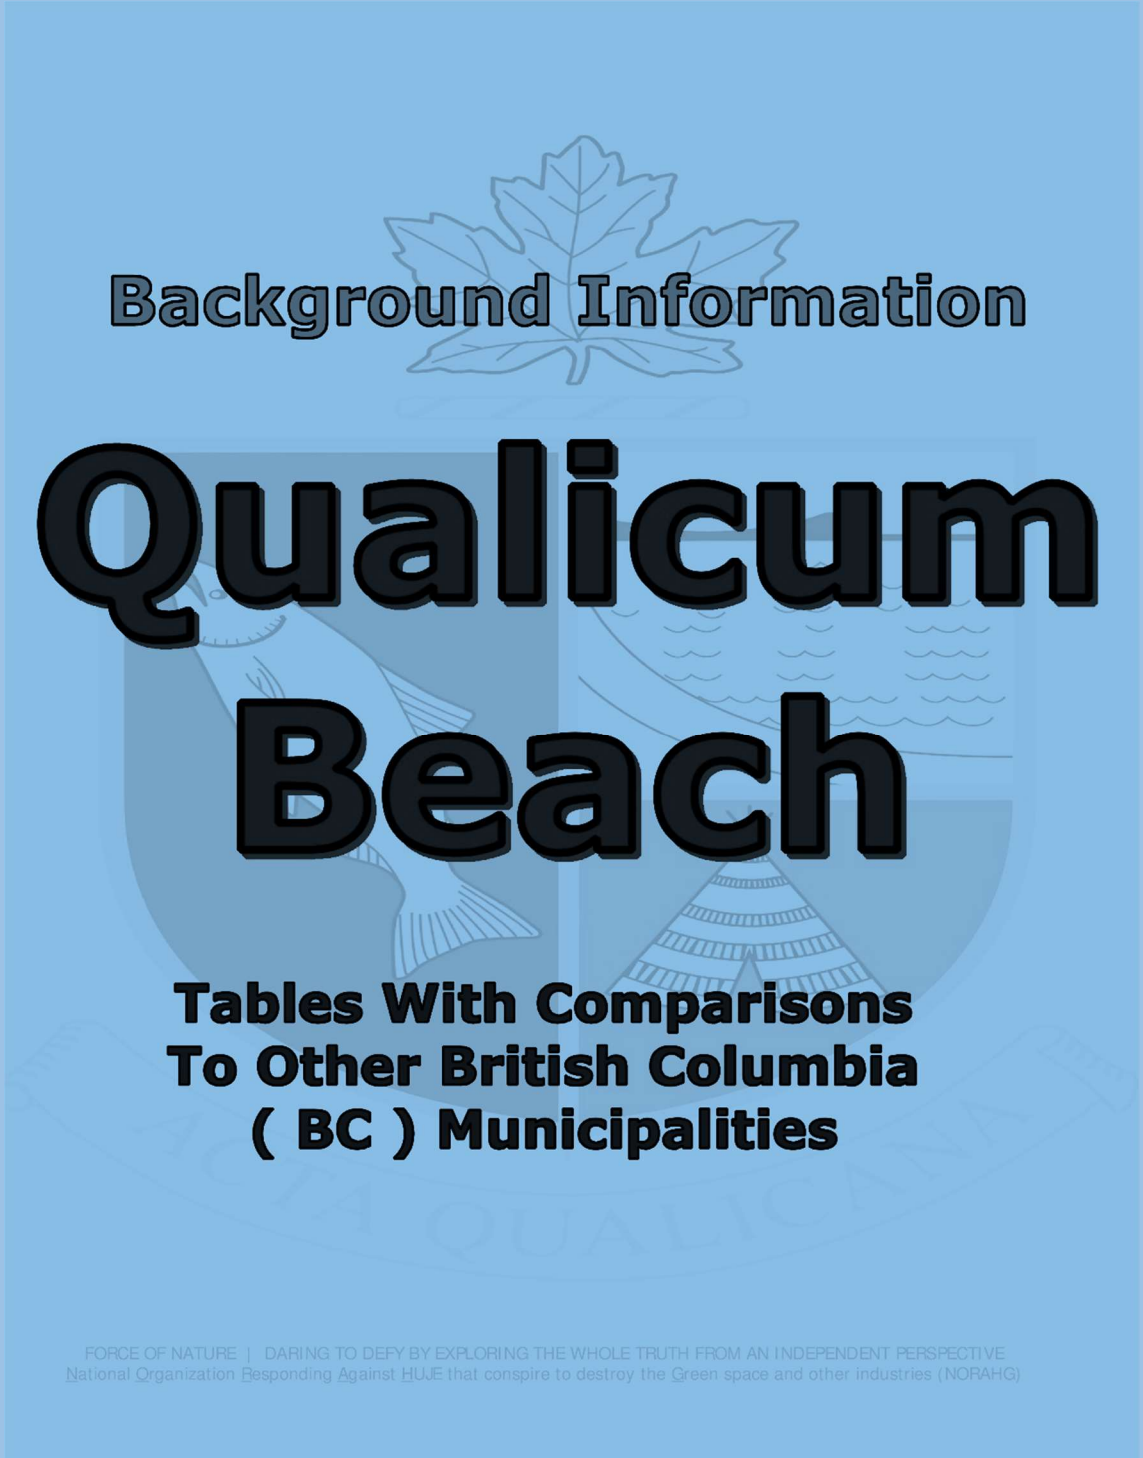

Improved varieties of creeping bentgrass are more resistant to pests than annual bluegrass, an invasive grass species that is highly susceptible to diseases and insects and requires more chemicals for playability as well as for cosmetic enhancement.

Nonetheless, Qualicum Beach's municipal prohibition against conventional pest control products has become a DISMAL FAILURE.

Prohibition FAILURE

FORCE OF NATURE | DARING TO DEFY BY EXPLORING THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE
National Organization Responding Against HUE that conspire to destroy the Green space and other industries (NORAHG)

WE SPEAK THE WHOLE TRUTH ABOUT PROHIBITIONS FROM AN INDEPENDENT PERSPECTIVE !

We are the **National Organization Responding Against HUJE** that conspire to destroy the **Green space** and other industries (**NORAHG**). As a non-profit and independent organization, we are environmentalists who are dedicated to reporting about truth-challenged pesticide-hating fanatxcs (**HUJE**) who conspire to destroy businesses that are dependent on the use of safe and effective conventional pest control products. We also report on the work of several highly-rated leading experts who have recognized expertise, training, and background in matters concerning pest control products, and who promote environmental realism and pesticide truths.

Not surprisingly, enviro-fanatxcs have demonstrated that they are incapable of processing overwhelming scientific evidence. Should we trust these fanatxcs, who conveniently ignore scientific evidence, and attempt to impose their politicized-doctrines and twisted life-style choices against our society ?!?!

NORAHG was the brain-child of Mr William H Gathercole and his colleagues in 1991. Mr Gathercole is now retired, although his name continues to appear as founder. We dare to defy the pesticide-hating fanatxcs by exploring the whole truth from an independent perspective on The Pesticide Truths Web-Site ... <http://pesticidetruths.com/> If you wish to receive free reports on issues that concern you, please contact us at ... force.of.de.nature@gmail.com WILLIAM H GATHERCOLE AND NORAH G
